PruLife® Custom Premier II

AN INDIVIDUAL, FLEXIBLE PREMIUM, VARIABLE UNIVERSAL LIFE INSURANCE CONTRACT ISSUED BY:

PRUO LIFE INSURANCE COMPANY OF NEW JERSEY

PRUO LIFE OF NEW JERSEY VARIABLE APPRECIABLE ACCOUNT

213 WASHINGTON STREET
NEWARK, NEW JERSEY 07102
TELEPHONE: 800-944-8786

The PruLife® Custom Premier II Contract (2019) is offered on or after May 1, 2019, under form number VUL-2018. A state and/or other code may follow the form number. Your Contract's form number is located in the lower left-hand corner of the first page of your Contract.

This prospectus describes the **PruLife® Custom Premier II** Contract (2019) (the "Contract") offered by Pruco Life Insurance Company of New Jersey ("Pruco Life of New Jersey", "us", "we", or "our"), a stock life insurance company. Pruco Life of New Jersey is an indirect, wholly-owned subsidiary of The Prudential Insurance Company of America ("Prudential").

Please read this prospectus before purchasing a **PruLife® Custom Premier II (2019) Contract and keep it for future reference.** Capitalized terms used in this prospectus are defined where first used or in the section **DEFINITIONS OF SPECIAL TERMS USED IN THIS PROSPECTUS**.

You (the "Contract Owner") may choose to invest your Contract's premiums and its earnings in one or more of the available Variable Investment Options of the Pruco Life of New Jersey Variable Appreciable Account (the "Separate Account" or "Account"). The Account offers a wide variety of Variable Investment Options from the firms listed below. A complete list of the available Funds is included in this prospectus.

- Advanced Series Trust
- American Funds®
- Calvert
- Dreyfus
- Fidelity® Investments
- Janus
- MFS®
- Neuberger Berman
- Prudential
- TOPS – The Optimized Portfolio System®

You may also choose to invest your Contract's premiums and its earnings in the Fixed Rate Option, which pays a guaranteed interest rate.

IMPORTANT INFORMATION

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Funds' annual and semi-annual shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports. Instead, the reports will be made available on our website (www.prudential.com/eprospectus), and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Funds electronically anytime by going to www.prudential.com/edelivery. You may elect to receive all future reports in paper free of charge by calling 877-778-5008.

In compliance with U.S. law, Pruco Life of New Jersey delivers this prospectus to Contract Owners that currently reside outside of the United States. In addition, we may not market or offer benefits, features, or enhancements to prospective or current Contract Owners while outside of the United States.

Neither the Securities and Exchange Commission ("SEC") nor any state securities commission has approved or disapproved of these securities or determined that this Contract is a good investment, nor has the SEC determined that this prospectus is complete or accurate. It is a criminal offense to state otherwise.

The Contract may be purchased through registered representatives located in banks and other financial institutions. Investment in a variable life insurance contract is subject to risk, including the possible loss of your money. An investment in **PruLife® Custom Premier II is not a bank deposit and is not insured by the Federal Deposit Insurance Corporation ("FDIC") or any other governmental agency.**

The following summaries provide a brief overview of the more significant aspects of the Contract. We provide more complete and detailed information in the subsequent sections of this prospectus and in the statement of additional information and Contract.

SUMMARY OF THE CONTRACT AND CONTRACT BENEFITS

Brief Description Of the Contract – *PruLife® Custom Premier II* is a form of variable universal life insurance. A Death Benefit is paid upon the death of the insured person.

Some Contract forms/riders, features, and/or Variable Investment Options described in this prospectus may not be available through all brokers. The Contract form number for this Contract is VUL-2018. A state and/or other code may follow the form number. Your Contract's form number is located in the lower left hand corner of the first page of your Contract.

Types Of Death Benefit – You may choose from three types of Death Benefit. You may change from one Death Benefit type to another, subject to limitations, and charges may apply.

- Type A (fixed): the Death Benefit is generally the Basic Insurance Amount you chose.
- Type B (variable): the Death Benefit is generally the Basic Insurance Amount plus the value of the Contract Fund.
- Type C (return of premium): the Death Benefit is generally the Basic Insurance Amount plus the total premiums paid into the Contract and less any withdrawals.

Decreasing the Basic Insurance Amount – Subject to certain limitations and charges, you have the option of decreasing the Basic Insurance Amount after the issue of the Contract.

Premium Payments – With certain exceptions, you choose the timing and the amount of premium payments.

Investment Choices – You may choose to allocate your net premiums and earnings to one or more of the available Variable Investment Options or our Fixed Rate Option. You may change the way in which subsequent premiums are allocated. You may transfer money among your investment choices, subject to restrictions. In addition, you may use our dollar cost averaging feature or our automatic rebalancing feature.

The Contract Fund – Your net premiums paid into the Contract are held in the Contract Fund, the value of which changes daily reflecting: (1) increases or decreases in the value of the Funds; (2) interest credited on any amounts allocated to the Fixed Rate Option; (3) interest credited on any loan; and (4) the daily asset charge for mortality and expense risks assessed against the Variable Investment Options. The Contract Fund value also changes to reflect monthly deductions, any withdrawals or accelerated benefits, and any added persistency credit.

Death Benefit Protection – The Contract includes at no additional cost a No-Lapse Guarantee. This provides a conditional guarantee that can keep your Contract in effect regardless of investment performance or Contract Fund value. The No-lapse Guarantee is subject to requirements for maintaining the guarantee. The guarantee may not last for the period of time you wish to keep your Contract.

Riders – You may choose to add riders to the Contract which provide additional benefits. Additional charges may apply.

Loans – You may borrow money from us using your Contract as security for the loan. Interest charges will apply.

Withdrawals – Under certain circumstances and limitations, you may withdraw a part of the Contract's Cash Surrender Value without surrendering the Contract. Charges may apply.

Surrendering the Contract – A Contract may be surrendered for its Cash Surrender Value while the insured is living. Charges may apply.

Canceling the Contract (Right To Examine or "Free-Look") – Generally, you may return the Contract for a refund within 10 days after you receive it (or within any longer period of time required by state law).

SUMMARY OF CONTRACT RISKS

Contract Values Are Not Guaranteed – The value of your Contract Fund rises and falls with the performance of the investment options you choose and the charges that we deduct. Your benefits (including life insurance) are not guaranteed, and may be entirely dependent on the investment performance of the Variable Investment Options you select.

The Variable Investment Options you choose may not perform to your expectations. Investing in the Contract involves risks including the possible loss of your entire investment. Only the Fixed Rate Option provides a guaranteed rate of return.

Increase In Charges – In several instances we will use the terms "maximum charge" and "current charge." The "maximum charge," in each instance, is the highest charge that we may apply under the Contract. The "current charge," in each instance, is the amount that we now charge, which may be lower than the maximum charge. If circumstances change, we reserve the right to increase each current charge, up to the maximum charge.

Risks Of Using the Contract As a Short-Term Savings Vehicle – The Contract is designed to provide benefits on a long-term basis. Consequently, you should not use the Contract as a short-term investment or savings vehicle. Because of the long-term nature of the Contract, you should consider whether purchasing the Contract is consistent with the purpose for which it is being considered.

Risk Of Contract Lapse – On each Monthly Date we determine the value of your Contract Fund. The Contract is in default if the Contract Fund, less any applicable surrender charges and less any Contract Debt, is zero or less, unless it remains in force under the No-Lapse Guarantee. Your Contract will also be in default if at any time the Contract Debt equals or exceeds the Contract Fund less any applicable surrender charges unless it remains in force under the Overloan Protection Rider (if applicable). Poor investment performance, insufficient premium payments, withdrawals, and loans are some of the factors that could cause your Contract to lapse and you could lose your insurance coverage.

Risks Of Taking Withdrawals – Whenever a withdrawal is made, the Death Benefit will immediately be reduced by at least the amount of the withdrawal. A surrender charge may be deducted when any withdrawal causes a reduction in the Basic Insurance Amount. If the Basic Insurance Amount is decreased, there is a possibility that the Contract might be classified as a Modified Endowment Contract, which would result in less favorable tax treatment for loans, withdrawals, or assignments. Accessing the values in your Contract through withdrawals may significantly affect current and future Contract values or Death Benefit proceeds and may increase the chance that your Contract will lapse. In addition, a withdrawal from your Contract may have tax consequences.

Risks Of Taking a Contract Loan – Accessing the values in your Contract through Contract loans may significantly affect current and future Contract values or Death Benefit proceeds and may increase the chance that your Contract will lapse. Taking a Contract loan will prevent any Death Benefit guarantees from protecting your Contract from lapsing. In addition, a loan from your Contract may have tax consequences.

Limitations On Transfers – Currently, we allow up to 20 transfers among the Variable Investment Options per calendar year. After you have submitted 20 transfers in a calendar year, we will accept subsequent transfer requests only if they bear an original signature in ink, are received in Good Order at a Service Office, and are sent to us by U.S. regular mail.

Only one transfer from the Fixed Rate Option is permitted during each Contract Year and the amount of the transfer is subject to strict limits.

Surrender Of the Contract – We deduct a surrender charge from the surrender proceeds. While the amount of the surrender charge decreases over time, it may be a substantial portion or even equal to your Contract Fund. A surrender of your Contract may have tax consequences.

Potential Tax Consequences – Your Contract is structured to meet the definition of life insurance under Section 7702 of the Internal Revenue Code. At issue, the Contract Owner chooses one of the following definition of life insurance tests: (1) Cash Value Accumulation Test or (2) Guideline Premium Test. We reserve the right to refuse to accept a premium payment that would, in our opinion, cause this Contract to fail to qualify as life insurance. Current federal tax law generally excludes all Death Benefits from the gross income of the beneficiary of a life insurance contract. However, your Death Benefit could be subject to estate tax. In addition, you generally are not subject to taxation on any increase in the Contract value until it is withdrawn. Generally, you are taxed

on surrender proceeds and the proceeds of any withdrawals only if those amounts, when added to all previous distributions, exceed the total premiums paid. Amounts received upon surrender or withdrawal (including any outstanding Contract loans) in excess of premiums paid are treated as ordinary income.

Special rules govern the tax treatment of life insurance policies that meet the federal definition of a Modified Endowment Contract under Section 7702A of the Internal Revenue Code. The Contract could be classified as a Modified Endowment Contract if premiums in amounts that are too large are paid or a decrease in the Basic Insurance Amount is made (or a rider removed). Under current tax law, pre-death distributions, including loans and assignments, are taxed less favorably under Modified Endowment Contracts. Death Benefit payments under Modified Endowment Contracts, however, like Death Benefit payments under other life insurance contracts, generally are excluded from the gross income of the beneficiary.

Replacement Of a Contract – The replacement of life insurance is generally not in your best interest. If you are considering purchasing this Contract to replace an existing contract, you should first consider other options. In some cases, if you require additional life insurance coverage, the benefits of your existing contract can be protected by increasing the insurance amount of your existing contract, if permitted, or by purchasing an additional contract. If you are considering replacing a contract, you should compare the benefits and costs of supplementing your existing contract with the benefits and costs of purchasing a new Contract from us and you should consult with a tax adviser.

Our Ability To Pay Benefits – All insurance benefits, including the Death Benefit, and all guarantees, including those related to the Fixed Rate Option, are general account obligations that are subject to the financial strength and claims paying ability of Pruco Life of New Jersey.

SUMMARY OF RISKS ASSOCIATED WITH THE VARIABLE INVESTMENT OPTIONS

The Account invests in the shares of one or more open-end management investment companies registered under the Investment Company Act of 1940. Each Variable Investment Option, which invests in a corresponding Fund, has its own investment objective, strategy, and associated risks, which are described in the Fund's prospectus. Before allocating net premium to a Variable Investment Option, you should read the current Fund prospectus. Fund prospectuses are available at www.prudential.com/eprospectus or by calling 800-944-8786. The income, gains, and losses of one Variable Investment Option have no effect on the investment performance of any other Variable Investment Option.

Amounts you allocate to the Variable Investment Options may grow in value, decline in value or grow less than you expect, depending on the investment performance of the Funds. You bear

the investment risk that the Funds may not meet their investment objectives. It is possible to lose your entire investment in the Variable Investment Options.

The Contract offers Variable Investment Options through the Advanced Series Trust ("AST"). The AST Variable Investment Options are also available in variable annuity contracts we offer. Some of these variable annuity contracts offer a feature that utilizes a predetermined mathematical formula (the "formula") to manage the guarantees offered in connection with certain optional benefits. The operation of the formula in those variable annuity contracts may result in large-scale asset flows into and out of the Funds corresponding to the Variable Investment Options that are available with your Contract. These asset flows could adversely impact the Funds, including their risk profile, expenses and performance.

SUMMARY OF CHARGES AND EXPENSES

Charges Other Than Fund Expenses

The following tables describe the maximum fees and expenses that you could pay when buying, owning, and surrendering the Contract. Generally, our current fees and expenses are lower than the maximum fees and expenses reflected in the following tables.

The first table describes maximum fees and expenses that we deduct from each premium payment, and maximum fees we charge for purchases, surrenders, transfers and other transactions, and certain riders.

Table 1: Transaction and Optional Rider Fees

Charge	When Charge Is Deducted	Amount Deducted
Sales Charge On Premiums (load)	Deducted from premium payments.	6%
Premium Based Administrative Charge	Deducted from premium payments.	7.5%
Surrender Charge (1) (Minimum and maximum percentage of first year Sales Load Target Premium excluding premiums for riders and extras.)	Upon surrender, lapse, or decrease in Basic Insurance Amount.	45% to 100%
Initial surrender charge percentage for a representative Contract Owner (2)		100%
Transfer fee	Each transfer exceeding 12 in any Contract Year.	\$25
Withdrawal fee	Upon withdrawal.	\$25
Basic Insurance Amount decrease fee	Upon decrease in Basic Insurance Amount.	\$25
Living Needs Benefit SM Rider fee	When benefit is paid.	\$150
Overloan Protection Rider fee (percentage of the Contract Fund amount)	One time charge upon exercising the rider benefit.	3.5%

(1) The maximum surrender charge percentage of 100% applies to issue ages 0 to 48 in the early Contract Years. The percentage varies based on the issue age of the insured and Contract duration. The percentage reduces to zero by the end of the 10th year. For some older ages, the duration is as short as 3 years.

(2) Representative insured is male, age 26, nonsmoker underwriting class, no ratings or extras.

The second table describes the maximum Contract fees and expenses that you will pay periodically during the time you own the Contract, not including the Funds' fees and expenses.

Table 2: Periodic Contract and Optional Rider Charges Other Than the Funds' Operating Expenses

Charge	When Charge Is Deducted	Amount Deducted
Cost Of Insurance ("COI") for the Basic Insurance Amount. Minimum and maximum charge per \$1,000 of the Net Amount At Risk.	Monthly	From \$0.0067 to \$83.34 (1)(2)(3)
Initial charge for a representative Contract Owner. (4)		\$0.06
Administrative charge for Basic Insurance Amount Minimum and maximum charge (charge per \$1,000 of Basic Insurance Amount plus a flat fee).	Monthly	\$0.06 to \$1.74, plus \$12 (2)(5)
Initial charge for a representative Contract Owner. (4)		\$0.19 plus \$12
Mortality And Expense Risk charge (Calculated as a percentage of assets in Variable Investment Options.)	Daily	0.45% (6)
Additional mortality charge for risk associated with certain health conditions, occupations, avocations, or aviation risks. (Flat extra per \$1,000 of Basic Insurance Amount.)	Monthly	From \$0.10 to \$2.08 (2)(7)
Accidental Death Benefit Rider (8) Minimum and maximum charge per \$1,000 of the coverage amount.	Monthly	From \$0.05 to \$0.28 (2)(9)
Charge for a representative Contract Owner. (4)		\$0.06
Children Level Term Rider (8) (Charge per \$1,000 of the coverage amount.)	Monthly	\$0.42

Enhanced Disability Benefit Rider (8)(10) Minimum and maximum charge (percentage of the monthly benefit amount).	Monthly	From 7.08% to 12.17% (2)(11)
Charge for a representative Contract Owner. (4)		7.52%
Net interest on loans (12)	Annually	1% for standard loans. 0.05% for preferred loans.

- (1) The charge varies based on the individual characteristics of the insured, including such characteristics as age, sex, and underwriting classification, as well as Basic Insurance Amount and Contract duration.
- (2) The charge shown in the table may not be representative of the charge that a particular Contract Owner will pay. You may obtain more information about the particular charges that apply to you by contacting your Pruco Life of New Jersey representative.
- (3) The highest COI rate is for an insured who is a male/female age 120.
- (4) Representative insured is male, age 26, nonsmoker underwriting class, no ratings or extras, with a \$500,000 Basic Insurance Amount.
- (5) The charge varies based on the individual characteristics of the insured, including such characteristics as age, sex, and underwriting classification, as well as Basic Insurance Amount.
- (6) The daily charge is based on the effective annual rate shown.
- (7) The amount and duration of the charge will vary based on individual circumstances including issue age, type of risk, and the frequency of exposure to the risk.
- (8) Duration of the charge is limited.
- (9) The charge varies based on the age and sex of the insured.
- (10) The monthly benefit amount is the greater of: 9% of the Contract's Limited No-Lapse Guarantee Premium (including premiums for riders and flat extras) and the total of all monthly deductions.
- (11) The charge varies based on the individual characteristics of the insured, including such characteristics as age, sex, and underwriting classification.
- (12) The net interest on loans reflects the net difference between a standard loan with an effective annual interest rate of 2% and an effective annual interest credit equal to 1%. Preferred loans are charged a lower effective annual interest rate.

Fund Expenses

This table shows the minimum and maximum total operating expenses charged by the Funds that you will pay periodically during the time you own the Contract. More detail concerning each Fund's fees and expenses is contained in the prospectus for each of the Funds. Fund prospectuses are available at www.prudential.com/eprospectus or by calling 800-944-8786.

Total Annual Fund Operating Expenses	Minimum	Maximum
(Expenses that are deducted from the Funds' assets, including management fees, any distribution [and/or service] (12b-1) fees, and other expenses, but not including reductions for any fee waiver or other reimbursements.)	0.32%	1.34%

GENERAL DESCRIPTIONS OF PRUCO LIFE INSURANCE COMPANY OF NEW JERSEY, THE REGISTRANT, AND THE FUNDS

Pruco Life Insurance Company Of New Jersey

Pruco Life Insurance Company of New Jersey ("Pruco Life of New Jersey", "us", "we", or "our") is a stock life insurance company, organized on September 17, 1982, under the laws of the state of New Jersey. It is licensed to sell life insurance and annuities only in the states of New Jersey and New York. Our principal executive office is located at 213 Washington Street, Newark, New Jersey 07102.

The Pruco Life Of New Jersey Variable Appreciable Account

We have established a Separate Account, the Pruco Life of New Jersey Variable Appreciable Account (the "Account" or the "Registrant") to hold the assets that are associated with the Contracts. The Account was established on January 13, 1984, under New Jersey law and is registered with the SEC under the Investment Company Act of 1940 as a unit investment trust, which is a type of investment company. The Account meets the definition of a "Separate Account" under the federal securities laws. The Account holds assets that are segregated from all of our other assets. Thus, such assets that are held in support of client accounts are not chargeable with liabilities arising out of any other business Pruco Life of New Jersey conducts.

We are the legal owner of the assets in the Account. We will maintain assets in the Account with a total market value at least equal to the reserve and other liabilities relating to the variable

benefits attributable to the Contracts. In addition to these assets, the Account's assets may include funds contributed by us to commence operation of the Account and may include accumulations of the charges we make against the Account. From time to time we will transfer capital contributions to our general account. We will consider any possible adverse impact the transfer might have on the Account before making any such transfer.

Income, gains and losses credited to, or charged against, the Account reflect the Account's own investment experience and not the investment experience of our other assets. The assets of the Account that are held in support of client accounts may not be charged with liabilities that arise from any other business we conduct.

We are obligated to pay all amounts promised to Contract Owners under the Contract. The obligations to Contract Owners and beneficiaries arising under the Contracts are our general corporate obligations. Guarantees and benefits within the Contract are subject to our claims paying ability.

You may invest in one or a combination of the available Variable Investment Options. When you choose a Variable Investment Option, we purchase shares of the corresponding Fund or a separate investment series of a Fund which are held as an investment for that option. We hold these shares in the Account.

The Funds

This Contract offers Funds managed by AST Investment Services, Inc. and PGIM Investments LLC, both of which are affiliated companies of Pruco Life of New Jersey ("Affiliated Funds"), and Funds managed by companies not affiliated with Pruco Life of New Jersey ("Unaffiliated Funds"). Pruco Life of New Jersey and its affiliates ("Prudential Companies") receive fees and payments from both the Affiliated Funds and the Unaffiliated Funds. We consider the amount of these fees and payments when determining which Funds to offer through the Contract. Affiliated Funds may provide Prudential Companies with greater fees and payments than Unaffiliated Funds. Because of the potential for greater profits earned by the Prudential Companies with respect to the Affiliated Funds, we have an incentive to offer Affiliated Funds over Unaffiliated Funds. As indicated next to each Fund's description in the tables that follow, each Fund has one or more subadvisers that provide certain day to day investment management services. We have an incentive to offer Funds with certain subadvisers, either because the subadviser is a Prudential Company or because the subadviser provides payments or support, including distribution and marketing support, to the Prudential Companies. We may consider those subadviser financial incentive factors in determining which Funds to offer under the Contract. Also, in some cases, we offer Funds based on the recommendations made by selling broker-dealer firms. These firms may receive payments from the Funds they recommend and may benefit accordingly from allocations of Contract Fund value to the Variable Investment Options that invest in these Funds. Allocations made to all Affiliated Funds benefit us financially. See **Service Fees Payable to Pruco Life Of New Jersey** for more information about fees and payments we may receive from the Funds and/or their affiliates.

Pruco Life of New Jersey has selected the Funds for inclusion as investment options under this Contract in Pruco Life of New Jersey's role as issuer of this Contract. We may remove or add additional Variable Investment Options in the future. We may consider the potential risk to us of offering a Fund in light of the benefits provided by the Contract.

PGIM Investments LLC serves as the investment manager for The Prudential Series Fund ("PSF") and certain Funds of the Advanced Series Trust ("AST"). PGIM Investments LLC and AST Investment Services, Inc. serve as co-investment managers of the other Funds of AST.

The investment management agreements for PSF and AST provide that the investment manager or co-investment managers (the "Investment Managers") will furnish each applicable Fund with investment advice and administrative services subject to the supervision of the Board of Trustees and in conformity with the stated policies of the applicable Fund. The Investment Managers must also provide, or obtain and supervise, the executive, administrative, accounting, custody, transfer agent, and shareholder servicing services that are deemed advisable by the Board of Trustees of the applicable Fund.

The Investment Managers or subadvisers for the Funds charge a daily investment management fee as compensation for their

services. Allocations made to all AST and PSF Funds benefit us financially because fees are paid to us or our affiliates by the AST and PSF Funds. More detailed information, including a full description of these fees, is available in the Funds' prospectuses.

Each Fund is detailed in its own separate prospectus. The Fund's prospectus and statement of additional information is available at www.prudential.com/eprospectus or by calling 800-944-8786. You should read the Fund prospectuses before you decide to allocate assets to the Variable Investment Options. We will also provide you with the prospectus for each Fund in which you invest. The Variable Investment Options that you select are your choice – we do not provide investment advice, nor do we recommend any particular Variable Investment Option. There is no assurance that the investment objectives of the Funds will be met. Please refer to the tables below to see which Variable Investment Options you may choose.

In the future, it may become disadvantageous for separate accounts of variable life insurance and variable annuity contracts to invest in the same Funds. Neither the companies that invest in the Funds nor the Funds currently foresee any such disadvantage. The Board of Directors for each Fund intends to monitor events in order to identify any material conflict between variable life insurance and variable annuity Contract Owners and to determine what action, if any, should be taken. Material conflicts could result from such things as:

- (1) changes in state insurance law;
- (2) changes in federal income tax law;
- (3) changes in the investment management of any Fund; or
- (4) differences between voting instructions given by variable life insurance and variable annuity Contract Owners.

The terms "Fund" and "portfolio" are largely used interchangeably. Some of the Funds use the term "Fund" and others use the term "portfolio" in their respective prospectuses.

A Fund may have a similar name, investment objective, or investment policy resembling those of a mutual fund managed by the same investment adviser or subadviser that is sold directly to the public. Despite such similarities, there can be no assurance that the investment performance of any such Fund will resemble that of the publicly available mutual fund.

The tables below reflect the Funds in which the Account invests, their investment objectives, and each Fund's investment subadvisers. For Funds with multiple subadvisers, each subadviser manages a portion of the assets for that Fund. The AST Balanced Asset Allocation Portfolio and the AST Preservation Asset Allocation Portfolio each invests primarily in shares of other Funds, which are managed by the subadvisers of those Funds.

Although the PSF Government Money Market Portfolio is designed to be a stable investment option, it is possible to lose money in that Variable Investment Option. For example, when prevailing short-term interest rates are very low, the yield on the PSF Government Money Market Portfolio may be so low that, when Fund and Contract charges are deducted, you experience a negative return.

Affiliated Funds

Fund	Investment Objective Summary	Subadviser
ADVANCED SERIES TRUST		
AST Balanced Asset Allocation Portfolio	Seeks to obtain the highest potential total return consistent with its specified level of risk tolerance.	PGIM Investments LLC; Quantitative Management Associates LLC

Affiliated Funds		
Fund	Investment Objective Summary	Subadviser

Service Fees Payable To Pruco Life Of New Jersey

We and our affiliates receive substantial payments from the Funds and/or related entities, such as the Funds' advisers and subadvisers. Because these fees and payments are made to us and our affiliates, allocations you make to the Funds benefit us financially.

We receive Rule 12b-1 fees which compensate us and our affiliate, Pruco Securities, LLC, for distribution and administrative services (including recordkeeping services and the mailing of prospectuses and reports to Contract Owners). These fees are paid by the Funds out of each Fund's assets and are therefore borne by Contract Owners. We also receive administrative services payments, some of which are paid by the Funds and some of which are paid by the advisers of the Funds or their affiliates and are referred to as "revenue sharing" payments. As of May 1, 2019, the maximum combined 12b-1 fees and administrative services payments we receive with respect to a Fund are equal to an annual rate of 0.50% of the average assets allocated to the Fund under the Contract. We expect to make a profit on these fees and payments and consider them when selecting the Funds available under the Contract.

In addition, an adviser or subadviser of a Fund or a distributor of the Contract may also compensate us by providing reimbursement, defraying the costs of, or paying directly for, among other things, marketing and/or administrative services and/or other services they provide in connection with the Contract. These services may include, but are not limited to: sponsoring or co-sponsoring various promotional, educational or marketing meetings and seminars attended by distributors, wholesalers, and/or broker-dealer firms' registered representatives, and creating marketing material discussing the Contract, available options, and Funds. The amounts paid depend on the nature of the meetings, the number of meetings attended by the adviser, subadviser, or distributor, the number of participants and attendees at the meetings, the costs expected to be incurred, and the level of the adviser's, subadviser's or distributor's participation. These payments or reimbursements may not be offered by all advisers, subadvisers, or distributors and the amounts of such payments may vary between and among each adviser, subadviser, and distributor depending on their respective participation.

In addition to the payments that we receive from Funds and/or their affiliates, those same Funds and/or their affiliates may make payments to us and/or other insurers within the Prudential Companies related to the offering of investment options within variable annuities or life insurance offered by different Prudential business units.

AST Funds

This Contract offers Variable Investment Options that invest in Funds offered through the Advanced Series Trust ("AST"). The AST Variable Investment Options are also available in variable annuity contracts we offer. Some of these variable annuity contracts offer optional living benefits that utilize a predetermined mathematical formula (the "formula") to manage the guarantees offered in connection with those optional benefits. The formula monitors each annuity contract owner's account value daily and, if necessary, will systematically transfer amounts among investment options. The formula transfers assets between the Variable Investment Options for those variable annuity contracts and an AST bond fund (the AST bond fund is not available in connection with the life Contracts offered through this prospectus). **You should be aware that the operation of the formula in those variable annuity contracts may result in large-scale asset flows into and out of the Funds corresponding to the Variable**

Investment Options that are available with your Contract. These asset flows could adversely impact the Funds, including their risk profile, expenses and performance. Because transfers between the Variable Investment Options and the AST bond fund can be frequent and the amount transferred can vary from day to day, any of the Funds could experience the following effects, among others:

- (a) a Fund's investment performance could be adversely affected by requiring a subadviser to purchase and sell securities at inopportune times or by otherwise limiting the subadviser's ability to fully implement the Fund's investment strategy;
- (b) the subadviser may be required to hold a larger portion of assets in highly liquid securities than it otherwise would hold, which could adversely affect performance if the highly liquid securities underperform other securities (e.g., equities) that otherwise would have been held; and
- (c) a Fund may experience higher turnover and greater negative asset flows than it would have experienced without the formula, which could result in higher operating expense ratios and higher transaction costs for the Fund compared to other similar funds.

The efficient operation of the asset flows among Funds triggered by the formula depends on active and liquid markets. If market liquidity is strained, the asset flows may not operate as intended. For example, it is possible that illiquid markets or other market stress could cause delays in the transfer of cash from one Fund to another Fund, which in turn could adversely impact performance.

Before you allocate to the Variable Investment Options with the AST Funds listed above, you should consider the potential effects on the Funds that are the result of the operation of the formula in the variable annuity contracts that are unrelated to your Contract. Please work with your financial professional to determine which Variable Investment Options are appropriate for your needs.

Voting Rights

We are the legal owner of the shares of the Funds associated with the Variable Investment Options. However, we vote the shares according to voting instructions we receive from Contract Owners. We will mail you a proxy, which is a form you need to complete and return to us, to inform us how you wish us to vote. When we receive those instructions, we will vote all of the shares we own on your behalf in accordance with those instructions. We vote shares for which we do not receive instructions, and any other shares that we own in our own right, in the same proportion as the shares for which instructions are received. This voting procedure is sometimes referred to as "mirror voting" because, as indicated in the immediately preceding sentence, we mirror the votes that are actually cast, rather than decide on our own how to vote. We will also "mirror vote" shares that are owned directly by us or an affiliate (excluding shares held in the separate account of an affiliated insurer). In addition, because all the shares of a given Fund held within our Separate Account are legally owned by us, we intend to vote all of such shares when that Fund seeks a vote of its shareholders. As such, all such shares will be counted towards whether there is a quorum at the Fund's shareholder meeting and towards the ultimate outcome of the vote. Thus, under "mirror voting", it is possible that the votes of a small percentage of Contract Owners who actually vote will determine the ultimate outcome. Generally, you will be asked to provide instructions for us to vote on matters such as changes in a fundamental investment strategy, adoption of a new investment advisory agreement, or matters relating to the structure of the Fund that require a vote of shareholders. We may change the way your voting instructions are calculated if it is required by federal

or state regulation. We reserve the right to change the voting procedures described above if applicable federal securities laws or SEC rules change in the future.

We may, if required by state insurance regulations, disregard voting instructions if they would require shares to be voted so as to cause a change in the sub-classification or investment objectives of one or more of the Funds or to approve or disapprove an investment advisory contract for the Fund. In addition, we may disregard voting instructions that would require changes in the investment policy or investment adviser of one or more of the Funds associated with the available Variable Investment Options, provided that we reasonably disapprove such changes in accordance with applicable federal or state regulations. If we disregard Contract Owner voting instructions, we will advise Contract Owners of our action and the reasons for such action in the next available annual or semi-annual report.

Substitution Of Variable Investment Options

We may substitute one or more of the available Variable Investment Options. We may terminate the availability of any Variable Investment Option at any time. If we do so, you will no longer be permitted to allocate additional investments to the option, either by premium payment or transfer. We would not do this without any necessary SEC and/or state approval. You will be given specific notice in advance of any substitution we intend to make.

The Fixed Rate Option

You may choose to allocate, initially or by transfer, all or part of your Contract Fund to the Fixed Rate Option. This amount

becomes part of our general account. The general account consists of all assets owned by us other than those in the Account and in other separate accounts that have been or may be established by us. Subject to applicable law, we have sole discretion over the investment of the general account assets, and Contract Owners do not share in the investment experience of those assets. Instead, we guarantee that the part of the Contract Fund allocated to the Fixed Rate Option will accrue interest daily at an effective annual rate that we declare periodically, but not less than an effective annual rate of 1%. We are not obligated to credit interest at a rate higher than an effective annual rate of 1%, although we may do so. The fulfillment of our guarantee under this benefit is dependent on our claims paying ability and financial strength.

Transfers out of the Fixed Rate Option are subject to limits. See **Transfers/Restrictions on Transfers**. The payment of any Cash Surrender Value attributable to the Fixed Rate Option may be delayed up to six months. See **When Proceeds Are Paid**.

Because of exemptive and exclusionary provisions, interests in the Fixed Rate Option under the Contract have not been registered under the Securities Act of 1933 and the general account has not been registered as an investment company under the Investment Company Act of 1940. Accordingly, interests in the Fixed Rate Option are not subject to the provisions of these Acts. Any inaccurate or misleading disclosure regarding the Fixed Rate Option is subject to certain generally applicable provisions of federal securities laws.

CHARGES AND EXPENSES

There are Contract charges and Fund expenses associated with the Contract that reduce the return on your investment. These charges and expenses are described below. Most charges, although not all, are made by reducing the Contract Fund. Unless you direct otherwise, monthly charges are generally deducted proportionately from the dollar amounts held in each of the investment options. See **Allocated Charges**.

When describing the Contract's charges, in several instances we use the terms "maximum charge" and "current charge." The "maximum charge", in each instance, is the highest charge that we may make under the Contract. The "current charge", in each instance, is the amount that we now charge, which may be lower than maximum charges. If circumstances change, we reserve the right to increase each current charge, up to the maximum charge. We will supplement this prospectus to reflect any increase in a current Contract charge, up to the maximum Contract charge, before the change is implemented.

Current charges deducted from premium payments and the Contract Fund may change from time to time, subject to maximum charges. Any changes to any of these current charges will be in consideration of one or more factors such as mortality, expenses, taxes, interest, investment experience, Contract funding, Net Amount At Risk, profit and/or persistency, which is the length of time Contracts like this one and other contracts stay in effect. Premium based administrative charges will be set at one rate for all Contracts like this one. Changes in other charges will be by class. We will not recoup prior losses or distribute prior gains by means of these changes.

The charges under the Contract are designed to cover, in the aggregate, our direct and indirect costs of selling, administering and providing benefits under the Contract. They are also designed, in the aggregate, to compensate us for the risks of loss we assume pursuant to the Contract. If, as we expect, the charges that we

collect from the Contract exceed our total costs in connection with the Contract, we will earn a profit. Otherwise, we will incur a loss. The rates of certain of our charges have been set with reference to estimates of the amount of specific types of expenses or risks that we will incur. In most cases, this prospectus identifies such expenses or risks in the name of the charge; however, the fact that any charge bears the name of, or is designed primarily to defray a particular expense or risk does not mean that the amount we collect from that charge will never be more than the amount of such expense or risk. Nor does it mean that we may not also be compensated for such expense or risk out of any other charges we are permitted to deduct by the terms of the Contract. We may reduce stated fees under particular contracts as to which, due to economies of scale and other factors, our administrative costs are reduced.

Sales Charge On Premium

We may charge up to 6% of premiums received in all Contract Years. This charge, often called a "sales load", is deducted to compensate us for the costs of selling the Contracts, including commissions, advertising, and the printing and distribution of prospectuses and sales literature. Currently, we charge 1.5% of premiums for sales expenses in the first eight Contract Years, 1.25% in Contract Years nine through 10, and zero thereafter.

Premium Based Administrative Charge

We may charge up to 7.5% of premiums received for a premium based administrative charge, which includes any federal, state or local income, premium, excise, business tax or any other type of charge (or component thereof) measured by or based upon the amount of premium we receive. This charge is made up of two parts, which currently equal a total of 3.25% of the premiums received.

The first part is a charge for state and local premium taxes. The current amount for this first part is 2.5% of the premium and is our estimate of the average burden of state taxes generally. The rate applies uniformly to all Contract Owners without regard to location of residence. We may collect more for this charge than we actually pay for state and local premium taxes.

The second part is a charge for federal income taxes measured by premiums. The current amount for this second part is 0.75% of the premium. We believe that this charge is a reasonable estimate of an increase in our federal income taxes resulting from an Internal Revenue Code provision which requires us to capitalize and amortize a percentage of premiums received each year. The required amortization period is 15 years. This charge is intended to recover this increased tax. See **Company Taxes**.

Surrender Charge

We assess a surrender charge if the Contract lapses, is surrendered, or a Basic Insurance Amount is decreased (including as a result of a withdrawal or a Death Benefit type change) during the surrender charge period. These surrender charges compensate us for costs associated with the Contracts, such as: processing applications, conducting examinations, determining insurability and the insured's rating class, and establishing records. The surrender charge is a percentage of the first year's Sales Load Target Premium, excluding premiums for riders and extras, and is determined at the time the Contract is issued. The percentage and duration of a surrender charge vary by issue age. The surrender charge is reduced to zero by the end of the 10th Contract Year. While the amount of the surrender charge decreases over time, it may be a substantial portion of, or even equal to, your Contract Fund. We do not deduct a surrender charge from the Death Benefit if the insured dies during this period.

The chart below shows maximum percentages for all ages at the beginning of the first Contract Year and the end of the last Contract Year that a surrender charge may be payable. A schedule showing maximum surrender charges for a full surrender occurring each year that a surrender charge may be payable is found in the data pages of your Contract.

Percentages For Determining Surrender Charges		
Issue Age	Percentage of Sales Load Target Premium, excluding premiums for riders and extras, at start of year 1	Reduces to zero at the end of year
0-8	100%	10
9-14	100%	9
15-17	100%	8
18-48	100%	6
49-52	80%	6
53-59	80%	5
60-61	50%	5
62-64	50%	4
65	50%	3
66 and above	45%	3

The chart below provides an example of the surrender charge applied to a representative Contract Owner. You may obtain more information about the particular surrender charge percentage that applies to you by contacting your Pruco Life of New Jersey representative.

Sample Surrender Charges	
Representative insured: male, age 26 at Contract issuance	
Surrender occurring during Contract Year:	Percentage of first year Sales Load Target Premium, excluding premiums for riders and extras:
1	100%
2	100%
3	100%
4	96%
5	66%
6	32%
7+	0%

If, during the first 10 Contract Years, the Basic Insurance Amount is decreased (including as a result of a withdrawal or a change in type of Death Benefit), we may deduct a percentage of the surrender charge. The percentage will be the amount by which the new Basic Insurance Amount is less than the threshold amount, divided by the threshold amount. The threshold amount is the lowest Basic Insurance Amount since the Contract was issued. After this transaction, a corresponding new surrender charge schedule will be determined to reflect that portion of surrender charges deducted in the past.

Cost Of Insurance

We deduct a monthly cost of insurance ("COI") charge from the Contract Fund. The purpose of this charge is to compensate us for the cost of providing insurance coverage. When an insured dies, the amount payable to the beneficiary (assuming there is no Contract Debt) is larger than the Contract Fund - significantly larger if the insured dies in the early years of a Contract. The COI charges collected from all Contract Owners enables us to pay this larger Death Benefit.

The COI charge (current or maximum) is determined by taking the Net Amount At Risk, dividing by 1,000, and multiplying by the applicable COI rate. The current COI rates in effect at any given time vary by Basic Insurance Amount and Contract duration, as well as the issue age, sex, and underwriting classification of the insured. The rates generally increase over time but are never more than the maximum amount listed in the Contract's data pages. The maximum COI rates are based upon the 2017 Commissioner's Standard Ordinary ("CSO") Mortality Tables and vary by sex, smoker classification, and Attained Age of the insured. Our current COI rates range from \$0.0064 to \$82.50 per \$1,000 of Net Amount At Risk.

COI rates are applied to the Net Amount At Risk to determine the COI charge. Generally, a higher Contract Fund value in relation to the Death Benefit will result in a lower Net Amount At Risk and lower COI charge. A lower Contract Fund value in relation to the Death Benefit will result in a higher Net Amount At Risk and a higher COI charge. For Contracts with a Type A Death Benefit, the Net Amount At Risk generally changes as the Contract Fund changes. For Contracts with a Type B Death Benefit, the Net Amount At Risk generally does not change as the Contract Fund changes. For Contracts with a Type C Death Benefit, the Net Amount At Risk generally changes as the Contract Fund changes and as premium payments are made. See **Types of Death Benefit**.

The following table provides hypothetical examples of the Net Amount At Risk's role in determining COI charges. The examples assume a \$500,000 Basic Insurance Amount, the Death Benefit meets the definition of life insurance test, and a current monthly COI rate of \$1.00 per \$1,000 of Net Amount At Risk.

Example Net Amount At Risk Scenarios				
Death Benefit Type	Death Benefit amount	Contract Fund value	Net Amount At Risk	Month's COI charge
Type A	\$500,000	\$50,000	\$450,000	\$450.00
Type A	\$500,000	\$125,000	\$375,000	\$375.00
Type B	\$550,000	\$50,000	\$500,000	\$500.00
Type B	\$625,000	\$125,000	\$500,000	\$500.00
Type C*	\$525,000	\$50,000	\$475,000	\$475.00
Type C**	\$575,000	\$125,000	\$450,000	\$450.00

*assumes \$25,000 in total premiums paid less withdrawals.
**assumes \$75,000 in total premiums paid less withdrawals.

Because the Net Amount At Risk is based on your Death Benefit and your Contract Fund, it may be impacted by such factors as investment performance, charges, fees, and premium payments. Paying less premiums, paying premiums late, experiencing poor investment performance, and/or earning less interest may reduce Contract Fund value and increase the Net Amount At Risk, and may also cause the Contract to lapse earlier unless additional premiums are paid. Similarly, paying more premiums, paying premiums earlier, experiencing better market performance, and/or earning more interest may increase Contract Fund value and, in some cases, lower the Net Amount At Risk on which COI charges are based.

Administrative Charge For Basic Insurance Amount

In addition to the COI charge, each month we deduct from the Contract Fund an administrative charge for the Basic Insurance Amount. This charge is made up of two parts and is intended to compensate us for things like processing claims, keeping records, and communicating with Contract Owners.

- (1) The first part of the charge is a flat monthly fee of \$12 per month.
- (2) The second part of the charge is an amount per \$1,000 of the Basic Insurance Amount. The rate varies by the insured's issue age, sex, and underwriting classification, as well as Basic Insurance Amount. Generally, the rate per \$1,000 is higher for older issue ages and for higher risk underwriting classifications. Currently, we deduct this part of the charge during the first 10 Contract Years.

The following table provides examples of the initial administrative charge per \$1,000 of Basic Insurance Amount. The examples assume a Contract with a \$500,000 Basic Insurance Amount at issue.

Sample Administrative Charges:				
Issue Age	Male Nonsmoker	Male Smoker	Female Nonsmoker	Female Smoker
35	\$0.22	\$0.28	\$0.20	\$0.28
55	\$0.35	\$0.84	\$0.29	\$0.65
75	\$1.03	\$1.42	\$0.78	\$1.22

The highest charge per \$1,000 is \$1.74 and applies to Contracts with lower Basic Insurance Amounts and with insureds who are male, smoker, age 85 in the worst rating classes. The lowest charge per \$1,000 is \$0.06 and applies to younger female issues ages. The amount of the maximum charge that applies to your particular Contract is shown on the Contract's data pages.

Mortality And Expense Risk Charge

Each day we deduct a charge from the assets of the Variable Investment Options in an amount equivalent to an effective annual rate of up to 0.45%. Currently, we charge 0.10%. This charge is intended to compensate us for assuming mortality and expense risks under the Contract. The mortality risk we assume is that insureds may live for shorter periods of time than we estimated when mortality charges were determined. The expense risk we assume is that expenses incurred in issuing and administering the Contract will be greater than we estimated in fixing our administrative charges. This charge is not assessed against amounts allocated to the Fixed Rate Option.

Additional Mortality Charge For Certain Risks

We may assess an additional charge on a permanent or temporary basis for unique or specific mortality risks that exceed our standard underwriting guidelines. This additional monthly charge or "flat extra" is charged as a dollar amount per \$1,000 of Basic Insurance Amount.

Generally, a permanent flat extra rating is assessed for non-medical risks such as aviation. A temporary flat extra charge is used in scenarios where mortality risk is higher in the earlier Contract Years and reduces in later years, such as may be the case for certain occupational and avocational risks and for some insureds with cancer histories. The actual dollar amounts are initially determined through the research completed for the activity or impairment during the underwriting process. The flat extra charge per \$1,000 will vary based on individual circumstances of the insured, including issue age, type of risk, and the frequency of exposure to the risk.

Transaction Charges

- (a) We may charge a transfer fee of up to \$25 for each transfer exceeding 12 in any Contract Year. Currently, we do not charge a transaction fee for transfers. See [Transfers/Limitations on Transfers](#).
- (b) We may charge a withdrawal fee of up to \$25 in connection with each withdrawal. Currently, we do not charge a transaction fee for withdrawals. A surrender charge may apply. See [Surrender Charge and Withdrawals](#).
- (c) We may charge a Basic Insurance Amount decrease fee of up to \$25 for any decrease in Basic Insurance Amount. Currently, we do not charge a transaction fee for a decrease in the Basic Insurance Amount. A surrender charge may apply. See [Surrender Charge and Decreases in Basic Insurance Amount](#).

Charges For Rider Coverage

You may add one or more riders to the Contract. The following riders are charged for separately. See [RIDERS](#).

Accidental Death Benefit Rider – We deduct a monthly charge for this rider, which provides an additional Death Benefit if the insured's death is accidental. The charge ranges from \$0.05 to \$0.28 per \$1,000 of coverage based on issue age and sex of the insured, and is charged until the first Contract Anniversary on or after the insured's 100 th birthday.

Children Level Term Rider – We deduct a monthly charge for this rider, which provides term life insurance on all dependent children that are covered under this rider. The charge is \$0.42 per \$1,000 of coverage and is charged until the earliest of: the primary insured's death, the first Contract Anniversary on or after the primary insured's 75 th birthday, or you notify us to discontinue the rider coverage. Rider charges may continue even after coverage on your last covered child has ended. If your children are no longer

covered under the rider and you do not expect to have additional children who would be covered, consider discontinuing the rider.

Enhanced Disability Benefit Rider – We deduct a monthly charge for this rider, which provides a monthly benefit amount to the Contract Fund while the insured is totally disabled. The current charge is based on issue age, sex, and underwriting classification of the insured. The charge ranges from 7.08% to 12.17% of the monthly benefit amount and is charged until the first Contract Anniversary on or after the insured's 65th birthday. The monthly benefit amount is the greater of: 9% of the Contract's Limited No-Lapse Guarantee Premium (including premiums for riders and flat extras) and the total of all monthly deductions.

Living Needs Benefit SM Rider – We deduct a fee of up to \$150 if you exercise this rider, which allows you to receive an accelerated payment of the Death Benefit if the insured becomes terminally ill.

Overloan Protection Rider – We deduct a fee of 3.5% of your Contract Fund amount if you exercise this rider, which may guarantee protection against lapse due to Contract Debt.

Net Interest On Loans

Interest charged on a loan accrues daily. We charge interest on the full loan amount, including all unpaid interest. Interest is due on the earlier of each Contract Anniversary or when the loan is paid back. The net interest on loans reflects the net difference between the interest rates charged and credited. A standard loan has an effective annual interest rate of 2%. A preferred loan has an effective annual interest rate of 1.05%. All loans have an effective annual interest credit equal to 1%. See **Loans**.

Fund Expenses

As described in each Fund's prospectus, fees are deducted from and expenses are paid out of the assets in the Fund. Fund prospectuses are available at www.prudential.com/eprospectus

PERSONS HAVING RIGHTS UNDER THE CONTRACT

Contract Owner

Generally, the Contract Owner is the insured. There are circumstances when the Contract Owner is not the insured. There may also be more than one Contract Owner. If the Contract Owner is not the insured or there is more than one Contract Owner, they will be named in an endorsement to the Contract. This ownership arrangement will remain in effect unless you ask us to change it.

You may change the ownership of the Contract by sending us a request. We may ask you to send us the Contract to be endorsed. Once we receive your request in Good Order at our Service Office, and the Contract if we ask for it, we will file and record the change and it will take effect as of the date you sign the request, unless a future effective date is specified by you. Any rights created by your request will not apply to any payments we have made or actions we have taken before the request was received in Good Order at our Service Office or the chosen effective date of the request.

While the insured is living, the Contract Owner is entitled to any Contract benefit and value. Only the Contract Owner is entitled to exercise any right and privilege granted by the Contract or granted by us. For example, the Contract Owner is entitled to

or by calling 800-944-8786. If a change in a Fund's expenses increases the maximum Total Annual Fund Operating Expenses, as presented under **SUMMARY OF CHARGES AND EXPENSES**, we will supplement this prospectus upon notification of this change from the Fund.

Allocated Charges

You may select up to two investment options from which we deduct your Contract's monthly charges. Monthly charges include the: (1) COI charge, (2) administrative charge for Basic Insurance Amount, (3) applicable rider charges, and (4) any additional mortality charge for extra risk classification. Allocations must be designated in whole percentages and total 100%. For example, 33% can be selected but 33% cannot.

If there are insufficient funds in one or both of your selected investment options to cover the monthly charges, the selected investment option(s) will be reduced to zero. Any remaining charge will generally be deducted from your other investment choices proportionately to the dollar amount in each.

Charges After Age 121

Beginning on the first Contract Anniversary on or after the insured's 121st birthday, we will no longer accept premiums or deduct monthly charges from the Contract Fund. You may continue the Contract until the insured's death, or until you surrender the Contract for its Cash Surrender Value. You may continue to make transfers, loans, loan repayments, and withdrawals, subject to the limitations on these transactions described elsewhere in this prospectus. We will continue to make daily deductions for mortality and expense risk charges, and the Funds will continue to charge operating expenses if you have amounts in the Variable Investment Options. Any Contract loan will remain outstanding and continue to accrue interest until it is repaid. The Contract can only lapse if Contract Debt grows to be equal to or more than the cash value.

OTHER GENERAL CONTRACT PROVISIONS

Cancelling the Contract ("Free-Look")

Generally, you may return the Contract for a refund within 10 days (60 days for certain circumstances) after you receive it. You will receive a refund of all premium payments made, less any

surrender the Contract, access Contract values through loans or withdrawals, assign the Contract, and to name or change the beneficiary. If the Contract is jointly owned, the exercise of any right or privilege under this Contract must be made by all Contract Owners.

Beneficiary

The beneficiary is entitled to receive any benefit payable on the death of the insured. You may designate or change a beneficiary by sending us a request. We may ask you to send us the Contract to be endorsed. Once we receive your request in Good Order at our Service Office, and the Contract if we ask for it, we will file and record the change and it will take effect as of the date you sign the request, unless a future effective date is specified by you. If, however, we make any payment(s) before we receive the request in Good Order at our Service Office, or the chosen effective date of the request, we will not have to make the payment(s) again. When we are made aware of an assignment, we will recognize the assignee's rights before any claim payments are made to the beneficiary. When a beneficiary is designated, any relationship shown is to the insured, unless otherwise stated.

applicable federal and/or state income tax withholding. A Contract returned according to this provision shall be deemed void from the beginning.

Assignment

You may request an assignment of the Contract by sending us a request. We may ask you to send us the Contract to be endorsed. Once we receive your request in Good Order at our Service Office, and the Contract if we ask for it, we will file and record the change and it will take effect as of the date you sign the request, unless a future effective date is specified by you.

This Contract may not be assigned if the assignment would violate any federal, state or local law or regulation prohibiting sex distinct rates for insurance. Generally, the Contract may not be assigned to an employee benefit plan or program without our consent. We assume no responsibility for the validity or sufficiency of any assignment. We will not be obligated to comply with any assignment unless we receive a copy at our Service Office. Any rights created by your request will not apply to any payments we have made or actions we have taken before the assignment was received in Good Order and recorded at our Service Office or the chosen effective date of your request.

Contract Owners may be able to obtain extra fixed benefits, which may require additional charges. These optional insurance benefits will be described in what is known as a "rider" to the Contract. All riders are only available at Contract issuance, except as noted. The available riders include the following (as described more fully below):

- Accidental Death Benefit Rider, which provides an additional Death Benefit that is payable if the insured's death is accidental.
- Children Level Term Rider, which provides term life insurance coverage on the life of the insured's covered children.
- Enhanced Disability Benefit Rider, which pays a monthly benefit amount into the Contract if the insured is totally disabled.
- Living Needs Benefit SM Rider, which allows you to elect to receive an accelerated payment of all or part of the Death Benefit, adjusted to reflect current value, if the insured becomes terminally ill. This rider may be added after Contract issuance, subject to our underwriting requirements.
- Overloan Protection Rider, which if exercised, guarantees protection against lapse due to loans, even if the Contract Debt exceeds the accumulated Cash Surrender Value of your Contract.
- S&P 500® Indexed Account Rider, which is only available by and described in a supplement to this prospectus. This rider may be added after Contract issuance. This rider (and the supplement) is not available through all brokers.

We will not pay a benefit under the Accidental Death Benefit rider or make payments under the Enhanced Disability Benefit Rider for any death or injury that is caused or contributed to by war or act of war, declared or undeclared, including resistance to armed aggression. This restriction includes service in the armed forces of any country at war.

Some riders may depend on the performance of the Contract Fund. Rider benefits will no longer be available if the Contract lapses, or if you choose to keep the Contract in force under the Overloan Protection Rider. Some riders may not be available through all brokers and some riders are not available in conjunction with other riders, and certain restrictions may apply as set forth below. A Pruco Life of New Jersey representative can

Incontestability

We will not contest the Contract after it has been in force during the insured's lifetime for two years from the Contract Date, the reinstatement date, or the effective date of any change made to the Contract that requires our approval and would increase our liability.

Misstatement Of Age Or Sex

If the insured's stated age or sex or both are incorrect in the Contract, we will adjust the Death Benefit payable and any amount to be paid, as required by law, to reflect the correct age and sex. Any such benefit will be based on what the most recent deductions from the Contract Fund would have provided at the insured's correct age and sex. Adjustments to the Death Benefit for misstatements of age or sex are not restricted to the incontestability provision described above.

Suicide Exclusion

Generally, if the insured dies by suicide within two years from the Contract Date, the Contract will end and we will return the premiums paid, less any Contract Debt, and less any withdrawals.

RIDERS

explain all of these extra benefits further. We will provide samples of the provisions upon receiving a written request.

Accidental Death Benefit Rider

The Accidental Death Benefit Rider provides an additional Death Benefit that is payable if the insured's death is accidental, as defined in the benefit provision. A death resulting from injury must occur no more than 90 days after the injury. This benefit will end on the earliest of: the end of the day before the first Contract Anniversary on or after the insured's 100 th birthday and the first Monthly Date on or after the date a request to discontinue the rider is received in Good Order at a Service Office. This rider is not available on Contracts that have the Overloan Protection Rider.

Children Level Term Rider

The Children Level Term Rider provides term life insurance coverage on the life of the insured's dependent children, as defined in the benefit provision. The rider coverage on each dependent insured will end on the earliest of: (1) the end of the day before the first Contract Anniversary on or after the primary insured's 75 th birthday, (2) the end of the day before the first Contract Anniversary on or after the child's 25 th birthday, (3) the end of the day before the date a rider is converted to a new Contract, and (4) the first Monthly Date on or after the date a request to discontinue the rider is received in Good Order at a Service Office.

Enhanced Disability Benefit Rider

The Enhanced Disability Benefit Rider pays a monthly benefit amount into the Contract Fund if the insured is totally disabled, as defined in the benefit provision. The rider coverage will end as of the first Contract Anniversary on or after the insured's 65 th birthday. For total disability occurring on or after the first Contract Anniversary following the insured's 60 th birthday, payments will only be made until the month before the first Contract Anniversary following the insured's 65 th birthday and while the insured remains totally disabled. This rider is not available on Contracts with a Type C Death Benefit.

Living Needs Benefit SM Rider

The Living Needs Benefit SM Rider allows you to elect to receive an accelerated payment of all or part of the Contract's Death Benefit,

adjusted to reflect current value, when the insured is terminally ill. The adjusted Death Benefit will always be less than the Death Benefit, but will not be less than the Contract's Cash Surrender Value.

The terminal illness option is available on the Living Needs Benefit SM Rider when a licensed physician certifies the insured as terminally ill with a life expectancy of six months or less. When that evidence is provided and confirmed by us, we will provide an accelerated payment of the portion of the Death Benefit selected by the Contract Owner as a Living Needs Benefit SM. The Contract Owner will receive this benefit in a single sum.

All or part of the Contract's Death Benefit may be accelerated. If the benefit is only partially accelerated, a Death Benefit of at least \$25,000 must remain under the Contract. The minimum amount that may be accelerated for a Living Needs Benefit SM claim is \$50,000. However, we currently have an administrative practice to allow a reduced minimum of \$25,000. We reserve the right to discontinue this administrative practice in a non-discriminatory manner and we will notify you prior to discontinuing this practice.

No benefit will be payable if you are required to elect it in order to meet the claims of creditors or to obtain a government benefit. We can furnish details about the amount of Living Needs Benefit SM that is available to an eligible Contract Owner, and the effect on the Contract if less than the entire Death Benefit is accelerated.

You should consider whether adding this settlement option is appropriate in your given situation. Adding the Living Needs Benefit SM to the Contract has no adverse consequences; however, electing to use it could. With the exception of certain business-related Contracts, the Living Needs Benefit SM is excluded from income if the insured is terminally ill or chronically ill as defined in any applicable tax law (although the exclusion in the latter case may be limited). You should consult a tax adviser before electing to receive this benefit. Receipt of a Living Needs Benefit SM payment may also affect your eligibility for certain government benefits or entitlements.

Overloan Protection Rider

The Overloan Protection Rider guarantees protection against lapse due to loans, even if the Contract Debt exceeds the accumulated cash value of your Contract Fund. This rider is only available when Guideline Premium is selected as the definition of life insurance test.

The following eligibility requirements must be met to exercise the rider:

- (a) We must receive a written request in Good Order to exercise the rider benefits;
- (b) The Contract must be in force for the later of 15 years and the Contract Anniversary after the insured's 75 th birthday;
- (c) Contract Debt must exceed the Basic Insurance Amount;

REQUIREMENTS FOR ISSUANCE OF A CONTRACT

Generally, the Contract may be issued on insureds through age 85 for Contracts with Type A or Type B Death Benefits and through age 75 for Contracts with Type C Death Benefit. Currently, the minimum Basic Insurance Amount is \$50,000 for insureds under the issue age of 18, \$75,000 for insureds issue ages 18-75, \$100,000 for insureds issue ages 76-80, and \$250,000 for insureds issue ages 81-85). The minimum Basic Insurance Amount for Contracts issued with a Type C Death Benefit is \$250,000. See **Types of Death Benefit**.

We require evidence of insurability, which may include a medical examination, before issuing any Contract. Preferred best nonsmokers are offered more favorable cost of insurance rates than smokers. We charge a higher cost of insurance rate and/or

- (d) Contract Debt must be a minimum of 95% of the cash value;
- (e) The Cash Surrender Value must be sufficient to pay the cost of exercising the rider; and
- (f) Your Contract must not be classified as a Modified Endowment Contract and must not qualify as a Modified Endowment Contract as a result of exercising this rider.

We will send you a notification upon your becoming eligible for this benefit. If you exercise this rider, you may no longer execute the reduced paid-up option. Doing so would cause the Contract to be classified as a Modified Endowment Contract. See **Tax Treatment Of Contract Benefits**.

When you exercise the rider, the effective date will be the next date that monthly charges are deducted following our receipt of your request in Good Order at a Service Office. Decreases to your Basic Insurance Amount, rating reductions, and withdrawals will no longer be permitted. The charges and benefits of other riders available under your Contract will be discontinued, except for the Living Needs Benefit SM Rider.

Any unloaned Contract Fund value remaining in the Variable Investment Options will be transferred to the Fixed Rate Option. Additionally, fund transfers into any of the Variable Investment Options will no longer be permitted. Any auto-rebalancing, dollar cost averaging, allocated charges, or premium allocation instructions will be discontinued.

Premium payments will no longer be accepted for the Contract. Instead, all payments received will be applied as loan or loan interest repayments. We will no longer send any regularly scheduled bills, and electronic fund transfer of premium payments will be cancelled.

If you have a Type B or Type C Death Benefit, we will change it to a Type A Death Benefit. You will no longer be permitted to make Death Benefit changes as long as your Contract remains in force under the Overloan Protection Rider. The Basic Insurance Amount will be set equal to the Death Benefit at the time the rider is exercised. From that point onward, the Death Benefit will be the greater of the Type A Death Benefit and the amount of the Contract Debt multiplied by the Attained Age factor that applies. The Attained Age factors are shown in your Contract. For an explanation of the Attained Age factors, see **Tax Treatment of Contract Benefits**.

Please note that the IRS may take a position that the outstanding loan balance should be treated as a distribution when the Contract Owner elects the Overloan Protection Rider benefit. Distributions are subject to income tax. Were the IRS to take this position, we would take reasonable steps to attempt to avoid this result, including modifying the Contract's loan provisions, but cannot guarantee that such efforts would be successful. You should consult a tax adviser as to the tax risks associated with exercising the Overloan Protection Rider.

REQUIREMENTS FOR ISSUANCE OF A CONTRACT

an extra amount if an additional mortality risk is involved. We will not allow a change to your Contract if it will cause the Death Benefit to exceed our retention limits or violate any other underwriting rule. These are the current underwriting requirements. We reserve the right to change them on a non-discriminatory basis.

Underwriting Procedures

When you express interest in obtaining a Contract from us, you may apply for coverage through either (1) a paper application or (2) our worksheet process. When using the paper application, a registered representative completes a full application and submits it to us to commence the underwriting process. A registered

representative may be an agent/broker who is a representative of Pruco Securities, LLC a broker-dealer affiliate of Prudential, or in some cases, a broker-dealer not directly affiliated with Prudential. When using the worksheet process, a registered representative typically collects enough information to start the underwriting process. The remaining information is obtained directly from the proposed insured.

Regardless of the underwriting process followed, once we receive the necessary information, which may include physicians' statements, medical examinations from physicians or paramedical vendors, test results, and other information, we will make a decision regarding our willingness to accept the risk, and the price at which we will accept the risk. We will issue the Contract when the risk has been accepted and priced.

Some requests for coverage that registered representatives submit through the worksheet process may qualify for accelerated underwriting. We will use information you provide on your application, information from third party information providers and other information to determine if we will accept the risk.

without a medical exam, which would otherwise be required. Depending on your circumstances, accelerated underwriting could affect our willingness to accept the risk. Also, this may result in lower or higher Contract costs since the information we collect may be different than what we collect for applications that do not use accelerated underwriting. Accelerated underwriting may not be available with the registered representative you select while other registered representatives may use it exclusively for eligible applications.

Contract Date

There is no insurance under this Contract until the minimum initial premium is paid. If a medical examination is required, the Contract Date will ordinarily be the date the examination is completed. Under certain circumstances, we may allow the Contract to be backdated up to six months prior to the application date for the purpose of lowering the insured's issue age. This may be advantageous for some Contract Owners as a lower issue age may result in lower current charges.

PREMIUMS

The Contract offers flexibility in paying premiums. We reserve the right to refuse to accept any payment that would require us to increase the Death Benefit (under Section 7702 of the Internal Revenue Code) by more than the payment increases the Contract Fund. Furthermore, there are circumstances under which the payment of premiums in amounts that are too large may cause the Contract to be characterized as a Modified Endowment Contract under section 7702A of the Internal Revenue Code, which could be significantly disadvantageous. If you make a payment that would cause the Contract to be characterized as a Modified Endowment Contract, we will send you a letter to advise you of your options. Generally, you have 60 days from when we received your payment to remove the excess premiums and any accrued interest. If you choose not to remove the excess premium and accrued interest, your Contract will become permanently characterized as a Modified Endowment Contract. We will not accept a premium payment that exceeds the Guideline Premium limit if your Contract uses the Guideline Premium definition of life insurance. See **Tax Treatment of Contract Benefits**.

Minimum Initial Premium

The minimum initial premium is due on or before the Contract Date. It is the premium needed to start the Contract. For Contracts with a Death Benefit Type A or Type B, the minimum initial premium is equal to 9% of the Limited No-Lapse Guarantee Premium, including all extras and additional premiums for optional riders and benefits. For Contract with a Type C Death Benefit, the minimum initial premium is equal to 9% of the Short Term No-Lapse Guarantee Premium, including all extras and additional premiums for optional riders and benefits. We may require an additional premium if deductions from the premium payments and any Contract Fund charges due on or before the payment date exceed the minimum initial premium. There is no insurance under the Contract unless at least the minimum initial premium is paid. Thereafter, you decide when to make premium payments and, subject to a \$25 minimum, in what amounts.

Generally, the net amount of the minimum initial premium will be placed in the Contract Fund as of the Contract Date. If we do not receive your initial premium on or before the Contract Date, we apply the initial premium to your Contract as of the end of the Valuation Period in which it is received in Good Order at the Payment Office. See **Allocation of Premiums**. In no case will the premium be applied with an effective date that precedes the date of this offering.

Available Types Of Premium

After the minimum initial premium is paid, no other specific premiums are required and you have a certain amount of flexibility with respect to the amount and timing for future premium payments. Two possible patterns of premiums are described below. Contracts with no riders or extra risk charges will have level premiums for the premium types described below. Understanding them may help you understand how the Contract works.

- **Short Term No-Lapse Guarantee Premiums** are premiums that, if paid as described in the No-Lapse Guarantee section, will keep the Contract in force during the Short Term No-Lapse Guarantee period regardless of investment performance and assuming no loans, withdrawals, or Contract changes. All Contracts offer a Short Term No-Lapse Guarantee period. If you choose to continue a No-Lapse Guarantee beyond this period, you will have to begin paying premiums higher than the Short Term No-Lapse Guarantee Premium. Contracts issued with a Type C Death Benefit do not offer a guarantee beyond the Short Term No-Lapse Guarantee period.
- **Limited No-Lapse Guarantee Premiums** are premiums that, if paid as described in the No-Lapse Guarantee section, will keep the Contract in force during the Limited No-Lapse Guarantee period regardless of investment performance and assuming no loans, withdrawals, or Contract changes. Contracts issued with a Type C Death Benefit do not offer the No-Lapse Guarantee for this period.

The No-Lapse Guarantee periods are described under **NO-LAPSE GUARANTEE**. When you purchase a Contract, your Pruco Life of New Jersey representative can tell you the Short Term No-Lapse Guarantee and Limited No-Lapse Guarantee Premium amounts.

For Contracts with the Guideline Premium Test as the definition of life insurance, if a premium payment would cause the definition of life insurance test to be violated, we will return the portion of the premium in excess of the allowable amount. This will not occur if you choose the Cash Value Accumulation Test as the definition of life insurance test. If the Contract subsequently enters default, we will tell you the amount you need to pay to keep the Contract in force, and when you will need to pay that amount. It's important to know that these additional payment amounts could be substantial. See **Tax Treatment of Contract Benefits**.

We can bill you for the amount you select annually, semi-annually, or quarterly. Because the Contract is a flexible premium Contract,

there are no scheduled premium due dates. When you receive a premium notice, you are not required to pay this amount, however, paying premiums in a different manner than described in a Contract illustration may shorten the duration of your lapse protection provided by the No-Lapse Guarantees, or even cause your Contract to lapse. See **LAPSE AND REINSTATEMENT**. When you do make a premium payment, the minimum amount that we will accept is \$25.

You may also pay premiums automatically through pre-authorized monthly electronic fund transfers from a bank checking account. If you elect to use this feature, you choose the day of the month on which premiums will be paid and the premium amount. We will then draft the same amount from your account on the same date each month. When you apply for the Contract, you and your Pruco Life of New Jersey representative should discuss how frequently you would like to be billed (if at all) and for what amount.

Allocation Of Premiums

On the later of the Contract Date and the end of the Valuation Period in which the initial premium is received, we deduct the sales charge and the premium based administrative charge from the initial premium. During the 10 day period following your receipt of the Contract, the remainder of the initial premium and any other net premium will be allocated to the designated money market investment option as of the end of the Valuation Period in which it is received in Good Order at the Payment Office. The first monthly deductions are made after the remainder of the initial premium and any other net premium is allocated to the money market investment option. After the 10th day, these funds, adjusted for any investment results, will be transferred out of the money market investment option and allocated according to your current premium allocation. The transfer from the money market investment option on the 10th day following receipt of the Contract will not be counted as one of your 12 free transfers per Contract Year or the 20 transfers per calendar year described under **Transfers/Restrictions on Transfers**. If the first premium is received before the Contract Date, there will be a period during which the Contract Owner's initial premium will not be invested.

The sales charge and the premium based administrative charge will also apply to all subsequent premium payments. The remainder of each subsequent premium payment will be invested as of the end of the Valuation Period in which it is received in Good Order at the Payment Office, in accordance with the applicable allocation instructions. With respect to any initial premium payment received before the Contract Date and any premium payment that is not in Good Order, we may temporarily hold the premium in a suspense account and we may earn interest on such amount. You will not be credited interest on those amounts during that period. The monies held in the suspense account may be subject to claims of our general creditors. The premium payment will not be reduced nor increased due to market fluctuations during that period.

Provided the Contract is neither in default, nor in force under the provisions of the Overloan Protection Rider, you may change the way in which subsequent premiums are allocated by providing your request to us in Good Order at a Service Office. Allocation changes may generally be made by mail, phone, fax, or website. Contracts that are jointly owned or assigned generally cannot change premium allocations by phone, fax, or website. See **Assignment**. There is no charge for reallocating future premiums. All percentage allocations must be in whole numbers. For example, 33% can be selected but 33½% cannot. The total allocation to all selected investment options must equal 100%.

Processing And Valuing Transactions

Pruco Life of New Jersey is generally open to process financial transactions on those days that the New York Stock Exchange ("NYSE") is open for trading. There may be circumstances where the NYSE does not open on a regularly scheduled date or time or closes at an earlier time than scheduled (normally 4:00 p.m. Eastern Time). Generally, financial transactions received in Good Order before the close of regular trading on the NYSE will be processed according to the value next determined following the close of business. Financial transactions received on a non-business day or after the close of regular trading on the NYSE will be processed based on the value next computed on the next Valuation Day.

We will not process any financial transactions involving purchase or redemption orders on days the NYSE is closed. Pruco Life of New Jersey will also not process financial transactions involving purchase or redemption orders or transfers on any day that:

- trading on the NYSE is restricted;
- an emergency, as determined by the SEC, exists making redemption or valuation of securities held in the Separate Account impractical; or
- the SEC, by order, permits the suspension or postponement for the protection of security holders.

In certain circumstances, we may need to correct the processing of an order. In such circumstances, we may incur a loss or receive a gain depending upon the price of the security when the order was executed and the price of the security when the order is corrected. With respect to any gain that may result from such order correction, we will retain any such gain as additional compensation for these correction services.

Transfers/Restrictions On Transfers

You may, up to 12 times each Contract Year, transfer amounts among the Variable Investment Options or to the Fixed Rate Option. Additional transfers may be made only with our consent. Currently, we will allow you to make additional transfers. For the first 20 transfers in a calendar year, you may transfer amounts by providing your request to us in Good Order at a Service Office. Transfers may generally be made by mail, phone, fax, or website. Contracts that are jointly owned or assigned generally cannot conduct transfers by phone, fax, or website. See **Assignment**.

After you have submitted 20 transfers in a calendar year, we will accept subsequent transfer requests only if they bear an original signature in ink, are received in Good Order at a Service Office, and are sent to us by U.S. regular mail. After you have submitted 20 transfers in a calendar year, a subsequent transfer request by telephone, fax, or website will be rejected, even in the event that it is inadvertently processed.

Multiple transfers that occur during the same day, but prior to the end of the Valuation Period for that day, will be counted as a single transfer.

There is no transaction charge for the first 12 transfers per Contract Year among investment options. We may charge up to \$25 for each transfer made exceeding 12 in any Contract Year. Currently, we do not charge a fee for transfers.

Currently, certain transfers effected systematically under a dollar cost averaging or an automatic rebalancing program do not count towards the limit of 12 transfers per Contract Year or the limit of 20 transfers per calendar year. In the future, we may count such transfers towards the limit.

Transfers out of the money market investment option will not be made until 10 days after you receive the Contract. Such transfers

and any transfers due to any fund closures or mergers will not be considered towards the 12 transfers per Contract Year or the 20 transfers per calendar year.

You may also transfer amounts from the Variable Investment Option to the Fixed Rate Option at anytime within 18 months from the Contract Date, and within the later of 60 days from the effective date of a material change in the investment policy of a Variable Investment Option and 60 days from the notice of that change, with no restriction. Such transfers do not count toward the twelve transfers allowed in each Contract Year.

Transfers among Variable Investment Options will take effect as of the end of the Valuation Period in which a transfer request is received in Good Order at a Service Office. The request may be in terms of dollars, such as a request to transfer \$5,000 from one Variable Investment Option to another, or may be in terms of a percentage reallocation among Variable Investment Options. In the latter case, as with premium reallocations, the percentages must be in whole numbers. Transfers conducted via the website must be in percentage terms.

We will use reasonable procedures, such as asking you to provide certain personal information provided on your application for insurance, to confirm that instructions given by telephone are genuine. We will not be held liable for following telephone instructions that we reasonably believe to be genuine. We cannot guarantee that you will be able to get through to complete a telephone transfer during peak periods such as periods of drastic economic or market change.

Only one transfer from the Fixed Rate Option will be permitted during each Contract Year. The maximum amount per Contract you may transfer out of the Fixed Rate Option and into the Variable Investment Options each year is the greater of: (a) 25% of the amount in the Fixed Rate Option; (b) \$5,000; and (c) the amount transferred from the Fixed Rate Option to the Variable Investment Options in the prior Contract Year (if applicable).

If you exercise the Overloan Protection Rider, we will then transfer any amounts you have in the Variable Investment Options to the Fixed Rate Option. The transfer is not counted as one of the 12 transfers we allow per Contract Year and there is no charge. Transfers out of the Fixed Rate Option and into the Variable Investment Options will not be permitted while your Contract is kept in force under the Overloan Protection Rider.

The Contract was not designed for professional market timing organizations, or other organizations or individuals using programmed, large, or frequent transfers. Large or frequent transfers among Variable Investment Options in response to short-term fluctuations in markets, sometimes called "market timing", can make it very difficult for Fund advisers/sub-advisers to manage the Fund. Large or frequent transfers may cause the Fund to hold more cash than otherwise necessary, disrupt management strategies, increase transaction costs, or affect performance to the disadvantage of other Contract Owners. If we (in our own discretion) believe that a pattern of transfers or a specific transfer request, or group of transfer requests, may have a detrimental effect on the performance of the Funds, or we are informed by a Fund (e.g., by the Fund's adviser/sub-advisers) that the purchase or redemption of shares in the Fund must be restricted because the Fund believes the transfer activity to which such purchase or redemption relates would have a detrimental effect on the performance of the affected Fund, we may modify your right to make transfers by restricting the number, timing, and amount of transfers. We reserve the right to prohibit transfer requests made by an individual acting under a power of attorney on behalf of more than one Contract Owner. We will immediately notify you at the time of a transfer request if we exercise this right.

Any restrictions on transfers will be applied in a uniform manner to all persons who own Contracts like this one, and will not be waived. However, due to the discretion involved in any decision to exercise our right to restrict transfers, it is possible that some Contract Owners may be able to effect transactions that could affect Fund performance to the disadvantage of other Contract Owners.

In addition, owners of variable life insurance or variable annuity contracts that do not impose the transfer restrictions described above, might make more numerous and frequent transfers than Contract Owners who are subject to such limitations. Contract owners who are not subject to the same transfer restrictions may have the same Funds available to them, and unfavorable consequences associated with such frequent trading within the Funds (e.g., greater portfolio turnover, higher transaction costs, or performance or tax issues) may affect all Contract Owners.

The Funds have adopted their own policies and procedures with respect to excessive trading of their respective shares, and we reserve the right to enforce these policies and procedures. The prospectuses for the Funds describe any such policies and procedures, which may be more or less restrictive than the policies and procedures we have adopted. Under SEC rules, we are required to: (1) enter into a written agreement with each Fund or its principal underwriter that obligates us to provide to the Fund promptly upon request certain information about the trading activity of individual Contract Owners, and (2) execute instructions from the Fund to restrict or prohibit further purchases or transfers by specific Contract Owners who violate the excessive trading policies established by the Fund. In addition, you should be aware that some Funds may receive "omnibus" purchase and redemption orders from other insurance companies or intermediaries such as retirement plans. The omnibus orders reflect the aggregation and netting of multiple orders from individual owners of variable insurance contracts and/or individual retirement plan participants. The omnibus nature of these orders may limit the Funds in their ability to apply their excessive trading policies and procedures. In addition, the other insurance companies and/or retirement plans may have different policies and procedures or may not have any such policies and procedures because of contractual limitations. For these reasons, we cannot guarantee that the Funds (and thus Contract Owners) will not be harmed by transfer activity relating to other insurance companies and/or retirement plans that may invest in the Funds.

The Funds may assess a short term trading fee in connection with a transfer out of any available Variable Investment Option if the transfer occurs within a certain number of days following the date of allocation to the Variable Investment Option. Each Fund determines the amount of the short term trading fee and when the fee is imposed. The fee is retained by or paid to the Fund and is not retained by us. The fee will be deducted from your Contract value to the extent allowed by law. At present, no Fund has adopted a short-term trading fee.

Although our transfer restrictions are designed to prevent excessive transfers, they are not capable of preventing every potential occurrence of excessive transfer activity.

Dollar Cost Averaging

As an administrative practice, we are currently offering a feature called Dollar Cost Averaging ("DCA"). Under this feature, either fixed dollar amounts or a percentage of the amount designated for use under the DCA option will be transferred periodically from the DCA money market investment option into other Variable Investment Options available under the Contract (excluding the Fixed Rate Option). If DCA allocates money to a Variable Investment Option at a time when the Fund no longer accepts

additional investments, automatic transfers to that Variable Investment Option will be directed to the PSF Government Money Market Portfolio. You may choose to have periodic transfers made monthly or quarterly. DCA transfers will not begin until the Monthly Date after 10 days following your receipt of the Contract.

Each automatic transfer will take effect as of the end of the Valuation Period on the date coinciding with the periodic timing you designate provided the NYSE is open on that date. If the NYSE is not open on that date, or if the date does not occur in that particular month, the transfer will take effect as of the end of the Valuation Period, which immediately follows that date. Automatic transfers will continue until: (1) \$50 or less remains of the amount designated for DCA, at which time the remaining amount will be transferred; or (2) you give us notification of a change in DCA allocation or cancellation of the feature. Currently, a transfer that occurs under the DCA feature is not counted towards the 20 transfers permitted each calendar year or the 12 free transfers permitted each Contract Year. We reserve the right to change this practice, modify the requirements, or discontinue the feature in a non-discriminatory manner. We will notify you prior to changing, modifying, or discontinuing this feature.

DCA will not be available on Contracts kept in force under the provisions of the Overloan Protection Rider. See **Overloan Protection Rider**.

Auto-Rebalancing

As an administrative practice, we are currently offering a feature called Auto-Rebalancing. This feature allows you to automatically

rebalance Variable Investment Option assets at specified intervals based on percentage allocations that you choose. For example, suppose your initial investment allocation of Variable Investment Options X and Y is split 40% and 60%, respectively, and investment results cause that split to change. You may instruct that those assets be rebalanced to your original or different allocation percentages. Auto-rebalancing is not available until the Monthly Date after 10 days following your receipt of the Contract.

Auto-rebalancing can be performed on a quarterly, semi-annual, or annual basis. Each rebalance will take effect as of the end of the Valuation Period on the date coinciding with the periodic timing you designate, provided the NYSE is open on that date. If the NYSE is not open on that date, or if the date does not occur in that particular month, the transfer will take effect as of the end of the Valuation Period immediately following that date. The Fixed Rate Option cannot participate in this administrative procedure. If auto-rebalancing involves allocating to a Fund that became closed to additional investments, the auto-rebalancing feature will be turned off. Currently, a transfer that occurs under the auto-rebalancing feature is not counted towards the 20 transfers permitted each calendar year or the 12 free transfers permitted each Contract Year. We reserve the right to change this practice, modify the requirements, or discontinue the feature in a non-discriminatory manner. We will notify you prior to changing, modifying, or discontinuing this feature.

Auto-rebalancing will not be available on Contracts kept in force under the provisions of the Overloan Protection Rider. See **Overloan Protection Rider**.

NO-LAPSE GUARANTEE

Your Contract includes a No-Lapse Guarantee. This limited guarantee against lapse provides that the Contract will not lapse as a result of unfavorable investment performance, even if your Cash Surrender Value drops to zero, provided you have no Contract Debt and your Accumulated Net Payments is greater than the No-Lapse Guarantee Value (described below). The No-Lapse Guarantee is based on premium payments and is not a benefit you need to elect. Withdrawals may void the No-Lapse Guarantee. Outstanding Contract loans will void the No-Lapse Guarantee.

How We Calculate and Determine if You Have a No-Lapse Guarantee

We calculate your Contract's Accumulated Net Payments on the Contract Date and on each Monthly Date thereafter. Accumulated Net Payments equal the premiums you paid, accumulated at an effective annual rate of 4%, less withdrawals accumulated at an effective annual rate of 4%. For reinstated Contracts that had previously lapsed with Contract Debt, we also subtract the full amount of Contract Debt in effect at the time of lapse, accumulated at an effective annual rate of 4% starting at the date of default, when calculating the Accumulated Net Payments.

We also calculate No-Lapse Guarantee Values, which are the minimum values required for the No-Lapse Guarantee to be in effect. These are values used solely to determine if a No-Lapse Guarantee is in effect and vary by the insured's issue age, sex, underwriting class, and any additional or substandard mortality risk, as well as the Basic Insurance Amount, Death Benefit type, and optional benefits selected. These are not cash values that you can realize by surrendering the Contract, nor are they payable Death Benefits.

On each Monthly Date, we will compare your Accumulated Net Payments to the No-Lapse Guarantee Value. If your Accumulated Net Payments equal or exceed the No-Lapse Guarantee Value, and there is no Contract Debt, then the Contract is kept in force, regardless of the amount in the Contract Fund.

No-Lapse Guarantee Premiums and No-Lapse Guarantee Periods Available Under Your Contract

There are two No-Lapse Guarantee Premiums that correspond to the No-Lapse Guarantee periods; the Short Term No-Lapse Guarantee Premium and the Limited No-Lapse Guarantee Premium, which are the premiums used to calculate the No-Lapse Guarantee Values. This is a flexible premium payment Contract and you may make payments at any time. The description below assumes you pay the No Lapse Guarantee Premium at the beginning of each Contract Year. If you make any premium payments after the beginning of each Contract Year you may need to pay more premiums because the Accumulated Net Payments will be less due to reduced interest accumulation than if you paid at the beginning of the Contract Year. See **PREMIUMS**.

1) All Contracts have a Short Term No-Lapse Guarantee period. A Contract with a Type C Death Benefit will only have a Short Term No-Lapse Guarantee available Payment of the Short Term No-Lapse Guarantee Premium at the beginning of each Contract Year guarantees that your Contract will not lapse during the Short Term No-Lapse Guarantee period, assuming there are no loans or withdrawals. However, continued payment of the Short Term No-Lapse Guarantee Premium after this period will not assure that your Contract's Accumulated Net Payments will continue to meet the No-Lapse Guarantee Values and prevent the Contract from lapsing.

2) The Limited No-Lapse Guarantee Period is available for all Contracts other than those with a Type C Death Benefit. If you want a longer No-Lapse Guarantee, paying the Limited No-Lapse Guarantee Premium at the beginning of each Contract Year guarantees your Contract against lapse during the Limited No-Lapse Guarantee period, assuming no loans or withdrawals.

The Short Term No-Lapse Guarantee period is 8 years after issue (6 years for issue ages 60 and older). The Limited No-Lapse Guarantee period lasts until the later to occur of the Contract

Anniversary that the insured reaches Attained Age 75 or 10 years after issue.

The following tables provide sample Short Term No-Lapse and Limited No-Lapse Guarantee Premiums (to the nearest dollar). The examples assume: (1) the insured is a male, nonsmoker underwriting class; (2) a \$500,000 Basic Insurance Amount; and (3) no extra benefit riders have been added to the Contract.

Illustrative Annual Premiums			
Age of insured at issue	Type of Death Benefit Chosen	Short Term No-Lapse Guarantee Premium	Limited No-Lapse Guarantee Premium
35	Type A	\$2,605	\$3,590
35	Type B	\$2,700	\$3,675
35	Type C	\$2,700	N/A
55	Type A	\$7,065	\$9,900
55	Type B	\$9,115	\$10,025
55	Type C	\$9,115	N/A
75	Type A	\$29,905	\$51,875
75	Type B	\$36,695	\$54,140
75	Type C	\$36,695	N/A

Maintaining the No-Lapse Guarantee

Paying the Short Term No-Lapse or Limited No-Lapse Guarantee Premiums at the start of each Contract Year is one way of reaching the No-Lapse Guarantee Values; it is certainly not the only way. The No-Lapse Guarantee allows considerable flexibility as to the timing of premium payments. Your Pruco Life of New Jersey representative can supply sample illustrations of various premium amount and frequency combinations that correspond to the No-Lapse Guarantee Values.

When determining what premium amounts to pay and the frequency of your payments, you should consider carefully the

value of maintaining a No-Lapse Guarantee. For example, if you desire the Limited No-Lapse Guarantee until the later to occur of the insured's Attained Age 75 or 10 years after issue, you may prefer to pay at least the Limited No-Lapse Guarantee Premium in all years, rather than paying the lower Short Term No-Lapse Guarantee Premium in the first eight years after issue (six years for issue ages 60 and above). If you pay only the Short Term No-Lapse Guarantee Premium in the first eight years (six years for issue ages 60 and above), you will need to pay more than the Limited No-Lapse Guarantee Premium at the beginning of the 9th year (7th year for issue ages 60 and above) in order to continue the No-Lapse Guarantee.

For example assume: (1) an insured male, age 26, nonsmoker underwriting class (2) a \$500,000 Basic Insurance Amount; (3) a Type B Death Benefit; (4) no extra benefit riders; and (5) no loans. The Short Term No-Lapse Guarantee Premium would be \$2,055, which if paid at the beginning of each year from Contract issue, would provide the Short Term No-Lapse Guarantee for 8 years. The accumulated premiums at 4% less withdrawals accumulated at 4% would be \$19,693. The Limited No-Lapse Guarantee premium would be \$2,600, which if paid at the beginning of each year from Contract issue, would provide the Limited No-Lapse Guarantee for 49 years. However, if the individual in this example paid \$2,055 annually from Contract issue for 8 years and then decided he wanted the Limited No-Lapse Guarantee, he would have to pay enough premium so that the accumulated premiums at 4% less withdrawals accumulated at 4% would be \$28,616 at the end of year 9.

In addition, it is possible that the payment required to continue the guarantee beyond the Short Term No-Lapse Guarantee period could exceed the premium payments allowed to be paid without causing the Contract to become a Modified Endowment Contract. See **Tax Treatment of Contract Benefits**.

DEATH BENEFITS

Types Of Death Benefit

You must select from three types of Death Benefit at issue. A Contract with a Type A (fixed) Death Benefit has a Death Benefit which will generally equal the Basic Insurance Amount. Favorable investment results and additional premium payments will generally increase the Cash Surrender Value and decrease the Net Amount At Risk and result in lower charges. This type of Death Benefit does not vary with the investment performance of the investment options you selected, except when the premiums you pay or favorable investment performance causes the Contract Fund to grow to the point where we may increase the Death Benefit to ensure that the Contract will satisfy the Internal Revenue Code's definition of life insurance. See **Cost of Insurance , PREMIUMS** and **How a Contract's Cash Surrender Value Will Vary**.

A Contract with a Type B (variable) Death Benefit has a Death Benefit which will generally equal the Basic Insurance Amount plus the Contract Fund. Favorable investment performance and additional premium payments will generally increase your Contract's Death Benefit and Cash Surrender Value. However, the increase in the Cash Surrender Value for a Contract with a Type B Death Benefit may be less than the increase in Cash Surrender Value for a Contract with a Type A Death Benefit because a Type B Death Benefit Contract has a greater cost of insurance charge due to a greater Net Amount At Risk. As long as the Contract is not in default and there is no Contract Debt, the Death Benefit

may not fall below the Basic Insurance Amount stated in the Contract. We may increase the Death Benefit to ensure that the Contract will satisfy the IRS definition of life insurance. See **Cost of Insurance , PREMIUMS** and **How a Contract's Cash Surrender Value Will Vary**.

A Contract with a Type C (return of premium) Death Benefit has a Death Benefit which is generally equal the Basic Insurance Amount plus the total premiums paid into the Contract less withdrawals. The total premiums, less withdrawals, is not accumulated with interest. The Death Benefit on a Contract with a Type C Death Benefit is limited to the greater of (1) the Contract Fund plus three times the Basic Insurance Amount or (2) a Death Benefit amount required to satisfy the Internal Revenue Code's definition of life insurance. Within limits, this Death Benefit type allows the beneficiary, in effect, to recover the cost of the Contract (all premiums paid less withdrawals already taken), upon the death of the insured. Favorable investment performance and payment of additional premiums will generally increase the Contract's Cash Surrender Value. However, the increase in the Cash Surrender Value for a Type C Death Benefit may be less than the increase in Cash Surrender Value for a Contract with a Type A Death Benefit because a Type C Death Benefit has a greater cost of insurance charge due to a greater Net Amount At Risk. The increase in Cash Surrender Value for a Contract with a Type C Death Benefit may be more or less than the increase in Cash Surrender Value for a Contract with a Type B Death Benefit depending on earnings and

the amount of any withdrawals. If you take a withdrawal from a Contract with a Type C Death Benefit, it is possible for the Death Benefit to fall below the Basic Insurance Amount. We may increase the Death Benefit to ensure that the Contract will satisfy the Internal Revenue Code's definition of life insurance. See **Cost of Insurance**, **PREMIUMS** and **How a Contract's Cash Surrender Value Will Vary**.

The way in which the Cash Surrender Value and Death Benefit will change depends significantly upon the investment results that are actually achieved.

Contract Owners of a Contract with a Type A Death Benefit should note that any withdrawal will generally result in a reduction of the Basic Insurance Amount by the amount of the withdrawal and will result in the deduction of any applicable surrender charge. See **Withdrawals**.

Changing the Type Of Death Benefit

You may change the type of Death Benefit any time after issue and subject to our approval. We will increase or decrease the Basic Insurance Amount so that the Death Benefit immediately after the change matches the Death Benefit immediately before the change. The Basic Insurance Amount after a change may not be lower than the minimum Basic Insurance Amount applicable to the Contract. See **REQUIREMENTS FOR ISSUANCE OF A CONTRACT**. A Death Benefit type change that decreases the Basic Insurance Amount may result in the assessment of a surrender charge and may incur a transaction fee of up to \$25. Currently, we do not charge a transaction fee for a decrease in Basic Insurance Amount. See **Surrender Charge**.

If you are changing your Contract from a Type A Death Benefit to a Type B Death Benefit, we will reduce the Basic Insurance Amount by the amount in your Contract Fund on the date the change takes place.

If you are changing your Contract from a Type B Death Benefit to a Type A Death Benefit, we will increase the Basic Insurance Amount by the amount in your Contract Fund on the date the change takes place.

If you are changing your Contract from a Type C Death Benefit to a Type A Death Benefit, we will change the Basic Insurance Amount by adding the lesser of (a) the total premiums paid into the Contract minus total withdrawals taken, and (b) the Contract Fund before deduction of any monthly charge due on that date plus the product of the Type C Limiting Amount multiplied by the Type C Death Benefit Factor. The Type C Limiting Amount and the Type C Death Benefit Factor are both found in the Contract Limitations section of your Contract's data pages.

If you are changing your Contract from a Type C Death Benefit to a Type B Death Benefit, we first find the difference between: (1) the Contract Fund and (2) the lesser of (a) the total premiums paid into the Contract minus total withdrawals taken, and (b) the Contract Fund before deduction of any monthly charge due on that date plus the product of the Type C Limiting Amount multiplied by the Type C Death Benefit Factor. The Type C Limiting Amount and the Type C Death Benefit Factor are both found in the Contract Limitations section of your Contract's data pages. If (2) is larger than (1), we will increase the Basic Insurance Amount by that difference. If (1) is larger than (2), we will reduce the Basic Insurance Amount by that difference.

If you choose a Type A Death Benefit or a Type B Death Benefit at issue, you will not be able to change to a Type C Death Benefit thereafter. If you change a Type C Death Benefit to a Type A Death Benefit or a Type B Death Benefit after issue, you will not be able to change back to a Type C Death Benefit. We will not allow a

change to your Contract if it will cause the Death Benefit to exceed our retention limits or violate any other underwriting rule.

The following chart illustrates the new Basic Insurance Amount resulting from each change of Death Benefit type described above. The chart assumes a \$300,000 Death Benefit, a \$50,000 Contract Fund, no applicable surrender charge, and no Contact Debt. For changes from a Type C Death Benefit, the chart assumes \$40,000 in total premiums minus total withdrawals.

Changing from	Basic Insurance Amount	Contract Fund	Death Benefit
Type A to Type B	\$300,000 to \$250,000	\$50,000 to \$50,000	\$300,000 to \$300,000
Type B to Type A	\$250,000 to \$300,000	\$50,000 to \$50,000	\$300,000 to \$300,000
Type C to Type A	\$260,000 to \$300,000	\$50,000 to \$50,000	\$300,000 to \$300,000
Type C to Type B	\$260,000 to \$250,000	\$50,000 to \$50,000	\$300,000 to \$300,000

You may request a change in the type of Death Benefit by sending us a request in Good Order to our Service Office. If the change is approved, we will re-calculate the Contract's charges and appropriate tables and send you new Contract data pages. We may require you to send us your Contract before making the change. There may be circumstances under which a change in the Death Benefit type may cause the Contract to be classified as a Modified Endowment Contract, which could be significantly disadvantageous. See **Tax Treatment of Contract Benefits**.

Decreases In Basic Insurance Amount

You have the option of decreasing the Basic Insurance Amount of your Contract without withdrawing any Cash Surrender Value. If a change in circumstances causes you to determine that your amount of insurance is greater than needed, a decrease will reduce your insurance protection and the monthly deductions for the cost of insurance.

The following conditions must be met:

- The amount of the decrease in the Basic Insurance Amount must be at least \$5,000;
- The Basic Insurance Amount after the decrease must be at least equal to the minimum Basic Insurance Amount;
- The Contract must not be in default;
- The surrender charge on the decrease, if any, plus any transaction charge for the decrease may not exceed the Contract Fund;
- If we ask you to do so, you must send us the Contract to be endorsed; and
- Your Contract must not be in force under the provisions of the Overloan Protection Rider.

If we approve the decrease, we will send you new Contract data pages showing the amount and effective date of the change and the recalculated charges, values, and limitations. Currently, no transaction charge is being made in connection with a decrease in the Basic Insurance Amount. However, we reserve the right to charge such a fee in an amount of up to \$25.

We may decline a decrease in the Basic Insurance Amount if we determine it would cause the Contract to fail to qualify as life insurance for purposes of Section 7702 of the Internal Revenue Code. Also, it is important to note, that if the Basic Insurance Amount is decreased, there is a possibility that the Contract will be classified as a Modified Endowment Contract. See **Tax Treatment of Contract Benefits**. You should consult with your tax

adviser and your Pruco Life of New Jersey representative before requesting any decrease in Basic Insurance Amount.

Death Claim Settlement Options

The beneficiary may choose to receive death claim proceeds by any of the settlement options available at the time the proceeds become payable or by payment of a lump sum check. In addition to the available settlement options, currently, in certain circumstances, the beneficiary may choose the payment of death claim proceeds by way of the Alliance Account settlement option (the "Alliance Account"). If the Alliance Account is selected, Prudential will provide a kit to the beneficiary, which includes: (1) an account confirmation describing the death claim proceeds, the current interest rate, and the terms of the Alliance Account; and (2) a guide that explains how the Alliance Account works. Amounts in an Alliance Account earn interest at a rate set by the issuer. This rate is not guaranteed and can change. The beneficiary may withdraw amounts in an Alliance Account at any time. Alliance Account balances are not insured by the Federal Deposit Insurance Corporation. Any Pruco Life of New Jersey representative

authorized to sell this Contract can explain all the settlement options upon request.

When Death Benefit Proceeds Are Paid

Generally, we will pay any Death Benefit within seven days after all the documents required for such a payment are received in Good Order at the office designated to receive that request. The Death Benefit is determined as of the date of death.

We may delay payment of proceeds from the Variable Investment Option(s) and the variable portion of the Death Benefit due under the Contract if the disposal or valuation of the Account's assets is not reasonably practicable because the NYSE is closed for other than a regular holiday or weekend, trading is restricted by the SEC, or the SEC declares that an emergency exists.

We have the right to delay payment of the Death Benefit attributable to the Fixed Rate Option for up to six months. We will pay interest of at least 0.5% per year if such a payment is delayed for more than 10 days.

CONTRACT VALUES

The total amount invested in the Contract Fund at any time consists of:

- (a) the Variable Investment Options,
- (b) the Fixed Rate Option, and
- (c) any Contract loan.

How a Contract's Cash Surrender Value Will Vary

The Contract's Cash Surrender Value on any date will be the Contract Fund less any applicable surrender charges and less any Contract Debt. The Contract Fund value changes daily, reflecting:

- (1) increases or decreases in the value of the Fund(s);
- (2) interest credited on any amounts allocated to the Fixed Rate Option;
- (3) interest credited on any loan; and
- (4) the daily asset charge for mortality and expense risks assessed against the Variable Investment Options.

The Contract Fund value also changes to reflect the receipt of net premium payments and the deduction of other charges described under **CHARGES AND EXPENSES**, any withdrawals or accelerated benefits, and any added persistency credit. See **Withdrawals, RIDERS**, and **Persistency Credit**.

Upon request, we will tell you the Cash Surrender Value of your Contract. It is possible for the Cash Surrender Value of a Contract to decline to zero because of unfavorable investment performance in the Contract Fund, outstanding Contract Debt, and/or any applicable surrender charge.

Persistency Credit

On each Monthly Date, if your Contract has been in force at least 6 years and is not in default, we will credit your Contract Fund with an additional amount, called a persistency credit, for keeping your Contract in force. The persistency credit is based on reduced costs in later Contract Years and applies to Contracts that remain in force.

The following chart illustrates an example of a Contract with \$100,000 of Contract Fund, net of outstanding loans. The persistency credit starts on the 6th Contract Anniversary and is calculated using an annual rate equal to 0.25% of the Contract Fund, net of outstanding loans, but is expressed as a monthly rate to reflect that the amount is credited monthly. The credited amount will be allocated to the investment options according to your current premium allocation.

Determination of Sample Persistency Credit	
Contract Fund (net of outstanding loans)	\$100,000.00
Monthly Credit Rate	0.020809%
Persistency Credit Amount	\$20.81
New Contract Fund (net of outstanding loans)	\$100,020.81

On and following the 6th Contract Anniversary, if your Contract is in force, we will credit your Contract Fund with the calculated amount for that Monthly Date. If your Contract is in default or has lapsed, we will not credit your Contract with the persistency credit. The calculated amount that would have been credited during the time your Contract was in default or lapsed will not be made up if your Contract is reinstated. However, if your Contract is reinstated, we will begin calculating a persistency credit on the Monthly Date following the reinstatement date. The persistency credit will not change the status of your Contract if your cash value is zero or less. No persistency credit will be calculated on the amount of any Contract loan.

Loans

You may borrow an amount up to the current loan value of your Contract less any existing Contract Debt using the Contract as the only security for the loan. The loan value at any time is equal to the sum of (1) 99% of the portion of the cash value attributable to the Variable Investment Options and (2) the balance of the cash value, provided the Contract is not in default. The cash value is equal to the Contract Fund less any surrender charge. A Contract in default has no loan value. There is no minimum loan amount.

Interest charged on a loan accrues daily. We charge interest on the full loan amount, including all unpaid interest. Interest is due on each Contract Anniversary or when the loan is paid back, whichever comes first. If interest is not paid when due, we will increase the loan amount by any unpaid interest. We charge interest at an effective annual rate of 2% for standard loans.

On and after the 10th Contract Anniversary, all new and existing loans will be considered preferred loans. Preferred loans are charged interest at an effective annual rate of 1.05%.

When a loan is made, an amount equal to the loan proceeds is transferred out of the Variable Investment Options and/or the

Fixed Rate Option, as applicable. Unless you ask us to take the loan amount from specific investment options, and we agree, the reduction will be made proportionally based on the loanable value in each investment option. While a loan is outstanding, the amount that was transferred will continue to be treated as part of the Contract Fund. It will be credited with interest at an effective annual rate of 1%. Generally, on each Monthly Date, we will increase the portion of the Contract Fund in the investment options by interest credits accrued on the loan since the last Monthly Date.

The Contract Debt is the amount of all outstanding loans plus any interest accrued, but not yet due. If, on any Monthly Date, the Contract Debt equals or exceeds the Contract Fund, less any applicable surrender charges, the Contract will go into default. If the Contract goes into default due to excess Contract Debt, we will mail you a notice stating the amount needed to keep the Contract in force. That amount will equal a premium which we estimate will keep the Contract in force for three months from the date of default. We grant a 61-day grace period from the date we mail the notice to pay the amount. If you send us a payment during the grace period and we receive it after a Monthly Date has occurred, we will credit interest to the Contract Fund from the date your Contract went into default to the date we received your payment, and then return to crediting interest on subsequent Monthly Dates. If the Contract lapses or is surrendered, the amount of unpaid Contract Debt will be treated as a distribution and will be immediately taxable to the extent of gain in the Contract. Reinstatement of the Contract after lapse will not eliminate the taxable income, which we are required to report to the IRS. See **LAPSE AND REINSTATEMENT** and **Tax Treatment of Contract Benefits**.

If your Contract includes the Overloan Protection Rider and you meet the requirements to exercise the rider, you may have protection against lapse due to excess Contract Debt. See **Overloan Protection Rider**. Having Contract Debt will prevent any no-lapse guarantee from protecting the Contract from lapse. See **NO-LAPSE GUARANTEE**. No persistency credit will be calculated on the amount of any Contract loans. See **Persistency Credit**.

Loans you take against the Contract are ordinarily treated as debt and are not considered distributions subject to tax. However, you should know that the IRS may take the position that the loan should be treated as a distribution for tax purposes because of the relatively low differential between the loan interest rate and the Contract's crediting rate. Distributions are subject to income tax. Were the IRS to take this position, we would take reasonable steps to attempt to avoid this result, including modifying the Contract's loan provisions, but cannot guarantee that such efforts would be successful.

Loans from Modified Endowment Contracts may be treated for tax purposes as distributions of income. See **Tax Treatment of Contract Benefits**.

Any Contract Debt will directly reduce a Contract's Cash Surrender Value and will be subtracted from the Death Benefit to determine the amount payable. In addition, even if the loan is fully repaid, it may have an effect on future Death Benefits because the investment results of the selected investment options will apply only to the amount remaining invested under those options. The longer the loan is outstanding, the greater the effect is likely to be. The effect could be favorable or unfavorable. If investment results are greater than the rate being credited on the amount of the loan while the loan is outstanding, values under the Contract will not increase as rapidly as they would have if no loan had been made. If investment results are below that rate, Contract values will be higher than they would have been had no loan been made.

Loan repayments are applied to reduce the total outstanding Contract Debt, which is equal to the principal plus accrued interest. Interest accrues daily on the total outstanding Contract Debt, and making a loan repayment will reduce the amount of interest accruing.

Loan repayments will be applied towards the loan according to when they are received. Loan interest is due on your Contract Anniversary. If we receive your loan repayment within 21 days prior to your Contract Anniversary, we will apply the repayment towards interest due. Any loan repayment amount exceeding the interest due is applied towards the existing principal amount.

If we receive your loan repayment at any time outside of 21 days prior to your Contract Anniversary, we will apply the repayment towards the principal amount. For any repayment exceeding the principal amount, we will apply the remainder of the loan repayment towards the interest due.

When you repay all or part of a loan, we will increase the portion of the Contract Fund in the investment options by the amount of the loan you repay plus interest credits accrued on the repaid portion of the loan since the last transaction date. We will apply the loan repayment to the investment allocation used for future premium payments as of the loan repayment date. If loan interest is paid when due, it will not change the portion of the Contract Fund allocated to the investment options. We reserve the right to change the manner in which we allocate loan repayments.

Withdrawals

You may withdraw a portion of the Contract's Cash Surrender Value without surrendering the Contract, subject to the following restrictions.

- (1) We must receive a request for the withdrawal in Good Order at our Service Office.
- (2) Your Contract's Cash Surrender Value after the withdrawal may not be less than or equal to zero after deducting (a) any charges associated with the withdrawal and (b) an amount that we estimate will be sufficient to cover two months of Contract Fund deductions.
- (3) The withdrawal amount must be at least \$500.
- (4) The Basic Insurance Amount after withdrawals must be at least equal to the minimum Basic Insurance Amount shown in the Contract.
- (5) Your Contract must not be in force under the provisions of the Overloan Protection Rider.

We may charge a transaction fee for each withdrawal of up to \$25. Currently, we do not charge a fee for a withdrawal. A withdrawal may not be repaid except as a premium subject to the applicable charges. Upon request, we will tell you how much you may withdraw. Withdrawal of the Cash Surrender Value may have tax consequences. See **Tax Treatment of Contract Benefits**.

Whenever a withdrawal is made, the Death Benefit will immediately be reduced by at least the amount of the withdrawal. The withdrawal may also decrease the Basic Insurance Amount, which may result in the deduction of a surrender charge. See **Surrender Charge**. Withdrawals from a Contract with a Type B or Type C Death Benefit will not change the Basic Insurance Amount. However, under most circumstances, withdrawals from a Contract with a Type A Death Benefit require a reduction in the Basic Insurance Amount. It is possible a withdrawal from a Contract with a Type A Death Benefit will not decrease the Basic Insurance Amount if the Contract Fund has grown to the point where the base Contract's Death Benefit has been increased as required by the Internal Revenue Code's definition of life insurance test. See **Tax Treatment of Contract Benefits**.

The following table provides a hypothetical example of a withdrawal from a Contract with a Type A Death Benefit. The example assumes the withdrawal occurred in the 5th Contract Year, no Contract Debt, the Death Benefit was not increased to satisfy the definition of life insurance test, and no change to the Basic Insurance Amount has previously occurred.

Example of a Type A Death Benefit Withdrawal		
Net amount of withdrawal:		\$10,000
Withdrawal surrender charge (2% reduction):		\$60
Gross amount of withdrawal:		\$10,060
Contract values (current)	Before	After
Basic Insurance Amount:	\$500,000	\$490,000
Death Benefit amount:	\$500,000	\$490,000
Contract Fund value:	\$100,000	\$89,940
Contract surrender charge:	\$3,000	\$2,940

No withdrawal will be permitted from a Contract with a Type A Death Benefit if it would result in a Basic Insurance Amount of less than the minimum Basic Insurance Amount shown under Contract Limitations in your Contract's data pages. It is important to note, however, that if the Basic Insurance Amount is decreased, there is a possibility that the Contract might be classified as a Modified Endowment Contract. Before making any withdrawal that causes a decrease in Basic Insurance Amount, you should consult with your tax adviser and your Pruco Life of New Jersey representative. See **Tax Treatment of Contract Benefits**.

Currently, we will provide an authorization form if your withdrawal request causes a decrease in Basic Insurance Amount that results in your Contract being classified as a Modified Endowment Contract. The authorization form will confirm that you are aware of your Contract becoming a Modified Endowment Contract if the transaction is completed. We will complete the transaction and send a confirmation notice after we receive the completed authorization form in Good Order at a Service Office.

When a withdrawal is made, the Contract Fund is reduced by the withdrawal amount and any charges associated with the withdrawal. An amount equal to the reduction in the Contract Fund will be withdrawn proportionally from the investment options unless you direct otherwise. Withdrawal of any portion of the Cash Surrender Value increases the risk that the Contract Fund may be insufficient to provide Contract benefits. If such a withdrawal is followed by unfavorable investment experience, the Contract may go into default. Withdrawals may also affect whether a Contract is kept in force under the No-Lapse Guarantee. See **NO-LAPSE GUARANTEE**.

LAPSE AND REINSTATEMENT

We will determine the value of the Contract Fund on each Monthly Date. If the Contract Fund, less any applicable surrender charge and less any Contract Debt, is zero or less, the Contract is in default, unless it remains in force under a No-Lapse Guarantee. See **NO-LAPSE GUARANTEE**. Separately, if the Contract Debt ever grows to be equal to or more than the Contract Fund less any applicable surrender charge, the Contract will be in default, unless it remains in force under the Overloan Protection Rider. See **Overloan Protection Rider**. Should this happen, we will send you a notice of default setting forth the payment which we estimate will keep the Contract in force for three months from the date of default. A 61-day grace period will begin from the date the notice of default

Surrender Of a Contract

You may surrender your Contract at any time for its Cash Surrender Value while the insured is living. To surrender your Contract, we may require you to deliver or mail the following items in Good Order to a Service Office: (a) the Contract, (b) a signed request for surrender, (c) any tax withholding information required under federal or state law, and (d) the authorization of any assignee or irrevocable beneficiary. The Cash Surrender Value will be determined as of the end of the Valuation Period in which a surrender request is received in Good Order at a Service Office. Surrender of a Contract may have tax consequences and a surrender charge may apply. See **Tax Treatment of Contract Benefits** and **Surrender Charge**.

Fixed reduced paid-up insurance is an alternative to surrendering your Contract. Fixed reduced paid-up insurance provides paid-up insurance, the amount of which will be paid when the insured dies. There will be cash values and loan values. The loan interest rate for fixed reduced paid-up insurance is 5.5%. Upon surrender of the Contract, the amount of fixed reduced paid-up insurance depends upon the Cash Surrender Value and the insured's issue age, sex, smoker/nonsmoker status, and the length of time since the Contract Date.

Additional requirements exist if you are exchanging your Contract for a new one at another insurance company. Specifically, we require a properly signed assignment to change ownership of your Contract to the new insurer and a request for surrender, signed by an authorized officer of the new insurer. The new insurer should submit these documents directly to us by sending them in Good Order to our Service Office. Generally, we will pay your Contract's Cash Surrender Value to the new insurer within seven days after all the documents required for such a payment are received in Good Order at our Service Office.

When Proceeds Are Paid

Generally, we will pay any Cash Surrender Value, loan proceeds, or withdrawal within seven days after all the documents required for such a payment are received in Good Order at the office designated to receive that request. The amount will be determined as of the end of the Valuation Period in which the necessary documents are received in Good Order at the office designated to receive that request.

We may delay payment of proceeds from the Variable Investment Option(s) if the disposal or valuation of the Account's assets is not reasonably practicable because the NYSE is closed for other than a regular holiday or weekend, trading is restricted by the SEC, or the SEC declares that an emergency exists.

We have the right to delay payment of the Cash Surrender Value (including surrenders of fixed reduced paid-up contracts) attributable to the Fixed Rate Option for up to six months. We will pay interest of at least 0.5% per year if such a payment is delayed for more than 10 days.

is mailed. Your payment must be received or postmarked within the 61-day grace period or the Contract will end and have no value. To prevent your Contract from lapsing, your payment must be in Good Order when received at the Payment Office. A Contract that lapses with an outstanding Contract loan may have tax consequences. See **Tax Treatment of Contract Benefits**.

A Contract that lapses may be reinstated within five years from the date of default, if the following conditions are met:

- (a) We receive a written request for reinstatement in Good Order at our Service Office;

- (b) Renewed evidence of insurability is provided on the insured;
- (c) The insured is living on the date the Contract is reinstated; and
- (d) Submission of certain payments sufficient to bring the Contract up to date plus a premium that we estimate will cover all charges and deductions for three months from the date of reinstatement.

The reinstatement date will be the date we approve your request. We will deduct all required charges from your payment and the balance will be placed into your Contract Fund. If we approve the reinstatement, we will credit the Contract Fund with an amount equal to the surrender charge applicable as of the date of reinstatement. We reserve the right to change the requirements to reinstate a lapsed Contract.

TAXES

Tax Treatment Of Contract Benefits

This summary provides general information on the federal income tax treatment of the Contract. It is not a complete statement of what the federal income taxes will be in all circumstances. It is based on current law and interpretations, which may change. It does not cover state taxes or other taxes. It is not intended as tax advice. You should consult your own tax adviser for complete information and advice.

Treatment as Life Insurance. The Contract must meet certain requirements to qualify as life insurance for tax purposes. These requirements include certain definitional tests and rules for diversification of the Contract's investments. For further information on the diversification requirements, see **Taxation** in the statements of additional information for the Funds.

In order to meet the definition of life insurance rules for federal income tax purposes, the Contract must satisfy one of the two following tests: (1) Cash Value Accumulation Test or (2) Guideline Premium Test. At issue, the Contract Owner chooses which of these two tests will apply to their Contract. This choice cannot be changed thereafter.

Under the Cash Value Accumulation Test, the Contract must maintain a minimum ratio of Death Benefit to cash value. Therefore, in order to ensure that the Contract qualifies as life insurance, the Contract's Death Benefit may increase as the Contract Fund value increases. The Death Benefit, at all times, must be at least equal to the Contract Fund multiplied by the applicable Attained Age factor. Attained Age factors under this test vary based on the Attained Age, sex, and smoker classification of the insured. For example, the Attained Age factors for a male, age 26, nonsmoker, range from 7.75 in the first year to 1.00 at age 121 and older.

Under the Guideline Premium Test, there is a limit as to the amount of premium that can be paid into the Contract in relation to the Death Benefit. In addition, there is a minimum ratio of Death Benefit to cash value associated with this test. This ratio, however, is less than the required ratio under the Cash Value Accumulation Test. Therefore, the Death Benefit required under this test is generally lower than that of the Cash Value Accumulation Test. The Attained Age factors under this test are based on the Attained Age of the insured. For example, the Attained Age factors for an insured age 26 range from 2.50 in the first year to 1.00 at age 95 and older.

A listing of Attained Age factors for the insured can be found on your Contract's data pages.

The selection of the definition of life insurance test most appropriate for you is dependent on several factors, including the insured's age at issue, actual Contract earnings, and whether or not the Contract is classified as a Modified Endowment Contract. In addition, the Guideline Premium Test is required for the definition of life insurance if you choose to have the Overloan Protection Rider. See **Overloan Protection Rider**. You should consult your own tax adviser for complete information and advice with respect to the selection of the definition of life insurance test.

We believe we have taken adequate steps to insure that the Contract qualifies as life insurance for tax purposes. Generally speaking, this means that:

- you will not be taxed on the growth of the funds in the Contract, unless you receive a distribution from the Contract, or if the Contract lapses or is surrendered, and
- the Contract's Death Benefit will generally be income tax free to your beneficiary. However, your Death Benefit may be subject to estate taxes, and
- we may refuse to accept any payment that increases the Death Benefit by more than it increases the Contract Fund.

Although we believe that the Contract should qualify as life insurance for tax purposes, there are some uncertainties, particularly because the Secretary of Treasury has not yet issued permanent regulations that bear on this question. Accordingly, we reserve the right to make changes -- which will be applied uniformly to all Contract Owners after advance written notice -- that we deem necessary to insure that the Contract will qualify as life insurance.

The Contract may not qualify as life insurance under federal tax law after the insured has attained age 100 and may be subject to adverse tax consequences. A tax adviser should be consulted before you choose to continue the Contract after the insured reaches age 100.

Pre-Death Distributions. The tax treatment of any distribution you receive before the insured's death depends on whether the Contract is classified as a Modified Endowment Contract.

Contracts Not Classified as Modified Endowment Contracts

- If you surrender the Contract or allow it to lapse, you will be taxed on the amount you received in excess of the premiums you paid less the untaxed portion of any prior withdrawals. For this purpose, you will be treated as receiving any portion of the Cash Surrender Value used to repay Contract Debt. In other words, you will immediately have taxable income to the extent of gain in the Contract. Reinstatement of the Contract after lapse will not eliminate the taxable income, which we are required to report to the IRS. The tax consequences of a surrender may differ if you take the proceeds under an income payment settlement option.
- Generally, you will be taxed on a withdrawal to the extent the amount you receive exceeds the premiums you paid for the Contract less the untaxed portion of any prior withdrawals. However, under some limited circumstances, in the first 15 Contract Years, all or a portion of a withdrawal may be taxed if the Contract Fund exceeds the total premiums paid less the untaxed portions of any prior withdrawals, even if total withdrawals do not exceed total premiums paid.
- Extra premiums for optional benefits and riders generally do not count in computing the premiums paid for the Contract for the purposes of determining whether a withdrawal is taxable.

- Loans you take against the Contract are ordinarily treated as debt and are not considered distributions subject to tax. However, you should know that the IRS may take the position that the preferred loan should be treated as a distribution for tax purposes because of the relatively low differential between the loan interest rate and Contract's crediting rate. Were the IRS to take this position, we would take reasonable steps to avoid this result, including modifying the Contract's loan provisions.

Modified Endowment Contracts

- The rules change if the Contract is classified as a Modified Endowment Contract. The Contract could be classified as a Modified Endowment Contract if premiums in amounts that are too large are paid or a decrease in the Basic Insurance Amount is made (or a rider removed). We will notify you if a premium or a change in Basic Insurance Amount would cause the Contract to become a Modified Endowment Contract, and advise you of your options. You should first consult a tax adviser and your Pruco Life of New Jersey representative if you are contemplating any of these steps.
- If the Contract is classified as a Modified Endowment Contract, then amounts you receive under the Contract before the insured's death, including loans and withdrawals, are included in income to the extent that the Contract Fund before surrender charges exceeds the premiums paid for the Contract increased by the amount of any loans previously included in income and reduced by any untaxed amounts previously received other than the amount of any loans excludable from income. An assignment of a Modified Endowment Contract is taxable in the same way. These rules also apply to pre-death distributions, including loans and assignments, made during the two-year period before the time that the Contract became a Modified Endowment Contract.
- Any taxable income on pre-death distributions (including full surrenders) is subject to a penalty of 10 percent unless the amount is received on or after age 59½, on account of your becoming disabled or as a life annuity. It is presently unclear how the penalty tax provisions apply to Contracts owned by businesses.
- All Modified Endowment Contracts issued by us to you during the same calendar year are treated as a single Contract for purposes of applying these rules.

Investor Control. Treasury Department regulations do not provide specific guidance concerning the extent to which you may direct your investment in the particular Variable Investment Options without causing you, instead of us, to be considered the owner of the underlying assets. Because of this uncertainty, we reserve the right to make such changes as we deem necessary to assure that the Contract qualifies as life insurance for tax purposes. Any such changes will apply uniformly to affected Contract Owners and will be made with such notice to affected Contract Owners as is feasible under the circumstances.

Withholding. You must affirmatively elect that no taxes be withheld from a pre-death distribution. Otherwise, the taxable portion of any amounts you receive will be subject to withholding. You are not permitted to elect out of withholding if you do not provide a social security number or other taxpayer identification number. You may be subject to penalties under the estimated tax payment rules if your withholding and estimated tax payments are insufficient to cover the tax due.

Other Tax Considerations. If you transfer or assign the Contract to someone else, there may be gift, estate and/or income tax consequences. If you transfer the Contract to a person two or

more generations younger than you (or designate such a younger person as a beneficiary), there may be Generation Skipping Transfer tax consequences. Deductions for interest paid or accrued on Contract Debt or on other loans that are incurred or continued to purchase or carry the Contract may be denied. Your individual situation or that of your beneficiary will determine the federal estate taxes and the state and local estate, inheritance and other taxes due if you or the insured dies.

Business-Owned Life Insurance. If a business, rather than an individual, is the owner of the Contract, there are some additional rules. Business Contract Owners generally cannot deduct premium payments. Business Contract Owners generally cannot take tax deductions for interest on Contract Debt paid or accrued after October 13, 1995. An exception permits the deduction of interest on Contract loans on Contracts for up to 20 key persons. The interest deduction for Contract Debt on these loans is limited to a prescribed interest rate and a maximum aggregate loan amount of \$50,000 per key insured person. The corporate alternative minimum tax also applies to business-owned life insurance. This is an indirect tax on additions to the Contract Fund or Death Benefits received under business-owned life insurance policies.

For business-owned life insurance coverage issued after August 17, 2006, Death Benefits will generally be taxable as ordinary income to the extent it exceeds cost basis. Life insurance Death Benefits will continue to be generally income tax free if, prior to Contract issuance, the employer provided a prescribed notice to the proposed insured/employee, obtained the employee's consent to the life insurance, and one of the following requirements is met: (a) the insured was an employee at any time during the 12-month period prior to his or her death; (b) the insured was a director or highly compensated employee or individual (as defined in the Code) at the time the Contract was issued; or (c) the Death Benefits are paid to the insured's heirs or his or her designated beneficiaries (other than the employer), either directly as a Death Benefit or received from the purchase of an equity (or capital or profits) interest in the applicable Contract Owner. Annual reporting and record keeping requirements will apply to employers maintaining such business-owned life insurance.

Sales of Issued Life Insurance Policies to Third Parties. If you sell your Contract to a third party, such as a life settlement company, that purchaser is required to report the amount of the sales proceeds to us and the IRS. We are then required to report your cost basis in that Contract to you and the IRS.

Company Taxes

Under current law, we may incur state and local taxes (in addition to premium taxes) in several states. Currently, these taxes are not significant and they are not charged against the Account. If there is a material change in the applicable state or local tax laws, we may impose a corresponding charge against the Account.

The earnings of the Account are taxed as part of our operations. Currently, no charge is being made to the Account for our federal income taxes, other than the 0.75% charge for federal income taxes measured by premiums. See **Premium Based Administrative Charge.** We periodically review the question of a charge to the Account for our federal income taxes. We may charge such a fee in the future for any federal income taxes that would be attributable to the Contracts.

In calculating our corporate income tax liability, we may derive certain corporate income tax benefits associated with the investment of company assets, including separate account assets, which are treated as company assets under applicable income tax law. These benefits reduce our overall corporate income tax

liability. We do not pass these tax benefits through to Contract Owners with investments in separate account assets because (i) the Contract Owners are not the owners of the assets generating

these benefits under applicable income tax law and (ii) we do not currently include company income taxes in the tax charges you pay under the Contract.

DISTRIBUTION AND COMPENSATION

Pruco Securities, LLC ("Pruco Securities"), an indirect wholly-owned subsidiary of Prudential Financial, Inc., acts as the principal underwriter of the Contract. Pruco Securities, organized on September 22, 2003, under New Jersey law, is registered as a broker and dealer under the Securities Exchange Act of 1934 and is a registered member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). (Pruco Securities is a successor company to Pruco Securities Corporation, established on February 22, 1971.) Pruco Securities' principal business address is 751 Broad Street, Newark, New Jersey 07102. Pruco Securities serves as principal underwriter of the individual variable insurance Contracts issued by us. The Contract is sold by registered representatives of Pruco Securities who are also our appointed insurance agents under state insurance law. The Contract may also be sold through other broker-dealers authorized by Pruco Securities and applicable law to do so. Pruco Securities received gross distribution revenue for its variable life insurance products of \$XXX,XXX,XXX in 2018, \$120,592,554 in 2017, and \$100,714,661 in 2016. Pruco Securities passes through the gross distribution revenue it receives to broker-dealers for their sales and does not retain any portion of it in return for its services as distributor for the Contracts. However, Pruco Securities does retain a portion of compensation it receives with respect to sales by its representatives. Pruco Securities retained compensation of \$X,XXX,XXX in 2018, \$2,855,401 in 2017, and \$2,574,216 in 2016. Pruco Securities offers the Contract on a continuous basis.

Compensation (commissions, overrides, and any expense reimbursement allowance) is paid to broker-dealers that are registered under the Exchange Act and/or entities that are exempt from such registration ("firms") according to one or more schedules. The individual representative will receive all or a portion of the compensation, depending on the practice of the firm. Compensation is based on a premium value referred to as the Commissionable Target Premium. The Commissionable Target Premium is equal to the first Contract Year's surrender charge (which is found in your Contract Data pages) divided by the Percentage of Sales Load Target Premium at start of Contract Year one from the table in the Surrender Charges section of this prospectus. The Commissionable Target Premium will vary by issue age, sex, underwriting classification, and any riders selected by the Contract Owner. For Type B Death Benefit Contracts, the Commissionable Target Premium, Sales Load Target Premium and Surrender Charge Target Premiums will vary from Contracts with Type A or Type C Death Benefits.

Broker-dealers will receive compensation of up to 99% of premiums received in the first 12 months following the Contract Date on total premiums received since issue up to the Commissionable Target Premium, up to 25% of Commissionable Target Premium received in year two, up to 10% in years three and four, and up to 8.5% of the Commissionable Target Premium received in years five through 10. Moreover, broker-dealers will receive compensation of up to 4% on premiums received in year one, up to 3% on premiums received in years two through four,

and up to 2.5% on premiums received in years five through 10 to the extent that premiums paid in any year exceed the Commissionable Target Premium.

Pruco Securities registered representatives who sell the Contract are also our life insurance agents, and may be eligible for various cash bonuses and insurance benefits and non-cash compensation programs that we or our affiliates offer such as conferences, trips, prizes and awards, subject to applicable regulatory requirements. In some circumstances and to the extent permitted by applicable regulatory requirements, we may also reimburse certain sales and marketing expenses.

In addition, in an effort to promote the sale of our variable products (which may include the placement of our Contracts on a preferred or recommended company or product list and/or access to a broker-dealer's registered representatives), we or Pruco Securities may enter into compensation arrangements with certain broker-dealer firms authorized by Pruco Securities to sell the Contract, or branches of such firms, with respect to certain or all registered representatives of such firms under which such firms may receive separate compensation or reimbursement for, among other things, training of sales personnel, marketing and/or administrative and/or other services they provide to us or our affiliates. To the extent permitted by applicable rules, laws, and regulations, Pruco Securities may pay or allow other promotional incentives or payments in the form of cash or non-cash compensation. These arrangements may not be offered to all firms, and the terms of such arrangements may differ between firms. You should note that firms and individual registered representatives and branch managers within some firms participating in one of these compensation arrangements might receive greater compensation for selling the Contract than for selling a different contract that is not eligible for these compensation arrangements.

A list of the names of the firms (or their affiliated broker/dealers) that we are aware of (as of December 31, 2018) that received payment or accrued a payment amount with respect to variable product business during 2018 may be found in the statement of additional information. The least amount paid or accrued and the greatest amount paid or accrued during 2018 were \$X.XX and \$X,XXX,XXX, respectively.

While compensation is generally taken into account as an expense in considering the charges applicable to a variable life insurance product, any such compensation will be paid by us, and will not result in any additional charge to you or to the Account. Your registered representative can provide you with more information about the compensation arrangements that apply upon the sale of the Contract.

In addition, we or our affiliates may provide such compensation, payments and/or incentives to firms arising out of the marketing, sale and/or servicing of variable annuities or life insurance offered by different Prudential business units.

LEGAL PROCEEDINGS

Pruco Life of New Jersey is subject to legal and regulatory actions in the ordinary course of our business. Pending legal and regulatory actions include proceedings specific to Pruco Life of New Jersey and proceedings generally applicable to business practices in the industry in which we operate. Pruco Life of New Jersey may be subject to class action lawsuits and other litigation

involving a variety of issues and allegations involving sales practices, claims payments and procedures, premium charges, policy servicing and breach of fiduciary duty to customers. Pruco Life of New Jersey may also be subject to litigation arising out of its general business activities, such as its investments, contracts, leases and labor and employment relationships, including claims

of discrimination and harassment, and could be exposed to claims or litigation concerning certain business or process patents. In addition, Pruco Life of New Jersey, along with other participants in the businesses in which it engages, may be subject from time to time to investigations, examinations and inquiries, in some cases industry-wide, concerning issues or matters upon which such regulators have determined to focus.

Pruco Life of New Jersey's litigation and regulatory matters are subject to many uncertainties, and given their complexity and scope, their outcome cannot be predicted. In some of Pruco Life of New Jersey's pending legal and regulatory actions, parties are seeking large and/or indeterminate amounts, including punitive or exemplary damages. It is possible that Pruco Life of New Jersey's results of operations or cash flow in a particular quarterly or annual period could be materially affected by an ultimate

unfavorable resolution of pending litigation and regulatory matters depending, in part, upon the results of operations or cash flow for such period. In light of the unpredictability of Pruco Life of New Jersey's litigation and regulatory matters, it is also possible that in certain cases an ultimate unfavorable resolution of one or more pending litigation or regulatory matters could have a material adverse effect on Pruco Life of New Jersey's financial position. Management believes, however, that, based on information currently known to it, the ultimate outcome of all pending litigation and regulatory matters, after consideration of applicable reserves and rights to indemnification, is not likely to have a material adverse effect on: the Account; the ability of Pruco Securities to perform its contract with the Account; or Pruco Life of New Jersey's ability to meet its obligations under the Contracts.

FINANCIAL STATEMENTS

Our audited financial statements are shown in the statement of additional information and should be considered only as bearing upon our ability to meet its obligations under the Contract. The

Account's audited financial statements are also available in the statement of additional information to this prospectus.

ADDITIONAL INFORMATION

We have filed a registration statement with the SEC under the Securities Act of 1933, relating to the offering described in this prospectus. This prospectus does not include all the information set forth in the registration statement. Certain portions have been omitted pursuant to the rules and regulations of the SEC. The omitted information may, however, be obtained from the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549, or by telephoning (202) 551-8090, upon payment of a prescribed fee.

To reduce costs, we now generally send only a single copy of prospectuses and shareholder reports to each household ("householding"), in lieu of sending a copy to each Contract Owner that resides in the household. You should be aware that you can revoke or "opt out" of householding at any time by calling 877-778-5008.

Pursuant to the delivery obligations under Section 5 of the Securities Act of 1933 and Rule 159 thereunder, Pruco Life of New

Jersey delivers this prospectus to Contract Owners that reside outside of the United States. In addition, we may not market or offer benefits, features, or enhancements to prospective or current Contract Owners while outside of the United States.

You may contact us for further information at the address and telephone number inside the front cover of this prospectus. For service or questions about your Contract, please contact our Service Office at the phone number on the back cover or at P.O. Box 7390, Philadelphia, Pennsylvania 19176.

Cyber Security Risks

We provide more information about cyber security risks associated with this Contract in the statement of additional information.

DEFINITIONS OF SPECIAL TERMS USED IN THIS PROSPECTUS

Attained Age – The insured's age on the Contract Date plus the number of years since then.

Basic Insurance Amount – The total amount of life insurance as shown in the Contract. Does not include any riders that may be attached to the Contract.

Cash Surrender Value – The amount payable to the Contract Owner upon surrender of the Contract. It is equal to the Contract Fund minus any Contract Debt and minus any applicable surrender charge. Also referred to in the Contract as "Net Cash Value."

Contract – The variable universal life insurance Contract described in this prospectus.

Contract Anniversary – The same date as the Contract Date in each later year.

Contract Date – The date the Contract is effective, as specified in the Contract.

Contract Debt – The principal amount of all outstanding loans plus any interest accrued thereon.

Contract Fund – The total amount credited to a specific Contract. On any date it is equal to the sum of the amounts in all the Variable Investment Options and the Fixed Rate Option, and the principal amount of any Contract Debt plus any interest earned thereon.

Contract Owner – You. Unless a different owner is named in the application, the owner of the Contract is the insured.

Contract Year – A year that starts on the Contract Date or on a Contract Anniversary.

Death Benefit – If the Contract is not in default, this is the amount we will pay upon the death of the insured, assuming no Contract Debt.

Fixed Rate Option – An investment option under which interest is accrued daily at a rate that we declare periodically, but not less than an effective annual rate of 1%.

Fund – Amounts you invest in a Variable Investment Option will be invested in a corresponding Fund of the same name. A Fund may also be called a "Portfolio."

Good Order – An instruction utilizing such forms, signatures, and dating as we require, which is sufficiently clear and complete and for which we do not need to exercise any discretion to follow such instructions.

Limited No-Lapse Guarantee Premiums – Premiums that, if paid at the beginning of each Contract Year, will keep a Contract with a Type A or a Type B Death Benefit in force until the insured's Attained Age 75, or if later, during the first 10 Contract Years,

regardless of investment performance and assuming no loans or withdrawals.

Monthly Date – The Contract Date and the same date in each subsequent month.

Net Amount At Risk – The amount by which the Contract's Death Benefit exceeds the Contract Fund. For example if the Contract's Death Benefit is \$500,000 and the Contract Fund is \$100,000, the Net Amount At Risk is \$400,000.

No-Lapse Guarantee – Sufficient premium payments, on an accumulated basis, will guarantee that your Contract will not lapse for a specified duration and a Death Benefit will be paid upon the death of the insured, regardless of investment experience and assuming no loans or withdrawals.

Payment Office – The office at which we process premium payments, loan payments, and payments to bring your Contract out of default. Your correspondence will be picked up at the address on your bill to which you are directed to send these payments and then delivered to our Payment Office. For items required to be sent to our Payment Office, your correspondence is not considered received by us until it is received at our Payment Office. Where this Prospectus refers to the day when we receive a premium payment, loan payment or a payment to bring your Contract out of default, we mean the day on which that item (or the last thing necessary for us to process that item) arrives in Good Order at our Payment Office. There are two main exceptions: if the item is received at our Payment Office (1) on a day that is not a business day or (2) after the close of a business day, then, in each case, we are deemed to have received that item on the next business day.

Pruco Life Insurance Company of New Jersey – Pruco Life of New Jersey, us, we, our. The company offering the Contract.

Sales Load Target Premium – A premium that is used to determine sales load and varies by the insured's issue age, sex, underwriting classification, as well as any riders selected by the Contract Owner.

Separate Account – Amounts under the Contract that are allocated to the Fund(s) are held by us in a Separate Account called the Pruco Life of New Jersey Variable Appreciable Account (the "Account" or the "Registrant"). The Separate Account is set apart from all of our general assets. Thus, such assets that are held in support of client accounts are not chargeable with liabilities arising out of any other business Pruco Life of New Jersey conducts.

Service Office – The office at which we process allocation change requests, withdrawal requests, surrender requests, transfer requests, ownership change requests and assignment requests. Correspondence with our Service Office should be sent to P.O. Box 7390, Philadelphia, Pennsylvania 18176. Your correspondence will be picked up at this address and then delivered to our Service Office. For requests required to be sent to our Service Office, your request is not considered received by us until it is received at our Service Office. Where this Prospectus refers to the day when we receive a request from you, we mean the day on which that item (or the last thing necessary for us to process that item) arrives in Good Order at our Service Office or via the appropriate telephone number, fax number, or website if the item is a type we accept by those means. There are two main exceptions: if the request is received (1) on a day that is not a business day or (2) after the close of a business day, then, in each case, we are deemed to have received that item on the next business day.

Short Term No-Lapse Guarantee Premiums – Premiums that, if paid at the beginning of each Contract Year, will keep the Contract in force during the first eight Contract Years (six Contract Years for issue ages 60 and above), regardless of investment performance and assuming no loans or withdrawals.

Valuation Period – The period of time from one determination of the value of the amount invested in a Variable Investment Option to the next. Such determinations are made when the net asset values of the Variable Investment Options are calculated, which would be as of the close of regular trading on the New York Stock Exchange (generally 4:00 p.m. Eastern time).

Variable Investment Options – The investment options of the Account. When you choose a Variable Investment Option, we purchase shares of the Fund that corresponds to that option. We hold these shares in the Account.

To Learn More About *PruLife® Custom Premier II*

The statement of additional information ("SAI") is legally a part of this prospectus, both of which are filed with the Securities and Exchange Commission ("SEC") under the Securities Act of 1933, Registration No. XXX-XXXXXX. The SAI contains additional information about the Pruco Life of New Jersey Variable Appreciable Account. All of these filings can be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the public reference room may be obtained by calling the Commission at 202-551-8090. The SEC also maintains a website (<http://www.sec.gov>) that contains the *PruLife® Custom Premier II* SAI, material incorporated by reference, and other information about us. Copies of these materials can also be obtained, upon payment of duplicating fees, from the SEC's Public Reference Room, 100 F Street, N.E., Washington, D.C. 20549.

You can call us at 800-944-8786 to ask us questions, request information about the Contract, and obtain copies of the SAI, and personalized illustrations, without charge, or other documents. PROSPECTUS SUPPLEMENT

Supplement dated May 1, 2019, to the prospectus dated May 1, 2019

PruLife® Custom Premier II

PRUCO LIFE OF NEW JERSEY INSURANCE COMPANY

PRUCO LIFE OF NEW JERSEY VARIABLE APPRECIABLE ACCOUNT

This supplement should be read and retained with the current prospectus for your Variable Life Insurance Contract. This supplement is intended to accompany the prospectus and provides information on your Variable Life Insurance Contract's S&P 500® Indexed Account Rider option. If you would like another copy of the current prospectus, please contact us at (800) 944-8786.

S&P 500® INDEXED ACCOUNT RIDER

This supplement provides for an additional rider to the Contract called the S&P 500® Indexed Account Rider. This rider provides for the addition of an investment option - the S&P 500® Indexed Account. This investment option is only available by this supplement to the prospectus. This supplement (and rider) may not be available through all brokers. There is no charge for this rider and it may be added after Contract issuance.

Capitalized terms used in this supplement are defined herein or in the prospectus.

INVESTING THROUGH THE S&P 500® INDEXED ACCOUNT

The S&P 500® Indexed Account ("Indexed Account") is an optional investment option that offers the opportunity to earn an interest credit based in part on the performance of the external index, the S&P 500® Index, subject to minimums and maximums. The Indexed Account provides limited exposure to potential market growth opportunities with a certain level of protection in down market cycles.

The S&P 500® Index Values used in Indexed Account calculations are exclusive of dividends. Although the Indexed Account provides interest credits linked to the S&P 500® Index, money placed in the Indexed Account is not a direct investment in the S&P 500® Index (you cannot invest directly in the index). You are not purchasing or investing in any of the stocks that make up the Index and therefore have no rights of ownership such as the right to earn dividends, receive distributions or the right to vote.

Amounts in the Indexed Account become part of your Contract Fund. The Indexed Account is comprised of one or more Segments. When you allocate premiums or transfer funds to the Indexed Account, we place those funds temporarily into an account called the Fixed Holding Account. Then, once each month, we transfer the entire balance of the Fixed Holding Account into the Indexed Account. Each time we transfer the value of the Fixed Holding Account to the Indexed Account, we create an Indexed Account Segment. These Segments are the components of the Indexed Account that qualify for Index Interest Credits. Each Segment matures one year (point to point) from the date it was created. At Segment maturity we determine the change in Index Value and apply the Segment's predetermined Participation Rate, Index Growth Floor, and Index Growth Cap to calculate the Index Growth Rate. We then subtract the guaranteed minimum Index Growth Floor (which is credited daily) from the Index Growth Rate and multiply the result by the Average Daily Segment Value. The outcome of these calculations determines the Segment's Index Interest Credit and final Segment maturity value.

Each of these functions and components of the Indexed Account are described further below. It is important that you understand how the Indexed Account functions as well as its limitations and impacts on other Contract features and functions.

All guarantees are based on our claims paying ability and financial strength. Current and historical S&P 500® Indexed Account rates and performance can be found at www.prudential.com/eprospectus.

Premium Allocations To the Indexed Account

Net premiums are allocated to your investment options pursuant to your premium allocation instructions. You may allocate up to 100% of your net premiums to the Indexed Account. Net premium allocation instructions are also used for any other amounts placed into the Contract Fund, such as loan repayments, interest credits on outstanding loans, any Enhanced Disability Benefit payment, and any added persistency credit.

Fixed Holding Account

Net premiums and other amounts allocated to the Indexed Account, or funds requested to be transferred to the Indexed Account, will be temporarily placed in the Fixed Holding Account on the effective date of the payment or requested transfer, prior to being transferred to the Indexed Account on the Monthly Transfer date. Additionally, any portion of a maturing Segment allocated to the Indexed Account will also be placed in the Fixed Holding Account on the applicable Segment maturity date. Net premiums may not be directly allocated to the Fixed Holding Account, as it is only intended to temporarily hold the funds that are being allocated, or requested to be transferred, to the Indexed Account.

Amounts in the Fixed Holding Account are part of your Contract Fund. We guarantee that the part of the Contract Fund allocated to the Fixed Holding Account will accrue interest daily at an effective annual rate that we declare periodically, but not less than an effective annual rate of 1%. We are not obligated to credit interest at a rate higher than an effective annual rate of 1%, although we may do so.

Monthly Transfer

Each month the current value of the Fixed Holding Account (including any interest earned) is transferred into the Indexed

Account. This Monthly Transfer occurs on the 15th day of each month. If the 15th of the month falls on a weekend or holiday, or any other time the New York Stock Exchange ("NYSE") is closed, the Monthly Transfer to the Indexed Account will process on the next business day, but we will use the last published Index Value preceding the Monthly Transfer date. For example, September 15, 2018, falls on a Saturday, therefore, the Monthly Transfer from the Fixed Holding Account to the Indexed Account would process on Monday, September 17, 2018, with a starting Index Value based on the closing Index Value from Friday, September 14, 2018.

We reserve the right to retain any funds in the Fixed Holding Account that were received into the Fixed Holding Account within two business days prior to a Monthly Transfer date until the following Monthly Transfer date. We will notify you in advance if we exercise this right.

Indexed Account Segments ("Segments")

A new Indexed Account Segment may be created on each Monthly Transfer date. This is called the "Segment start date." Amounts transferred from the Fixed Holding Account are combined with any Designated Transfer amounts when creating the Segment. Segments may only be created on Monthly Transfer dates. At any given time, the value in the Indexed Account will be equal to the sum of the value in each Segment.

Once a Segment is created its Participation Rate, Index Growth Floor, and Index Growth Cap cannot be changed. No transfers may be requested out of a Segment prior to the Segment maturity date.

Designated Transfers

To facilitate large premium payments intended for the Indexed Account, you may establish reoccurring, monthly transfers, called Designated Transfers, to the Indexed Account. This will allow for multiple Segments to be created, over time, from one (or more) premium payment. When you create a Designated Transfer, we move the dollar amount specified from the Fixed Rate Option to the Indexed Account on the Monthly Transfer date. The amount of the Designated Transfer is combined with any amount transferred from the Fixed Holding Account to form a Segment. You may choose to limit the number of monthly Designated Transfers to a set number of occurrences. Designated Transfers must be specified in dollar amounts (not percentages). Designated Transfers may not originate from any of the Variable Investment Options. There is no minimum Designated Transfer dollar amount or number of occurrences.

If on any Monthly Transfer date, the value in the Fixed Rate Option is less than the specified amount, we will transfer the full value of Fixed Rate Option to the Indexed Account. Your Designated Transfer instructions stay in effect until cancelled by you, are stopped by us due to certain situations described below under "Loans," or the requested number of monthly occurrences have been processed. If the Fixed Rate Option value is zero and the Designated Transfer instructions have not been cancelled, stopped, or expired, Designated Transfers will automatically resume when the Fixed Rate Option value is replenished. You may change the amount of the Designated Transfer at any time and your new instructions will take effect on the next Monthly Transfer date. Your request to change or cancel your Designated Transfer instructions must be received in Good Order at our Service Office to become effective. We reserve the right to postpone the effective date for one month of any request to add or change a Designated Transfer, if the request is received within two business days of a Monthly Transfer date. We will notify you in advance if we exercise this right.

Segment Maturity

Segments mature one year from the Segment start date on which they were created. If the 15th of the month falls on a weekend or holiday, or any other time the NYSE is closed, the Segment's maturity will be processed on the next business day, but we will use the last published Index Value preceding the Segment maturity date. Continuing with the example under Monthly Transfer above, when the Index Interest is credited in September of 2019, it would be based on the closing Index Values from Friday, September 14, 2018, and Friday, September 13, 2019, since September 15, 2019, falls on a Sunday.

At Segment maturity, the Segment may be credited with an Index Interest Credit. If your Contract lapses or terminates before the Segment maturity date, no Index Interest will be credited.

After the Contract is issued (with this rider), you may submit maturing Segment allocation instructions that will direct the proceeds of a maturing Segment to your chosen investment option(s), including the Fixed Rate Option, the Indexed Account, or Variable Investment Options. You may only select up to five investment options in your maturing Segment allocation instructions. The maximum amount that can be allocated to the Variable Investment Options is 25% of the maturing Segment's value. Allocation instructions must be in whole percentages totaling 100%. Your maturing Segment allocation instructions must be received in Good Order at our Service Office to become effective. By default, and unless maturing Segment allocation instructions are provided by you, 100% of the maturing Segment value will be allocated to the Indexed Account. Value from maturing Segments allocated to the Indexed Account will be temporarily placed into the Fixed Holding Account on the Segment maturity date and included in the current Monthly Transfer process to establish a new Segment.

We reserve the right to delay the election of, or changes to, maturing Segment allocation instructions that are received within two business days prior to a Monthly Transfer date. We will notify you in advance if we exercise this right.

Index Value

The Index Value on any date is the published value of the S&P 500® Index, excluding any dividends that may be paid by the firms that comprise the index, as of the close of business on that date. If there is no published closing value for the index on a Segment start date or a Segment maturity date, we will use the most recently published closing value for the index.

Participation Rate

The Participation Rate is the percentage of the gain (if any) in the Index Value that is used to calculate Index Growth Rate. When calculating the Index Growth Rate, the Participation Rate is applied before the Index Growth Floor and Index Growth Cap. Participation Rates for new Segments in the Indexed Account may change, but they will never be lower than the guaranteed minimum Participation Rate of 100%. Once an Segment is created, its Participation Rate will not change. The current Participation Rate in effect may be found on www.prudential.com/eprospectus or obtained by contacting your Pruco Life of New Jersey representative or our customer service office at (800) 944-8786, Monday through Friday, 8:00 a.m. to 8:00 p.m., Eastern Time.

Index Growth Floor

The Index Growth Floor is the minimum rate of interest that will be credited to a given Segment and is used in determining the Index Growth Rate for each Segment. When calculating the Index Growth Rate, the Index Growth Floor is applied after the Participation Rate and before the Index Growth Cap.

The guaranteed minimum Index Growth Floor rate for the Indexed Account is 1% and each Segment is credited interest daily at this rate. At segment maturity, the guaranteed Index Growth Floor rate will be deducted from the Index Growth Rate when determining the Index Interest Credit.

Index Growth Floors for new Segments are determined in advance. The Index Growth Floor for a given Segment is determined on its Segment start date. The Index Growth Floor may be raised or lowered at our discretion before the Segment is created but will never be lower than the guaranteed minimum Index Growth Floor. Once a Segment is created, its Index Growth Floor will not change. The floor is not a guarantee against loss, as the deduction of Contract charges and fees could reduce the overall cash value of the Indexed Account. The current Index Growth Floor in effect may be found on www.prudential.com/eprospectus or obtained by contacting your Pruco Life of New Jersey representative or our customer service office at (800) 944-8786, Monday through Friday, 8:00 a.m. to 8:00 p.m., Eastern Time.

Index Growth Cap

The Index Growth Cap is the maximum rate of interest a Segment may receive and is used in determining the Index Growth Rate for each Segment. When calculating the Index Growth Rate, the Index Growth Cap is applied after the Participation Rate and Index Growth Floor.

We guarantee a minimum Index Growth Cap of 3%. Index Growth Caps for new Segments are determined in advance. The Index Growth Cap for a given Segment is determined on the Segment start date. It may be raised or lowered at our discretion before the Segment is opened but will never be lower than the guaranteed minimum Index Growth Cap. Once a Segment is created its Index Growth Cap will not change. The current Index Growth Cap in effect may be found on www.prudential.com/eprospectus or obtained by contacting your Pruco Life of New Jersey representative or our customer service office at (800) 944-8786, Monday through Friday, 8:00 a.m. to 8:00 p.m., Eastern Time.

Index Growth Rate

The Index Growth Rate is used in determining an Index Interest Credit. It equals: (a) divided by (b), minus 1, then times (c), but not less than (d) and not greater than (e), where:

- (a) = the Index Value on the Segment maturity date
- (b) = the Index Value on the Segment start date
- (c) = the Participation Rate
- (d) = the Index Growth Floor
- (e) = the Index Growth Cap

Average Daily Segment Value ("ADSV")

When a Segment matures, the ADSV is used along with the Index Growth Rate and guaranteed minimum Interest Rate Floor to calculate any Index Interest Credit. The ADSV is equal to the amount allocated to the Indexed Account Segment on the Segment start date less a prorated portion of the amounts withdrawn or deducted during the Segment's duration. The prorating is based on the number of calendar days from the withdrawal, loan, or deduction transaction's effective date to the Segment maturity date, divided by the number of calendar days

from the Segment start date to the Segment maturity date. The prorating takes into account that a withdrawal, loan, or deduction occurring shortly after the Segment is created has more of an impact on the ADSV than a withdrawal, loan, or deduction occurring near the end of the Segment's duration.

Index Interest Credit

On each Segment's maturity date, we will determine the Segment's Index Interest Credit and Segment maturity value. To determine the Index Interest Credit, we take the greater of: a) the Index Growth Rate minus the guaranteed minimum Index Growth Floor, and b) zero. The greater of these two values is multiplied by the Average Daily Segment Value to determine the Indexed Interest Credit. The Index Interest Credit is added to the value of the Segment on the maturity date to determine the final Segment maturity value.

Examples Of Index Interest Credit At Segment Maturity

The following hypothetical examples illustrate the value of a maturing Segment at the end of its 12-month term using various amounts of change in S&P 500® Index Values over the period. The example assumes the illustrated Segments were created with a starting value of \$1,000, were not reduced due to any charges or distributions (\$1,000 ADSV), and use current Participation Rate (100%), Index Growth Floor (1%), and Index Growth Cap (8%).

Example*	Change In S&P 500® Index Values	Index Growth Rate	Index Interest Credit	Segment Maturity Value
A.	-5%	1%	\$0	\$1,010
B.	1%	1%	\$0	\$1,010
C.	5%	5%	\$40	\$1,050
D.	10%	8%	\$70	\$1,080

*Example:

- A. Demonstrates a negative change in the Index Value. The Index Growth Rate, however, is 1% due to the guaranteed minimum Index Growth Floor of 1%. When the guaranteed Index Growth Floor is subtracted from the Index Growth Rate, no Index Interest Credit is available.
- B. Demonstrates a positive change in the Index Value. The Index Growth Rate, however, is only 1%. When the guaranteed Index Growth Floor is subtracted from the Index Growth Rate, no Index Interest Credit is available.
- C. Demonstrates a positive change in the Index Value. When the guaranteed Index Growth Floor is subtracted from the Index Growth Rate, a 4% Index Interest Credit is applied at Segment maturity.
- D. Demonstrates a substantially positive change in the Index Value. The Index Growth Rate is limited by the Index Growth Cap. When the guaranteed Index Growth Floor is subtracted from the Index Growth Rate, a 7% Index Interest Credit is applied at Segment maturity.

ABOUT THE S&P 500® INDEXED ACCOUNT AND FIXED HOLDING ACCOUNT

Amounts in the Indexed Account and Fixed Holding Account become part of our general account. The general account consists of all assets owned by us other than those in the Separate Account and in other separate accounts that have been or may be established by us. Subject to applicable law, we have sole

discretion over the investment of the general account assets, and Contract Owners do not share in the investment experience of those assets. Instead, we guarantee that the part of the Contract Fund allocated to the Indexed Account and Fixed Holding Account will accrue interest as explained further in the section of this

supplement entitled **INVESTING THROUGH THE S&P 500 INDEXED ACCOUNT**. All guarantees are based on our claims paying ability and financial strength.

We believe that there are sufficient insurance elements and guarantees with respect to interests in the Indexed Account and Fixed Holding Account to qualify for an exemption from registration under the federal securities laws under Section 3(a)(8) of the Securities Act of 1933 and Section 989J(a)(1)-(3) of the Dodd-Frank Wall Street Reform and Consumer Protection Act. Therefore, interests in the Indexed Account and Fixed Holding Account under the Contract have not been registered under the Securities Act of 1933 and the general account has not been registered as an investment company under the Investment Company Act of 1940. Accordingly, interests in the Indexed Account and Fixed Holding Account are not subject to the provisions of these Acts. Any inaccurate or misleading disclosure regarding the Indexed Account and Fixed Holding Account is subject to certain generally applicable provisions of federal securities laws.

The S&P 500® Index is a product of S&P Dow Jones Indices LLC ("SPDJI"), and has been licensed for use by Prudential for itself and affiliates including Pruco Life of New Jersey. Standard & Poor's®, S&P®, and S&P 500® are registered trademarks of Standard & Poor's Financial Services LLC ("S&P"); Dow Jones® is a registered trademark of Dow Jones Trademark Holdings LLC ("Dow Jones"); and these trademarks have been licensed for use by SPDJI and sublicensed for certain purposes by Pruco Life of New Jersey. Pruco Life of New Jersey's products are not sponsored, endorsed, sold or promoted by SPDJI, Dow Jones, S&P, or their respective affiliates and none of such parties make any representation regarding the advisability of purchasing such product(s) nor do they have any liability for any errors, omissions, or interruptions of the S&P 500® Index. S&P 500® index values are exclusive of dividends.

Although the performance of the S&P 500® Index is a factor we make reference to in determining the Indexed Value, the S&P 500® Index is not otherwise part of the Contract nor is it affiliated with us.

Discontinuation Or Change To the Indexed Account

If the S&P 500® Index is discontinued or if the index calculation is substantially changed, we reserve the right to substitute a comparable index subject to our discretion. Prior to the use of such substitute index, we will notify you and any assignee of record of the substitution.

We reserve the right to withdraw or close the Indexed Account if it is determined that the indexed account is subject to registration under the Securities Act of 1933, or for any other reason in our sole discretion. Upon withdrawal or closure of the Indexed Account, no new transfers to the Indexed Account will be allowed. We will require that you update your premium allocation and maturing Segment allocation instructions to eliminate any future allocation to the Indexed Account, and Designated Transfer instructions will be cancelled. If the Indexed Account is withdrawn or closed, we will notify you and any assignee of record.

Elements Subject to Change

Subject to any guarantees described in this supplement and shown in your Contract's data pages, we have the right to set and to change from time to time the following elements used in calculating the Index Interest Credit for the Indexed Account: Participation Rate, Index Growth Floor, and Index Growth Cap. We will not change the index elements more frequently than once per month. Any setting of, or changes to any element described above will take into consideration one or more factors including, but not limited to expenses, investment earnings, and profit. Changes will be based on our future expectations with respect to any one or more of the factors we use to determine such changes. Any changes in index elements will be on a class basis as we determine, and such changes may increase or decrease the Index Interest Credit for future Segments. All changes will be determined only prospectively.

Changes to the Participation Rate, Index Growth Cap, and Index Growth Floor are not tied to the performance of the S&P 500® Index. Note that the most current Participation Rate, Cap, and Floor can be found on www.prudential.com/eprospectus or obtained by contacting your Pruco Life of New Jersey representative or our customer service office at (800) 944-8786, Monday through Friday, 8:00 a.m. to 8:00 p.m., Eastern Time.

IMPORTANT CONSIDERATIONS OF INVESTING THROUGH THE S&P 500® INDEXED ACCOUNT ON CONTRACT FUNCTIONS, FEATURES, AND RIDERS

The information below hereby modifies and amends the prospectus.

CHARGES AND EXPENSES

Unless you have directed otherwise, monthly Contract charges (**Cost Of Insurance** , **Administrative Charge For the Basic Insurance Amount** , **Additional Mortality Charge For Certain Risks** , and **Charges For Rider Coverage**) are generally deducted proportionately from the dollar amounts held in each of the Variable Investment Options and the Fixed Rate Option. If the amounts in the Variable Investment Options and the Fixed Rate Option are insufficient to cover the monthly charges, the Variable Investment Options and the Fixed Rate Option will be reduced to zero and the remaining amount due will be deducted first from the Fixed Holding Account and then (if necessary) from the Indexed Account. Monthly charges deducted from the Indexed Account will be taken from the most recently created Segment first and continue in a last in - first out ("LIFO") manner, as needed.

Surrender Charge

If, during the first 10 Contract Years the Basic Insurance Amount is decreased (including as a result of a withdrawal or a Death

Benefit type change), we may deduct a percentage of the surrender charge. The surrender charge is generally deducted proportionately from the dollar amounts held in each of the Variable Investment Options and the Fixed Rate Option. If the amounts in the Variable Investment Options and the Fixed Rate Option are insufficient to cover the surrender charge, the Variable Investment Options and the Fixed Rate Option will be reduced to zero and the remaining amount due will be deducted first from the Fixed Holding Account and then (if necessary) the Indexed Account. A surrender charge deducted from the Indexed Account will be taken from the most recently created Segment first and continue in a last in - first out ("LIFO") manner, as needed.

Mortality And Expense Risk Charge

This charge is not assessed against amounts allocated to the Fixed Rate Option, the Fixed Holding Account, or the Indexed Account.

Allocated Charges

The Indexed Account and the Fixed Holding Account may not be used as a source fund for allocated charges.

RIDERS

Overloan Protection Rider

If you exercise this rider, any unloaned Contract Fund value remaining in the Variable Investment Options must be transferred to the Fixed Rate Option or the Indexed Account. Premium allocation instructions must be updated, if necessary, to only include the Fixed Rate Option and/or Indexed Account.

PREMIUMS

Allocation Of Premiums

In addition to the Variable Investment Options and the Fixed Rate Option, you may choose to allocate all or a portion of your net premiums to the Indexed Account. Initial and subsequent net premium amounts allocated to the Indexed Account will be placed in the Fixed Holding Account until the Monthly Transfer date. We reserve the right to retain any funds in the Fixed Holding Account that were received into the Fixed Holding Account within two business days prior to a Monthly Transfer date until the following Monthly Transfer date. We will notify you in advance if we exercise this right.

We reserve the right to initiate a transfer restriction period whenever a requested loan causes a reduction in value of a Segment. Net Premiums may not be allocated to the Indexed Account during this period. See Loans (below).

Transfers/Restrictions On Transfers

You may transfer amounts from the Variable Investment Options and/or the Fixed Rate Option to the Indexed Account. Amounts transferred to the Indexed Account will first be placed in the Fixed Holding Account until the Monthly Transfer date. Any such requested transfers count towards the limit of 12 transfers per Contract Year and the limit of 20 transfers per calendar year. Transfers from the Fixed Rate Option to the Indexed Account may be made in any amount or percentage and are exempt from the maximum amount limitations applied when requesting a transfer from the Fixed Rate Option to the Variable Investment Options. We reserve the right to retain any funds in the Fixed Holding Account that were received into the Fixed Holding Account within two business days prior to a Monthly Transfer date until the following Monthly Transfer date. We will notify you in advance if we exercise this right.

Other than at time of Segment maturity, you may not transfer any amounts from the Indexed Account to either the Variable Investment Options or the Fixed Rate Option.

You may transfer amounts from the Fixed Holding Account to the Fixed Rate Option. You may not transfer amounts from the Fixed Holding Account to the Variable Investment Options. Any such requested transfers from the Fixed Holding Account applies towards the limit of 12 transfers per Contract Year and the limit of 20 transfers per calendar year. Transfers from the Fixed Holding Account to the Fixed Rate Option may be made in any amount or percentage. You may not conduct transfers from the Fixed Holding Account via the website. We reserve the right to deny a transfer request from the Fixed Holding Account if the request is received within two business days prior to a Monthly Transfer date. We will notify you in advance if we exercise this right.

Designated Transfers do not count towards the limit of 12 transfers per Contract Year or the limit of 20 transfers per calendar year. We reserve the right to count such transfers towards the limit. The Fixed Rate Option transfer restrictions do not apply to Designated Transfers.

We reserve the right to initiate a transfer restriction period whenever a requested loan causes a reduction in value of a Segment. See Loans (below).

Dollar Cost Averaging

The Indexed Account and the Fixed Holding Account may not participate in dollar cost averaging.

Auto-Rebalancing

The Indexed Account and the Fixed Holding Account may not participate in auto-rebalancing.

DEATH BENEFITS

When Death Benefit Proceeds Are Paid

We have the right to delay payment of the Death Benefit attributable to the Fixed Rate Option, the Fixed Holding Account, and/or the Indexed Account for up to six months. We will pay interest of at least 0.5% per year if such a payment is delayed for more than 10 days.

CONTRACT VALUES

The total amount invested in the Contract Fund at any time consists of:

- (a) the Variable Investment Options;
- (b) the Fixed Rate Option;
- (c) the Fixed Holding Account;
- (d) the Indexed Account; and
- (e) any Contract loan.

How the Contract's Cash Surrender Value Will Vary

The Indexed Account and the Fixed Holding Account are part of the Contract Fund and therefore are included in the Contract's Cash Surrender Value calculation. In addition to the variables listed in the prospectus, if you invest through the Indexed Account, the Contract Fund will vary daily also reflecting:

- a) interest credited on any amounts allocated to the Fixed Holding Account;
- b) interest credited at the guaranteed Index Growth Floor rate on any amounts in an Indexed Account Segment(s); and
- c) any Index Interest Credit on a maturing Indexed Account Segment.

Persistency Credit

The Indexed Account and the Fixed Holding Account are part of the Contract Fund and therefore are includable in any persistency credit calculation.

Loans

When a loan is requested, an amount equal to the loan proceeds is transferred out of the Variable Investment Options and/or the Fixed Rate Option, as applicable. Unless you direct us to take the loan amount from specific investment options, and we agree, the reduction will be made proportionally based on the loanable value held in each of the Variable Investment Options and the Fixed Rate Option. If the amounts in the Variable Investment Options and the Fixed Rate Option are insufficient to cover the requested loan amount, the Variable Investment Options and the Fixed Rate Option will be reduced by the maximum available loanable amount and the remaining amount will be deducted first from the Fixed Holding Account and then (if necessary) the Indexed Account. Loans deducted from the Indexed Account will be taken from the most recently created Segment first and continue in a last in - first out ("LIFO") manner, as needed.

You may not direct a loan to be deducted only from the Indexed Account or the Fixed Holding Account.

We reserve the right to initiate a transfer restriction period whenever a requested loan causes a reduction in value of a Segment. The transfer restriction period is a 12-month period when no portion of a premium payment may be allocated to the Indexed Account, no transfers from the Variable Investment Options or Fixed Rate Option into the Indexed Account will be permitted, and Designated Transfers will be cancelled. This period begins on the date any portion of a loan causes a reduction in the value of a Segment, except to the extent such reduction is solely due to unpaid interest on the applicable loan. When the transfer restriction period ends, you will again be permitted to allocate premiums to, and transfer funds into, the Indexed Account, and you may provide new Designated Transfer instructions. We will notify you in advance if we exercise this right.

Withdrawals

When a withdrawal is made, an amount equal to the withdrawal amount plus any associated charges is deducted from the Variable Investment Options and/or the Fixed Rate Option, as applicable. Unless you direct us to take the withdrawal plus any associated charges from specific investment options, and we agree, the

reduction of the Contract Fund will be made proportionally based on the value held in each of the Variable Investment Options and the Fixed Rate Option. If the amounts in the Variable Investment Options and the Fixed Rate Option are insufficient to cover the requested withdrawal amount plus any associated charges, the Variable Investment Options and the Fixed Rate Option will be reduced to zero and the remaining amount will be deducted first from the Fixed Holding Account and then (if necessary) from the Indexed Account. Withdrawals deducted from the Indexed Account will be taken from the most recently created Segment first and continue in a last in - first out ("LIFO") manner, as needed.

You may not direct a withdrawal (and any associated charge), to be deducted only from the Indexed Account or the Fixed Holding Account.

When Proceeds Are Paid

We have the right to delay payment of the Cash Surrender Value (including surrenders of fixed reduced paid-up contracts) attributable to the Fixed Rate Option, the Fixed Holding Account, and/or the Indexed Account for up to six months. We will pay interest of at least 0.5% per year if such a payment is delayed for more than 10 days.

GENERAL INFORMATION AND HISTORY

Description of Pruco Life Insurance Company of New Jersey

Pruco Life Insurance Company of New Jersey ("Pruco Life of New Jersey", "us", "we", or "our") is a stock life insurance company founded on September 17, 1982, under the laws of the state of New Jersey. It is licensed to sell life insurance and annuities only in the states of New Jersey and New York.

Control of Pruco Life Insurance Company of New Jersey

Pruco Life of New Jersey is a wholly-owned subsidiary of Pruco Life Insurance Company ("Pruco Life"), which in turn is a wholly-owned subsidiary of The Prudential Insurance Company of America ("Prudential"), a stock life insurance company founded on October 13, 1875, under the laws of the state of New Jersey. Prudential is a wholly-owned subsidiary of Prudential Financial, Inc. ("Prudential Financial"), a New Jersey insurance holding company for financial services businesses offering wide range of insurance, investment management, and other financial products and services. The principal executive office of each of Prudential and Prudential Financial is Prudential Plaza, 751 Broad Street, Newark, New Jersey 07102.

As Pruco Life of New Jersey's ultimate parent, Prudential exercises significant influence over the operations and capital structure of Pruco Life of New Jersey, Pruco Life and Prudential. However, neither Prudential Financial, Prudential, Pruco Life, nor any other related company has any legal responsibility to pay amounts that Pruco Life of New Jersey may owe under the Contract. Pruco Life of New Jersey and Pruco Life's principal executive office is 213 Washington Street, Newark, New Jersey 07102.

State Regulation

Pruco Life of New Jersey is subject to regulation and supervision by the Department of Banking and Insurance of the state of New Jersey, which periodically examines its operations and financial condition. It is also subject to the insurance laws and regulations of all jurisdictions in which it is authorized to do business.

Pruco Life of New Jersey is required to submit annual statements of its operations, including financial statements, to the insurance departments of the various jurisdictions in which it does business to determine solvency and compliance with local insurance laws and regulations.

In addition to the annual statements referred to above, Pruco Life of New Jersey is required to file with New Jersey and other jurisdictions, a separate statement with respect to the operations of all of its variable contract accounts, in a form promulgated by the National Association of Insurance Commissioners.

Records

We maintain all records and accounts relating to the Account at our principal executive office. As presently required by the Investment Company Act of 1940, as amended, and regulations promulgated thereunder, reports containing such information as may be required under the Act or by any other applicable law or regulation will be sent to you semi-annually at your last address known to us.

Services and Third Party Administration Agreements

Pruco Life of New Jersey and Prudential have entered into a service agreement pursuant to which Prudential furnishes to Pruco Life of New Jersey various services, including preparation, maintenance, and filing of accounts, books, records, and other documents required under federal or state law, and various other accounting, administrative, and legal services, which are customarily performed by the officers and employees of Prudential. Pruco Life of New Jersey reimburses Prudential for its costs in providing such services. Pruco Life of New Jersey has reimbursed Prudential \$X,XXX,XXX in 2018, \$18,772,784 in 2017, and \$16,925,435 in 2016, of which the life business accounted for \$X,XXX,XXX, \$7,862,448, and \$7,037,114, respectively.

Prudential furnishes Pruco Life of New Jersey the same administrative support services that it provides in the operation of its own business with regard to the payment of death claim proceeds by way of Prudential's Alliance Account. As soon as the Pruco Life of New Jersey death claim is processed, the beneficiaries are furnished with an information kit that describes the settlement option and a check book on which they may write checks.

Our individual life reinsurance treaties covering **PruLife® Custom Premier II** Contracts provide for the reinsurance of a portion of the related mortality risk on a yearly renewable term basis. Pruco Life of New Jersey or its affiliates retain any such mortality risk that is not ceded under these treaties.

TransCentra, Inc. ("TransCentra") is a billing and payment services provider for Prudential, Pruco Life, and Pruco Life of New Jersey. TransCentra received \$X,XXX,XXX in 2018, \$1,394,460 in 2017, and \$1,507,087 in 2016 from Prudential for services rendered. TransCentra's principal business address is 4855 Peachtree Industrial Blvd, STE 245, Norcross, GA 30092.

Cyber Security

With the increasing use of technology and computer systems in general and, in particular, the internet to conduct necessary business functions, we are susceptible to operational, information security and related risks. These risks, which are often collectively referred to as "cyber security" risks, may include deliberate or malicious attacks, as well as unintentional events and occurrences. These risks are heightened by our offering of products with certain features, including those with automatic asset transfer or re-allocation strategies, and by our employment of complex investment, trading and hedging programs. Cyber security is generally defined as the technology, operations and related protocol surrounding and protecting a user's computer hardware, network, systems and applications and the data transmitted and stored therewith. These measures ensure the reliability of a user's systems, as well as the security, availability, integrity, and confidentiality of data assets.

Deliberate cyber attacks can include, but are not limited to, gaining unauthorized access (including physical break-ins and attempts to fraudulently induce employees, customers or other users of these systems to disclose sensitive information in order to gain access) to computer systems in order to misappropriate and/or disclose sensitive or confidential information; deleting, corrupting or modifying data; and causing operational disruptions. Cyber attacks may also be carried out in a manner that does not require gaining unauthorized access, such as causing denial-of-service attacks on websites (in order to prevent access to computer networks). In addition to deliberate breaches engineered by external actors, cyber security risks can also result from the conduct of malicious, exploited or careless insiders, whose actions may result in the destruction, release or disclosure of confidential or proprietary information stored on an organization's systems.

Cyber security failures or breaches that could impact us and our Contract Owners, whether deliberate or unintentional, could arise not only in connection with our own administration of the Contract, but also with entities operating the Contract's underlying funds and with third-party service providers to us. Cyber security failures originating with any of the entities involved with the offering and administration of the Contract may cause significant disruptions in the business operations related to the Contract. Potential impacts may include, but are not limited to, potential financial losses under the Contract, your inability to conduct transactions under the Contract and/or with respect to an underlying fund, an inability to calculate unit values with respect to the Contract and/or the net asset value (NAV) with respect to an underlying fund, and disclosures of your personal or confidential account information.

In addition to direct impacts to you, cyber security failures of the type described above may result in adverse impacts to us, including regulatory inquiries, regulatory proceedings, regulatory and/or legal and litigation costs, and reputational damage. Costs incurred by us may include reimbursement and other expenses, including the costs of litigation and litigation settlements and additional compliance costs. Considerable expenses also may be incurred by us in enhancing and upgrading computer systems and systems security following a cyber security failure.

The rapid proliferation of technologies, as well as the increased sophistication and activities of organized crime, hackers, terrorists, hostile foreign governments, and others continue to pose new and significant cyber security threats. Although we, our service providers, and the underlying funds offered under the Contract may have established business continuity plans and risk management systems to mitigate cyber security risks, there can be no guarantee or assurance that such plans or systems will be effective, or that all risks that exist, or may develop in the future, have been completely anticipated and identified or can be protected against. Furthermore, we cannot control or assure the efficacy of the cyber security plans and systems implemented by third-party service providers, the underlying funds, and the issuers in which the underlying funds invest.

INITIAL PREMIUM PROCESSING

In general, the invested portion of the minimum initial premium will be placed in the Contract Fund as of the later of the Contract Date and the date we receive the premium in Good Order.

Upon receipt of a request for life insurance from a prospective Contract Owner, Pruco Life of New Jersey will follow certain insurance underwriting (i.e., evaluation of risk) procedures designed to determine whether the proposed Insured is insurable. The process may involve such verification procedures as medical examinations and may require that further information be provided by the proposed Insured before a determination can be made. A Contract cannot be issued, (i.e., physically issued through Pruco Life of New Jersey's computerized issue system) until this underwriting procedure has been completed.

These processing procedures are designed to provide temporary life insurance coverage to every prospective Contract Owner who pays the minimum initial premium at the time the request for coverage is submitted, subject to the terms of a Limited Insurance Agreement. Since a Contract cannot be issued until after the underwriting process has been completed, we will provide temporary life insurance coverage through use of this Limited Insurance Agreement. This coverage is for the total Death Benefit applied for, up to the maximum described by the Limited Insurance Agreement.

The Contract Date is the date specified in the Contract. This date is used to determine the insurance age of the proposed insured. It represents the first day of the Contract Year and therefore determines the Contract Anniversary and Monthly Dates. It also represents the commencement of the suicide and contestable periods for purposes of the Basic Insurance Amount.

If the minimum initial premium is paid with the application and no medical examination is required, the Contract Date will ordinarily be the date of the application. If a delay is encountered (e.g., if a request for further information is not met promptly), generally, the Contract Date will be 21 days prior to the date on which the Contract is physically issued. If a medical examination is required, the Contract Date will ordinarily be the date the examination is completed, subject to the same qualification as that noted above.

If the premium paid with the application is less than the minimum initial premium, the Contract Date will be determined as described above. The balance of the minimum initial premium amount will be applied as of the later of the Contract Date and the date premiums were received in Good Order.

If no premium is paid with the application, the Contract Date will be the Contract Date stated in the Contract, which will generally be the date the minimum initial premium is received in Good Order from the Contract Owner and the Contract is delivered.

There is one principal variation from the foregoing procedure. If permitted by the insurance laws of the state in which the Contract is issued, the Contract may be backdated up to six months. In situations where the Contract Date precedes the date that the minimum initial premium is received, charges due prior to the initial premium receipt date will be deducted immediately after the net premium has been applied to the Contract Fund.

ADDITIONAL INFORMATION ABOUT OPERATION OF CONTRACTS

Legal Considerations Relating to Sex-Distinct Premiums and Benefits

The Contract generally employs mortality tables that distinguish between males and females. Thus, premiums and benefits differ under Contracts issued on males and females of the same age. However, in those states that have adopted regulations prohibiting sex-distinct insurance rates, premiums and cost of insurance charges will be based on male rates, whether the insureds are male or female. In addition, employers and employee organizations considering purchase of a Contract should consult their legal advisers to determine whether purchase of a Contract based on sex-distinct actuarial tables is consistent with Title VII of the Civil Rights Act of 1964 or other applicable law.

How a Type A (Fixed) Contract's Death Benefit Will Vary

Under the Type A Contract, the Death Benefit is generally equal to the Basic Insurance Amount, before the reduction of any Contract Debt. If the Contract is kept in-force for several years, depending on how much premium you pay, and/or if investment performance is reasonably favorable, the Contract Fund may grow to the point where we will increase the Death Benefit in order to ensure that the Contract will satisfy the Internal Revenue Code's definition of life insurance.

Assuming no Contract Debt or riders, the Death Benefit of a Type A Contract will always be the greater of:

- (1) the Basic Insurance Amount; and
- (2) the Contract Fund before the deduction of any monthly charges due on that date, multiplied by the Attained Age factor that applies.

A listing of Attained Age factors can be found on your Contract data pages. The latter provision ensures that the Contract will always have a Death Benefit large enough so that the Contract will be treated as life insurance for tax purposes under current law. Before the Contract is issued, the Contract Owner may choose between two methods that we use to determine the tax treatment of the Contract.

The following table illustrates at different ages how the Attained Age factor affects the Death Benefit for different Contract Fund amounts. The table assumes a \$250,000 Type A Contract was issued when the insured was a male nonsmoker, age 35, and there is no Contract Debt.

Type A (Fixed) Death Benefit

If		Then		
The insured is age	and the Contract Fund is	the Attained Age factor is**	the Contract Fund multiplied by the Attained Age factor is	and the Death Benefit is
40	\$ 25,000	4.74	118,500	\$250,000
40	\$ 75,000	4.74	355,500	\$355,500*
40	\$100,000	4.74	474,000	\$474,000*
60	\$ 75,000	2.43	182,250	\$250,000
60	\$125,000	2.43	303,750	\$303,750*
60	\$150,000	2.43	364,500	\$364,500*
80	\$150,000	1.39	208,500	\$250,000
80	\$200,000	1.39	278,000	\$278,000*
80	\$225,000	1.39	312,750	\$312,750*

* Note that the Death Benefit has been increased to comply with the Internal Revenue Code's definition of life insurance.
** Assumes the Contract Owner selected the Cash Value Accumulation Test. These figures are based on the 2017 Commissioner's Standard Ordinary ("CSO") Mortality Tables.

This means, for example, that if the insured has reached the age of 60, and the Contract Fund is \$150,000, the Death Benefit will be \$364,500, even though the Basic Insurance Amount is \$250,000. In this situation, for every \$1 increase in the Contract Fund, the Death Benefit will be increased by \$2.43. We reserve the right to refuse to accept any premium payment that increases the Death Benefit by more than it increases the Contract Fund. If we exercise this right, in certain situations it may result in the loss of the No-Lapse Guarantee.

How a Type B (Variable) Contract's Death Benefit Will Vary

Under the Type B Contract, while the Contract is in-force, the Death Benefit will never be less than the Basic Insurance Amount, before the reduction of any Contract Debt, but will also vary immediately after it is issued, with the investment results of the selected Variable Investment Options. The Death Benefit may be increased to ensure that the Contract will satisfy the Internal Revenue Code's definition of life insurance.

Assuming no Contract Debt or riders, the Death Benefit of a Type B Contract will always be the greater of:

- (1) the Basic Insurance Amount plus the Contract Fund before the deduction of any monthly charges due on that date; and
- (2) the Contract Fund before the deduction of any monthly charges due on that date, multiplied by the Attained Age factor that applies.

For purposes of computing the Death Benefit, if the Contract Fund is less than zero, we will consider it to be zero. A listing of Attained Age factors can be found on your Contract data pages. The latter provision ensures that the Contract will always have a Death Benefit large enough so that the Contract will be treated as life insurance for tax purposes under current law. Before the Contract is issued, the Contract Owner may choose between two methods that we use to determine the tax treatment of the Contract.

The following table illustrates various Attained Age factors and Contract Funds and the corresponding Death Benefits. The table assumes a \$250,000 Type B Contract was issued when the insured was a male nonsmoker, age 35, and there is no Contract Debt.

Type B (Variable) Death Benefit

If		Then		
The insured is age	and the Contract Fund is	the Attained Age factor is**	the Contract Fund multiplied by the Attained Age factor is	and the Death Benefit is
40	\$ 25,000	4.74	118,500	\$275,000
40	\$ 75,000	4.74	355,500	\$355,500*
40	\$100,000	4.74	474,000	\$474,000*
60	\$ 75,000	2.43	182,250	\$325,000
60	\$125,000	2.43	303,750	\$375,000
60	\$150,000	2.43	364,500	\$400,000
80	\$150,000	1.39	208,500	\$400,000
80	\$200,000	1.39	278,000	\$450,000
80	\$225,000	1.39	312,750	\$475,000

* Note that the Death Benefit has been increased to comply with the Internal Revenue Code's definition of life insurance.

** Assumes the Contract Owner selected the Cash Value Accumulation Test. These figures are based on the 2017 Commissioner's Standard Ordinary ("CSO") Mortality Tables.

This means, for example, that if the insured has reached the age of 40, and the Contract Fund is \$100,000, the Death Benefit will be \$474,000, even though the Basic Insurance Amount plus the Contract Fund is \$350,000. In this situation, for every \$1 increase in the Contract Fund, the Death Benefit will be increased by \$4.74. We reserve the right to refuse to accept any premium payment that increases the Death Benefit by more than it increases the Contract Fund. If we exercise this right, in certain situations it may result in the loss of the No-Lapse Guarantee.

How a Type C (Return of Premium) Contract's Death Benefit Will Vary

Under the Type C Contract, while the Contract is in-force, the Death Benefit will vary by the amount of premiums paid, less any withdrawals. The Death Benefit on a Type C Contract is limited to the Basic Insurance Amount plus an amount equal to: the Contract Fund plus the Type C Limiting Amount multiplied by the Type C Death Benefit Factor, both located in the Contract Limitations section of your Contract. The Death Benefit may be increased to ensure that the Contract will satisfy the Internal Revenue Code's definition of life insurance. Unlike Type A and Type B Contracts, the Death Benefit of a Type C Contract may be less than the Basic Insurance Amount in the event total withdrawals are greater than total premiums paid.

Assuming no Contract Debt or riders, the Death Benefit of a Type C Contract will always be the lesser of:

- (1) the Basic Insurance Amount plus the total premiums paid into the Contract less any withdrawals; and
- (2) the Basic Insurance Amount plus the Contract Fund before deduction of any monthly charges due on that date plus the product of the Type C Limiting Amount multiplied by the Type C Death Benefit Factor, both found in the Contract Limitations section of the Contract data pages.

However, if the product of the Contract Fund, before any monthly charges, multiplied by the Attained Age factor is greater than either (1) or (2), described above, then it will become the Death Benefit.

A listing of Attained Age factors can be found on your Contract data pages. The latter provision ensures that the Contract will always have a Death Benefit large enough so that the Contract will be treated as life insurance for tax purposes under current law. Before the Contract is issued, the Contract Owner may choose between two methods that we use to determine the tax treatment of the Contract.

The following table illustrates various Attained Age factors and Contract Funds and the corresponding Death Benefits. The table assumes a \$250,000 Type C Contract was issued when the insured was a male nonsmoker, age 35, and there is no Contract Debt.

Type C (Return of Premium) Death Benefit

If			Then		
The insured is age	and the Contract Fund is	and the premium paid less any withdrawals is	the Attained Age factor is**	the Contract Fund multiplied by the Attained Age factor is	and the Death Benefit is
40	\$25,000	\$15,000	4.74	118,500	\$265,000
40	\$75,000	\$60,000	4.74	355,500	\$355,500*
40	\$100,000	\$80,000	4.74	474,000	\$474,000*
60	\$75,000	\$60,000	2.43	182,250	\$310,000
60	\$125,000	\$100,000	2.43	303,750	\$350,000
60	\$150,000	\$125,000	2.43	364,500	\$375,000
80	\$150,000	\$125,000	1.39	208,500	\$375,000
80	\$200,000	\$150,000	1.39	278,000	\$400,000
80	\$225,000	\$175,000	1.39	312,750	\$425,000
80	\$250,000	\$500,000	1.39	347,500	\$750,000
80***	\$250,000	\$775,000	1.39	347,500	\$1,000,000

* Note that the Death Benefit has been increased to comply with the Internal Revenue Code's definition of life insurance.

** Assumes the Contract Owner selected the Cash Value Accumulation Test. These figures are based on the 2017 Commissioner's Standard Ordinary ("CSO") Mortality Tables.

***Illustrates the effect of a Type C Benefit Factor = 2.

This means, for example, that if the insured has reached the age of 40, and the premiums paid less any withdrawals equals \$80,000, the Death Benefit will be \$474,000, even though the Basic Insurance Amount plus premiums paid (less withdrawals) is \$330,000. In this situation, for every \$1 increase in the Contract Fund, the Death Benefit will be increased by \$4.74. We reserve the right to refuse to accept any premium payment that increases the Death Benefit by more than it increases the Contract Fund. If we exercise this right, in certain situations it may result in the loss of the No-Lapse Guarantee.

Reports to Contract Owners

Once each year, we will send you a statement that provides certain information pertinent to your Contract. This statement will detail values, transactions made, and specific Contract data that apply only to your particular Contract.

You will also be sent annual and semi-annual reports of the Funds showing the financial condition of the portfolios and the investments held in each portfolio.

UNDERWRITING PROCEDURES

When you express interest in obtaining a Contract from us, you may apply for coverage through either (1) a paper application or (2) our worksheet process. When using the paper application, a registered representative completes a full application and submits it to us to commence the underwriting process. A registered representative may be an agent/broker who is a representative of Pruco Securities, LLC a broker-dealer affiliate of Prudential, or in some cases, a broker-dealer not directly affiliated with Prudential. When using the worksheet process, a registered representative typically collects enough information to start the underwriting process. The remaining information is obtained directly from the proposed insured.

Regardless of the underwriting process followed, once we receive the necessary information, which may include physicians' statements, medical examinations from physicians or paramedical vendors, test results, and other information, we will make a decision regarding our willingness to accept the risk, and the price at which we will accept the risk. We will issue the Contract when the risk has been accepted and priced.

ADDITIONAL INFORMATION ABOUT CHARGES

Charges for Increases in Basic Insurance Amount

Increases in the Basic Insurance Amount are not allowed.

ADDITIONAL INFORMATION ABOUT CONTRACTS IN DEFAULT

When your Contract is in default, no part of your Contract Fund is available to you. Consequently, you are not able to take any loans, withdrawals, or surrenders, make any transfers among the investment options, or change the way in which subsequent premiums are allocated.

DISTRIBUTION AND COMPENSATION

In an effort to promote the sale of our variable products (which may include the placement of our Contracts on a preferred or recommended company or product list and/or access to a broker-dealer's registered representatives), we or Pruco Securities may enter into compensation arrangements with certain broker-dealer firms authorized by Pruco Securities to sell the Contract, or branches of

such firms, with respect to certain or all registered representatives of such firms under which such firms may receive separate compensation or reimbursement for, among other things, training of sales personnel, marketing and / or administrative and / or other services they provide to us or our affiliates.

To the extent permitted by applicable rules, laws, and regulations, Pruco Securities may pay or allow other promotional incentives or payments in the form of cash or non-cash compensation. These arrangements may not be offered to all firms, and the terms of such arrangements may differ between firms. You should note that firms and individual registered representatives and branch managers within some firms participating in one of these compensation arrangements might receive greater compensation for selling the Contract than for selling a different Contract that is not eligible for these compensation arrangements.

Pruco Life of New Jersey makes these promotional payments directly to or in sponsorship of the firm (or its affiliated broker/dealers). Examples of arrangements under which such payments may be made currently include, but are not limited to, sponsorships, conferences (national, regional and top producer), speaker fees, promotional items and reimbursements to firms for marketing activities or services paid by the firms and/or their individual representatives. The amount of these payments varies widely because some payments may encompass only a single event, such as a conference, and others have a much broader scope.

The list below provides the names of the firms (or their affiliated broker/dealers) that we are aware of (as of December 31, 2018) that received payment or accrued a payment amount with respect to variable product business during 2018. The least amount paid or accrued and the greatest amount paid or accrued during 2018 were \$X.XX and \$X,XXX,XXX, respectively.

[Auditing and accounting statement to be filed by pre-effective amendment.]

Actuarial matters included in this statement of additional information have been examined by Vy Ho, FSA, MAAA, Vice President and Actuary of Prudential.

PERFORMANCE DATA

Average Annual Total Return

The Account may advertise average annual total return information calculated according to a formula prescribed by the U.S. Securities and Exchange Commission ("SEC"). Average annual total return shows the average annual percentage increase, or decrease, in the value of a hypothetical contribution allocated to a Variable Investment Option from the beginning to the end of each specified period of time. The SEC standardized version of this performance information is based on an assumed contribution of \$1,000 allocated to a Variable Investment Option at the beginning of each period and full withdrawal of the value of that amount at the end of each specified period. This method of calculating performance further assumes that (i) a \$1,000 contribution was allocated to a Variable Investment Option and (ii) no transfers or additional payments were made. Premium taxes are not included in the term "charges" for purposes of this calculation. Average annual total return is calculated by finding the average annual compounded rates of return of a hypothetical contribution that would compare the Unit Value on the first day of a specified period to the ending redeemable value at the end of the period according to the following formula:

$$P(1+T)^n = ERV$$

Where T equals average annual total return, where ERV (the ending redeemable value) is the value at the end of the applicable period of a hypothetical contribution of \$1,000 made at the beginning of the applicable period, where P equals a hypothetical contribution of \$1,000, and where n equals the number of years.

Non-Standard Total Return

In addition to the standardized average annual total return information described above, we may present total return information computed on bases different from that standardized method. The Account may also present aggregate total return figures for various periods, reflecting the cumulative change in value of an investment in the Account for the specified period.

For the periods prior to the date the Variable Investment Options commenced operations, non-standard performance information for the Contracts will be calculated based on the performance of the Funds and the assumption that the Variable Investment Options were in existence for the same periods as those indicated for the Funds, with the level of Contract charges that were in effect at the inception of the Variable Investment Options (this is referred to as "hypothetical performance data"). Standard and non-standard average annual return calculations include the mortality and expense risk charge under the Contract, but do not reflect other life insurance Contract charges (sales, administration, and actual cost of insurance) nor any applicable surrender or lapse charges, which would significantly lower the returns. Information stated for any given period does not indicate or represent future performance.

Money Market Yield

The "total return" figures for the Government Money Market Variable Investment Option are calculated using historical investment returns of the Government Money Market Portfolio of The Prudential Series Fund as if **PruLife® Custom Premier II** had been investing in that Variable Investment Option during a specified period. Fees associated with the Series Fund are reflected; however, all fees, expenses, and charges associated with **PruLife® Custom Premier II** are not reflected.

The yield is computed by determining the net change, exclusive of capital changes, in the value of a hypothetical pre-existing account having a balance of one accumulation unit of the Government Money Market Variable Investment Option at the beginning of a specified period, subtracting a hypothetical charge reflecting deductions from Contract Owner accounts, and dividing the difference by the value of the Variable Investment Option at the beginning of the base period to obtain the base period return, and then multiplying the base period return by (365/7), with the resulting figure carried to the nearest ten-thousandth of 1%. The effective yield is obtained by taking the base period return, adding 1, raising the sum to a power equal to 365 divided by 7, and subtracting 1 from the result, according to the following formula: Effective Yield ([base period return + 1] 365/7) -1.

The yields on amounts held in the Government Money Market Variable Investment Option will fluctuate on a daily basis. Therefore, the stated yields for any given period are not an indication of future yields.

FINANCIAL STATEMENTS

The financial statements of the Account should be distinguished from the financial statements of Pruco Life of New Jersey, which should be considered only as bearing upon the ability of Pruco Life of New Jersey to meet its obligations under the Contracts.

PART C:

OTHER INFORMATION

Item 27. Directors and Officers of Pruco Life Insurance Company of New Jersey

The directors and officers of Pruco Life Insurance Company of New Jersey ("Pruco Life of New Jersey"), listed with their principal occupations, are shown below. The principal business address of the directors and officers listed below is 213 Washington Street, Newark, New Jersey 07102.

DIRECTORS OF PRUCO LIFE OF NEW JERSEY

JOHN CHIEFFO – *Vice President, Chief Financial Officer, Chief Accounting Officer, and Director*

CAROLINE A. FEENEY – *Director*

SALENE HITCHCOCK-GEAR – *Director*

CHRISTINE KNIGHT – *Vice President and Director*

NANDINI MONGIA – *Treasurer and Director*

KENT D. SLUYTER – *President, Chief Executive Officer, and Director*

CANDACE J. WOODS – *Director*

OFFICERS WHO ARE NOT DIRECTORS

WILLIAM J. EVER – *Vice President and Corporate Counsel*

LYNN K. STONE – *Vice President, Chief Legal Officer, and Secretary*

JORDAN K. THOMSEN – *Vice President and Corporate Counsel*

ARTHUR W. WALLACE – *Senior Vice President, Chief Actuary, Appointed Actuary, and Actuary*

Item 28. Persons Controlled by or Under Common Control with the Depositor or the Registrant

Pruco Life of New Jersey, a life insurance company organized under the laws of New Jersey, is a direct wholly-owned subsidiary of Pruco Life Insurance Company ("Pruco Life"). Pruco Life, a life insurance company organized under the laws of Arizona, is a direct wholly-owned subsidiary of The Prudential Insurance Company of America and an indirect wholly-owned subsidiary of Prudential Financial, Inc.

The subsidiaries of Prudential Financial, Inc. are listed under Exhibit 21.1 of the Annual Report on Form 10-K of Prudential Financial, Inc., Registration No. 001-16707, the text of which is hereby incorporated by reference.

Item 29. Indemnification

The Registrant, in connection with certain affiliates, maintains various insurance coverages under which the underwriter and certain affiliated persons may be insured against liability, which may be incurred in such capacity, subject to the terms, conditions, and exclusions of the insurance policies.

New Jersey, being the state of organization of Pruco Life of New Jersey, permits entities organized under its jurisdiction to indemnify directors and officers with certain limitations. The relevant provisions of New Jersey law permitting indemnification can be found in Section 14A:3-5 of the New Jersey Statutes Annotated. The text of Pruco Life of New Jersey's By-law, Article V, which relates to indemnification of officers and directors, was filed on April 17, 2009, as exhibit Item 26. (f)(iii) to Form N-6 of this Registration Statement on behalf of the Pruco Life of New Jersey Variable Appreciable Account.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 (the "Act") may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of

appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

Item 30. Principal Underwriters

(a) Pruco Securities, LLC ("Pruco Securities"), an indirect wholly-owned subsidiary of Prudential Financial, Inc., acts as the Registrant's principal underwriter of the Contract. Pruco Securities, organized on September 22, 2003, under New Jersey law, is registered as a broker and dealer under the Securities Exchange Act of 1934 and is a registered member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). (Pruco Securities is a successor company to Pruco Securities Corporation, established on February 22, 1971.) Pruco Securities' principal business address is 751 Broad Street, Newark, New Jersey 07102.

Pruco Securities acts as principal underwriter and general distributor for the following separate investment accounts and their affiliates:

- Pruco Life Variable Universal Account
- Pruco Life Variable Appreciable Account
- Pruco Life of New Jersey Variable Appreciable Account
- The Prudential Variable Appreciable Account

The Contract is sold by registered representatives of Pruco Securities who are also authorized by state insurance departments to do so. The Contract may also be sold through other broker-dealers authorized by Pruco Securities and applicable law to do so.

(c) Pruco Securities passes through the gross distribution revenue it receives to broker-dealers for their sales and does not retain any portion of it in return for its services as distributor for the Contracts. However, Pruco Securities does retain a portion of compensation it receives with respect to sales by its representatives. Pruco Securities retained compensation of \$X,XXX,XXX in 2018, \$2,855,401 in 2017, and \$2,574,216 in 2016. Pruco Securities offers the Contract on a continuous basis.

The sum of the chart below is \$XXX,XXX,XXX, which represents Pruco Securities' total 2018 Variable Life Distribution Revenue. The amount includes both agency distribution and broker-dealer distribution.

Compensation received by Pruco Securities during the last fiscal year with respect to variable life insurance products.				
Principal Underwriter	Gross Distribution Revenue*	Compensation on Events Occasioning the Deduction of a Deferred Sales Load	Brokerage Commissions**	Other Compensation
Pruco Securities	XXX,XXX,XXX	\$-0-	X,XXX,XXX	\$-0-

* Represents Variable Life Distribution Revenue for the agency channel.

** Represents Variable Life Distribution Revenue for the broker-dealer channel.

Because Pruco Securities registered representatives who sell the Contracts are also our life insurance agents, they may be eligible for various cash bonuses and insurance benefits and non-cash compensation programs that we or our affiliates offer, such as conferences, trips, prizes, and awards, subject to applicable regulatory requirements. In some circumstances and to the extent permitted by applicable regulatory requirements, we may also reimburse certain sales and marketing expenses.

Item 31. Location of Accounts and Records

The Depositor, Pruco Life Insurance Company of New Jersey, is located at 213 Washington Street, Newark, New Jersey 07102.

The Principal Underwriter, Pruco Securities, LLC, is located at 751 Broad Street, Newark, New Jersey 07102.

Each company maintains those accounts and records required to be maintained pursuant to Section 31(a) of the Investment Company Act and the rules promulgated thereunder.

Item 32. Management Services

Not Applicable.

Item 33. Representation of Reasonableness of Fees

Pruco Life Insurance Company of New Jersey ("Pruco Life of New Jersey") represents that the fees and charges deducted under the Variable Universal Life Insurance Contracts registered by this registration statement, in the aggregate, are reasonable in relation to the services rendered, the expenses expected to be incurred, and the risks assumed by Pruco Life of New Jersey.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933 and the Investment Company Act of 1940, the Registrant, the Pruco Life of New Jersey Variable Appreciable Account, has duly caused this Registration Statement to be signed on its behalf by the undersigned thereunto duly authorized, and its seal hereunto affixed and attested, all in the city of Newark and the State of New Jersey, on this 16th day of January, 2019.

Schedule A

The Pruco Life of New Jersey Variable Appreciable Account [Reg. No. 811-03974] and flexible premium variable life insurance contracts [Reg. No. 002-89780, Reg. No. 333-94115, Reg. No. 333-49334, Reg. No. 033-57186, Reg. No. 333-85117, Reg. No. 333-100058, Reg. No. 333-117796, Reg. No. 333-112809, Reg. No. 333-158637, Reg. No. 333-205093, Reg. No. 333-215543 and Reg 333-225954], to the extent they represent participating interests in said Account;

The Pruco Life of New Jersey Variable Insurance Account [Reg. No. 811-03646] and scheduled premium variable life insurance contracts [Reg. No. 002-81243], to the extent they represent participating interests in said Account;

The Pruco Life of New Jersey Variable Contract Real Property Account [Reg. No. 333-202194] and individual variable life insurance contracts, to the extent they represent participating interests in said Account.

Description of Pruco Life of New Jersey's Issuance, Increases in or Addition of Insurance Benefits, Transfer and Redemption Procedures for Variable Universal Life Insurance Contracts Pursuant to Rule 6e-3(T)(b)(12)(iii)

This document sets forth the administrative procedures that will be followed by Pruco Life Insurance Company of New Jersey ("Pruco Life of New Jersey", "us", "we", "our") in connection with the issuance of its Variable Universal Life Insurance Contract ("Contract"), the increase in or addition of benefits, the transfer of assets held thereunder, and the redemption by Contract Owners of their interests in said Contracts.

I. Procedures Relating to Issuance and Purchase of the Contracts and to the Increase in or Addition of Benefits

A. Premium Schedules and Underwriting Standards

This Contract offers flexibility in paying premiums - no premiums are required to be paid by a certain date except for the minimum initial premium required to start the Contract. The minimum initial premium for the Contract, and the charges from the Contract Fund to reflect the cost of insurance, will not be the same for all Contract Owners. Insurance is based on the principle of pooling and distribution of mortality risks, which assumes that each Contract Owner is charged a cost commensurate with the insured's mortality risk as actuarially determined utilizing factors such as age, sex (in most cases), smoking status, health and occupation. Uniform premiums or charges for all insureds would discriminate unfairly in favor of those insureds representing greater risks. However, for a given face amount of insurance, Contracts issued on insureds in a given risk classification will have the same minimum initial premium and charges.

The underwriting standards and premium processing practices followed by Pruco Life of New Jersey are similar to those followed in connection with the offer and sale of fixed-benefit life insurance, modified where necessary to meet the requirements of the federal securities laws.

B. Application and Initial Premium Processing

Upon receipt of a request for life insurance from a prospective Contract Owner, Pruco Life of New Jersey will follow certain insurance underwriting (i.e., evaluation of risk) procedures designed to determine whether the proposed insured is insurable. The process may involve such verification procedures as medical examinations and may require that further information be provided by the proposed insured before a determination can be made. A Contract cannot be issued, (i.e., physically issued through Pruco Life of New Jersey's computerized issue system) until this underwriting procedure has been completed.

These processing procedures are designed to provide temporary life insurance coverage to every prospective Contract Owner who pays the minimum initial premium at the time the request for coverage is submitted, subject to the terms of the Limited Insurance Agreement. Since a Contract cannot be issued until after the underwriting process has been completed, we will provide temporary life insurance coverage through use of the Limited Insurance Agreement. This coverage is for the total Death Benefit applied for, up to the maximum described by the Limited Insurance Agreement.

The Contract Date is the date specified in the Contract. This date is used to determine the insurance age of the proposed insured. It represents the first day of the Contract Year and therefore determines the Contract Anniversary and Monthly Dates. It also represents the commencement of the suicide and contestable periods for purposes of the Basic Insurance Amount.

If the minimum initial premium is paid with the application and no medical examination is required, the Contract Date will ordinarily be the date of the application. If a delay is encountered (e.g., if a request for further information is not met promptly), generally, the Contract Date will be 21 days prior to the date on which the Contract is physically issued. If a medical examination is required, the Contract Date will ordinarily be the date the examination is completed, subject to the same qualification as that noted above.

If the premium paid with the application is less than the minimum initial premium, the Contract Date will be determined as described above. The balance of the minimum initial premium amount will be applied as of the later of the Contract Date and the date premiums were received.

If no premium is paid with the application, the Contract Date will be the Contract Date stated in the Contract, which will generally be the date the minimum initial premium is received from the Contract Owner and the Contract is delivered.

There is one principal variation from the foregoing procedure. If permitted by the insurance laws of the state in which the Contract is issued, the Contract may be backdated up to six months.

In situations where the Contract Date precedes the date that the minimum initial premium is received, charges due prior to the initial premium receipt date will be deducted from the net initial premium.

In general, the invested portion of the minimum initial premium will be placed in the Contract Fund (i.e., as described under Premium Processing below) as of the later of (1) the Contract Date and (2) the date we receive the premium. In no case will the premium be applied with an effective date that precedes the date of this offering.

C. Premium Processing

Whenever a premium is received, we will subtract the front-end charges from the initial premium. The remainder of the initial premium and any other net premium received in Good Order at the Payment Office during the 10 day period following the receipt of the Contract will be allocated to the money market investment option as of the later of the Contract Date and the end of the valuation period in which it is received. After the 10th day, these funds, adjusted for any investment results, will be transferred out of the money market investment option and allocated among the investment options according to the current premium allocation. Premiums other than those received prior to the Contract Date and those described above will be allocated among the investment options according to the current premium allocation (less front-end charges) as of the date received. If the Contract Date or the date the premium is received is not a business day, premiums will be applied as of the next business day.

The Contract has a Right to Cancel Contract provision, which gives Contract Owners the right to cancel the Contract within ten days of its delivery. If the purchase of this Contract is a replacement under state law, this duration will be extended to a period required by such law.

D. Reinstatement

The Contract may be reinstated within five years after the date of default (this period will be longer if required by state law). The Contract will not be reinstated if it was surrendered for its Cash Surrender Value. A Contract will be reinstated upon our receipt of a written request for reinstatement, production of evidence of insurability satisfactory to Pruco Life of New Jersey and payment after front-end charges of at least (a) an amount required to bring the net cash value to zero on the date the Contract went into default, plus (b) the deductions from the Contract Fund during the grace period following the date of default, plus (c) a premium that we estimate will be sufficient to cover the deductions from the Contract Fund for three Monthly Dates starting on the date of reinstatement.

Except for any such loan repayments, Pruco Life of New Jersey will treat the amount paid upon reinstatement as a premium. Pruco Life of New Jersey will deduct the front-end charges plus any amount required to bring the net cash value to zero on the date the Contract went into default plus any deductions from the Contract Fund that would have been made during the grace period. The Contract Fund of the reinstated Contract will, immediately upon reinstatement, be equal to the net premium payment plus the part of any surrender charge deducted at the time of default, which would be charged if the Contract were surrendered immediately after reinstatement.

The reinstatement will take effect on the date Pruco Life of New Jersey approves the request for reinstatement.

E. Repayment of Loan

A loan made under the Contract may be repaid with an amount equal to the monies borrowed plus interest. Interest charged on the loan accrues daily at a fixed annual rate, which depends on whether the loan is a "standard" loan or a "preferred" loan. We charge interest on the full loan amount, including all unpaid interest. Interest is due on each Contract Anniversary or when the loan is paid back, whichever comes first. If interest is not paid when due, we will increase the loan amount by any unpaid interest.

A loan is available at any time and is equal to the sum of (1) 99% of the portion of the cash value attributable to the Variable Investment Options and (2) the balance of the cash value provided the Contract is not in default. The effective annual rate that we charge on "standard" loans is 2%.

A "preferred" loan is available starting on the 10th Contract Anniversary. If the insured is living and the Contract is not in default, all new and existing loan amounts will automatically be considered "preferred" loans on and after the 10th Contract Anniversary. The effective annual rate we charge on "preferred" loans is 1.05%.

When a loan is made, an amount equal to the loan proceeds is transferred out of the Variable Investment Options, the Fixed Rate Option, the Fixed Holding Account, and the Indexed Account, as applicable. While a loan is outstanding, the amount that was transferred will continue to be treated as part of the Contract Fund and be credited with interest at an annual rate of 1%. On each Monthly Date, Pruco Life of New Jersey will increase the portion of the Contract Fund in the investment options by interest credits accrued on the loan since the last Monthly Date. Pruco Life of New Jersey thus will realize the difference between that rate and the fixed loan interest rate(s), which will be used to cover the loan investment expenses, income taxes, if any, and processing costs. The net interest rate spread of a "standard" loan is 1%. The net interest rate spread of a "preferred" loan is 0.05%.

Upon repayment of Contract debt, we will increase the portion of the Contract Fund in the investment options by the amount of the loan the Contract Owner pays, plus interest credits accrued on the loan since the last transaction date. We will use the investment options designated by the Contract Owner or the investment allocation for future premium payments as of the loan payment date. We reserve the right to change the manner in which we allocate loan repayments.

F. Addition of Insurance Benefits

After issue, Pruco Life of New Jersey does not permit Contract Owners to add to the existing Basic Insurance Amount. Certain riders may be added in a way similar to our new business procedures outlined above and as indicated in the prospectus.

II. Transfers

The Pruco Life of New Jersey Variable Appreciable Account (the "Account") has Variable Investment Options, each of which is invested in shares of a corresponding portfolio of the Funds. The Funds are registered under the 1940 Act as open-end diversified management investment companies. In addition, a Fixed Rate Option and Indexed Account are available.

Provided the Contract is not in default, the Contract Owner may, up to 12 times in each Contract Year, transfer amounts among the Variable Investment Options or to the Fixed Rate Option or Indexed Account without charge. Once the limit has been reached, additional transfers may be made only with our consent. Currently, we allow additional transfers.

We may charge an administrative transaction fee of up to \$25 for each transfer made exceeding 12 in any Contract year. Currently, no transaction fee is charged in connection with a transfer, but we reserve the right to make such a charge.

After 20 transfers in a calendar year, we will accept subsequent transfer requests only if they are in a form that meets our needs, bear an original signature in ink, and are sent to us by U.S. regular mail. The request must be in Good Order when received at our Service Office.

After 20 transfers in a calendar year, we will reject any subsequent transfer request made by telephone, fax, or electronic means, even in the event that it is inadvertently processed.

Multiple transfers that occur during the same day, but prior to the end of the Valuation Period for that same day, will be counted as a single transfer.

Currently, certain transfers effected systematically under either a dollar cost averaging, an automatic rebalancing, or a Designated Transfer program described in the prospectus do not count towards the limit of 12 transfers per Contract year or the limit of 20 transfers per calendar year. In the future, we may count such transfers towards the limit.

In addition, we may restrict the number, timing, and amount of transfers in accordance with our rules if we find the transfer activity to be disruptive to the Variable Investment Option or to the disadvantage of other Contract Owners. We may prohibit transfer requests made by an individual acting under a power of attorney on behalf of more than one Contract Owner. However, due to the discretion involved in any decision to exercise our right to restrict transfers, it is possible that some Contract Owners may be able to effect transactions that could affect Fund performance to the disadvantage of other Contract Owners.

Transfers among Variable Investment Options will take effect at the end of the valuation period in which a proper transfer request is received in Good Order at a Service Office. The request may be in terms of dollars, such as a request to transfer \$5,000 from one Variable Investment Option to another, or may be in terms of a percentage reallocation among Variable Investment Options. In the latter case, as with premium reallocations, the percentages must be in whole numbers.

All or a portion of the amount credited to a Variable Investment Option may be transferred. Transfers out of the Fixed Rate Option are subject to strict limits as described below. Transfers out of the Indexed Account and into the Variable Investment Options are not allowed except for at time of Segment Maturity, when a maximum of 25% of the Segment Maturity value may be transferred to up to four Variable Investment Options. Transfers from the Fixed Holding Account may only be made to the Fixed Rate Option. Transfers will not be made until 10 days after receipt of the Contract.

Only one transfer from the Fixed Rate Option will be permitted during each Contract Year. The maximum amount, which may be transferred out of the Fixed Rate Option each year, is the greater of: (a) 25% of the amount in the Fixed Rate Option; (b) \$5,000; and (c) the amount transferred from the Fixed Rate Option to the Variable Investment Options in the prior Contract Year (if applicable). These limits are subject to change in the future. We may waive these restrictions for limited periods of time in a non-discriminatory way. Indexed Account Designated Transfers are exempt from these Fixed Rate Option transfer restrictions.

III. Redemption Procedures: Surrender and Related Transactions

A. Surrender for Cash Surrender Value

The Contract Owner may surrender the Contract at any time for its Cash Surrender Value (referred to as net cash value in the Contract) while the insured is living. To surrender a Contract, Pruco Life of New Jersey may require the Contract Owner to deliver or mail the following items in Good Order to a Service Office: the Contract, a signed request for surrender, and any tax withholding information required under federal or state law. Generally, Pruco Life of New Jersey will pay the Contract's Cash Surrender Value within seven days after all the documents required for such payment are received in Good Order at a Service Office. Surrender of a Contract may have tax consequences.

Pruco Life of New Jersey reserves the right to postpone paying that part of the cash surrender value that is to come from any variable investment option (provided by a separate account registered under the Investment Company Act of 1940) if: (1) the New York Stock Exchange is closed, or (2) the SEC requires that trading be restricted or declares an emergency. The payment of any Cash Surrender Value attributable to the Fixed Rate Option, Fixed Holding Account, and/or the Indexed Account may be delayed for up to six months. If we do so for more than 10 days, Pruco Life of New Jersey will pay interest at the rate no less than 0.5% a year.

The Cash Surrender Value will be determined as of the end of the valuation period in which a surrender request is received in Good Order at a Service Office. The Contract's Cash Surrender Value on any date will be the Contract Fund less any applicable surrender charges (described in the prospectus) and less any Contract Debt. The Contract Fund value changes daily, reflecting: (1) increases or

decreases in the value of the Variable Investment Option(s); (2) interest credited on any amounts allocated to the Fixed Rate Option, Fixed Holding Account, or Indexed Account; (3) Index Interest Credit on any maturing Index Account Segment; (4) interest credited on any loan; and (5) the daily asset charge for mortality and expense risks assessed against the Variable Investment Options.

In lieu of the payment of the Cash Surrender Value in a single sum upon surrender of a Contract, an election may be made by the Contract Owner to apply all or a portion of the proceeds under one of the fixed benefit settlement options described in the Contract. The fixed benefit settlement options are subject to the restrictions and limitations set forth in the Contract.

B. Withdrawals from the Contract Fund

The Contract Owner may withdraw a portion of the Contract's cash surrender value without surrendering the Contract subject to the following restrictions: (1) Pruco Life of New Jersey must receive a request for the withdrawal in a form that meets our needs; (2) the Cash Surrender Value after withdrawal may not be less than or equal to zero after deducting (a) any charges associated with the withdrawal and (b) an amount Pruco Life of New Jersey estimates will be sufficient to cover the Contract Fund deductions for two monthly dates following the date of withdrawal; (3) the Contract Owner does not withdraw less than the minimum amount shown under Contract Limitations in the Contract data pages; (4) the Basic Insurance Amount after withdrawals must be at least equal to the minimum Basic Insurance Amount shown under Contract Limitations; and (5) the Contract must not be in-force under the provisions of the Overloan Protection Rider.

There may be a transaction fee for each withdrawal of \$25. Currently no fee is charged for a withdrawal. A withdrawal may not be repaid except as a premium subject to the applicable charges.

Whenever a withdrawal is made, the Death Benefit payable will immediately be reduced by at least the amount of the withdrawal. This will not change the Basic Insurance Amount (minimum face amount specified in the Contract) under a Type B (variable) Contract or Type C (return of premium) Contract. However, under a Type A (fixed) Contract, the withdrawal may require a reduction in the Basic Insurance Amount. If a decrease in Basic Insurance Amount reduces a coverage segment below its surrender charge threshold, a surrender charge may be deducted. No withdrawal will be permitted under a Type A (fixed) Contract if it would result in a Basic Insurance Amount less than the minimum Basic Insurance Amount.

The Contract Fund is reduced by the sum of the cash withdrawn, any surrender charge resulting from the withdrawal, and any fee for the withdrawal. An amount equal to the reduction in the Contract Fund will be withdrawn from the investment options. The investment options will be debited in the amount of the gross withdrawal on the date the withdrawal is approved. When a withdrawal is requested, an amount equal to the gross withdrawal is transferred out of the Variable Investment Options and/or the Fixed Rate Option, as applicable. Unless you direct us to take the withdrawal amount from specific investment options, and we agree, the reduction will be made proportionally based on the value held in each of the Variable Investment Options and the Fixed Rate Option. If the amounts in the Variable Investment Options and the Fixed Rate Option are insufficient to cover the gross withdrawal amount, the Variable Investment Options and the Fixed Rate Option will be reduced to zero and the remaining amount will be deducted first from the Fixed Holding Account and then (if necessary) the Indexed Account. Withdrawals deducted from the Indexed Account will be taken from the most recently created Segment first and continue in a last in - first out ("LIFO") manner, as needed.

Generally, we will pay any withdrawal amount within seven days after all the documents required for such payment, are received in Good Order at a Service Office.

C. Death Claims

Pruco Life of New Jersey will pay a Death Benefit to the beneficiary at the insured's death if the Contract is in-force at the time of that death. The proceeds will be paid within seven days after receipt at Pruco Life of New Jersey's Service Office of proof of death of the insured and all other requirements necessary to make payment. State insurance laws impose various requirements, such as receipt of a tax waiver, before payment of the Death Benefit may be made.

Pruco Life of New Jersey reserves the right to postpone payment of that part of the proceeds that is to come from any Variable Investment Option (provided by a separate account registered under the Investment Company Act of 1940) if: (1) the New York Stock Exchange is closed; or (2) the SEC requires that trading be restricted or declares an emergency. Pruco Life of New Jersey reserves the right to postpone paying the remainder for up to six months.

In addition, payment of the Death Benefit is subject to the provisions of the Contract regarding suicide and contestability. In the event Pruco Life of New Jersey should contest the validity of a death claim, an amount up to the portion of the Contract Fund in the Variable Investment Options will be withdrawn, if appropriate, and held in Pruco Life of New Jersey's general account.

If the Contract is not in default, the amount Pruco Life of New Jersey will pay will be the Death Benefit determined as of the date of the insured's death reduced by any Contract Debt.

If the Contract is in default and the insured's death occurs during its days of grace, Pruco Life of New Jersey will pay the Death Benefit reduced by any Contract Debt and the amount needed to pay charges through the date of death.

No Death Benefit is payable if the insured's death occurs past the grace period.

On any date, the Death Benefit under a Type A (fixed) Contract is equal to the greater of: (1) the Basic Insurance Amount, and (2) the Contract Fund before deduction of any monthly charges due on that date, multiplied by the Attained Age factor. These factors vary by the insured's Attained Age and are shown in the Contract.

On any date, the Death Benefit under a Type B (variable) Contract is equal to the greater of: (1) the Basic Insurance Amount plus the Contract Fund before deduction of any monthly charges due on that date, and (2) the Contract Fund before deduction of any monthly charges due on that date, multiplied by the attained age factor. These factors vary by the insured's Attained Age and are shown in the Contract. For the purposes of this calculation, the Contract Fund will be considered to be zero if it is less than zero.

On any date, the Death Benefit under a Type C (return of premium) Contract is equal to the greater of (1) and (2) where: (1) is the Basic Insurance Amount plus the lesser of (a) the total premiums paid minus total withdrawals from this Contract, and (b) the Contract Fund before deduction of any monthly charge due on that date plus the product of the Type C Limiting Amount multiplied by the Type C Death Benefit Factor, both found in the contract limitations section of the Contract data pages; and (2) is the Contract Fund before deduction of any monthly charges due on that date, multiplied by the Attained Age factor that applies. For the purpose of determining the Type C Death Benefit, the total premiums paid will not include any charge to reinstate this Contract.

There may be an additional benefit payable from an endorsement or rider added to the Contract.

The proceeds payable on death also will generally include interest (at a rate determined by Pruco Life of New Jersey) from the date of death until the date of payment. However, state insurance laws may impose additional or different requirements.

Pruco Life of New Jersey will make payment of the Death Benefit out of its general account, and will transfer assets, if appropriate, from the Account to the general account in an amount up to the Contract Fund.

In lieu of payment of the Death Benefit in a single lump sum check, an election may be made to apply all or a portion of the proceeds under one of the fixed benefit settlement options described in the Contract or, with the approval of Pruco Life of New Jersey, a combination of options. Currently, in addition to the settlement options described in the Contract and in certain circumstances, the beneficiary may choose the payment of death claim proceeds by way of a retained asset settlement option (the "Alliance Account"). If the Alliance Account is selected, we will provide a kit to the beneficiary, which includes: (1) an account certificate describing the death claim proceeds, the current interest rate, and the terms of the Alliance Account; and (2) a guide that explains how the Alliance Account works. Amounts in an Alliance Account may be withdrawn by the beneficiary at any time. The election of any available settlement option may be made by the Contract Owner during the insured's lifetime, or, at death, by the beneficiary. The Death Benefit option in effect at death may not be changed to another form of Death Benefit after death. The fixed benefit settlement options are subject to the restrictions and limitations set forth in the Contract.

D. Default and Options on Lapse

The Contract can go into default if either (1) the Contract debt ever grows to be equal to or more than the cash value, or (2) on any Monthly date, the cash value is equal to or less than zero, unless it remains in-force under the No-Lapse Guarantee. The No-Lapse Guarantee will hold if the Contract has no Contract debt and if premiums accumulated at 4% less withdrawals accumulated at 4% are greater than or equal to No-Lapse Guarantee Values shown in the Contract.

Monthly Dates occur on the Contract Date and in each later month on the same day of the month as the Contract Date.

The Contract provides for a grace period extending 61 days after the mailing date of the notice of default. The insurance coverage continues in-force during the grace period, but if the insured dies during the grace period, any charges due up to the date of death are deducted from the amount payable to the beneficiary.

During any period in which a Contract is in default, the Contract Owner may not change the way in which subsequent premiums are allocated or increase the amount of insurance by increasing the Basic Insurance Amount of the Contract (if applicable).

E. Loans

The Contract Owner may take out a loan at any time loan value is available providing: (1) the Contract is assigned to Pruco Life of New Jersey as the only security for the loan; (2) the insured is living; (3) the Contract is not in default; and (4) the resulting Contract Debt is not more than the loan value (99% of the portion of the cash value attributable to the Variable Investment Options and 100% of the balance of the cash value). A Contract Owner may borrow up to the Contract's full loan value. The loan provision is described in the Contract and in the prospectus.

The investment options will be debited in the amount of the loan on the date the loan is approved. When a loan is requested, an amount equal to the loan proceeds is transferred out of the Variable Investment Options and/or the Fixed Rate Option, as applicable. Unless you direct us to take the loan amount from specific investment options, and we agree, the reduction will be made proportionally based on the loanable value held in each of the Variable Investment Options and the Fixed Rate Option. If the amounts in the Variable Investment Options and the Fixed Rate Option are insufficient to cover the requested loan amount, the Variable Investment Options and the Fixed Rate Option will be reduced by the maximum available loanable amount and the remaining amount will be deducted first from the Fixed Holding Account and then (if necessary) the Indexed Account. Loans deducted from the Indexed Account will be taken from the most recently created Segment first and continue in a last in - first out ("LIFO") manner, as needed.

A loan that causes any reduction in the value of an Indexed Account Segment may trigger a restriction period in which further investment into the Indexed Account may be prohibited for a period of one year.

A loan does not affect charges. When a loan is made, the Contract Fund is not reduced, but the value of the assets relating to the Contract held in the investment option(s) is reduced. Accordingly, the daily changes in the cash surrender value will be different from what they would have been had no loan been taken. Cash Surrender Values, and possibly Death Benefits, are thus permanently affected by any Contract Debt, whether or not repaid.

On settlement, the amount of any Contract Debt is subtracted from the insurance proceeds. A loan will not cause the Contract to lapse as long as Contract Debt does not equal or exceed the Contract Fund, less any applicable surrender charges. If Contract Debt ever becomes equal to or more than the cash value, all the Contract's benefits will end 61 days after notice is mailed to the Contract Owner and any known assignee (when required by law), unless payment of an amount sufficient to end the default is made within that period.

However, the Contract may also remain in force by exercising the optional Overloan Protection Rider that prevents lapse due to excessive Contract Debt beyond the later of the insured's Attained Age 75 or the 15th Contract Anniversary.
