See Forward-Looking Statements in this press release for additional factors impacting our 2024 guidance assumptions. Non-GAAP Financial Measures Definitions and Reconciliations

The following Non-GAAP financial measures definitions have been revised and do not include adjustments in respect to membership upgrade sales: (i) FFO; (ii) Normalized FFO; (iii) EBITDAre; (iv) Adjusted EBITDAre; (v) Property operating revenues; (vi) Property operating expenses; and (vii) Income from property operations, excluding property management. For comparability, prior periods' non-GAAP financial measures have also been updated.

FUNDS FROM OPERATIONS (FFO). We define FFO as net income, computed in accordance with GAAP, excluding gains or losses from sales of properties, depreciation and amortization related to real estate, impairment charges and adjustments to reflect our share of FFO of unconsolidated joint ventures. Adjustments for unconsolidated joint ventures are calculated to reflect FFO on the same basis. We compute FFO in accordance with our interpretation of standards established by the National Association of Real Estate Investment Trusts ("NAREIT"), which may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently than we do.

We believe FFO, as defined by the Board of Governors of NAREIT, is generally a measure of performance for an equity REIT. While FFO is a relevant and widely used measure of operating performance for equity REITs, it does not represent cash flow from operations or net income as defined by GAAP, and it should not be considered as an alternative to these indicators in evaluating liquidity or operating performance.

NORMALIZED FUNDS FROM OPERATIONS (NORMALIZED FFO). We define Normalized FFO as FFO excluding non-operating income and expense items, such as gains and losses from early debt extinguishment, including prepayment penalties, defeasance costs, transaction/pursuit costs and other, and other miscellaneous non-comparable items. Normalized FFO presented herein is not necessarily comparable to Normalized FFO presented by other real estate companies due to the fact that not all real estate companies use the same methodology for computing this amount.

FUNDS AVAILABLE FOR DISTRIBUTION (FAD). We define FAD as Normalized FFO less non-revenue producing capital expenditures.

We believe that FFO, Normalized FFO and FAD are helpful to investors as supplemental measures of the performance of an equity REIT. We believe that by excluding the effect of gains or losses from sales of properties, depreciation and amortization related to real estate and impairment charges, which are based on historical costs and may be of limited relevance in evaluating current performance, FFO can facilitate comparisons of operating performance between periods and among other equity REITs. We further believe that Normalized FFO provides useful information to investors, analysts and our management because it allows them to compare our operating performance to the operating performance of other real estate companies and between periods on a consistent basis without having to account for differences not related to our normal operations. For example, we believe that excluding the early extinguishment of debt and other miscellaneous non-comparable items from FFO allows investors, analysts and our management to assess the sustainability of operating performance in future periods because these costs do not affect the future operations of the properties. In some cases, we provide information about identified non-cash components of FFO and Normalized FFO because it allows investors, analysts and our management to assess the impact of those items.

INCOME FROM PROPERTY OPERATIONS, EXCLUDING PROPERTY MANAGEMENT. We define Income from property operations, excluding property management as rental income, membership subscriptions and upgrade sales, utility and other income less property and rental home operating and maintenance expenses, real estate taxes, membership sales and marketing expenses, excluding property management expenses. Property management represents the expenses associated with indirect costs such as off-site payroll and certain administrative and professional expenses. We believe exclusion of property management expenses is helpful to investors and analysts as a measure of the operating results of our properties, excluding items that are not directly related to the operation of the properties. For comparative purposes, we present bad debt expense within Property operating, maintenance and real estate taxes in the current and prior periods. We believe that this Non-GAAP financial measure is helpful to investors and analysts as a measure of the operating results of our properties.

EARNINGS BEFORE INTEREST, TAX, DEPRECIATION AND AMORTIZATION FOR REAL ESTATE (EBITDAre) AND ADJUSTED EBITDAre. We define EBITDAre as net income or loss excluding interest income and expense, income taxes, depreciation and amortization, gains or losses from sales of properties, impairments charges, and adjustments to reflect our share of EBITDAre of unconsolidated joint ventures. We compute EBITDAre in accordance with our interpretation of the standards established by NAREIT, which may not be comparable to EBITDAre reported by other REITs that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently than we do.

We define Adjusted EBITDAre as EBITDAre excluding non-operating income and expense items, such as gains and losses from early debt extinguishment, including prepayment penalties and defeasance costs, transaction/pursuit costs and other, and other miscellaneous non-comparable items.

We believe that EBITDAre and Adjusted EBITDAre may be useful to an investor in evaluating our operating performance and liquidity because the measures are widely used to measure the operating performance of an equity REIT.
