Repricing of Options

At its meeting on June 12, 2002, the Board of Directors directed the Company's management to take action to possibly improve the value of outstanding stock options as an incentive to the Company's employees that then held stock options. At its meeting on September 26, 2002, the Company's management presented its plan to the Board to offer to holders of the Company's stock options the opportunity to reprice their stock options to an amount closer to then recent trade amounts.

Elements of the repricing, if elected, included: (i) repricing of all options held to \$0.20 (twenty cents) per share, the closing price on the AMEX of the Company's common stock on June 11, 2002, the day before the Board directed management to take action, (ii) a no-exercise period through and including December 12, 2002, (iii) automatic vesting of all repriced options on December 13, 2002, and (iv) the opportunity to exercise all or any portion of the repriced options at \$0.20 per share through and including December 31, 2002. At the close of business on December 31, 2002, all repriced but unexercised options were forfeited.

At the time of the repricing offer on September 30, 2002, there were 911,450 outstanding stock options held by directors, executive management and other Company employees (including two former employees that retained their stock options). Mr. Bradley, Sr. offset amounts owed to him under the SPI Consulting Agreement against the \$25,000 exercise price of his options. Kimball Bradley exercised his options paying cash for the underlying securities. Mr. Lawyer repriced his options but did not exercise them, resulting in his 55,000 options being forfeited. Messrs. Froehlich and Croushore offset amounts accrued for prior years' bonuses against the exercise price of their options.

Results of the repricing offer by group are as follows:

Repricing Results by Group

	Directors	Non-Director Executive	Other Employees	Total
Options on September 30, 2002	495,000	158,000	258,450	911,450

Options on December 31, 2002	44,000	-	-	44,000
	=====	=====	=====	=====

Mr. Clerihue holds the only remaining options to purchase 44,000 shares of the Company's common stock as he elected not to reprice. Exercise prices per share related to these options are 15,000 at \$5.0625, 10,000 at \$3.00, 10,000 at \$1.45 and 9,000 at \$1.00.

Compensation Committee Report

The compensation committee of the board of directors has furnished the following report on executive compensation for 2002:

The board of directors pursues a philosophy of seeking to improve Reunion Industries' performance and to maximize shareholder value by, among other things, relating executive compensation and stock-based benefits to the Company's performance. In general, executive financial rewards may be segregated into the following significant components: base compensation, bonus, and stock option and other benefit plans.

Base compensation for senior executives is generally intended to be competitive with that paid at comparable companies. However, no comparability studies were conducted for executive salaries paid in 2002, and the committee bases its base salary determinations primarily on its knowledge of compensation paid to senior executives at other companies. The committee also takes into account the responsibilities and individual performance of the executives in setting base salaries and the committee may set the base compensation for certain executives at a premium level if they are viewed as essential to the organization. The committee uses these same criteria to establish compensation for the chief executive officer and has not established any quantitative criteria for his compensation.

Under the supervision of the compensation committee, annual bonuses reflect a policy of requiring a specified level of company performance for the year before any bonuses are earned by senior executives, with bonuses for achieving higher levels of performance directly related to the level achieved. In setting performance criteria, the committee will consider the total compensation payable or potentially available to the chief executive and other executive officers. While the development of any business necessarily involves numerous factors, the board's primary emphasis will be on encouraging management to increase Reunion Industries' net assets and cash flow, and in certain instances, rationalization of certain company businesses or assets.

The board of directors believes that properly designed and administered long-term, stock-based incentives for senior executives closely align the executives' economic interest with those of stockholders and provide a direct and continuing focus upon the goal of constantly striving to maximize stockholder value. The compensation committee intends, with any necessary concurrence of the board of directors and stockholders, to continue to consider alternate forms of stock-based incentives designed to achieve the maximum possible performance based benefit to all senior executives at the least possible cost and the greatest attainable economic efficiency to Reunion Industries, with such benefits designed as nearly as practicable to directly align the economic interests of professional managers with those of Reunion Industries' stockholders. In 2002, the board, including the members of the compensation committee, directed Reunion's management to take action to possibly improve the value of outstanding stock options as an incentive to the Company's employees that held stock options, including executive management. The board approved management's plan of repricing the outstanding stock options to an amount closer to then recent trade amounts, which ultimately gave executive management a larger ownership stake in Reunion and, possibly, an increased incentive to remain with the Company.

Pursuant to applicable rules of the Securities and Exchange Commission, as of May 15, 2003, members of the compensation committee are deemed to own beneficially an aggregate of 186,029 shares, or approximately 1.2%, of Reunion's outstanding common stock. See "Ownership Information - Security Ownership of Certain Beneficial Owners and Management".

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires Reunion's directors and officers and persons who own beneficially more than 10% of the common stock of Reunion Industries to file with the Securities and Exchange Commission and the American Stock Exchange initial reports of beneficial ownership and reports of changes in beneficial ownership of the common stock of Reunion Industries. Directors, officers and persons owning more than 10% of the common stock of Reunion Industries are required to furnish Reunion Industries with copies of all such reports. Based solely on Reunion's review of the copies of such forms it has received and representations from certain persons that they were not required to file reports on Form 5 for 2002, Reunion Industries believes that all its officers, directors and greater than 10% beneficial owners complied with all filing requirements applicable to them with respect to transactions during 2002, except that Joseph C. Lawyer filed one late report of one transaction.

Previous Independent Accountants

On May 1, 2001, PricewaterhouseCoopers LLP resigned as the independent accountants of Reunion Industries effective after the completion of the review of the Quarterly Report on Form 10-Q for the quarter ended March 31, 2001. The report of PricewaterhouseCoopers LLP on the financial statements for the fiscal year ended prior to May 1, 2001 contained no adverse opinion or disclaimer of opinion and was not qualified or modified as to uncertainty, audit scope or accounting principle. Reunion Industries had discussed with PricewaterhouseCoopers LLP its relationship with the Reunion Industries in the past, did not ask PricewaterhouseCoopers LLP to reconsider its decision and feels such resignation was in the best interests of both parties. In connection with its audit for the most recent fiscal year and through May 1, 2001, there had been no disagreements with PricewaterhouseCoopers LLP on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the

satisfaction of PricewaterhouseCoopers LLP, would have caused them to make reference thereto in their report on the financial statements for such year. During the most recent year and through May 1, 2001, there were no reportable events (as defined in Regulation S-K Item 304 (a)(1) (v)).

Independent Accountants for 2001 and 2002

On May 15, 2001, Ernst & Young LLP was selected by the audit committee of the board of directors to audit Reunion Industries' financial statements for the fiscal years ending December 31, 2001 and 2002. Representatives of Ernst & Young LLP are expected to be present at the Annual Meeting of Stockholders on June 26, 2003 to respond to appropriate questions and to make a statement if they desire to do so. A formal appointment of auditors for 2003 will be made later in the year, but Ernst & Young LLP is continuing to provide audit-related services for interim periods.

Audit Fees

Aggregate fees billed by Ernst & Young LLP for audit and quarterly review services during 2002 were \$178,000. Aggregate fees billed by PricewaterhouseCoopers LLP for audit services as predecessor auditor during 2002 were \$1,425.

All Other Fees

Additional fees totaling \$36,500 were billed by Ernst & Young LLP during 2002 for audits of employee benefit plans. There were no fees for financial information systems design and implementation services or for internal audit services. The audit committee considers Ernst & Young LLP's provision of services detailed herein to be compatible with maintaining that firm's independence from Reunion Industries.

Audit Committee Report

The audit committee of the board of directors has furnished the following report on its activities during 2002:

The audit committee consists of three of Reunion Industries' outside directors. The board of directors and the audit committee believe that the audit committee's membership satisfies the American Stock Exchange rules concerning audit committee membership, including the requirements that members be independent and have financial sophistication. The Board of Directors has adopted a formal written audit committee charter and the audit committee performs a review and reassessment of the adequacy of the charter on an annual basis.

In accordance with its written charter, the audit committee assists the board of directors in fulfilling its oversight responsibilities by reviewing the financial information that will be provided to the stockholders and others, the systems of internal controls, and all audit processes.

In discharging its oversight responsibilities regarding the audit process, the audit committee:

- reviewed and discussed the audited financial statements with management;
- discussed with the independent accountants the material required to be discussed by Statement on Auditing Standards No. 61, as currently in effect; and
- reviewed the written disclosures and the letter from the independent accountants required by the Independence Standards Board's Standard No. 1, as currently in effect, and discussed with the independent accountants any relationships that may impact their objectivity and independence.

Based upon the review and discussions referred to above, the audit committee recommended to the board of directors that the audited financial statements be included in the company's Annual Report on Form 10-K for the fiscal year ended December 31, 2002, as filed with the Securities and Exchange Commission.
