* Estimated loss is the estimated principal loss on charge-offs. Effective yield is equal to the borrower interest rate: (i) minus the servicing fee rate, (ii) minus estimated uncollected interest on charge-offs, (iii) plus estimated collected late fees. Effective yield, Estimated loss and Estimated return are intended to represent the estimated average effective yield, loss and return, respectively, on a basket of loans with the same characteristics as this listing. All estimates are based on the historical performance of Prosper loans for borrowers with similar characteristics. The calculations of Effective yield, Estimated loss and Estimated return require significant assumptions about the repayment of loans, and lenders should make their own judgments with respect to the accuracy of these assumptions. Actual performance may differ from estimated performance.
