NPORT-P: Part A: General Information

Item A.1. Information about the Registrant.

a. Name of Registrant	DFA INVESTMENT DIMENSIONS GROUP INC
b. Investment Company Act file number for Registrant: (e.g., 811-_____)	811-03258
c. CIK number of Registrant	0000355437
d. LEI of Registrant	549300XGRTBJCE41BD26
e. Address and telephone number of Registrant:	
i. Street Address 1	6300 BEE CAVE ROAD
ii. Street Address 2	BUILDING ONE
iii. City	AUSTIN

iv. State, if applicable	
v. Foreign country, if applicable	
vi. Zip / Postal Code	78746
vii. Telephone number	512-306-7400

Item A.2. Information about the Series.

a. Name of Series.	DFA World ex U.S. Government Fixed Income Portfolio
b. EDGAR series identifier (if any).	S000034651
c. LEI of Series.	5493001KSJU4MGHNS208

Item A.3. Reporting period.

a. Date of fiscal year-end.	2022-10-31
b. Date as of which information is reported.	2022-07-31

Item A.4. Final filing

a. Does the Fund anticipate that this will be its final filing on Form N PORT?	☐ Yes ☒ No

NPORT-P: Part B: Information About the Fund

Report the following information for the Fund and its consolidated subsidiaries.

Item B.1. Assets and liabilities. Report amounts in U.S. dollars.

a. Total assets, including assets attributable to miscellaneous securities reported in Part D.	1313870525.09
b. Total liabilities.	11008987.81
c. Net assets.	1302861537.28

Item B.2. Certain assets and liabilities. Report amounts in U.S. dollars.

a. Assets attributable to miscellaneous securities reported in Part D.	0.00000000
b. Assets invested in a Controlled Foreign Corporation for the purpose of investing in certain types of instruments such as, but not limited to, commodities.	0.00000000

c. Borrowings attributable to amounts payable for notes payable, bonds, and similar debt, as reported pursuant to rule 6-04(13)(a) of Regulation S-X [17 CFR 210.6-04(13)(a)].

Amounts payable within one year.

Banks or other financial institutions for borrowings.	0.00000000
Controlled companies.	0.00000000
Other affiliates.	0.00000000
Others.	0.00000000

Amounts payable after one year.

Banks or other financial institutions for borrowings.	0.00000000
Controlled companies.	0.00000000

Others.	0.00000000

d. Payables for investments purchased either (i) on a delayed delivery, when-issued, or other firm commitment basis, or (ii) on a standby commitment basis.

f. Cash and cash equivalents not reported in	14757300	38000000

Item B.3. Portfolio level risk metrics.

If the average value of the Fund's debt securities positions for the previous three months, in the aggregate, exceeds 25% or more of the Fund's net asset value, provide:

a. Interest Rate Risk (DV01). For each currency for which the Fund had a value of 1% or more of the Fund's net asset value, provide the change in value of the portfolio resulting from a 1 basis point change in interest rates, for each of the following maturities: 3 month, 1 year, 5 years, 10 years, and 30 years.

b. Interest Rate Risk (DV100). For each currency for which the Fund had a value of 1% or more of the Fund's net asset value, provide the change in value of the portfolio resulting from a 100 basis point change in interest rates, for each of the following maturities: 3 month, 1 year, 5 years, 10 years, and 30 years.

Interest Rate Risk (DV01)

		12477.94000000	-4379.53000000	-81543.52000000	-610034.88000000	-54096.25000000

		Interest Rate Risk (DV100)				
		63839.81000000	-299115.73000000	-1195776.34000000	0.00000000	0.00000000
#7	New Zealand Dollar					
		Interest Rate Risk (DV01)				
		190.83000000	-798.17000000	-3467.15000000	-39762.19000000	-1347.03000000
		Interest Rate Risk (DV100)				
		19070.96000000	-79315.42000000	-340466.38000000	-3785120.25000000	-134450.61000000
#8	United States Dollar					
		Interest Rate Risk (DV01)				
		-18143.82000000	-207.57000000	-9076.96000000	-82.83000000	0.00000000
		Interest Rate Risk (DV100)				
		-1812891.73000000	-20626.00000000	-885873.50000000	-8281.10000000	0.00000000

c. Credit Spread Risk (SDV01, CR01 or CS01). Provide the change in value of the portfolio resulting from a 1 basis point change in credit spreads where the shift is applied to the option adjusted spread, aggregated by investment grade and non-investment grade exposures, for each of the following maturities: 3 month, 1 year, 5 years, 10 years, and 30 years.

Credit Spread Risk	3 month	1 year	5 years	10 years	30 years
Investment grade	-258.18000000	-4877.49000000	-109420.54000000	-318265.19000000	-11036.55000000
Non-Investment grade	0.00000000	0.00000000	0.00000000	0.00000000	0.00000000

For purposes of Item B.3., calculate value as the sum of the absolute values of:

- (i) the value of each debt security,
- (ii) the notional value of each swap, including, but not limited to, total return swaps, interest rate swaps, and credit default swaps, for which the underlying reference asset or assets are debt securities or an interest rate;
- (iii) the notional value of each futures contract for which the underlying reference asset or assets are debt securities or an interest rate; and
- (iv) the delta-adjusted notional value of any option for which the underlying reference asset is an asset described in clause (i),(ii), or (iii).

Report zero for maturities to which the Fund has no exposure. For exposures that fall between any of the listed maturities in (a) and (b), use linear interpolation to approximate exposure to each maturity listed above. For exposures outside of the range of maturities listed above, include those exposures in the nearest maturity.

Item B.4. Securities lending.

a. For each borrower in any securities lending transaction, provide the following information:

Borrower Information Record	Name of borrower	LEI (if any) of borrower	Aggregate value of all securities on loan to the borrower
—	—	—	—

b. Did any securities lending counterparty provide any non-cash collateral? ☐ Yes ☒ No

Item B.5. Return information.

a. Monthly total returns of the Fund for each of the preceding three months. If the Fund is a Multiple Class Fund, report returns for each class. Such returns shall be calculated in accordance with the methodologies outlined in Item 26(b) (1) of Form N-1A, Instruction 13 to sub-Item 1 of Item 4 of Form N-2, or Item 26(b) (i) of Form N-3, as applicable.

Monthly Total Return Record	Monthly total returns of the Fund for each of the preceding three months			Class identification number(s) (if any) of the Class(es) for which returns are reported
	Month 1	Month 2	Month 3	
#1	-1.34000000	-2.48000000	5.21000000	C000106763

b. For each of the preceding three months, monthly net realized gain (loss) and net change in unrealized appreciation (or depreciation) attributable to derivatives for each of the following categories: commodity contracts, credit contracts, equity contracts, foreign exchange contracts, interest rate contracts, and other contracts. Within each such asset category, further report the same information for each of the following types of derivatives instrument: forward, future, option, swaption, swap, warrant, and other. Report in U.S. dollars. Losses and depreciation shall be reported as negative numbers.

Asset category	Instrument type	Month 1		Month 2		Month 3	
		Monthly net realized gain(loss)	Monthly net change in unrealized appreciation (or depreciation)	Monthly net realized gain(loss)	Monthly net change in unrealized appreciation (or depreciation)	Monthly net realized gain(loss)	Monthly net change in unrealized appreciation (or depreciation)
Commodity Contracts		—	—	—	—	—	—
Credit Contracts		—	—	—	—	—	—
Equity Contracts		—	—	—	—	—	—
Foreign Exchange Contracts		0.01000000	-23578806.28000000	0.01000000	19209349.390000000	-0.13000000	-37802578.39000000
	Forward	0.01000000	-23578806.2800000000	0.01000000	19209349.3900000000	-0.13000000	-37802578.3900000000
	Future	—	—	—	—	—	—
	Option	—	—	—	—	—	—
	Swaption	—	—	—	—	—	—
	Swap	—	—	—	—	—	—
	Warrant	—	—	—	—	—	—
	Other	—	—	—	—	—	—
Interest Rate Contracts		—	—	—	—	—	—

c. For each of the preceding three months, monthly net realized gain (loss) and net change in unrealized appreciation (or depreciation) attributable to investment other than derivatives. Report in U.S. dollars. Losses and depreciation shall be reported as negative numbers.

Month	Monthly net realized gain(loss)	Monthly net change in unrealized appreciation (or depreciation)
Month 1	4695110.52000000	-793967.39000000
Month 2	-13681073.66000000	-38374975.57000000
Month 3	41901673.22000000	59593175.23000000

Item B.6. Flow information.

a. Provide the aggregate dollar amounts for sales and redemptions/repurchases of Fund shares during each of the preceding three months. If shares of the Fund are held in omnibus accounts, for purposes of calculating the Fund's sales, redemptions, and repurchases, use net sales or redemptions/repurchases from such omnibus accounts. The amounts to be reported under this Item should be after any front-end sales load has been deducted and before any deferred or contingent deferred sales load or charge has been deducted. Shares sold shall include shares sold by the Fund to a registered unit investment trust. For mergers and other acquisitions, include in the value of shares sold any transaction in which the Fund acquired the assets of another investment company or of a personal holding company in exchange for its own shares. For liquidations, include in the value of shares redeemed any transaction in which the Fund liquidated all or part of its assets. Exchanges are defined as the redemption or repurchase of shares of one Fund or series and the investment of all or part of the proceeds in shares of another Fund or series in the same family of investment companies.

Month	Total net asset value of shares sold (including exchanges but excluding reinvestment of dividends and distributions)	Total net asset value of shares sold in connection with reinvestments of dividends and distributions	Total net asset value of shares redeemed or repurchased, including exchanges
Month 1	29767222.66000000	0.00000000	93878466.09000000
Month 2	43440180.30000000	0.00000000	96468476.31000000
Month 3	26304489.60000000	0.00000000	35453384.08000000

Item B.7. Highly Liquid Investment Minimum information.

a. If applicable, provide the Fund's current Highly Liquid Investment Minimum.

—

b. If applicable, provide the number of days that the Fund's holdings in Highly Liquid Investments fell below the Fund's Highly Liquid Investment Minimum during the reporting period.

—

c. Did the Fund's Highly Liquid Investment Minimum change during the reporting period? ☐ Yes ☐ No ☐ N/A

Item B.8. Derivatives Transactions.

For portfolio investments of open-end management investment companies, provide the percentage of the Fund's Highly Liquid Investments that it has pledged as margin or collateral in connection with derivatives transactions that are classified among the following categories as specified in rule 22e-4 [17 CFR 270.22e-4]:

- (1) Moderately Liquid Investments
- (2) Less Liquid Investments
- (3) Illiquid Investments

For purposes of Item B.8, when computing the required percentage, the denominator should only include assets (and exclude liabilities) that are categorized by the Fund as Highly Liquid Investments.

Classification —

Item B.9. Derivatives Exposure for limited derivatives users.

If the Fund is excepted from the rule 18f-4 [17 CFR 270.18f-4] program requirement and limit on fund leverage risk under rule 18f-4(c)(4) [17 CFR 270.18f-4(c)(4)], provide the following information:

a. Derivatives exposure (as defined in rule 18f-4(a) [17 CFR 270.18f-4(a)]), reported as a percentage of the Fund's net asset value.	—
b. Exposure from currency derivatives that hedge currency risks, as provided in rule 18f-4(c)(4)(i)(B) [17 CFR 270.18f-4(c)(4)(i)(B)], reported as a percentage of the Fund's net asset value.	—
c. Exposure from interest rate derivatives that hedge interest rate risks, as provided in rule 18f-4(c)(4)(i)(B) [17 CFR 270.18f-4(c)(4)(i)(B)], reported as a percentage of the Fund's net asset value.	—
d. The number of business days, if any, in excess of the five-business-day period described in rule 18f-4(c)(4)(ii) [17 CFR 270.18f-4(c)(4)(ii)], that the Fund's derivatives exposure exceeded 10 percent of its net assets during the reporting period.	—

Item B.10. VaR information.

For Funds subject to the limit on fund leverage risk described in rule 18f-4(c)(2) [17 CFR 270.18f-4(c)(2)], provide the following information, as determined in accordance with the requirement under rule 18f-4(c)(2)(ii) to determine the fund's compliance with the applicable VaR test at least once each business day:

a. Median daily VaR during the reporting period, reported as a percentage of the Fund's net asset value.	—
b. For Funds that were subject to the Relative VaR Test during the reporting period, provide:	
i. As applicable, the name of the Fund's Designated Index, or a statement that the Fund's Designated Reference Portfolio is the Fund's Securities Portfolio.	—
ii. As applicable, the index identifier for the Fund's Designated Index.	—
iii. Median VaR Ratio during the reporting period, reported as a percentage of the VaR of the Fund's Designated Reference Portfolio.	—
c. Backtesting Results. Number of exceptions that the Fund identified as a result of its backtesting of its VaR calculation model (as described in rule 18f-4(c)(1)(iv) [17 CFR 270.18f-4(c)(1)(iv)] during the reporting period.	—

NPORT-P: Part C: Schedule of Portfolio Investments

For each investment held by the Fund and its consolidated subsidiaries, disclose the information requested in Part C. A Fund may report information for securities in an aggregate amount not exceeding five percent of its total assets as miscellaneous securities in Part D in lieu of reporting those securities in Part C, provided that the securities so listed are not restricted, have been held for not more than one year prior to the end of the reporting period covered by this report, and have not been previously reported by name to the shareholders of the Fund or to any exchange, or set forth in any registration statement, application, or report to shareholders or otherwise made available to the public.

Schedule of Portfolio Investments Record: 1

Item C.1. Identification of investment.

a. Name of issuer (if any).	LAND NORDRHEIN-WESTFALEN
b. LEI (if any) of issuer. (1)	529900VWPV1LPOHGJ702
c. Title of the issue or description of the investment.	North Rhine-Westphalia Germany
d. CUSIP (if any).	000000000

At least one of the following other identifiers:

- ISIN	DE000NRW2152

Item C.2. Amount of each investment.

Balance. (2).

a. Balance	9000000.00000000
b. Units	Principal amount
c. Description of other units.	
d. Currency. (3)	Euro Member Countries
e. Value. (4)	9887926.12000000
f. Exchange rate.	0.97842600

NPORT-P: Part E: Explanatory Notes (if any)

The Fund may provide any information it believes would be helpful in understanding the information reported in response to any Item of this Form. The Fund may also explain any assumptions that it made in responding to any Item of this Form. To the extent responses relate to a particular Item, provide the Item number(s), as applicable.

Explanatory Note Record	Note Item	Explanatory Notes
#1	B.5.a	Monthly returns presented in Item B.5(a) have been calculated without deducting any applicable sales loads or redemption fees.
#2	C.6	For purposes of Item C.6 identifying restricted securities, a security that is subject to Rule 144A under the Securities Act of 1933, as amended, is identified as a restricted security only if the fund cannot sell the security to qualified institutional buyers at the report date due to the restrictions under Rule 144A.

NPORT-P: Additional notes

Identifier	Note
(1)	LEI (if any) of issuer. In the case of a holding in a fund that is a series of a series trust, report the LEI of the series.
(2)	Balance. Indicate whether amount is expressed in number of shares, principal amount, or other units. For derivatives contracts, as applicable, provide the number of contracts.
(3)	Currency. Indicate the currency in which the investment is denominated.
(4)	Value. Report values in U.S. dollars. If currency of investment is not denominated in U.S. dollars, provide the exchange rate used to calculate value.
(5)	Indicate payoff profile among the following categories (long, short, N/A). For derivatives, respond N/A to this Item and respond to the relevant payoff profile question in Item [C/D].11.
(6)	Asset type (short-term investment vehicle (e.g., money market fund, liquidity pool, or other cash management vehicle), repurchase agreement, equity-common, equity-preferred, debt, derivative-commodity, derivative-credit, derivative-equity, derivative-foreign exchange, derivative-interest rate, derivatives-other, structured note, loan, ABS-mortgage backed security, ABS-asset backed commercial paper, ABS-collateralized bond/debt obligation, ABS-other, commodity, real estate, other). If “other” provide a brief description.
(7)	Issuer type (corporate, U.S. Treasury, U.S. government agency, U.S. government sponsored entity, municipal, non-U.S. sovereign, private fund, registered fund, other). If “other” provide a brief description.
(8)	Report the ISO country code that corresponds to the country where the issuer is organized.

(9)	If different from the country where the issuer is organized, also report the ISO country code that corresponds to the country of investment or issuer based on the concentrations of the risk and economic exposure of the investments.
(10)	Liquidity classification information. For portfolio investments of open-end management investment companies, provide the liquidity classification(s) for each portfolio investment among the following categories as specified in rule 22e-4 [17 CFR 270.22e-4]: Highly Liquid Investments, Moderately Liquid Investments, Less Liquid Investments, Illiquid Investments. For portfolio investments with multiple liquidity classifications, indicate the percentage amount attributable to each classification.
(11)	Funds may choose to indicate the percentage amount of a holding attributable to multiple classification categories only in the following circumstances: (1) if portions of the position have differing liquidity features that justify treating the portions separately; (2) if a fund has multiple sub-advisers with differing liquidity views; or (3) if the fund chooses to classify the position through evaluation of how long it would take to liquidate the entire position (rather than basing it on the sizes it would reasonably anticipated trading). In (1) and (2), a fund would classify using the reasonably anticipated trade size for each portion of the position.
(12)	Indicate the level within the fair value hierarchy in which the fair value measurements fall pursuant to U.S. Generally Accepted Accounting Principles 7 (ASC 820, Fair Value Measurement). [1/2/3] Report "N/A" if the investment does not have a level associated with it (i.e., net asset value used as the practical expedient).
(13)	Select the category that most closely reflects the coupon type among the following (fixed, floating, variable, none).
(14)	Are there any interest payments in arrears or have any coupon payments been legally deferred by the issuer? [Y/N]
(15)	Enter "N" if the interest may be paid in kind but is not actually paid in kind or if the Fund has the option of electing in-kind payment and has elected to be paid in-kind.
(16)	Description of the reference instrument, including the name of issuer, title of issue, and currency in which denominated, as well as CUSIP of reference instrument, ISIN (if CUSIP is not available), ticker (if CUSIP and ISIN are not available), or other identifier (if CUSIP, ISIN, and ticker are not available). If other identifier provided, indicate the type of identifier used.
(17)	Conversion ratio per US\$1000 notional, or, if bond currency is not in U.S. dollars, per 1000 units of the relevant currency, indicating the relevant currency. If there is more than one conversion ratio, provide each conversion ratio.
(18)	Select the category that reflects the transaction (repurchase, reverse repurchase). Select "repurchase agreement" if the Fund is the cash lender and receives collateral. Select "reverse repurchase agreement" if the Fund is the cash borrower and posts collateral.
(19)	If multiple securities of an issuer are subject to the repurchase agreement, those securities may be aggregated.
(20)	Category of investments that most closely represents the collateral, selected from among the following (asset-backed securities; agency collateralized mortgage obligations; agency debentures and agency strips; agency mortgage-backed securities; private label collateralized mortgage obligations; corporate debt securities; equities; money market; U.S. Treasuries (including strips); other instrument). If "other instrument", include a brief description, including, if applicable, whether it is a collateralized debt obligation, municipal debt, whole loan, or international debt
(21)	Type of derivative instrument that most closely represents the investment, selected from among the following (forward, future, option, swaption, swap (including but not limited to total return swaps, credit default swaps, and interest rate swaps), warrant, other).
(22)	In the case of a holding in a fund that is a series of a series trust, report the LEI of the series.
(23)	Description and terms of payments necessary for a user of financial information to understand the terms of payments to be paid and received, including, as applicable, description of the reference instrument, obligation, or index, financing rate, floating coupon rate, fixed coupon rate, and payment frequency.
(24)	Depreciation shall be reported as a negative number.
(25)	If the reference instrument is a derivative, indicate the category of derivative from among the categories listed in sub-Item C.11.a. and provide all information required to be reported on this Form for that category.
(26)	If the reference instrument is an index or custom basket, and if the index's or custom basket's components are publicly available on a website and are updated on that website no less frequently than quarterly, identify the index and provide the index identifier, if any. If the index's or custom basket's components are not publicly available in that manner, and the notional amount of the derivative represents 1% or less of the net asset value of the Fund, provide a narrative description of the index. If the index's or custom basket's components are not publicly available in that manner, and the notional amount of the derivative represents more than 5% of the net asset value of the Fund, provide the (i) name, (ii) identifier, (iii) number of shares or notional amount or contract value as of the trade date (all of which would be reported as negative for short positions), and (iv) value of every component in the index or custom basket. The identifier shall include CUSIP of the index's or custom basket's components, ISIN (if CUSIP is not available), ticker (if CUSIP and ISIN are not available), or other identifier (if CUSIP, ISIN, and ticker are not available). If other identifier provided, indicate the type of identifier used. If the index's or custom basket's components are not publicly available in that manner, and the notional amount of the derivative represents greater than 1%, but 5% or less, of the net asset value of the Fund, Funds shall report the required component information described above, but may limit reporting to the (i) 50 largest components in the index and (ii) any other components where the notional value for that components is over 1% of the notional value of the index or custom basket. An index or custom basket, where the components are publicly available on a website and are updated on that website no less frequently than quarterly.
(27)	If the index's or custom basket's components are not publicly available in that manner, and the notional amount of the derivative represents 1% or less of the net asset value of the Fund, provide a narrative description of the index.
(28)	If the reference instrument is neither a derivative or an index, the description of the reference instrument shall include the name of issuer and title of issue, as well as CUSIP of the reference instrument, ISIN (if CUSIP is not available), ticker if (CUSIP and ISIN are not available), or other identifier (if CUSIP, ISIN, and ticker are not available).

ORGANIZATION

DFA Investment Dimensions Group Inc. (the "Fund") is an open-end management investment company registered under the Investment Company Act of 1940, whose shares are generally offered to institutional investors, retirement plans and clients of registered investment advisors. At July 31, 2022, the Fund consisted of one hundred and two operational portfolios, (the "Portfolios") all of which are included in this document. The Fund's advisor is Dimensional Fund Advisors LP (the "Advisor"). Some of the portfolios of the Fund are feeder funds in a master-feeder structure. The master funds are part of other entities that are also managed by the Advisor. The Schedules of Investments for the master funds have been included in this document.

SECURITY VALUATION

The Portfolios use a fair value hierarchy, which prioritizes the inputs-to-valuation techniques used to measure fair value into three broad levels described below:

- Level 1 - inputs are quoted prices in active markets for identical securities (including equity securities, open-end investment companies and futures contracts)
- Level 2 - other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 - significant unobservable inputs (including the Portfolios' own assumptions in determining the fair value of investments)

The Funds of Funds (International Small Company Portfolio, Global Small Company Portfolio, World ex U.S. Value Portfolio, Selectively Hedged Global Equity Portfolio, Dimensional Retirement Income Fund, Dimensional 2045 Target Date Retirement Income Fund, Dimensional 2050 Target Date Retirement Income Fund, Dimensional 2055 Target Date Retirement Income Fund, Dimensional 2060 Target Date Retirement Income Fund, Dimensional 2065 Target Date Retirement Income Fund, Dimensional 2010 Target Date Retirement Income Fund, Dimensional 2015 Target Date Retirement Income Fund, Dimensional 2020 Target Date Retirement Income Fund, Dimensional 2025 Target Date Retirement Income Fund, Dimensional 2030 Target Date Retirement Income Fund, Dimensional 2035 Target Date Retirement Income Fund, Dimensional 2040 Target Date Retirement Income Fund, World Core Equity Portfolio, Global Social Core Equity Portfolio, DFA VA Global Moderate Allocation Portfolio and VA Equity Allocation Portfolio) invest in the funds indicated on the Schedule of Investments ("Underlying Funds"). The DFA Global Real Estate Securities Portfolio may pursue its investment objective by investing its assets in its Underlying Funds and/or directly in securities of companies in the real estate industry. Each of the DFA Diversified Fixed Income Portfolio and DFA Global Core Plus Fixed Income Portfolio may pursue its investment objective by investing its assets in its Underlying Funds and/or directly in fixed income securities. Each Feeder Fund (U.S. Large Cap Value Portfolio, Japanese Small Company Portfolio, Asia Pacific Small Company Portfolio, United Kingdom Small Company Portfolio, Continental Small Company Portfolio, Emerging Markets Portfolio, Emerging Markets Small Cap Portfolio and Emerging Markets Value Portfolio) invests primarily in a corresponding master fund(s) ("Master Fund"). Shares held by the Portfolios in other investment companies (such as the Master Funds and the Underlying Funds) are valued at their respective daily net asset values as reported by their administrator. The Portfolios' investments in the series of The DFA Investment Trust Company or in Dimensional Emerging Markets Value Fund reflect their proportionate interest in the net assets of such corresponding Master Fund. These valuations are classified as Level 1 in the hierarchy.

Securities held by the Domestic Equity Portfolios (U.S. Targeted Value Portfolio, U.S. Small Cap Value Portfolio, U.S. Core Equity 1 Portfolio, U.S. Core Equity 2 Portfolio, U.S. Vector Equity Portfolio, U.S. Small Cap Portfolio, U.S. Micro Cap Portfolio, DFA Real Estate Securities Portfolio, U.S. Large Cap Equity Portfolio, U.S. Social Core Equity 2 Portfolio, U.S. Sustainability Core 1 Portfolio, U.S. Sustainability Targeted Value Portfolio, VA U.S. Targeted Value Portfolio, VA U.S. Large Value Portfolio, U.S. Large Cap Growth Portfolio, U.S. Small Cap Growth Portfolio, and U.S. High Relative Profitability Portfolio) and the International Equity Portfolios (Large Cap International Portfolio, International Core Equity Portfolio, DFA International Real Estate Securities Portfolio, DFA Global Real Estate Securities Portfolio, DFA International Small Cap Value Portfolio, International Vector Equity Portfolio, World ex U.S. Targeted Value Portfolio, World ex U.S. Core Equity Portfolio, Emerging Markets Core Equity Portfolio, International Sustainability Core 1 Portfolio, International Social Core Equity Portfolio, Emerging Markets Social Core Equity Portfolio, VA International Value Portfolio, VA International Small Portfolio, International Large Cap Growth Portfolio, International Small Cap Growth Portfolio, International High Relative Profitability Portfolio, Emerging

[Table of Contents](#)

securities, are valued at the last quoted sale price of the day. International equity securities are subject to a fair value factor, as described later in this note. Securities held by the Domestic Equity Portfolios and the International Equity Portfolios that are listed on Nasdaq are valued at the Nasdaq Official Closing Price ("NOCP"). If there is no last reported sale price or NOCP for the day, the Domestic Equity Portfolios and the International Equity Portfolios value the securities within the range of the most recent quoted bid and ask prices. Price information on listed securities is taken from the exchange where the security is primarily traded. Generally, securities issued by open-end management investment companies are valued using their respective net asset values or public offering prices, as appropriate, for purchase orders placed at the close of the New York Stock Exchange (NYSE). These securities are generally categorized as Level 1 in the hierarchy.

Securities for which no market quotations are readily available (including restricted securities), or for which market quotations have become unreliable, are valued in good faith at fair value in accordance with procedures adopted by the Board of Directors of the Fund. Fair value pricing may also be used if events that have a significant effect on the value of an investment (as determined in the discretion of the Advisor) occur before the net asset value of the Portfolio is calculated. When fair value pricing is used, the prices of securities used by the Domestic Equity Portfolios and the International Equity Portfolios may differ from the quoted or published prices for the same securities on their primary markets or exchanges. These securities are generally categorized as Level 2 or Level 3 in the hierarchy.

The International Equity Portfolios will also apply a fair value price in the circumstances described below. Generally, trading in foreign securities markets is completed each day at various times prior to the close of the NYSE. For example, trading in the Japanese securities markets is completed each day at the close of the Tokyo Stock Exchange (normally, 2:00 a.m. ET), which is fourteen hours before the close of the NYSE (normally, 4:00 p.m. ET) and the time at which the net asset values of the International Equity Portfolios are computed. Due to the time differences between the closings of the relevant foreign securities exchanges and the pricing of the International Equity Portfolios' shares (at the close of the NYSE), the International Equity Portfolios will fair-value their foreign investments when it is determined that the market quotations for the foreign investments are either unreliable or not readily available. The fair value prices will attempt to reflect the impact of the U.S. financial markets' perceptions and trading activities on the International Equity Portfolios' foreign investments since the last calculated closing prices of the foreign investments on their primary foreign securities markets or exchanges. For these purposes, the Board of Directors of the Fund has determined that movements in relevant indices or other appropriate market indicators, after the close of the Tokyo Stock Exchange or the London Stock Exchange, demonstrate that market quotations may be unreliable. Fair valuation of portfolio securities may occur on a daily basis. The fair value pricing by the International Equity Portfolios uses data furnished by an independent pricing service (and that data draws upon, among other information, the market values of foreign investments). When an International Equity Portfolio uses fair value pricing, the values assigned to the International Equity Portfolio's foreign investments may not be the quoted or published prices of the investments on their primary markets or exchanges. These securities are generally categorized as Level 2 in the hierarchy.

Debt securities held by Enhanced U.S. Large Company Portfolio, DFA Commodity Strategy Portfolio, DFA One-Year Fixed Income Portfolio, DFA Two-Year Global Fixed Income Portfolio, DFA Selectively Hedged Global Fixed Income Portfolio, DFA Short-Term Government Portfolio, DFA Five-Year Global Fixed Income Portfolio, DFA World ex U.S. Government Fixed Income, DFA Intermediate Government Fixed Income Portfolio, DFA Short-Term Extended Quality Portfolio, DFA Intermediate-Term Extended Quality Portfolio, DFA Targeted Credit Portfolio, DFA Investment Grade Portfolio, DFA Inflation-Protected Securities Portfolio, DFA Short-Term Municipal Bond Portfolio, DFA Intermediate-Term Municipal Bond Portfolio, DFA Selective State Municipal Bond Portfolio, DFA California Short-Term Municipal Bond Portfolio, DFA California Intermediate-Term Municipal Bond Portfolio, DFA NY Municipal Bond Fund, DFA Short-Duration Real Return Portfolio, DFA Municipal Real Return Portfolio, DFA Municipal Bond Portfolio, DFA LTIP Portfolio, VA Short-Term Fixed Portfolio, VA Global Bond Portfolio, VIT Inflation-Protected Securities Portfolio, DFA Social Fixed Income Portfolio, DFA Diversified Fixed Income Portfolio, DFA MN Municipal Bond Portfolio, DFA California Municipal Real Return Portfolio, DFA Global Sustainability Fixed Income Portfolio, DFA Global Core Plus Fixed Income Portfolio, DFA Oregon Municipal Bond Portfolio, DFA Global Core Plus Real Return Portfolio and DFA Short-Term Selective State Municipal Bond Portfolio are valued on the basis of evaluated prices provided by one or more pricing services or other reasonably reliable sources including broker/dealers that typically handle the purchase and sale of such securities. Securities that are traded over-the-counter and on a stock exchange generally will be valued according to the broadest and most representative market, and it is expected that for bonds and other fixed income securities, this ordinarily will be the over-the-counter market. Securities for which quotations

[Table of Contents](#)

are not readily available (including restricted securities), or for which market quotations have become unreliable, are valued in good faith at fair value in accordance with procedures adopted by the Board of Directors of the Fund. These securities are generally categorized as Level 2 or Level 3 in the hierarchy.

Listed derivatives, such as futures, that are actively traded are valued based on quoted prices from the exchange and are categorized as Level 1 in the hierarchy. Over-the-counter derivative contracts, which include forward currency contracts, do not require material subjectivity as pricing inputs are observed from quoted markets and are categorized as Level 2 in the hierarchy.

Swap agreements will be valued at the price provided by an independent third-party pricing service or source. If a price is not available from an independent third-party pricing service or source, the swap agreement will be valued in good faith at fair value in accordance with procedures adopted by the Board. These securities are generally categorized as Level 2 in the hierarchy.

A summary of the inputs used to value the Portfolios' investments by each major security type, industry and/or country is disclosed previously in this note. A valuation hierarchy table has been included at the end of the Schedule of Investments for the Portfolios (except for the Feeder Funds). The methodology or inputs used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

FINANCIAL INSTRUMENTS

In accordance with the Portfolios' investment objectives and policies, the Portfolios may invest either directly or indirectly (through their investments in a corresponding Master/Underlying Fund), in certain financial instruments that have off-balance sheet risk in excess of the amounts recognized in the financial statements and concentrations of credit and market risk. These instruments and their significant corresponding risks are described below:

1. **TREASURY INFLATION-PROTECTED SECURITIES (TIPS):** VIT Inflation-Protected Securities Portfolio, DFA Inflation-Protected Securities Portfolio, and DFA Short-Duration Real Return Portfolio may purchase TIPS, which are securities issued by the U.S. Treasury. Because the interest and/or principal payments on an inflation-protected security are adjusted periodically for changes in inflation, the income distributed by the Portfolio may be irregular. In addition, the current market value of inflation-protected securities is not guaranteed and will fluctuate.
2. **FOREIGN MARKET RISKS:** Investments in foreign markets may involve certain considerations and risks not typically associated with investments in the United States of America, including the possibility of future political and economic developments and the level of foreign governmental supervision

and regulation of foreign securities markets. These markets are generally smaller, less liquid and more volatile than the major securities markets in the United States of America. Consequently, acquisition and disposition of international securities held by the Portfolios may be inhibited.

Derivative Financial Instruments

Summarized below are the specific types of derivative instruments used by the Portfolios:

3. **FORWARD CURRENCY CONTRACTS:** The Portfolios listed below may acquire and sell forward currency contracts to hedge against adverse changes in the relationship of the U.S. dollar to foreign currencies (foreign exchange rate risk) or to transfer balances from one currency to another currency. The Selectively Hedged Global Equity Portfolio and Enhanced U.S. Large Company Portfolio may hedge some or all of the currency exposure of its foreign securities by entering into forward currency contracts. The decision to hedge the Selectively Hedged Global Equity Portfolio's and Enhanced U.S. Large Company Portfolio's currency exposure with respect to a foreign market will be based primarily on the Portfolio's existing exposure to a given foreign currency. Each contract is valued daily and the change in value is recorded by the Portfolio as an unrealized gain or loss, which is presented in the Statements of Operations as the change in unrealized appreciation or depreciation of forward currency contracts. When the contract is closed or offset with the same counterparty, the Portfolio records a realized gain or loss equal to the change in the value of the contract when it was opened and the value at the time it was closed or offset. This is presented in the Statements of Operations as a net realized gain or loss on forward currency contracts. Risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of foreign currency relative to the U.S. dollar.

4. **FUTURES CONTRACTS:** Each Portfolio listed below may purchase or sell futures contracts and options on futures contracts for equity securities and indices to increase or decrease market exposure based on actual or expected cash inflows to or outflows from the Portfolio. The Enhanced U.S. Large Company Portfolio may also use

[Table of Contents](#)

futures contracts and options thereon to hedge against securities prices or as part of its overall investment strategy. The Selectively Hedged Global Equity Portfolio may also use futures contracts to hedge some or all of the currency exposure of its foreign securities. Upon entering into a futures contract, the Portfolios deposit cash or pledge U.S. Government securities to a broker in an amount equal to the minimum "initial margin" requirements of the exchange on which the contract is traded. Subsequent payments are received from or paid to the broker each day, based on the daily fluctuation in the market value of the contract. These receipts or payments are known as "variation margin" and are recorded daily by the Portfolios as unrealized gains or losses until the contracts are closed. When the contracts are closed, the Portfolios record a realized gain or loss, which is presented in the Statements of Operations as a net realized gain or loss on futures, equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

The DFA Commodity Strategy Portfolio may enter into commodity, foreign currency, interest rate and commodity or securities index futures contracts and purchase and write (sell) related options traded on exchanges designated by the Commodity Futures Trading Commission ("CFTC") or, consistent with CFTC regulations, on foreign exchanges. The DFA Commodity Strategy Portfolio invests in futures contracts on individual commodities or commodity indices and options on them through the Portfolio's investment in the Dimensional Cayman Commodity Fund I, LTD., the "Subsidiary."

A commodity futures contract provides for the future sale by one party and the future purchase by the other party of a specified amount of a commodity, such as an energy, agricultural or metal commodity, at a specified price, date, time and place. A foreign currency futures contract provides for the future sale by one party and the future purchase by the other party of a certain amount of a specified non-U.S. currency at a specified price, date, time and place. An interest rate futures contract provides for the future sale by one party and the purchase by the other party of a certain amount of a specific interest-rate-sensitive financial instrument (debt security) at a specified price, date, time and place. Securities and commodities indexes are typically capitalization-or production-weighted, respectively. A securities index or commodities index futures contract is an agreement to be settled by delivery of an amount of cash equal to a specified multiplier times the difference between the value of the index at the close of the last trading day on the contract and the price at which the agreement is made. The clearing house of the exchange on which a futures contract is entered into becomes the counterparty to each purchaser and seller of the futures contract.

Payments, known as "variation margin", to and from the broker will be made daily as the currency, financial instrument or index underlying the futures contract fluctuates, making the long and short positions in the futures contract more or less valuable, a process known as "marking-to-market". As a result of the small margin deposit that is required, a small change in the market price of a futures contract can produce major losses.

At any time prior to the expiration of a futures contract, a Portfolio may elect to close the position by taking an opposite position, which will operate to terminate the Portfolio's existing position in the contract. Positions in futures contracts and options on futures contracts (described below) may be closed out only on the exchange on which they were entered into (or through a linked exchange). However, there is no assurance that an active market will exist at any particular time. Once the daily fluctuation limit has been reached in a particular contract, most futures exchanges restrict trades at a price beyond that limit or trading may be suspended for specified periods during the day. Such restrictions may prevent prompt liquidation of futures positions at an advantageous price, potentially subjecting the Portfolio to substantial losses. In such event and in the event of adverse price movements, the Portfolio would be required to make daily cash payments of variation margin. Losses incurred in futures transactions and the costs of these transactions will affect the Portfolio's performance.

The price volatility of commodity futures contracts has been historically greater than that for traditional securities, such as stocks and bonds, and there are a variety of factors associated with commodity futures contracts which may subject the Portfolio's investments in the contracts to greater volatility than investments in traditional securities.

Risks may arise upon entrance into futures contracts from potential imperfect price correlations between the futures contracts and the underlying securities, from the possibility of an illiquid secondary market for these instruments and from the possibility that the Portfolios could lose more than the initial margin requirements. The Portfolios entering into stock index futures are subject to equity price risk from those futures contracts. Counterparty credit risk related to exchange-traded futures is minimal because the exchange's clearinghouse, as counterparty to all exchange-traded futures, guarantees the futures against default. Risks may also arise upon entering into commodity-linked derivative instruments. The value of commodity-linked derivative instruments may be affected by changes in overall market movements, commodity index volatility, changes in interest rates or factors affecting an industry or commodity.

[Table of Contents](#)

5. **OPTIONS ON FUTURES CONTRACTS:** The DFA Commodity Strategy Portfolio may purchase and write put and call options on foreign currency, interest rate and stock and commodity index futures contracts and may enter into closing transactions with respect to such options to terminate existing positions. There is no guarantee that such closing transactions can be effected; the ability to establish and close out positions on such options will be

subject to the existence of a liquid market.

An option on a currency, interest rate or commodity or securities index futures contract, as contrasted with the direct investment in such a contract, gives the purchaser the right, in return for the premium paid, to assume a position in a futures contract at a specified exercise price at any time prior to the expiration date of the option. The writer of the option is required upon exercise to assume an offsetting futures position (a short position if the option is a call and a long position if the option is a put). Upon exercise of an option, the delivery of the futures position by the writer of the option to the holder of the option will be accompanied by delivery of the accumulated balance in the writer's futures margin account, which represents the amount by which the market price of the futures contract exceeds, in the case of a call, or is less than, in the case of a put, the exercise price of the option on the futures contract. The potential loss related to the purchase of an option on a futures contract is limited to the premium paid for the option (plus transaction costs). The value of the option changes daily and that change is reflected in the net asset value of the Portfolio.

The DFA Commodity Strategy Portfolio may enter into options and futures transactions for several purposes, including generating current income to offset expenses or increase return and as hedges to reduce investment risk, generally by making an investment expected to move in the opposite direction of a portfolio position. A hedge is designed to offset a loss in a portfolio position with a gain in the hedged position; at the same time, however, a properly correlated hedge will result in a gain in the portfolio position being offset by a loss in the hedged position.

6. COMMODITY-LINKED DERIVATIVES: DFA Commodity Strategy Portfolio may gain exposure to commodity markets by investing up to 25% of the Portfolio's total assets in the Subsidiary. The Subsidiary may invest without limitation in swap agreements, commodity options, futures, options on futures and structured notes. The prices of commodity-linked derivative instruments may move in different directions than investments in traditional equity securities, fixed income securities and commodity spot prices. The accompanying consolidated schedule of investments includes investments of DFA Commodity Strategy Portfolio and its wholly-owned Subsidiary. The accompanying consolidated schedule of investments includes investments of DFA Commodity Strategy Portfolio and its wholly-owned Subsidiary. As of July 31, 2022, the DFA Commodity Strategy Portfolio held \$440,616,501 in the Subsidiary, representing 23.37% of DFA Commodity Strategy Portfolio's total assets.

7. SWAP AGREEMENTS: The DFA Short-Duration Real Return Portfolio and DFA Municipal Real Return Portfolio may enter into credit default swap agreements. Swap agreements are two-party contracts entered into primarily by institutional investors for periods ranging from a few weeks to more than one year. Some types of swap agreements are negotiated bilaterally and traded over-the-counter between the two parties (uncleared swaps), while other swaps are transacted through a futures commission merchant ("FCM") and cleared through a clearinghouse that serves as a central counterparty (cleared swaps), and may be traded on swap execution facilities (exchanges). The most common types of credit default swaps and interest rate swaps are subject to mandatory central clearing and exchange trading.

The Portfolios may enter into a credit default swap on a single security or instrument (sometimes referred to as a "CDS" transaction) or on a basket or index of securities (sometimes referred to as a "CDX" transaction). The "buyer" in a credit default contract typically is obligated to pay the "seller" a periodic stream of payments over the term of the contract, provided that no credit event with respect to any underlying reference obligation has occurred. If a credit event occurs, the seller typically must pay the buyer the "par value" (full notional value) of the reference obligation in exchange for the reference obligation. The Portfolios may be either the buyer or the seller in the transaction. If a Portfolio is a buyer and no credit event occurs, the Portfolio may lose its investment and recover nothing. However, if a credit event occurs, the buyer typically receives full notional value for a reference obligation that may have little or no value. As a seller, a Portfolio typically receives a fixed rate of income throughout the term of the contract, which typically is between six months and three years, provided a credit event does not occur. If a credit event occurs, the seller typically must pay the buyer the full notional amount of the reference obligation. The most common types of CDX are subject to mandatory central clearing and exchange-trading.

Credit default swaps involve greater risks than if the Portfolios had invested in the reference obligation directly, since, in addition to general market risks, credit default swaps are subject to illiquidity risk, counterparty risk and credit risk. A buyer also will lose its investment and recover nothing should no credit event occur and the swap is held to its

[Table of Contents](#)

termination date. If a credit event were to occur, the value of any deliverable obligation received by the seller, coupled with the up-front or periodic payments previously received, may be less than the full notional value the seller pays to the buyer, resulting in a loss of value to the Portfolio. When a Portfolio acts as a seller of a credit default swap, the Portfolio is exposed to many of the same risks of leverage since, if a credit event occurs, the seller may be required to pay the buyer the full notional value of the contract net of any amounts owed by the buyer related to its delivery of deliverable obligations.

The DFA Short-Duration Real Return Portfolio and DFA Municipal Real Return Portfolio may also enter into inflation swap agreements to seek inflation protection. Inflation swap agreements are contracts in which one party agrees to pay the cumulative percentage increase in a price index (the Consumer Price Index with respect to CPI swaps) over the term of the swap (with some lag on the inflation index), and the other pays a compounded fixed rate. Inflation swap agreements may be used by the DFA Short-Duration Real Return Portfolio and DFA Municipal Real Return Portfolio to hedge the inflation risk in nominal bonds (i.e., non-inflation-indexed bonds) thereby creating "synthetic" inflation-indexed bonds.

Among other reasons, one factor that may lead to changes in the values of inflation swap agreements are changes in real interest rates. Real interest rates are tied to the relationship between nominal interest rates and the rate of inflation. If nominal interest rates increase at a faster rate than inflation, real interest rates may rise, which may lead to a change in the value of an inflation swap agreement. Additionally, payments received by the DFA Short-Duration Real Return Portfolio and DFA Municipal Real Return Portfolio from inflation swap agreements will result in taxable income, either as ordinary income or capital gains, which will increase the amount of taxable distributions received by shareholders. Inflation swap agreements are not currently subject to mandatory central clearing and exchange-trading.

The DFA Municipal Real Return Portfolio may also enter into interest rate swaps to hedge against changes in interest rates. Interest rate swaps involve the exchange by the Portfolio with another party of their respective commitments to receive or pay interest (e.g., an exchange of fixed rate payments for floating rate payments) with respect to a notional amount of principal.

Uncleared swaps are typically executed bilaterally with a swap dealer rather than traded on exchanges. Parties to uncleared swaps face greater counterparty credit risk than those engaging in cleared swaps since performance of uncleared swap obligations is the responsibility only of the swap counterparty rather than a clearing house, as is the case with cleared swaps. As a result, a Portfolio bears the risk of loss of the amount expected to be received under a swap agreement in the event of the default, insolvency or bankruptcy of a swap agreement counterparty beyond any collateral received. In such an event, the Portfolio will have contractual remedies pursuant to the swap agreements, but bankruptcy and insolvency laws could affect the Portfolio's rights as a creditor.

The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the "Dodd-Frank Act") and implementing rules adopted by the CFTC currently require the clearing and exchange-trading of the most common types of credit default index swaps and interest rate swaps, and it is expected that

additional categories of swaps will in the future be designated as subject to mandatory clearing and trade execution requirements. Central clearing is intended to reduce counterparty credit risk and increase liquidity, but central clearing does not eliminate these risks completely. There is also a risk of loss by a Portfolio of the initial and variation margin deposits in the event of bankruptcy of the FCM with which the Portfolio has an open position, or the central counterparty in a swap contract. The assets of a Portfolio may not be fully protected in the event of the bankruptcy of the FCM or central counterparty because the Portfolio might be limited to recovering only a pro rata share of all available funds and margin segregated on behalf of an FCM's customers.

The Advisor and the Fund do not believe that a Portfolio's obligations under swap contracts are senior securities and, accordingly, the Portfolio will not treat them as being subject to the Portfolio's borrowing or senior securities restrictions. However, with respect to swap contracts that provide for the netting of payments, the net amount of the excess, if any, of the Portfolio's obligations over its entitlements with respect to each swap contract will be accrued on a daily basis and an amount of segregated assets having an aggregate market value at least equal to the accrued excess will be maintained to cover the transactions in accordance with SEC positions. With respect to swap contracts that do not provide for the netting of payments by the counterparties, the full notional amount for which the Portfolio is obligated under the swap contract with respect to each swap contract will be accrued on a daily basis and assets having an aggregate market value at least equal to the accrued full notional value will be segregated and maintained to cover the transactions in accordance with SEC positions. To the extent that a Portfolio cannot dispose of a swap

[Table of Contents](#)

in the ordinary course of business within seven days at approximately the value at which the Portfolio has valued the swap, the Portfolio will treat the swap as illiquid and subject to its overall limit on illiquid investments of 15% of the Portfolio's net assets.

The Dodd-Frank Act and related regulatory developments have imposed comprehensive new regulatory requirements on swaps and swap market participants. The regulation of cleared and uncleared swaps, as well as other derivatives, is a rapidly changing area of law and is subject to modification by government and judicial action. In addition, the SEC, CFTC and the exchanges are authorized to take extraordinary actions in the event of a market emergency, including, for example, the implementation or reduction of speculative position limits, the implementation of higher margin requirements, the establishment of daily price limits and the suspension of trading. It is not possible to predict fully the effects of current or future regulation. New requirements, even if not directly applicable to a Portfolio, may increase the cost of the Portfolio's investments and cost of doing business. It is possible that developments in the swaps market, including potential government regulation, could adversely affect a Portfolio's ability to terminate existing swap agreements or to realize amounts to be received under such agreements.

FEDERAL TAX COST

At July 31, 2022, the total cost of securities for federal income tax purposes was:

RECENTLY ISSUED ACCOUNTING STANDARDS AND REGULATIONS

In March 2020, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2020-04, Reference Rate Reform (Topic 848) – Facilitation of the Effects of Reference Rate Reform on Financial Reporting. In January 2021, the FASB issued ASU No. 2021-01, with further amendments to Topic 848. The amendments in the ASUs provide optional temporary accounting recognition and financial reporting relief from the effect of certain types of contract modifications due to the planned discontinuation of the LIBOR and other interbank-offered based reference rates as of the end of 2021 and 2023. The ASUs are effective for certain reference rate-related contract modifications that occur during the period March 12, 2020 through December 31, 2022. Management has reviewed the requirements and believes the adoption of these ASUs will not have a material impact on the Portfolios financial statements.

In October 2020, the SEC adopted new regulations governing the use of derivatives by registered investment companies. Rule 18f-4 (the “Derivatives Rule”) imposes limits on the amount of derivatives contracts the Portfolios could enter, eliminate the asset segregation framework currently used by the Portfolios to comply with Section 18 of the 1940 Act, and require funds whose use of derivatives is more than a limited specified exposure to establish and maintain a derivatives risk management program and appoint a derivatives risk manager. The Derivatives Rule became effective February 19, 2021 and the Portfolios are required to comply on August 19, 2022. Management is currently evaluating the effect, if any, the Derivatives Rule will have on the Portfolios.

On December 3, 2020, the SEC adopted new Rule 2a-5 (the “Valuation Rule”) under the Investment Company Act of 1940, establishing an updated regulatory framework for fund valuation. The Valuation Rule, in part, provides a framework for good faith fair value determination and permits a Board to designate fair value determinations to a fund’s investment adviser. Further, the SEC is rescinding previously issued guidance on related issues. The Valuation Rule became effective on March 8, 2021, with a compliance date of September 8, 2022. Management is currently evaluating the Valuation Rule and its effect on the Portfolios.

OTHER

The Portfolios are subject to claims and suits that arise from time to time in the ordinary course of business (for example, claw back litigation against former shareholders of portfolio companies that filed for bankruptcy, such as the now ended litigation involving The Tribune Company and the ongoing litigation involving Nine West). Although

[Table of Contents](#)

management currently believes that resolving claims against the Portfolios, individually or in aggregate, will not have a material adverse impact on the Portfolios’ financial position, results of operations, or cash flows, these matters are subject to inherent uncertainties and management’s view of these matters may change in the future.

SUBSEQUENT EVENT EVALUATIONS

Management has evaluated the impact of all subsequent events on the Portfolios through the date on which the financial statements were issued and has determined that there are no subsequent events requiring recognition or disclosure in the financial statements.
