Title of Securities Being Registered: **Units of Interest in Variable Universal Life III (VUL III), an individual, flexible premium, adjustable, variable life insurance policy.**

Variable Universal Life III (VUL III)

Issued by Massachusetts Mutual Life Insurance Company

Massachusetts Mutual Variable Life Separate Account I

This prospectus describes an individual, flexible premium, adjustable, variable life insurance policy (policy) issued by Massachusetts Mutual Life Insurance Company (MassMutual®, Company, we, us, or our). While the policy is In Force, it provides lifetime insurance protection on the Insured. The policy is not a way to invest in mutual funds and is not suitable for short-term investment. The Owner (you or your) should consider the policy in conjunction with other life insurance you own. Replacing any existing life insurance policy with this policy or financing the purchase or maintenance of the policy through a loan or through withdrawals from another policy may not be to your advantage.

The policy is no longer available for sale. However, we continue to administer existing policies.

The policy offers a number of investment choices, including a Guaranteed Principal Account (GPA) and one or more variable investment divisions (Separate Account Divisions) offered through our separate account, Massachusetts Mutual Variable Life Separate Account I (Separate Account). Each Separate Account Division, in turn, invests in the Funds listed in Appendix A to this prospectus.

You bear the investment risks of any premium allocated to these Separate Account Divisions. The death benefit may vary and the Net Surrender Value will vary, depending on the investment performance of the Funds.

The policy is not (1) a bank or credit union deposit or obligation; (2) FDIC or NCUA insured; (3) insured by any federal government agency or (4) guaranteed by any bank or credit union. The policy may go down in value and provides guarantees that are subject to our financial strength and claims-paying ability.

This prospectus is not an offer to sell the policy in any jurisdiction where it is illegal to offer the policy nor is it an offer to sell the policy to anyone to whom it is illegal to offer the policy.

YOU MAY CANCEL YOUR POLICY WITHIN 10 DAYS OF RECEIVING IT WITHOUT PAYING FEES OR PENALTIES.

In some states, this cancellation period may be longer. Upon cancellation, you will receive either a full refund of the premiums you paid less any withdrawals and any Policy Debt or your Account Value less any withdrawals and any Policy Debt. You should review this prospectus, or consult with your investment professional, for additional information about the specific cancellation terms that apply.

Additional information about certain investment products, including variable life insurance policies, has been prepared by the Securities and Exchange Commission staff and is available at www.investor.gov.

The SEC has not approved or disapproved the policy or determined that this prospectus is accurate or complete. Any representation that it has is a criminal offense.

Please read this prospectus before investing. You should keep it for future reference.

Effective April 29, 2024

Glossary

We have tried to make this prospectus as readable and understandable for you as possible. By the very nature of the policy, however, certain technical words or terms are unavoidable. We have identified the following as some of these words or terms.

Account Value. The value of your investment in the Separate Account Divisions and the GPA.

Accumulation Unit. A unit of measure that we use to determine the value in each Separate Account Division.

Administrative Office. MassMutual Customer Service Center, PO Box 1865, Springfield, MA 01102-1865, (800) 272-2216, (Fax) (866) 329-4527, www.MassMutual.com

Attained Age. The Insured's age on the Issue Date plus the number of completed Policy Years.

Face Amount. An amount used to determine the insurance coverage the policy provides while it is In Force.

Free Look. Your right to cancel the policy and receive a refund.

Fund(s). The investment entities in which the Separate Account Divisions invest.

Good Order. The actual receipt by our Administrative Office of the instructions related to a request or transaction in writing (or, when permitted, by telephone, fax, website, or other electronic means), within the time limits, if any, along with all forms, information and supporting legal documentation we require to effect the request or transaction. This information includes, to the extent applicable: the completed application or instruction form; your policy number; the transaction amount (in dollars or percentage terms); the names and allocations to and/or from the Separate Account Divisions affected by the request or transaction; the signatures of all Owners; if necessary, Social Security Number or Tax Identification number; tax certification; and any other information or supporting documentation we may require including consents, certifications and guarantees. Instructions must be complete and sufficiently clear so that we do not need to exercise any discretion to follow such instructions. We may, in our sole discretion, determine whether any particular request or transaction is in Good Order, and we reserve the right to change or waive any Good Order requirements at any time. If you have any questions, you may contact our Administrative Office before submitting the form or request.

Grace Period. A period that begins when the Net Surrender Value is not sufficient to cover monthly charges due and your policy stays In Force, during which you can pay the amount of premium needed to avoid termination.

Guarantee Period. A period in which the policy will remain In Force regardless of the value of the policy. The first Guarantee Period is the first nine Policy Years. The second Guarantee Period is to Attained Age 121 of the Insured.

Guarantee Premium. The monthly premium payment that must be made to meet the Safety Test during the Guarantee Period.

In Force. Your policy has not terminated.

Initial Face Amount. The Face Amount on the Policy Date.

Insurance Risk. The difference between the death benefit and the Account Value.

Insured. The person on whose life the policy is issued.

Issue Date. The date we issue the policy. The Issue Date starts the contestability and suicide periods.

Minimum Death Benefit. The minimum amount of death benefit needed for the policy to qualify as life insurance under Section 7702 of the Internal Revenue Code of 1986, as amended.

Modified Endowment Contract (MEC). A special type of life insurance under federal income tax law. Specifically, the law prescribes a test that is intended to differentiate between policies that are purchased primarily for certain tax advantages, versus policies that are purchased primarily for death protection. MECs are still life insurance and offer tax-free death benefits and tax-deferred cash value accumulation. However, pre-death distributions (including loans) are taxed as "income first" (not cost basis first), meaning they are taxable to the extent of gain in the policy. In addition, distributions may be subject to a 10% additional tax.

Monthly Charge Date. The Policy Date and the same day of each succeeding calendar month.

Net Premium. A premium payment received in Good Order minus the premium expense charge.

Net Surrender Value. Account Value less any surrender charges and Policy Debt.

Planned Premium. The amount selected by you to be paid on a periodic basis to keep your policy In Force.

Policy Anniversary. The anniversary of the Policy Date.

Policy Date. The starting point for determining the Policy Anniversaries, Policy Years, and Monthly Charge Dates. It is also the day we first deduct monthly charges under the policy.

Policy Debt. All outstanding loans plus accrued interest.

Policy Debt Limit. When total Policy Debt exceeds the Account Value less surrender charges.

Policy Termination. An event where your policy is no longer In Force due to the Net Surrender Value becoming too low to support your policy's monthly charges and the Safety Test is not met, or if the total Policy Debt exceeds the Account Value less surrender charges.

Policy Year. The twelve-month period beginning with the Policy Date, and each successive twelve-month period thereafter.

Safety Test. A no-lapse guarantee that allows you to keep the policy In Force during a Guarantee Period regardless of the value of the policy, as long as the Policy Debt Limit has not been reached.

Separate Account Division. A variable investment division offered through our Separate Account that invests in the corresponding underlying Fund.

Valuation Date. Any day on which the net asset value of the units of each Separate Account Division is determined. Generally, this is any date the New York Stock Exchange (NYSE), or its successor, is open for trading. A Valuation Date ends when the NYSE closes (usually 4 p.m. Eastern Time).

Written Request. A written or electronic communication or instruction in Good Order sent by you to us at our Administrative Office.

Important Information You Should Consider About the Policy

FEES AND EXPENSES		LOCATION IN PROSPECTUS
Charges for Early Withdrawals	<p>If you surrender the policy, decrease the Face Amount, or the policy lapses in the first nine Policy Years or the first nine years following an increase in Face Amount, a surrender charge may apply. For the Initial Face Amount, rates are based on the Insured's issue age, gender, risk class, and coverage year. For each increase in the Face Amount, rates are based on the Insured's Attained Age, gender, risk class on the effective date of the increase, and coverage year. The surrender charge is the sum of surrender charges for the Initial Face Amount and all Face Amount increases.</p> <p>For a 35-year-old male Insured, non-tobacco user, in the standard risk classification, with an initial premium of \$100,000, \$1,000,000 Face Amount and no increases in Face Amount, upon surrender in the first Policy Year, a charge of up to \$11,250 could be assessed.</p>	<p>Fee Tables – Transaction Fees – Surrender Charges and Deductions – Transaction Fees – Surrender Charges</p> <p>Death Benefit – Right to Change the Face Amount</p>
Transaction Charges	<p>In addition to surrender charges, you also may be charged for other transactions.</p> <p>Premium Expense Charge. We deduct a premium expense charge from each premium you pay. For policies issued after December 31, 2019, the current premium expense charge is 8.00% of each premium payment up to and including the Premium Expense Factor, and 7.00% of premium over the Premium Expense Factor. The maximum charge is 8.00% of each premium payment up to and including the Premium Expense Factor, and 7.00% of premium over the Premium Expense Factor. For policies issued on or before December 31, 2019, the current premium expense charge is 6.00% of each premium payment. The maximum charge is 8.00% of each premium payment up to and including the Premium Expense Factor, and 7.00% of premium over the Premium Expense Factor.</p> <p>Withdrawal Fee. If you withdraw a portion of your Account Value, we can assess a withdrawal fee. We have waived the current fee. The maximum withdrawal fee we can assess is the lesser of \$25 per withdrawal or 2% of the amount withdrawn.</p> <p>Rider Processing Fee. We assess a one-time processing fee of up to \$250 (less in some states) when you exercise the Accelerated Death Benefit Rider for Terminal Illness and a fee of \$75 when you exercise the Substitute of Insured Rider.</p>	<p>Fee Tables – Transaction Fees</p> <p>Fee Tables – Periodic Charges Other than Annual Fund Operating Expenses</p> <p>Charges and Deductions – Transaction Fees</p>

FEES AND EXPENSES			LOCATION IN PROSPECTUS
Ongoing Fees and Expenses	In addition to surrender charges and transaction charges, an investment in the policy is subject to certain ongoing fees and expenses. Some of these fees and expenses, such as the insurance charge and the cost of certain optional riders, are set based on characteristics of the Insured (e.g., age, sex, and risk classification). You should view the policy's specifications pages for rates applicable to your policy. You also will bear fees and expenses associated with the Funds you choose, as shown below.		Fee Tables – Periodic Charges Other than Annual Fund Operating Expenses Charges and Deductions – Monthly Charges Against the Account Value Appendix A
	Annual Fee	MinimumMaximum	
	Fund options (Fund fees and expenses)	0.28% ⁽¹⁾ 1.74% ⁽¹⁾	

(1) As a percentage of Fund assets

RISKS		LOCATION IN PROSPECTUS
Risk of Loss	You can lose money by investing in this policy.	Principal Risks – Investment Risks General Information About the Company, the Separate Account and the Underlying Funds – Underlying Funds
Not a Short-Term Investment	This policy is not a short-term investment and is not appropriate for an investor who needs ready access to cash. Surrender charges apply for the first nine Policy Years and the first nine years following an increase in Face Amount. These charges will reduce the amount payable to you if you surrender the policy during those times.	Overview of the Policy – What is the policy, and what is it designed to do? Principal Risks – Suitability
Risks Associated with Investment Options	An investment in this policy is subject to the risk of poor investment performance and can vary depending upon the performance of the underlying Funds you choose. Each investment option (including any fixed account investment option) has its own unique risks. You should review the prospectuses for the available Funds before making an investment decision.	Principal Risks - Investment Risks General Information About the Company, the Separate Account and the Underlying Funds – Underlying Funds
Insurance Company Risks	An investment in the policy is subject to the risks related to the Depositor (MassMutual). Any obligations (including under any fixed account investment option), guarantees, or benefits of the policy are subject to the claims-paying ability of MassMutual. If MassMutual experiences financial distress, it may not be able to meet its obligations to you. More information about MassMutual, including its financial strength ratings, is available at www.MassMutual.com/ratings .	General Information About the Company, the Separate Account, and the Underlying Funds – The Guaranteed Principal Account (GPA)
Policy Lapse	Your policy could terminate (or lapse) if the Net Surrender Value of the policy becomes too low to support the policy's monthly charges and the Safety Test is not met, or if total Policy Debt exceeds the Account Value less surrender charges. Factors that may cause your policy to lapse include: insufficient premium payments, poor investment performance, withdrawals, and unpaid loans or loan interest. If your policy lapses, you may be able to reinstate it. To reinstate your policy, you must provide us certain written materials we require as well as a premium payment sufficient to keep the policy In Force for three months after reinstatement. The death benefit will not be paid if the policy has lapsed.	Principal Risks - Policy Termination Policy Termination and Reinstatement

	RESTRICTIONS	LOCATION IN PROSPECTUS
Investments	<p>Generally, you may transfer Account Value among the Separate Account Divisions and the GPA, subject to certain limitations. We also offer two automated transfer programs: Dollar Cost Averaging and Portfolio Rebalancing. Transfers of the policy's Account Value are subject to the following conditions:</p> <ul style="list-style-type: none"> • Transfers from the GPA are limited to one per Policy Year and may not exceed 25% of your Account Value in the GPA (less any Policy Debt). There is one exception to this rule. If you have transferred 25% of the GPA Value (less any Policy Debt) for three consecutive years and you have not added any Net Premiums or transferred amounts to the GPA during these three consecutive years, you may transfer the remainder of the GPA Value (less any Policy Debt) out of the GPA in the succeeding Policy Year. • Transfers are not permitted during the Free Look period for those policies in which we refund the premium paid less withdrawals and Policy Debt. • Transfers (including transfers through automated programs) cannot be processed during a Grace Period. <p>In addition, we reserve the right to reject or restrict transfers if we determine the transfers reflect frequent trading or a market timing strategy, or we are required to reject or restrict by the applicable Fund.</p> <p>MassMutual also reserves the right to remove or substitute Funds as investment options that are available under the policy.</p>	<p>Transfers</p> <p>General Information About the Company, the Separate Account and the Underlying Funds – Underlying Funds – Addition, Removal, Closure, or Substitution of Funds</p>
Optional Benefits	<p>Optional benefits, such as riders, may alter the benefits or charges under your policy. Rider availability and benefits may vary by state of issue, and their election may have tax consequences. Riders may have restrictions or limitations. If you elect a particular rider, it may restrict or enhance the terms of your policy, or restrict the availability or terms of other riders.</p>	<p>Other Benefits Available Under the Policy</p>

TAXES		LOCATION IN PROSPECTUS
Tax Implications	<ul style="list-style-type: none"> You should consult with a tax professional to determine the tax implications of an investment in and payments received under the policy. If you purchase the policy through a qualified retirement plan, you do not receive any additional tax deferral. Withdrawals and partial surrenders are taxed as recovery of cost basis first and income second. Loans and collateral assignments are not taxable when taken. Any gain on your policy is taxed as ordinary income. If your policy becomes a Modified Endowment Contract or MEC, loans, collateral assignments, withdrawals, and other pre-death distributions will be taxed as income first and recovery of cost basis second. You may have to pay a penalty tax if you take a distribution before you attain age 59½. 	Federal Income Tax Considerations

CONFLICTS OF INTEREST		LOCATION IN PROSPECTUS
Investment Professional Compensation	<p>Your registered representative may receive compensation in the form of commissions for selling the policy to you. If your registered representative is also a MassMutual insurance agent, they are also eligible for certain cash and non-cash benefits from us. Cash compensation includes bonuses and allowances based on factors such as sales, productivity and persistency (policy retention). Non-cash compensation includes various recognition items such as prizes and awards as well as attendance at, and payment of the costs associated with attendance at, conferences, seminars and recognition trips, and also includes contributions to certain individual plans such as pension and medical plans. Sales of the policy may help these registered representatives and their supervisors qualify for such benefits.</p> <p>This conflict of interest may influence your registered representative to offer or recommend this policy over another investment.</p>	Other Information – Distribution
Exchanges	<p>Because the policy is no longer sold, you would not be affected by a scenario in which you are asked to replace an existing life insurance policy you own with a new purchase of this policy. However, in general, you should be aware that some investment professionals may have a financial incentive to offer you a new policy in place of the one you already own. Thus, in general, you should only exchange your life insurance policy if you determine, after comparing the features, fees, and risks of both policies, that it is preferable for you to purchase the new life insurance policy rather than continue to own the existing policy.</p>	Other Benefits Available Under the Policy – Right to Exchange

Overview of the Policy

What is the policy, and what is it designed to do?

The policy is a variable life insurance policy that provides a death benefit. It is designed to allow you to fund your life insurance needs through investment in a Guaranteed Principal Account (GPA) and one or more of the variable investment divisions of the Massachusetts Mutual Variable Life Separate Account I (Separate Account). The policy allows you to allocate your Net Premiums and Account Value among the various investment choices. Your Account Value will vary based on performance of the investment choices you select and the fees and charges under the policy.

In exchange for your premium payments, we will pay the beneficiary a death benefit when the Insured dies while the policy is In Force. You can select one of the three death benefit options available under the policy. Subject to certain limitations, you can change the death benefit option you selected.

Variable life insurance is designed to help meet long-term insurance needs. It is not suitable as a vehicle for short-term savings. You should not purchase the policy if you will need the premium payments in a short period of time. The policy is not intended for people who need to take early or frequent withdrawals or who intend to engage in frequent trading among the Separate Account Divisions. You should consider your need for cash, time horizon for investment and financial goals before submitting an application to purchase the policy. You may want to consult your financial or tax adviser.

For policies issued after December 31, 2019 certain charges are different and some optional rider benefits are not available.

How are premium payments treated under the policy?

When you apply for the policy, you select (within certain limitations) the Planned Premium amount and the payment frequency (annual, semiannual, quarterly, or monthly). The Planned Premium amount is based on a number of factors, including, but not limited to, the Face Amount, the Insured's issue age, gender and risk classification. Generally, you determine the first premium you want to pay for the policy, but it must be at least equal to the Minimum Initial Premium. The Minimum Initial Premium depends on the premium frequency you choose, the policy's Initial Face Amount and death benefit option, the Insured's age, gender and risk classification, and whether the policy has any riders.

After the first premium has been paid, the policy offers premium flexibility, which allows subsequent premium payments to be paid in any amount and at any time, within certain limits. Although you must maintain sufficient Net Surrender Value to keep the policy In Force, there is no required schedule for premium payments. You should review the Premium Flexibility section of the prospectus for additional important information.

When a premium payment is received in Good Order, we deduct a premium expense charge to generally cover taxes and acquisition expenses, and the remaining amount, known as the Net Premium, is allocated among the Separate Account Divisions and the GPA according to your current allocation instructions. Depending on the state in which we issue the policy, we may hold your initial Net Premium payments in the money market division until the Free Look period is completed.

Investments in your policy's Separate Account Divisions are held in an account separate from the general assets of the Company. We have established a segment within the Separate Account to receive and invest premium payments for the Variable Universal Life III policies. Currently, the Variable Universal Life III segment is divided into over 30 Separate Account Divisions. Each Separate Account Division purchases shares in a corresponding Fund. Information about each corresponding Fund is provided at the back of this prospectus. Please see Appendix A: Funds Available Under the Policy.

Net Premium and Account Value allocated to the GPA become part of the Company's General Investment Account, which supports life insurance and annuity obligations, and are dependent on the Company's financial strength and claims-paying ability. You do not participate in the investment performance of the assets in our General Investment Account. Instead, we guarantee that amounts allocated to the GPA, in excess of Policy Debt, will earn interest at a minimum rate of 3% per year. We may credit a higher rate at our discretion.

Payment of insufficient premiums may result in the policy lapsing. Although this policy does offer a no-lapse guarantee feature, the Safety Test, there is no guarantee that the policy will remain In Force as a result of making Planned Premium payments.

Federal law, such as the Internal Revenue Code of 1986, as amended (IRC), places restrictions on the amount of money you may put into a life insurance contract and still meet the definition of life insurance for tax purposes. In order for a policy to meet the IRC's

guidelines, either the Cash Value Accumulation Test or the Guideline Premium Test must be chosen. If you choose the Cash Value Accumulation Test, any premium payment that would exceed its limits may only be accepted if the Insured provides us with satisfactory evidence of insurability. If you choose the Guideline Premium Test, we will refund any amount of premium payment that exceeds its limit.

What are the primary features and options that the policy offers?

- **Choice of Death Benefit Options.** The policy offers a choice of one of three death benefit options— a Level Option, Return of Account Value Option, and Return of Premium Option. Please see the “Death Benefit” section for more information.
- **Face Amount Changes.** You may request an increase or decrease in the Face Amount. If you change your Face Amount, your policy charges, including surrender charges, will change accordingly. If the policy’s Account Value less surrender charges (or Net Surrender Value if there is Policy Debt) cannot keep the policy In Force with the requested change in Face Amount, a premium payment may be required.
- **Investment Options.** You can choose to allocate your Net Premium payments and Account Value among various investment choices. Your choices include the Separate Account Divisions, each of which invests in an underlying Fund, and the Guaranteed Principal Account (GPA).
- **Surrenders and Withdrawals.** You may surrender your policy, and we will pay you its Net Surrender Value (Account Value less any surrender charges and Policy Debt). You may also withdraw a part of the Net Surrender Value. A withdrawal reduces the policy values, may reduce the Face Amount of the policy, and may increase the risk that the policy will terminate or lapse. Surrenders and withdrawals may have adverse tax consequences.
- **Loans.** You may take a loan on the policy once your Account Value exceeds the total of any surrender charges. The policy secures the loan. Taking a loan may have adverse tax consequences and will increase the risk that your policy may terminate or lapse. Interest charges will apply.
- **Transfers.** Generally, you may transfer funds among the Separate Account Divisions and the GPA, subject to certain limitations. We also offer two automated transfer programs: Dollar Cost Averaging and Portfolio Rebalancing.
- **Safety Test.** During defined periods, your policy will not terminate or lapse, regardless of its Account Value, as long as you have made the specified minimum premium payments. However, even if the Safety Test is met, this policy may terminate if Policy Debt exceeds the Account Value less surrender charges.
- **Assignability.** Subject to our approval, you may generally assign the policy as collateral for a loan or other obligation.
- **Tax Treatment.** You are generally not taxed on the policy’s earnings until you withdraw Account Value from your policy. This is known as tax deferral.
- **Additional Rider Benefits.** There are additional benefits you may add to your policy by way of riders. An additional charge may apply if you elect a rider. The riders available with this policy are listed in the “Other Benefits Available Under the Policy” section.

Fee Tables

The following tables describe the fees and expenses that you will pay when buying, owning, surrendering or making withdrawals from the policy. Please refer to your policy's specification pages for information about the specific fees you will pay each year based on the options you have elected.

The first table describes the fees and expenses that you will pay at the time you buy the policy, surrender the policy, take Account Value out of the policy, or exercise certain rider options.

For Policies Issued After December 31, 2019

Transaction Fees			
Charge	When Charge is Deducted	Amount Deducted	
Premium Expense Charge⁽¹⁾	When you pay premium	Maximum:	All Coverage Years 8.00% of each premium payment up to and including the Premium Expense Factor, and 7.00% of any premium payment in excess of the Premium Expense Factor.
		Current:	8.00% of each premium payment up to and including the Premium Expense Factor, and 7.00% of any premium payment in excess of the Premium Expense Factor.
Surrender Charges⁽²⁾⁽³⁾⁽⁴⁾⁽⁵⁾ Surrender charges generally apply for the first nine Policy Years and the first nine years following an increase in Face Amount.	Upon surrender, at the time of an elected decrease in Face Amount, or policy lapse.	Maximum:	First Coverage Year \$3.08-\$50.58 per \$1,000 of Face Amount
		Current:	\$3.08-\$50.58 per \$1,000 of Face Amount
		Representative Insured: Male, Age 35, Non-Tobacco, Standard Risk⁽²⁾⁽³⁾⁽⁴⁾⁽⁵⁾⁽⁶⁾	\$11.25 per \$1,000 of Face Amount
Accelerated Death Benefit Rider for Terminal Illness⁽⁷⁾	When you elect an accelerated death benefit payment	Maximum:	\$250
		Current:	\$100-\$250
Adjustment to Surrender Charges Endorsement	Once, when the endorsement is attached to the policy at issue	Maximum:	\$150
		Current:	\$150

Processing Fees			
Charge	When Charge is Deducted	Amount Deducted	
Withdrawal Fee	When you withdraw a portion of your Account Value from the policy.	Maximum:	The lesser of \$25 per withdrawal or 2% of the amount withdrawn
		Current:	\$0

- (1) *The Premium Expense Factor referenced in the table is used to determine premium expense charges. For the Initial Face Amount, the Premium Expense Factor is based on the issue age, gender, and risk classification of the Insured. For each increase in the Face Amount, the Premium Expense Factor is based on the Attained Age, gender, and risk classification of the Insured on the effective date of the increase. The Premium Expense Factor is shown in the policy; it will be quoted upon request before the policy is issued. Premium Expense Factors for policies issued in New York may vary.*

Examples of Premium Expense Factors are shown in the following table. An example of how the factor is used to determine your premium expense charge is located under "Premium Expense Charge" in the "Transaction Fees" sub-section of the "Charges and Deductions" section.

Premium Expense Factors Per \$1,000 of Face Amount and Applicable Premium Expense Charges (Assumptions: Non-Tobacco Risk Classifications, Premium Payments of \$20 Per \$1,000 of Face Amount)				
Charge	Male		Female	
	Age 35	Age 55	Age 35	Age 55
Premium Expense Factor Per \$1,000 of Face Amount	9.00	25.70	7.38	20.70
A: Current and Maximum Premium Expense Charge for premiums up to and including Premium Expense Factor (8%)	\$0.72	\$1.60	\$0.59	\$1.60
B: Current and Maximum Premium Expense Charge For Premiums Exceeding Premium Expense Factor (7%)	\$0.77	n/a	\$0.88	n/a
Current and Maximum Premium Expense Charge for the entire \$20 premium (A+B)	\$1.49	\$1.60	\$1.47	\$1.60

- (2) *Maximum and current rates may vary in New York, but will not exceed the maximum rates shown. Please contact your registered representative for more information.*
- (3) *For the Initial Face Amount, the rates vary by the Insured's gender, issue age, risk classification, and year of coverage. For each increase in the Face Amount, the rates are based on the Attained Age, gender, and risk classification of the Insured on the effective date of the increase and the year of coverage. The surrender charge is shown in the policy's specifications pages. The rates in this table may not be representative of the charge that a particular Owner will pay. If you would like information on the surrender charge rates for your particular situation, you can request a personalized illustration from your registered representative or by calling our Administrative Office at (800) 272-2216.*
- (4) *Under certain circumstances, the surrender charge may not apply when exchanging this policy for a qualifying non-variable life insurance policy made available by us or one of our insurance affiliates. For additional information, please see "Adjustment to Surrender Charges Endorsement (for internal replacements)" in the Additional Benefits table and "Right to Exchange or Convert" in the "Other Benefits Available Under the Policy" section.*
- (5) *Surrender charges generally apply for the first nine Policy Years and the first nine years following an increase in Face Amount. They will equal the first year's surrender charge multiplied by the applicable annual percentage listed in the following table. These percentages vary by issue age and may vary for policies issued in New York.*

Coverage Year	%	Coverage Year	%
1	100%	6	71–82%
2	93–100%	7	60–75%
3	87–100%	8	40–50%
4	81–100%	9	20–25%
5	76–100%	10	0%

- (6) *The rates shown for the "representative insured" are first year rates only.*
- (7) *The fee we deduct may vary by state, but will not exceed \$250.*

The next table describes the fees and expenses that you will pay periodically during the time that you own the policy, other than Fund fees and expenses.

Periodic Charges Other than Annual Fund Operating Expenses			
Charge	When Charge is Deducted	Amount Deducted	
Base Contract Charge:			
Insurance Charge ⁽¹⁾⁽²⁾	Monthly, on the policy's Monthly Charge Date	Maximum:	\$83.33 per \$1,000 of Insurance Risk
		Minimum:	\$0.01 per \$1,000 of Insurance Risk
		Current:	\$0.01-\$83.33 per \$1,000 of Insurance Risk
		Representative Insured: Male, Age 35, Non-Tobacco, Standard Risk ⁽¹⁾⁽²⁾⁽³⁾	\$0.075 per \$1,000 of Insurance Risk
Substandard Risk Charge ⁽⁴⁾	Monthly, on the policy's Monthly Charge Date	Maximum:	\$83.33 per \$1,000 of Insurance Risk \$83.33 per \$1,000 of Face Amount (applies to flat extra charges)
		Current:	\$0.002-\$83.33 per \$1,000 of Insurance Risk \$0.08-\$83.33 per \$1,000 of Face Amount (applies to flat extra charges)
Administrative Charge ⁽²⁾	Monthly, on the policy's Monthly Charge Date	Maximum:	\$15 per policy
		Current:	\$10 per policy
Asset Charge ⁽⁵⁾	Daily	Maximum:	
		Policy Years 1 – 10:	0.90% of the policy's average daily net assets in the Separate Account
		Policy Years 11+:	0.40% of the policy's average daily net assets in the Separate Account
		Current:	
	Policy Years 1 – 10:	0.50%-0.70% of the policy's average daily net assets in the Separate Account	
	Policy Years 11+:	0.15% of the policy's average daily net assets in the Separate Account	

Periodic Charges Other than Annual Fund Operating Expenses			
Charge	When Charge is Deducted	Amount Deducted	
Face Amount Charge ⁽²⁾⁽⁶⁾⁽⁷⁾	Monthly, on the policy's Monthly Charge Date	Maximum: \$1.79 per \$1,000 of Initial Face Amount Current: \$0.00-\$1.79 per \$1,000 of Initial Face Amount Representative Insured: \$0.27 per \$1,000 of Face Amount Male, Age 35, Non-Tobacco, Standard Risk ⁽³⁾⁽⁶⁾	
Loan Interest Rate Expense Charge ⁽⁸⁾	Daily, if there is Policy Debt.	Maximum: Policy Years 1 – 10: 1.00% annually as a percentage of loaned amount Policy Years 11+: 0.50% annually as a percentage of loaned amount Current: Policy Years 1 – 10: 0.65% annually as a percentage of loaned amount Policy Years 11+: 0.15% annually as a percentage of loaned amount	
Optional Benefit Charges:			
Disability Benefit Rider ⁽⁷⁾⁽⁹⁾	Monthly, on the policy's Monthly Charge Date	Maximum: \$0.00-\$0.28 per \$1 of Monthly Deduction ⁽¹⁰⁾ plus \$0.00-\$0.04 per \$1 of Specified Benefit Amount Current: \$0.00-\$0.28 per \$1 of Monthly Deduction ⁽¹⁰⁾ plus \$0.00-\$0.04 per \$1 of Specified Benefit Amount Representative Insured: \$0.06 per \$1 of Monthly Deduction ⁽¹⁰⁾ plus \$0.02 per \$1 of Specified Benefit Amount Male, Age 35, Non-Tobacco, Standard Risk ⁽³⁾⁽⁷⁾⁽⁹⁾	
Guaranteed Insurability Rider ⁽⁷⁾	Monthly, on the policy's Monthly Charge Date	Maximum: \$0.03-\$0.11 per \$1,000 of Option Amount Current: \$0.03-\$0.11 per \$1,000 of Option Amount Representative Insured: \$0.11 per \$1,000 of Option Amount Male, Age 35, Non-Tobacco, Standard Risk ⁽⁷⁾	

Periodic Charges Other than Annual Fund Operating Expenses			
Charge	When Charge is Deducted	Amount Deducted	
Other Insured Rider⁽¹⁾⁽¹¹⁾	Monthly, on the policy's Monthly Charge Date	Maximum: \$27.41 per \$1,000 of Rider Face Amount Current: \$0.01-\$27.41 per \$1,000 of Rider Face Amount Representative Insured: \$0.08 per \$1,000 of Rider Face Amount Male, Age 35, Non-Tobacco, Standard Risk⁽¹⁾⁽³⁾	
Substitute of Insured Rider	When you elect to substitute the Insured	Maximum: \$75 Current: \$75	
Waiver of Monthly Charges Rider⁽⁷⁾⁽⁹⁾	Monthly, on the policy's Monthly Charge Date	Maximum: \$0.00-\$0.28 per \$1 of Monthly Deduction ⁽¹⁰⁾ Current: \$0.00-\$0.28 per \$1 of Monthly Deduction ⁽¹⁰⁾ Representative Insured: \$0.06 per \$1 of Monthly Deduction ⁽¹⁰⁾ Male, Age 35, Non-Tobacco, Standard Risk⁽³⁾⁽⁷⁾⁽⁹⁾	
Waiver of Specified Premium Rider⁽⁷⁾⁽⁹⁾	Monthly, on the policy's Monthly Charge Date	Maximum: The Greater of \$0.00-\$0.28 per \$1 of Monthly Deduction ⁽¹⁰⁾ or \$0.00-\$0.04 per \$1 of Specified Monthly Premium Amount Current: The Greater of \$0.00-\$0.28 per \$1 of Monthly Deduction ⁽¹⁰⁾ or \$0.00-\$0.04 per \$1 of Specified Monthly Premium Amount Representative Insured: The Greater of \$0.06 per \$1 of Monthly Deduction ⁽¹⁰⁾ or \$0.02 per \$1 of Specified Monthly Premium Amount Male, Age 35, Non-Tobacco, Standard Risk⁽³⁾⁽⁷⁾⁽⁹⁾	

- (1) The rates vary by a number of factors including, but not limited to, the Insured's gender, issue age, risk classification, and year of coverage. The rates may not be representative of the charge that a particular Owner will pay. If you would like information on the insurance charge rates for your particular situation, you can request a personalized illustration from your registered representative or by calling our Administrative Office at (800) 272-2216. The insurance charge rates reflected in this table are for standard risks. The maximum insurance charge rates are based on the 2017 Commissioners' Standard Ordinary Ultimate, Sex-Distinct, Smoker-Distinct, Age Nearest Birthday Mortality (2017 CSO) Tables. Insurance Risk is a liability of the insurance company and is equal to the difference between the death benefit and the Account Value.
- (2) Maximum and current rates may vary in New York, but will not exceed the maximum rates shown. Please contact your registered representative for more information.
- (3) The rates shown for the "representative insured" are first year rates only.
- (4) Additional mortality fees may be assessed for risks associated with certain health conditions, occupations, aviation, avocations or driving history (i.e., substandard risks). These fees can be in the form of higher rates known as table ratings and/or flat extra charges. Table ratings and flat extra charges are components in the calculation of the insurance charges for the base policy and any applicable monthly rider insurance charges. Substandard risk charges only apply if certain factors result in an Insured having a substandard rating and will be shown in the policy's specifications pages. Note that the insurance charges, including any table ratings and/or flat extra charges, will not exceed \$83.33 per \$1,000 of Insurance Risk or Face Amount. For additional information, refer to the "Monthly Charges Against the Account Value" sub-section of the "Charges and Deductions" section of this prospectus.

- (5) *The asset charge varies according to the policy's average daily net assets in the Separate Account and the Policy Year as detailed in the table below.*

Your Value in the Separate Account	Maximum Charge Policy Years 1 – 10	Current Charge Policy Years 1 – 10	Maximum Charge Policy Years 11+	Current Charge Policy Years 11+
\$0 – \$49,999.99	0.90%	0.70%	0.40%	0.15%
\$50,000 – \$99,999.99	0.90%	0.60%	0.40%	0.15%
\$100,000+	0.90%	0.50%	0.40%	0.15%

- (6) *The face amount charge is set at issue for the Initial Face Amount and, for each increase, on the effective date of the increase. The charges will vary by the issue age, gender and risk classification of the Insured for the Initial Face Amount and, for increases, by the Insured's Attained Age, gender and risk classification on the effective date of the increase. The face amount charge will not be reduced if the Face Amount is reduced. The range of face amount charges reflected for coverage years 1 – 5 simply accounts for the range of issue ages for all potential Insureds. Please see the full range of rates per \$1,000 of Face Amount in the table below. The rates shown are for standard risks.*

Coverage Year	Maximum Rate	Current Rates
1–2	\$1.79	\$0.07–\$1.79
3–5	\$1.19	\$0.05–\$1.19
6+	\$0.00	\$0.00

- (7) *The rates shown are for standard risks and vary by the Insured's gender and Attained Age. Exception – The rates for the Guaranteed Insurability Rider vary by the Insured's gender and issue age. The rates in this table may not be representative of the charge that a particular Owner will pay. If you would like information on the rates for your particular situation, you can request a personalized illustration from your registered representative or by calling out Administrative Office at (800) 272-2216.*
- (8) *We charge interest on policy loans, but we also credit interest on the cash value we hold as collateral on policy loans. The Loan Interest Rate Expense Charge represents the difference (cost) between the loan interest rate charged and the interest credited on loaned amounts.*
- (9) *For substandard risks, the rates may be increased by a multiple of 1 or 2 times the standard rates shown.*
- (10) *The policy's "monthly deduction" is the sum of the following current monthly charges: (a) administrative charge; (b) face amount charge; (c) insurance charge; and (d) any applicable rider charges.*
- (11) *Additional mortality fees may be assessed for risks associated with certain health conditions, occupations, aviation, avocations or driving history (i.e., substandard risks). These fees can be in the form of higher rates known as table ratings and/or flat extra charges. Table ratings and flat extra charges are components in the calculation of the insurance charges for the base policy and any applicable monthly rider insurance charges. Substandard risk charges only apply if certain factors result in an Insured having a substandard rating and will be shown in the policy's specifications pages. Note that the insurance charges, including any table ratings and/or flat extra charges, will not exceed \$83.33 per \$1,000 of rider face amount. For additional information, refer to the "Monthly Charges Against the Account Value" sub-section of the "Charges and Deductions" section of this prospectus*

All of the monthly charges listed in the table above are deducted proportionately from the then current Account Values in the Separate Account and the GPA (unless the Directed Monthly Deduction Program is in effect). The asset charge is deducted from the assets of the Separate Account only.

For Policies Issued On or Before December 31, 2019

Transaction Fees		
Charge	When Charge is Deducted	Amount Deducted
Premium Expense Charge⁽¹⁾	When you pay premium	Maximum: All Coverage Years 8.00% of each premium payment up to and including the Premium Expense Factor, and 7.00% of any premium payment in excess of the Premium Expense Factor. Current: 6.00% of each premium payment
Surrender Charges⁽²⁾⁽³⁾⁽⁴⁾⁽⁵⁾ <i>Surrender charges generally apply for the first nine Policy Years and the first nine years following an increase in Face Amount.</i>	Upon surrender, at the time of an elected decrease in Face Amount, or policy lapse.	Maximum: First Coverage Year \$3.08-\$50.58 per \$1,000 of Face Amount Current: \$3.08-\$50.58 per \$1,000 of Face Amount Representative Insured: \$11.25 per \$1,000 of Face Amount Male, Age 35, Non-Tobacco, Standard Risk⁽²⁾⁽³⁾⁽⁴⁾⁽⁵⁾⁽⁶⁾
Accelerated Death Benefit Rider for Terminal Illness⁽⁷⁾ This rider is no longer issued.	When you elect an accelerated death benefit payment	Maximum: \$250 Current: \$100-\$250
Adjustment to Surrender Charges Endorsement	Once, when the endorsement is attached to the policy at issue	Maximum: \$150 Current: \$150

Processing Fees		
Charge	When Charge is Deducted	Amount Deducted
Withdrawal Fee	When you withdraw a portion of your Account Value from the policy.	Maximum: The lesser of \$25 per withdrawal or 2% of the amount withdrawn Current: \$0

(1) The Premium Expense Factor referenced in the table is used to determine premium expense charges. For the Initial Face Amount, the Premium Expense Factor is based on the issue age, gender, and risk classification of the Insured. For each increase in the Face Amount, the Premium Expense Factor is based on the Attained Age, gender, and risk classification of the Insured on the effective date of the increase. The Premium Expense Factor is shown in the policy; it will be quoted upon request before the policy is issued. Premium Expense Factors for policies issued in New York may vary.

Examples of Premium Expense Factors are shown in the following table. An example of how the factor is used to determine your premium expense charge is located under "Premium Expense Charge" in the "Transaction Fees" sub-section of the "Charges and Deductions" section.

Premium Expense Factors Per \$1,000 of Face Amount and Applicable Premium Expense Charges (Assumptions: Non-Tobacco Risk Classifications, Premium Payments of \$20 Per \$1,000 of Face Amount)				
	Male		Female	
Charge	Age 35	Age 55	Age 35	Age 55
Premium Expense Factor Per \$1,000 of Face Amount	9.00	25.70	7.38	20.70
A: Current Premium Expense Charge for premiums up to and including Premium Expense Factor (6%)	\$0.54	\$1.20	\$0.44	\$1.20
B: Current Premium Expense Charge For Premiums Exceeding Premium Expense Factor (6%)	\$0.66	n/a	\$0.76	n/a
Current Premium Expense Charge for the entire \$20 premium (A+B)	\$1.20	\$1.20	\$1.20	\$1.20
A: Maximum Premium Expense Charge for premiums up to and including Premium Expense Factor (8%)	\$0.72	\$1.60	\$0.59	\$1.60
B: Maximum Premium Expense Charge For Premiums Exceeding Premium Expense Factor (7%)	\$0.77	n/a	\$0.88	n/a
Maximum Premium Expense Charge for the entire \$20 premium (A+B)	\$1.49	\$1.60	\$1.47	\$1.60

- (2) Maximum and current rates may vary in New York, but will not exceed the maximum rates shown. Please contact your registered representative for more information.
- (3) For the Initial Face Amount, the rates vary by the Insured's gender, issue age, risk classification, and year of coverage. For each increase in the Face Amount, the rates are based on the Attained Age, gender, and risk classification of the Insured on the effective date of the increase and the year of coverage. The surrender charge is shown in the policy's specifications pages. The rates in this table may not be representative of the charge that a particular Owner will pay. If you would like information on the surrender charge rates for your particular situation, you can request a personalized illustration from your registered representative or by calling our Administrative Office at (800) 272-2216.
- (4) Under certain circumstances, the surrender charge may not apply when exchanging this policy for a qualifying non-variable life insurance policy offered by MassMutual or one of its subsidiaries. For additional information, please see the "Additional Benefits" (Adjustment to Surrender Charges Endorsements) in the "Other Benefits Available Under the Policy" section.
- (5) Surrender charges generally apply for the first nine Policy Years and the first nine years following an increase in Face Amount. They will equal the first year's surrender charge multiplied by the applicable annual percentage listed in the following table. These percentages vary by issue age and may vary for policies issued in New York.

Coverage Year	%	Coverage Year	%
1	100%	6	71–82%
2	93–100%	7	60–75%
3	87–100%	8	40–50%
4	81–100%	9	20–25%
5	76–100%	10	0%

- (6) The rates shown for the "representative insured" are first year rates only.
- (7) The fee we deduct may vary by state, but will not exceed \$250.

The next table describes the fees and expenses that you will pay periodically during the time that you own the policy, other than Fund fees and expenses.

Periodic Charges Other than Annual Fund Operating Expenses			
Charge	When Charge is Deducted	Amount Deducted	
Base Contract Charge:			
Insurance Charge ⁽¹⁾⁽²⁾	Monthly, on the policy's Monthly Charge Date	Maximum:	\$83.33 per \$1,000 of Insurance Risk
		Minimum:	\$0.02 per \$1,000 of Insurance Risk
		Current:	\$0.02-\$83.33 per \$1,000 of Insurance Risk
		Representative Insured: Male, Age 35, Non-Tobacco, Standard Risk ⁽¹⁾⁽²⁾⁽³⁾	\$0.09 per \$1,000 of Insurance Risk
Substandard Risk Charge ⁽⁴⁾	Monthly, on the policy's Monthly Charge Date	Maximum:	\$83.33 per \$1,000 of Insurance Risk \$83.33 per \$1,000 of Face Amount (applies to flat extra charges)
		Current:	\$0.005-\$83.33 per \$1,000 of Insurance Risk \$0.08-\$83.33 per \$1,000 of Face Amount (applies to flat extra charges)
Administrative Charge ⁽²⁾	Monthly, on the policy's Monthly Charge Date	Maximum:	\$15 per policy
		Current:	\$10 per policy
Asset Charge ⁽⁵⁾	Daily	Maximum:	
		Policy Years 1 – 10:	0.90% of the policy's average daily net assets in the Separate Account
		Policy Years 11+:	0.40% of the policy's average daily net assets in the Separate Account
		Current:	
	Policy Years 1 – 10:	0.50%-0.70% of the policy's average daily net assets in the Separate Account	
	Policy Years 11+:	0.15% of the policy's average daily net assets in the Separate Account

- (1) The rates vary by a number of factors including, but not limited to, the Insured's gender, issue age, risk classification, and year of coverage. The rates may not be representative of the charge that a particular Owner will pay. If you would like information on the insurance charge rates for your particular situation, you can request a personalized illustration from your registered representative or by calling our Administrative Office at (800) 272-2216. The insurance charge rates reflected in this table are for standard risks. The maximum insurance charge rates are based on the 2001 Commissioners' Standard Ordinary Ultimate, Sex-Distinct, Smoker-Distinct, Age Nearest Birthday Mortality (2001 CSO) Tables. Insurance Risk is a liability of the insurance company and is equal to the difference between the death benefit and the Account Value.
- (2) Maximum and current rates may vary in New York, but will not exceed the maximum rates shown. Please contact your registered representative for more information.
- (3) The rates shown for the "representative insured" are first year rates only.
- (4) Additional mortality fees may be assessed for risks associated with certain health conditions, occupations, aviation, avocations or driving history (i.e., substandard risks). These fees can be in the form of higher rates known as table ratings and/or flat extra charges. Table ratings and flat extra charges are components in the calculation of the insurance charges for the base policy and any applicable monthly rider insurance charges. Substandard risk charges only apply if certain factors result in an Insured having a substandard rating and will be shown in the policy's specifications pages. Note that the insurance charges, including any table ratings and/or flat extra charges, will not exceed \$83.33 per \$1,000 of Insurance Risk or Face Amount. For additional information, refer to the "Monthly Charges Against the Account Value" sub-section of the "Charges and Deductions" section of this prospectus.

- (5) The asset charge varies according to the policy's average daily net assets in the Separate Account and the Policy Year as detailed in the table below.

Your Value in the Separate Account	Maximum Charge Policy Years 1 – 10	Current Charge Policy Years 1 – 10	Maximum Charge Policy Years 11+	Current Charge Policy Years 11+
\$0 – \$49,999.99	0.90%	0.70%	0.40%	0.15%
\$50,000 – \$99,999.99	0.90%	0.60%	0.40%	0.15%
\$100,000+	0.90%	0.50%	0.40%	0.15%

- (6) The face amount charge is set at issue for the Initial Face Amount and, for each increase, on the effective date of the increase. The charges will vary by the issue age, gender and risk classification of the Insured for the Initial Face Amount and, for increases, by the Insured's Attained Age, gender and risk classification on the effective date of the increase. The face amount charge will not be reduced if the Face Amount is reduced. The range of face amount charges reflected for coverage years 1 – 5 simply accounts for the range of issue ages for all potential Insureds. Please see the full range of rates per \$1,000 of Face Amount in the table below.

Coverage Year	Maximum Rate	Current Rates
1–2	\$1.79	\$0.07–\$1.79
3–5	\$1.19	\$0.05–\$1.19
6+	\$0.00	\$0.00

- (7) The rates shown are for standard risks and vary by the Insured's gender and Attained Age. Exception – The rates for the Guaranteed Insurability Rider vary by the Insured's gender and issue age. The rates in this table may not be representative of the charge that a particular Owner will pay. If you would like information on the rates for your particular situation, you can request a personalized illustration from your registered representative or by calling out Administrative Office at (800) 272-2216.
- (8) We charge interest on policy loans, but we also credit interest on the cash value we hold as collateral on policy loans. The Loan Interest Rate Expense Charge represents the difference (cost) between the loan interest rate charged and the interest credited on loaned amounts.
- (9) For substandard risks, the rates may be increased by a multiple of 1 or 2 times the standard rates shown.
- (10) The policy's "monthly deduction" is the sum of the following current monthly charges: (a) administrative charge; (b) face amount charge; (c) insurance charge; and (d) any applicable rider charges.
- (11) Additional mortality fees may be assessed for risks associated with certain health conditions, occupations, aviation, avocations or driving history (i.e., substandard risks). These fees can be in the form of higher rates known as table ratings and/or flat extra charges. Table ratings and flat extra charges are components in the calculation of the insurance charges for the base policy and any applicable monthly rider insurance charges. Substandard risk charges only apply if certain factors result in an Insured having a substandard rating and will be shown in the policy's specifications pages. Note that the insurance charges, including any table ratings and/or flat extra charges, will not exceed \$83.33 per \$1,000 of rider face amount. For additional information, refer to the "Monthly Charges Against the Account Value" sub-section of the "Charges and Deductions" section of this prospectus.

All of the monthly charges listed in the table above are deducted proportionately from the then current Account Values in the Separate Account and the GPA (unless you direct us to deduct monthly charges from one Separate Account Division or from the GPA). The asset charge is deducted from the assets of the Separate Account only.

The next table shows the minimum and maximum total operating expenses charged by any of the Funds in which your Separate Account Divisions invest that you may pay periodically during the time that you own the policy. A complete list of Funds in which the Separate Account Divisions invest, including their annual expenses, may be found at the back of this document in Appendix A. More detail concerning each Fund's fees and expenses is contained in the prospectus for each Fund.⁽¹⁾

Annual Fund Operating Expenses	Minimum	Maximum
(expenses are deducted from Fund assets, including management fees, distribution, and/or 12b-1 fees, and other expenses)	0.28%	1.74%

- (1) The Fund expenses used to prepare this table were provided to us by the Funds. We have not independently verified such information provided to us by Funds that are not affiliated with us.

Principal Risks

Investment Risks

The value of your policy will fluctuate with the performance of the Separate Account Divisions you select. Your Separate Account Divisions may decline in value or they may not perform to your expectations. You bear the investment risk of any Account Value invested in the Separate Account Divisions. It is possible you could lose your entire investment.

The type of investments that a Fund company makes will also create risk. A comprehensive discussion of the risks of each of the Funds underlying the Separate Account Divisions may be found in that Fund's prospectus. You should read the Fund's prospectus carefully before investing.

Suitability

Variable life insurance is designed to help meet long-term financial goals. It is not suitable as a vehicle for short-term savings. You should not purchase the policy if you will need the premium payment in a short period of time. We may restrict short-term investment strategies.

Early Surrender

If you surrender your policy, you will be subject to surrender charges during the first nine Policy Years and during the first nine years after an increase in the policy's Face Amount. The surrender charge will reduce the proceeds payable to you. In some situations, it is possible that there will be little or no value in the policy after the surrender charges are deducted. An early surrender can also result in adverse tax consequences.

Withdrawals

A withdrawal will reduce your policy's Account Value by the amount withdrawn. If the policy's Net Surrender Value is reduced to a point where it cannot meet a monthly deduction, your policy may terminate. A withdrawal may also reduce your policy's Face Amount and may have adverse tax consequences.

Loans

Taking a loan from your policy has several risks: (1) it may increase the risk that your policy will terminate; (2) it will have a permanent effect on your policy's Net Surrender Value; (3) it may increase the amount of premium needed to keep the policy In Force; (4) it will reduce the death benefit proceeds; and (5) it may have adverse tax consequences.

Policy Termination

Your policy could terminate if the Net Surrender Value of the policy becomes too low to support the policy's monthly charges and the Safety Test is not met. In addition, the policy could terminate if the total Policy Debt Limit is reached (i.e., when Policy Debt equals or exceeds the Account Value less any surrender charges that apply: (1) on a Monthly Charge Date or (2) on the Valuation Date a premium payment is received, if the policy is in the Grace Period). Factors that may cause your policy to terminate include: insufficient premium payments, poor investment performance, withdrawals, and unpaid loans or loan interest. Poor investment performance of the Funds selected by the Owner and the deduction of policy fees and monthly charges may result in termination of the policy even if all Planned Premiums are timely paid, unless the Safety Test is met and there is no Policy Debt. No death benefit or other benefits under the policy will be paid once the policy terminates.

Limitations on Access to Cash Value

- Withdrawals are not available in the first Policy Year; however, full surrenders are permitted.
- We may not allow a withdrawal if it would reduce the Face Amount to less than the policy's minimum Face Amount.
- The minimum withdrawal is \$100 and the maximum withdrawal is 75% of the Net Surrender Value.
- There may be little to no cash value available for loans and withdrawals in the policy's early years.

Insurance Company Insolvency

It is possible that we could experience financial difficulty in the future and even become insolvent, and therefore unable to provide all of the guarantees and benefits that we promise that exceed the value of the assets in the Separate Account.

Adverse Tax Consequences

Certain transactions (including, but not limited to, withdrawals, surrenders and loans) may lead to a taxable event. Under certain circumstances (usually if your premium payments in the first seven years or less exceed specified limits), your policy may become a “Modified Endowment Contract” (MEC). Under federal tax law, loans, collateral assignments, withdrawals, and other pre-death distributions received from a MEC are taxed as income first and recovery of cost basis second. Also, distributions includible in income received before you attain age 59½ may be subject to a 10% penalty tax.

Existing tax laws that benefit this policy may change at any time.

Policy Charge Increase

We have the right to increase certain policy and rider charges; however, the charges will not exceed the maximum charges identified in the fee tables. If we increase a policy or rider charge, you may need to increase the amount and/or frequency of your premiums to keep your policy In Force. We will notify the Owner of any such changes through a prospectus supplement.

Cybersecurity and Certain Business Continuity Risks

Our operations support complex transactions and are highly dependent on the proper functioning of information technology and communication systems. Any failure of or gap in the systems and processes necessary to support complex transactions and avoid systems failure, fraud, information security failures, processing errors, cyber intrusion, loss of data and breaches of regulation may lead to a materially adverse effect on our results of operations and corporate reputation. In addition, we must commit significant resources to maintain and enhance our existing systems in order to keep pace with applicable regulatory requirements, industry standards and customer preferences. If we fail to maintain secure and well-functioning information systems, we may not be able to rely on information for product pricing, compliance obligations, risk management and underwriting decisions. In addition, we cannot assure investors or consumers that interruptions, failures or breaches in security of these processes and systems will not occur, or if they do occur, that they can be timely detected and remediated. The occurrence of any of these events may have a materially adverse effect on our businesses, results of operations and financial condition. For additional detail regarding cybersecurity and related risks, please see “Other Information – Computer System, Cybersecurity, and Service Disruption Risks” in this prospectus.

General Information about the Company, the Separate Account and the Underlying Funds

The Company

MassMutual and its domestic life insurance subsidiaries provide individual and group life insurance, disability insurance, individual and group annuities and guaranteed interest contracts to individual and institutional customers in all 50 states of the U.S., the District of Columbia and Puerto Rico. Products and services are offered primarily through MassMutual's distribution channels: MassMutual Financial Advisors, MassMutual Strategic Distributors, Institutional Solutions and Worksite.

MassMutual is organized as a mutual life insurance company. MassMutual's home office is located at 1295 State Street, Springfield, Massachusetts 01111-0001.

The Guaranteed Principal Account

Net Premium and Account Value you allocate to the GPA become part of the General Investment Account of the Company. Subject to applicable law, the Company has sole discretion over the assets in its General Investment Account. The assets of our General Investment Account support our insurance and annuity obligations and are subject to our general liabilities from our business operations and to claims by our creditors. We use General Investment Account assets for many purposes including to pay death benefits, withdrawals, surrenders, policy loans, and transfers from the GPA as well as to pay amounts we provide to you through elected additional features and guarantees that are in excess of your Variable Account Value allocated to the Separate Account. We refer to our ability to meet any contractual obligations as our claims-paying ability.

It is important to note that there is no guarantee that we will always be able to meet our claims-paying obligations, and as with any insurance product, there are risks to purchasing this policy. For this reason, when purchasing a policy and making investment decisions, you should consider our financial strength and claims-paying ability to meet our obligations under the policy.

The General Investment Account has not been registered under the Securities Act of 1933 (1933 Act) or the Investment Company Act of 1940 (1940 Act) because of exemptive and exclusionary provisions. Accordingly, neither the General Investment Account nor any interests therein are generally subject to the provisions of the 1933 Act or the 1940 Act. Disclosures regarding the GPA or the General Investment Account, however, are subject to certain generally applicable provisions of the federal securities laws relating to the accuracy and completeness of statements made in this prospectus.

You do not participate in the investment performance of the assets in our General Investment Account. Instead, we guarantee that amounts allocated to the GPA, in excess of Policy Debt, will earn interest at a minimum rate of 3% per year. We may credit a higher rate of interest at our discretion. The interest rate is declared monthly and becomes effective on the first of each calendar month. You bear the risk that no higher rates of interest will be credited.

For amounts in the GPA equal to any Policy Debt, the guaranteed minimum interest rate per year is the greater of:

- 3%; or
- the policy loan rate less the maximum loan interest rate expense charge.

You may obtain interest rate information for the GPA, including the loaned portion and the non-loaned portion, by calling our Administrative Office.

The Separate Account

The part of your premium that you invest in your policy's Separate Account Divisions is held in an account that is separate from the general assets of the Company. This account is called the Massachusetts Mutual Variable Life Separate Account I. In this prospectus, we will refer to it simply as the "Separate Account."

We established the Separate Account on July 13, 1988, according to the laws of the Commonwealth of Massachusetts. We registered it with the SEC as a unit investment trust under the 1940 Act.

The Separate Account exists to keep your life insurance assets separate from our other Company assets. As such, any income, gains, and losses credited to, or charged against, the Separate Account reflect only the Separate Account's own investment experience. At no time will the Separate Account reflect the investment experience of the Company's other assets. The Company owns the assets in the Separate Account. The Separate Account is divided into divisions, each of which purchases shares in a corresponding underlying Fund.

Any death benefits, withdrawals, surrenders, policy loans, or transfers of Account Value from the Separate Account Divisions will be redeemed from the corresponding Funds.

We may not use the assets in the Separate Account to pay any liabilities of the Company other than those arising from the policies. We may, however, transfer to our General Investment Account any assets that exceed anticipated obligations of the Separate Account. We are required to pay, from our general assets, if necessary, all amounts promised under the VUL III policies. In the event that the assets in the Separate Account exceed the liabilities, the Company may only withdraw seed capital and earned fees and charges.

We have established a segment within the Separate Account to receive and invest premium payments for the VUL III policies. Currently, the VUL III segment is divided into over 30 Separate Account Divisions. Each Separate Account Division purchases shares in a corresponding Fund. The underlying Funds are listed in Appendix A. Please see "Appendix A – Funds Available Under the Policy."

Some of the underlying Funds offered are similar to mutual funds offered in the retail marketplace. They may have the same investment objectives and portfolio managers as the retail funds. The Funds offered in the VUL III policy, however, are set up exclusively for variable annuity and variable life insurance products. *Their shares are not offered for sale to the general public, and their performance results will differ from the performance of the retail funds.*

We reserve the right, subject to compliance with applicable federal securities laws and regulations and any other federal or state law, to create separate accounts and to make certain material changes to the structure and operation of the Separate Account, including, among other things to:

- create new Separate Account Divisions;
- create new segments of the Separate Account for any new variable life insurance products we create in the future;
- eliminate Separate Account Divisions;
- close existing Separate Account Divisions to allocations of new premium payments by current or new policy owners;
- combine the Separate Account or any Separate Account Divisions with one or more different separate accounts or Separate Account Divisions;
- transfer the assets of the Separate Account or any division of the Separate Account that we may determine to be associated with the class of contracts to which the policy belongs to another separate account or Separate Account Division;
- operate the Separate Account as a management investment company under the 1940 Act or in any other form permitted by law;
- de-register the Separate Account under the 1940 Act in the event such registration is no longer required; and
- change the name of the Separate Account.

Underlying Funds

We do not recommend or endorse any particular Fund and we do not provide investment advice. You are responsible for choosing the Funds, and the amounts allocated to each, that are appropriate for your own individual circumstances and your investment goals, financial situation, and risk tolerance. Since investment risk is borne by you, decisions regarding investment allocations should be carefully considered. Information regarding each Fund, including (i) its name; (ii) its type (e.g., money market fund, bond fund, balanced fund, etc.); (iii) its investment adviser and any sub-investment adviser; (iv) current expenses; and (v) performance is available in Appendix A to this prospectus. Please see "Appendix A – Funds Available Under the Policy." In making your investment selections, we encourage you to thoroughly investigate all of the information regarding the Funds that is available to you. Each Fund has issued a prospectus that contains more detailed information about the Fund.

After you select Funds for your initial premium, you should monitor and periodically re-evaluate your allocations to determine if they are still appropriate.

You bear the risk of any decline in your policy Account Value resulting from the performance of the Funds you have chosen. You can find the prospectuses and other information about the Funds online at www.MassMutual.com/VULIII. You can also request this information at no cost by calling (800) 272-2216 or sending an email request to MassMutualServiceCenter@MassMutual.com.

Addition, Removal, Closure, or Substitution of Funds

We do not guarantee that each Fund will always be available for investment through the policy. We have the right to change

the Funds offered through the policy, but only as permitted by law. If the law requires, we will also get your approval and the approval of any appropriate regulatory authorities. Changes may only impact certain Owners. Examples of possible changes include: adding new

Funds or Fund classes, removing existing Funds or Fund classes, closing existing Funds or Fund classes, or substituting a Fund with a different Fund. New or substitute Funds may have different fees and expenses. We will not add, remove, close, or substitute any shares attributable to your interest in a Separate Account Division without notice to you and prior approval of the SEC, to the extent required by applicable law. We reserve the right to transfer Separate Account assets to another separate account that we determine to be associated with the class of policies to which your policy belongs.

Conflicts of Interest

The Funds available with this policy may also be available to registered separate accounts offering variable annuity and variable life products of other affiliated and unaffiliated insurance companies, as well as to the Separate Account and other separate accounts of MassMutual. Although we do not anticipate any disadvantages to these arrangements, it is possible that a material conflict may arise between the interests of the Separate Account and one or more of the other separate accounts participating in the Funds. A conflict may occur, for example, as a result of a change in law affecting the operations of variable life and variable annuity separate accounts, differences in the voting instructions of the owners and payees and those of other insurance companies, or some other reason. In the event of a conflict of interest, we will take steps necessary to protect owners and payees, including withdrawing the Separate Account from participation in the Funds involved in the conflict or substituting shares of other Funds.

Compensation We Receive from Funds, Advisers and Sub-Advisers

Compensation We Receive from Funds

We and certain of our insurance affiliates receive compensation from certain Funds pursuant to Rule 12b-1 under the 1940 Act. This compensation is paid out of a Fund's assets and may be as much as 0.25% of the average net assets of an underlying Fund that are attributable to the variable annuity and variable life insurance products issued by us and certain of our insurance affiliates that offer the particular Fund. An investment in a Fund with a 12b-1 fee will increase the cost of your investment in this policy.

Compensation We Receive from Advisers and Sub-Advisers

We and certain of our insurance affiliates also receive compensation from the advisers and sub-advisers to some of the Funds. We may use this compensation to pay expenses that we incur in promoting, issuing, distributing and administering the policy, and providing services on behalf of the Funds in our role as intermediary to the Funds. The amount of this compensation is determined by multiplying a specified annual percentage rate by the average net assets held in that Fund that are attributable to the variable annuity or variable life insurance products offered by us and certain of our insurance affiliates. These percentage rates differ, but currently do not exceed 0.25%. Some advisers and sub-advisers pay us more than others; some advisers and sub-advisers do not pay us any such compensation.

The compensation may not be reflected in a Fund's expenses because this compensation may not be paid directly out of a Fund's assets. These payments also may be derived, in whole or in part, from the advisory fee deducted from Fund assets. Owners, through their indirect investment in the Funds, bear the costs of these advisory fees (please see the Funds' prospectuses for additional information).

In addition, we may receive fixed dollar payments from the advisers and sub-advisers to certain Funds so that the adviser and sub-adviser can participate in sales meetings conducted by us. Attending such meetings provides advisers and sub-advisers with opportunities to discuss and promote their Funds.

For a list of the Funds whose advisers currently pay such compensation, visit www.MassMutual.com/privacy-policy/compensation-arrangements or call our Administrative Office.

Compensation and Fund Selection

When selecting the Funds that will be available with the policy, we consider each Fund's investment strategy, asset class, manager's reputation, and performance. We also consider the amount of compensation that we receive from the Funds, their advisers, sub-advisers, or their distributors. The compensation that we receive may be significant, and we may profit from this compensation. Additionally, we offer certain Funds through the policy at least in part because they are managed by an affiliate.

Voting Rights

We are the legal owner of the Fund shares. However, you have the right to instruct us how to vote on questions submitted to the shareholders of the Funds supporting the policy. This right is limited to the extent you are invested in those Separate Account Divisions on the record date. We vote shares for which we do not receive instructions in the same proportion as the shares for which

we do receive instructions. The shares held in the name of the Company and its affiliates will also be proportionally voted. This process may result in a small number of Owners controlling the vote. There is no minimum number of votes required. If we determine that we are no longer required to comply with the above, we will vote the shares in our own right.

Your right to instruct us is based on the number of shares of the Funds attributable to your policy. The number of shares of any Fund, attributable to your policy, is determined by dividing the Account Value held in that Separate Account Division by \$100. Fractional votes are counted.

We will send you or, if permitted by law, make available electronically, proxy material and a form to complete giving us voting instructions.

We may, when required by state insurance regulatory authorities, disregard voting instructions, if such instructions would require shares to be voted so as to cause a change in the sub-classification or investment objective of a Fund or to approve or disapprove an investment advisory contract for the Fund. In addition, we may disregard voting instructions that would require a change in the investment policy or investment adviser of one or more of the available Funds. Our disapproval of such change must be reasonable and based on a good faith determination that the change would be contrary to state law or otherwise inappropriate, considering the Fund's objectives and purpose. If we disregard Owner voting instructions, we will advise Owners of our action and the reasons for such action.

Charges and Deductions

This section describes the charges and deductions we make under the policy to compensate us for the services and benefits we provide, costs and expenses we incur, and risks we assume. We may profit from the charges deducted, and we may use any such profits for any purpose, including payment of distribution expenses.

In addition, the Funds pay operating expenses that are deducted from the assets of the Funds. For more information about these expenses, please see the individual Fund prospectuses.

Transaction Fees

Premium Expense Charge

We deduct a premium expense charge from each premium payment you make. The premium expense charge is generally used to cover taxes assessed by a state and/or other governmental agency as well as acquisition expenses.

- For Policies Issued After December 31, 2019: The current premium expense charge we deduct is 8% of premium paid up to and including the Premium Expense Factor, and 7% of premium over the Premium Expense Factor. The maximum premium expense charge we can deduct is 8% of premium paid up to and including the Premium Expense Factor, and 7% of premium over the Premium Expense Factor.
- For Policies Issued On or Before December 31, 2019: The current premium expense charge we deduct is 6% of any premium paid. The maximum premium expense charge we can deduct is 8% of premium paid up to and including the Premium Expense Factor, and 7% of premium over the Premium Expense Factor.

For the Initial Face Amount, the Premium Expense Factor is based on the issue age, gender, and risk classification of the Insured. For each increase in the Face Amount, the Premium Expense Factor is based on the Attained Age, gender, and risk classification of the Insured on the effective date of the increase. Please see footnote (1) in the "Transaction Fees" sub-section of the "Fee Tables" section for additional information.

Example:

Assume that you are a 35-year-old male, non-smoker and that your policy has a Face Amount of \$200,000. The Premium Expense Factor for your policy is \$9 per \$1,000 of Face Amount or \$1,800 ($200 \times \9).

Now assume that you make a premium payment of \$1,000. Your maximum premium expense charge is 8% of your premium payment up to and including the policy's Premium Expense Factor. Since your premium payment is less than the policy's Premium Expense Factor of \$1,800, your maximum premium expense charge will be \$80 ($8\% \times \$1,000$).

If your premium payment had been \$2,000, it would have exceeded the Premium Expense Factor by \$200 ($\$2,000 - \$1,800$). Consequently, your maximum premium expense charge would have been \$158:

- 8% of \$1,800 (\$144) plus
- 7% of \$200 (\$14).

If you have increased the policy Face Amount, the Premium Expense Factor used for this charge is the total of the Premium Expense Factors for the Initial Face Amount and for all increases.

Surrender Charges

There is a charge if you fully surrender your policy or if you decrease the Face Amount. We will also take any applicable surrender charges if your policy lapses. (Please see the "Policy Termination and Reinstatement" section for more information.) Generally, these charges will apply during:

- the first nine Policy Years of coverage; and
- the first nine years after each increase in Face Amount.

However, in no event will we deduct surrender charges after the Insured's Attained Age 99.

This surrender charge is also sometimes called a "deferred sales load." The charge compensates us for expenses incurred in issuing the policy's Initial Face Amount, issuing Face Amount increases, and for the recovery of acquisition costs.

The surrender charge is a charge against the Account Value of the policy. The deduction is taken from the Separate Account Divisions and the non-loaned portion of the GPA in proportion to the values in each on the effective date of the surrender, decrease in Face Amount, or lapse.

We calculate surrender charges separately for the Initial Face Amount and for each increase in the Face Amount. For the Initial Face Amount, the rates are based on the Insured's issue age, gender, risk classification, and coverage year. For each increase in the Face Amount, the rates are based on the Insured's gender, Attained Age, risk classification on the effective date of the increase, and coverage year. The surrender charge for the policy is the sum of the surrender charges for the Initial Face Amount and all Face Amount increases.

The surrender charge is equal to the first-year surrender charge multiplied by the following annual percentages:

For Policies Issued After December 31, 2019

Coverage Year	%	Coverage Year	%
1	100%	6	71 – 82%
2	93 – 100%	7	60 – 75%
3	87 – 100%	8	40 – 50%
4	81 – 100%	9	20 – 25%
5	76 – 100%	10	0%

For Policies Issued On or Before December 31, 2019

Coverage Year	%	Coverage Year	%
1	100%	6	73 – 82%
2	94 – 100%	7	60 – 75%
3	88 – 100%	8	40 – 50%
4	82 – 100%	9	20 – 25%
5	77 – 100%	10	0%

The annual percentages may vary for policies issued in New York.

For all policies, the surrender charge will not exceed \$50.58 per \$1,000 of Face Amount.

Surrender Charges for Decreases in Face Amount

If you decrease your policy's Face Amount, we cancel all or a part of your Face Amount segment(s) and charge a pro-rata surrender charge that will not exceed the surrender charge associated with each decreased or cancelled segment multiplied by the proportion of that segment that is decreased.

After a Face Amount decrease, the surrender charge for a decreased segment that remains In Force is decreased proportionately. This charge provides us with a proportional compensation for expenses incurred in issuing the policy's Initial Face Amount, issuing Face Amount increases, and for the recovery of acquisition costs.

Rider Processing Fee

We will assess a one-time processing fee at the time you exercise either the Accelerated Death Benefit Rider for Terminal Illness or the Substitute of Insured Rider. The maximum processing fee for the Accelerated Death Benefit Rider for Terminal Illness is \$250 (the fee may vary by state, but will not exceed \$250) and \$75 for the Substitute of Insured Rider. Payment is due upon request to exercise the Substitute of Insured Rider; however, the fee for the Accelerated Death Benefit Rider for Terminal Illness is deducted from the accelerated benefit payment and will reduce the amount you receive.

Periodic Charges

Loan Interest Rate Expense Charge

We assess a loan interest rate expense charge against policies with outstanding loan balances. This charge, which reimburses us for the ongoing expenses of administering the loan, represents the difference between the interest we charge on policy loans and the interest we credit on the cash value we hold as collateral for policy loans. The loan interest rate minus the loan interest expense charge is the interest rate we use to credit interest to the loaned portion of the GPA.

The maximum loan interest rate expense charge is 1% for the first 10 Policy Years and 0.50% in subsequent Policy Years. The current loan interest rate expense charge is 0.65% for the first 10 Policy Years and 0.15% in subsequent Policy Years. We reserve the right to increase the loan interest rate expense charge in order to ensure your loan is not treated as a taxable distribution under federal income tax rules, which may change over time.

Monthly Charges Against the Account Value

The following charges are deducted from the Account Value on each Monthly Charge Date. The Monthly Charge Date is the date on which monthly charges for the policy are due. The first Monthly Charge Date is the policy date, and subsequent Monthly Charge Dates are on the same day of each succeeding calendar month.

Your policy's Monthly Charge Date will be listed in the policy's specifications pages. Monthly charges are deducted from the Separate Account Division(s) and the GPA in proportion to the non-loaned values in each on the date the deduction is taken.

Administrative Charge and Face Amount Charge

The administrative charge and the face amount charge reimburse us for issuing and administering the policy, and for such activities as processing claims, maintaining records and communicating with you.

Administrative Charge

The current administrative charge is \$10 per policy, per month.

Face Amount Charge

The face amount charge is based on a rate per \$1,000 of the Initial Face Amount. We calculate the face amount charge separately for the Initial Face Amount and for each increase in the Face Amount. It is based on:

- the issue age, gender and risk classification of the Insured for the Initial Face Amount; and
- for each increase, the Insured's Attained Age, gender and risk classification at time of the increase;

and it is multiplied by the segment Face Amount. The face amount charge will not be reduced if the Face Amount is reduced. Please see the "Periodic Charges Other than Fund Operating Expenses" table in the "Fee Tables" section for additional information.

Insurance Charge

The insurance charge reimburses us for providing you with life insurance protection. We deduct an insurance charge based on your policy's Insurance Risk. Insurance Risk is equal to the difference between the death benefit (discounted one month at the guaranteed minimum interest rate for the GPA) and the Account Value. These deductions are made by deducting Accumulation Units, proportionately, from each Separate Account Division in which you have an Account Value and the GPA on each Monthly Charge Date up to, but not including, the Policy Anniversary on which the Insured reaches Attained Age 121.

The maximum insurance charge rates associated with your policy are shown in the policy's specification pages.

- *For Policies Issued After December 31, 2019:* These rates are calculated using the 2017 Commissioners' Standard Ordinary Ultimate, Sex-Distinct, Smoker-Distinct, Age Nearest Birthday Mortality Tables or, for unisex rates, the 2017 Commissioners' Standard Ordinary (80) Ultimate, Smoker-Distinct, Age Nearest Birthday Mortality Table. The rates are also based on the risk classification of the person insured by the policy.
- *For Policies Issued On or Before December 31, 2019:* These rates are calculated using the 2001 Commissioners' Standard Ordinary Ultimate, Sex-Distinct, Smoker-Distinct, Age Nearest Birthday Mortality Tables or, for unisex rates, the 2001 Commissioners' Standard Ordinary (80) Ultimate, Smoker-Distinct, Age Nearest Birthday Mortality Table. The rates are also based on the risk classification of the person insured by the policy.

We may charge less than the maximum monthly insurance charges shown in the table(s). In this case, the monthly insurance charge rates will be based on a number of factors including, but not limited to, our expectations for future mortality, investment earnings, persistency, expense and tax results, capital and reserve requirements, and profits. The expense component of these rates is used to offset sales and issue expenses, which decrease over time. Any change in these charges will apply to all individuals in the same class.

Insurance charges for the policy will not be the same for all Owners. Your policy's actual or current insurance charge rates are based on a number of factors including, but not limited to, the Insured's issue age (and age at increase, if applicable), risk classification, and gender (unless unisex rates are used). These rates generally increase as the Insured's age increases. The rates will vary with the number of years the coverage has been In Force and with the total Face Amount of the policy.

How the Insurance Charge is Calculated

(1) If the Minimum Death Benefit is not in effect:

We calculate the insurance charge on each Monthly Charge Date by multiplying the current insurance charge rate by a discounted Insurance Risk.

The Insurance Risk is the difference between:

- the amount of benefit available on that date, under the death benefit option in effect, discounted by the monthly equivalent of 3% per year; and
- the Account Value at the beginning of the policy month reduced by any rider charges (other than disability riders) before the monthly insurance charge is due.

The following three steps describe how we calculate the insurance charge for your policy:

Step 1: We calculate the total Insurance Risk for your policy:

- (a) We divide the amount of benefit under the death benefit option in effect that would be available at the beginning of the policy month by 1.0024662698 (which is the monthly equivalent of 3%); and
- (b) We subtract your policy's Account Value at the beginning of the policy month from the amount we calculated in Step 1(a) above.

Step 2: We allocate the Insurance Risk in proportion to the Face Amount of each segment and each increase that is In Force as of your Monthly Charge Date.

Step 3: We multiply the amount of each allocated Insurance Risk by the insurance charge rate for each coverage segment. The sum of these amounts is your insurance charge.

(2) If the Minimum Death Benefit is in effect:

We also calculate the insurance charge on each Monthly Charge Date. However, in Step 1 we calculate the total Insurance Risk for your policy, as described in (1) above:

- (i) assuming the Minimum Death Benefit is in effect; and then
- (ii) assuming the Minimum Death Benefit is not in effect.

Step 2: We allocate the Insurance Risk:

- (a) calculated for (ii) in proportion to the Face Amount of each segment and each increase that is In Force as of your Monthly Charge Date; and
- (b) we subtract the risk calculated for (ii) from the risk calculated for (i) and allocate that amount to the last underwritten segment.

Step 3: We multiply the amount of each allocated Insurance Risk by the insurance charge rate for each coverage segment. The sum of these amounts is your insurance charge.

Additional Information about the Insurance Charge

We will apply any changes in the insurance charges uniformly for all Insureds of the same issue age, gender, risk classification, and whose coverage has been In Force for the same length of time. No change in insurance class or cost will occur on account of deterioration of the Insured's health after we issue the policy. We do not offer special underwriting programs for this product such as guaranteed issue or simplified issue underwriting; therefore, individuals of similar health will be classified similarly.

Because your Account Value and death benefit may vary from month to month, your insurance charge may also vary on each Monthly Charge Date. The cost of your insurance depends on the amount of Insurance Risk on your policy. Factors that may affect the Insurance Risk include:

- the amount and timing of premium payments;
- investment performance;
- fees and charges assessed;
- the addition or deletion of certain riders;
- rider charges;
- withdrawals;
- policy loans;
- changes to the Face Amount; and

- changes to the death benefit option.

Substandard Risk Charge

Additional mortality fees may be assessed for risks associated with certain health conditions, occupations, aviation, avocations or driving history (i.e., substandard risks). These fees can be in the form of higher rates known as table ratings and/or flat extra charges. Table ratings and flat extra charges are components in the calculation of the insurance charges for the base policy and any applicable monthly rider insurance charges. Substandard risk charges only apply if certain factors result in an Insured having a substandard rating and will be shown in the policy's specifications pages. Note that the insurance charges, including any table ratings and/or flat extra

charges, will not exceed \$83.33 per \$1,000 of Insurance Risk or Face Amount. Table ratings and/or flat extra charges can remain on a policy for as long as 20 years, or Attained Age 65, if longer.

Rider Charges

The charges for the following riders are deducted from the Account Value on each Monthly Charge Date: Disability Benefit Rider, Guaranteed Insurability Rider, Other Insured Rider, Waiver of Monthly Charges Rider and Waiver of Specified Premium Rider.

The rates for the Disability Benefit Rider vary by the Insured's gender and Attained Age. Charges for the Disability Benefit Rider have two components. A portion of the charge is based on current rates ranging from \$0.00 to \$0.28 per \$1 of monthly deductions. The remainder of the charge is based on current rates ranging from \$0.00 to \$0.04 per \$1 of specified benefit amount. The monthly charges for this rider will continue up to, but not including, the Policy Anniversary date on which the Insured's Attained Age becomes 65.

The rates for the Guaranteed Insurability Rider vary by the Insured's gender and issue age. Current rates range from \$0.03 to \$0.11 per \$1,000 of optional insurance coverage. The monthly charges for this rider will continue up to, but not including, the Policy Anniversary date on which the Insured's Attained Age becomes 46.

The rates for the Other Insured Rider vary by the Insured's gender, Attained Age, and risk classification.

- For Policies Issued After December 31, 2019: Current rates range from \$0.01 to \$27.41 per \$1,000 of rider face amount. The monthly charges for this rider will not continue beyond the earlier of the base Insured's Attained Age 99 and the other Insured's Attained Age 99.
- For Policies Issued On or Before December 31, 2019: Current rates range from \$0.01 to \$29.79 per \$1,000 of rider face amount. The monthly charges for this rider will not continue beyond the earlier of the base Insured's Attained Age 99 and the other Insured's Attained Age 99.

The rates for the Waiver of Monthly Charges Rider vary by the Insured's gender and Attained Age. Current rates range from \$0.00 to \$0.28 per \$1 of monthly deductions. This monthly charge will continue up to, but not including, the Policy Anniversary date on which the Insured's Attained Age becomes 65.

The rates for the Waiver of Specified Premium Rider vary by the Insured's gender and Attained Age. The rider charge for the Waiver of Specified Premium Rider is the greater of the charge for monthly deductions or the charge for the specified monthly premium amount. If the rider charge is based on the monthly deductions, the charge is based on current rates ranging from \$0.00 to \$0.28 per \$1 of monthly deductions. If the rider charge is based on the specified premium amount, the charge is based on current rates ranging from \$0.00 to \$0.04 per \$1 of specified monthly premium amount. The monthly charges for this rider will continue up to, but not including, the Policy Anniversary date on which the Insured's Attained Age becomes 65.

Directed Monthly Deduction Program

You may elect to have us deduct the monthly charges from one Separate Account Division, or from the GPA, rather than from all options on a pro rata basis. This feature is called the Directed Monthly Deduction Program (DMDP).

To elect the DMDP, complete our Directed Monthly Deduction Program Request form and send it to us for processing. The DMDP will continue as long as you have enough value in your selected option on a Monthly Charge Date to cover the monthly charges then due, or unless you have specified a termination date in your request form.

If you don't have sufficient Account Value to cover the monthly charges due in your selected option on any Monthly Charge Date, we will deduct the monthly charges pro rata from all investment options with Account Value. We may, at any time, modify, suspend, or terminate the DMDP without prior notification.

Daily Charges Against the Separate Account

The following charge is deducted daily from the Separate Account.

Asset Charge

The asset charge is determined on your policy's Monthly Charge Date and is based on your policy's Account Value, on that Monthly Charge Date, after the current monthly charges are deducted. The charge is applied, on a daily basis, to your value in the Separate Account only. The maximum annual asset charge is equal to the following percentages of the portion of your policy's average daily net assets that are invested in the Separate Account:

- The maximum charge is 0.90% in Policy Years 1-10 and drops to 0.40% in Policy Year 11 and later;
- The current charge is 0.50-0.70% in Policy Years 1-10 and drops to 0.15% in Policy Year 11 and later.

When your policy is issued, the asset charge is set assuming your policy Account Value is \$100,000, regardless of your policy's actual Account Value. The asset charge will remain at this level until the Monthly Charge Date that is on or immediately after the date we receive your first premium payment. On the Monthly Charge Date immediately following your first premium payment, your asset charge will be set according to your policy's actual Account Value. On each of the policy's subsequent Monthly Charge Dates during your first 10 Policy Years, we will determine the asset charge to be applied to your value in the Separate Account until the next Monthly Charge Date. Even though your Variable Account Value may change from day to day, the asset charge applied to your value invested in the Separate Account will only change on a Monthly Charge Date when your Account Value has increased or decreased to a level that triggers the assessment of a different asset charge as shown in the following table.

<i>Your Value in the Separate Account</i>	<i>Current Charge Policy Years 1 – 10</i>	<i>Maximum Charge Policy Years 1 – 10</i>	<i>Current Charge Policy Years 11+</i>	<i>Maximum Charge Policy Years 11+</i>
\$0 – \$49,999.99	0.70%	0.90%	0.15%	0.40%
\$50,000 – \$99,999.99	0.60%	0.90%	0.15%	0.40%
\$100,000+	0.50%	0.90%	0.15%	0.40%

The asset charge compensates us for the risks and expenses involved in issuing and administering life insurance protection.

If the asset charge is not sufficient to cover the risks and expenses involved in issuing and administering the policy, we will bear the loss. If the amount of the charge is more than sufficient to cover those risks and expenses, we will make a profit on the charge. We may use this profit for any purpose, including the payment of marketing and distribution expenses for the policy.

The Separate Account purchases shares of the Funds at net asset value. The net asset value of each Fund reflects expenses already deducted from the assets of the Fund. Such expenses include investment management fees and other expenses and may include acquired Fund fees and expenses. For some Funds, expenses will also include 12b-1 fees to cover distribution and/or certain service expenses. When you elect a Fund as an investment choice, that Fund's expenses will increase the cost of your investment in the policy. Please see each Fund's prospectus for more information regarding these expenses.

Special Circumstances

There may be special circumstances that result in sales or administrative expenses or Insurance Risks that are different than those normally associated with this policy. Under such circumstances, we may vary the charges and other terms of the policies; however, the charges will not exceed the maximum charges identified in the fee tables. We will make these variations only in accordance with uniform rules we establish.

Owner, Insured, Beneficiary

Owner

The Owner is the person who will generally make the choices that determine how the policy operates while it is In Force. In California, the policy is not available for purchase by anyone over age 59. You name the Owner in the application. However, the Owner may be changed by Written Request received in Good Order at our Administrative Office while the policy is In Force; therefore, the Owner is the person we have listed as such in our records. Generally, the change of Owner will take effect as of the date the Written Request is signed. However, in certain states you may not change Owners without our approval. We will refuse or accept any requested change of Owner on a non-discriminatory basis. Please see your policy. Each change will be subject to any payment we made or other action we took before receiving the owner designation form in Good Order. When we use the terms “you” or “your,” in this prospectus, we are referring to the Owner.

The sale of your policy to an unrelated investor, sometimes called a viatical or a life settlement, typically has transaction costs that may reduce the value of your estate. Discuss the benefits and risks of selling your life insurance policy with your registered representative and estate planner before you enter into a life settlement. Such a sale may also have adverse tax consequences. Please see “Sales to Third Parties” in the “Federal Income Tax Considerations” section for additional information.

Insured

The Insured is the person on whose life the policy is issued. The Owner must have an insurable interest in the life of the Insured in order for the policy to be valid under state law and for the policy to be considered life insurance for income tax purposes. If the policy does not comply with the insurable interest requirements of the issue state at the time of issue, the policy may be deemed void from the beginning. As a result, the policy would not provide the intended benefits. It is the responsibility of the Owner to determine whether proper insurable interest exists at the time of policy issuance.

You name the Insured in the application for the policy. We will not issue a policy for an Insured who is beyond Attained Age 90. Before issuing a policy, we will require evidence to determine the insurability of the Insured. This will usually require a medical examination.

Beneficiary

The beneficiary is the person you name in the application to receive any death benefit. You may name different classes of beneficiaries, such as primary and secondary. These classes will set the order of payment. There may be more than one beneficiary in a class.

Unless an irrevocable beneficiary has been named, you can change the beneficiary at any time before the Insured dies by sending a Written Request in Good Order to our Administrative Office. The Owner must have the consent of an irrevocable beneficiary to change the beneficiary. Generally, the change will take effect as of the date your request is signed. Each change will be subject to any payment we made or other action we took before receiving the Written Request in Good Order.

If no beneficiary is living or in existence when the Insured dies, we will pay you the death benefit unless the policy states otherwise. If you are deceased, the death benefit will be paid to your estate.

Purchasing a Policy

Purchasing a Policy

To purchase a policy, you must send us a completed application. The minimum Initial Face Amount of a policy is currently \$50,000. The Owner selects, within our limits, the policy's "Face Amount." The Face Amount is used to determine the amount of insurance coverage the policy provides while it is In Force. The "Initial Face Amount" is the Face Amount on the Policy Date. It is listed on the first page of your policy.

We determine whether to accept or reject the application for the policy and the Insured's risk classification. Coverage under the policy becomes effective on the date the last of all premiums due and necessary documents are received in Good Order at our Administrative Office.

Policies generally are issued with rates that vary based on a number of factors including, but not limited to, the gender of the Insured. In some situations, however, we may issue unisex policies (policies whose rates do not vary by the gender of the Insured). Policies issued in Montana are unisex, and policies issued as part of an employee benefit plan may be unisex. References in this prospectus to sex-distinct policy values are not applicable to unisex policies.

Your Right to Return the Policy

You have the right to cancel the policy, generally, within ten days of receiving it (Free Look). If you cancel the policy, we will issue a refund. The state in which the policy is issued determines the Free Look period and the type of refund that applies. Please see your policy for details. However, the following will give you a general idea of the type of refund you may receive.

Most states require us to refund the policy's Account Value less any withdrawals and any Policy Debt. Other states require us to refund the premium paid less withdrawals and Policy Debt. In those states that require a refund of premium, your premium payment is held in the money market division of the Separate Account during the Free Look period.

Additionally, under certain circumstances such as mistake of fact, we may reissue your policy with different features after the Free Look period expires. Please contact your registered representative for details if you feel your policy should be reissued.

To cancel the policy, return it to us at our Administrative Office, to the registered representative who sold the policy, or to one of our agency offices.

Sending Requests in Good Order

From time to time you may want to submit a Written Request for a change of beneficiary, a transfer, or some other action. A Written Request is a written or electronic communication or instruction in Good Order sent by the Owner to, and received by, MassMutual at our Administrative Office. We may allow requests to be submitted by telephone, fax, website, or other electronic media for certain transactions. Telephone, fax, email, or internet transactions may not always be available. Telephone, fax, and computer systems can experience outages or slowdowns for a variety of reasons. These outages or slowdowns may prevent or delay our receipt of your request. We may make these additional methods available at our discretion. They may be suspended or discontinued at any time without notice. Not all transaction types can be requested by telephone, website, or other electronic media.

Premiums

The Planned Premium amount you pay is based on a number of factors including, but not limited to:

- the Face Amount;
- the Insured's gender;
- the Insured's issue age;
- the Insured's risk classification;
- policy charges;
- premium frequency;
- the death benefit option; and
- whether or not any riders apply to the policy.

First Premium

Generally, you determine the first premium you want to pay for the policy, but it must be at least equal to the Minimum Initial Premium. The Minimum Initial Premium depends on:

- your chosen premium frequency;
- the policy's Initial Face Amount and death benefit option;
- the issue age, gender, and risk classification of the Insured; and
- any riders on the policy.

Generally, you will give your first premium payment or payment instructions to the registered representative who sold you the policy. The currently available methods of payment for your first premium include:

- authorizing the Company to draft the initial premium electronically from your bank account. You initiate the electronic payment for the initial premium by completing the appropriate administrative form;
- check; and
- wire transfer. For instructions on how to make a premium payment by wire transfer, please call our Administrative Office at (800) 272-2216.

Please note that your initial premium is applied to your policy when the payment is received in Good Order at our Administrative Office and after the policy has been issued.

Planned Premiums

When applying for the policy, you select (within the policy limitations) the Planned Premium and payment frequency (annual, semiannual, quarterly, or monthly).

We will send premium notices for the Planned Premium based on the payment frequency in effect. If a Planned Premium payment is not made, the policy will not necessarily terminate. Conversely, making Planned Premium payments does not necessarily guarantee the policy will remain In Force. To keep the policy In Force, it must have sufficient Surrender Value or satisfy the Safety Test. Please see the "Policy Termination and Reinstatement" section. We will send a notice of any premium needed to prevent termination of the policy.

Before making any changes to the timing or frequency of premium payments, you should speak to your registered

representative to determine the impact on your policy.

To change the amount and frequency of Planned Premiums, you may contact our Administrative Office.

If you change the frequency of your Planned Premiums, your policy may be at risk of lapsing because we do not bill for fractional payment periods.

Example:

Your Policy Anniversary is on January 2 and the planned quarterly premium payments are made. We have been sending a bill each quarter for the applicable premium. In June, we receive notification to change the Planned Premium from quarterly payments to annual payments. In this situation, we would have sent bills for the first and second quarterly payments of that year. After receiving notification, however, we would not send a bill for the last two quarterly payments of that year. We will send the next bill approximately 30 days prior to the next Policy Anniversary (January 2). If a premium payment is not made between July and January 2, your policy may lapse before the next bill is received. For more information on what happens if your policy lapses, please see the "Policy Termination and Reinstatement" section.

Subsequent Premium Payments

We will apply your subsequent premium payment on the Valuation Date that it is received in Good Order. If we receive your payment in Good Order on a non-Valuation Date or after the end of a Valuation Date, we will apply your payment on the next Valuation Date. If a payment is dishonored by your bank after we have applied the premium payment to your policy, the transaction will be deemed void and your payment will be reversed.

If mailing a subsequent premium payment, it must be sent to the appropriate lockbox (premium payment processing service). Premium payments sent to an incorrect lockbox will be considered not in Good Order. We will reroute the payment and apply it on the Valuation Date when it is determined to be in Good Order. Please see below for lockbox address details.

If you or the premium payer receives a single bill for multiple insurance policies, subsequent premium payments must be sent to:

<u>Regular Mail:</u>	<u>Overnight Mail</u>
MassMutual	MassMutual
APM Payment Processing Center	5450 N. Cumberland Ave.
PO Box 92485	Suite 100
Chicago, IL 60675-2485	Lockbox 92485
	Chicago, IL 60656

For all other policies, subsequent premium payments must be sent to the appropriate address:

<u>Regular Mail:</u>	<u>Overnight Mail</u>
MassMutual	MassMutual
PO Box 92483	5450 N. Cumberland Ave.
Chicago, IL 60675-2483	Suite 100
	Lockbox 92483
	Chicago, IL 60656

Electronic Premium Payments

We also offer options to allow you to pay premiums through electronic means.

You may initiate single or recurring premium payments for your In Force policy through our secure website (www.MassMutual.com) or by calling our Administrative Office and authorizing an electronic draft from your bank account. Requests to initiate electronic payments are effective on the Valuation Date that you submit the request in Good Order. If you wish to cancel an electronic payment, you must call our Administrative Office at (800) 272-2216 before the end of the Valuation Date (generally 4:00 p.m. Eastern Time).

If a bank draft is dishonored by your bank after we have applied the payment to your policy, the transaction will be deemed void and your payment will be reversed. In addition, if you have established recurring electronic payments and we are unable to obtain payment from your bank account, we will discontinue the recurring payments. You may re-establish recurring electronic payments through our website.

Premium payments may also be made by wire transfer. For instructions on how to make a premium payment by wire transfer, please call our Administrative Office at (800) 272-2216.

Premium Payment Plan

For recurring withdrawals from a bank account, you may elect to pay premiums by pre-authorized check. Under this procedure, we automatically deduct premium payments each month from a designated bank account. We will not send a bill for these automatic

payments. The pre-authorized check service may commence at any time, unless your policy has entered its Grace Period. This service can be discontinued by contacting our Administrative Office.

This pre-authorized check (PAC) service may be initiated or updated by visiting www.MassMutual.com or by submitting a completed PAC form.

We must receive notification of account changes at our Administrative Office at least seven business days before the next draft. Withdrawals from the designated bank account may be selected for any date between the 1st and the 28th of the month. If a date is not specified, we will select a date and send notice in advance of the first draft. We may discontinue the pre-authorized check service for your policy and automatically switch to quarterly billing if:

- your policy has insufficient value to cover the monthly charges due and the elected premium is below the current monthly deductions; or
- we are unable to obtain the premium payment from the bank account; or
- your policy has exceeded a MEC or premium limitation and we are unable to apply your payment.

Premium Flexibility

After the first premium has been paid, within limits, any amount of premium may be paid at any time while the Insured is living. Although you must maintain sufficient Net Surrender Value to keep the policy In Force, there is no required schedule for premium payments.

We reserve the right to return any premium payment under \$20.

In some cases, applying a subsequent premium payment in a Policy Year could result in your policy becoming a MEC. We will not credit any amount of premium to your policy that will exceed MEC limits unless we have written authorization from the Owner to allow MEC status. For more information on MECs, please see the "Federal Income Tax Considerations" section.

Additionally, we will follow these procedures:

- If we receive a subsequent premium that will cause the policy to become a MEC, we will apply to your policy the portion of the payment that will not cause the policy to become a MEC, and we will refund the balance to the premium payer, except under the circumstances described below. The portion of the payment that is credited to the policy will be credited as of the Valuation Date the payment was determined to be in Good Order.
- If the Policy Anniversary is within 14 calendar days of the date the premium is received, and applying the entire payment on the Policy Anniversary will not cause the policy to become a MEC, we will hold the payment without interest until the Policy Anniversary and credit the entire payment as of the Policy Anniversary date. If the anniversary date is not a Valuation Date, the payment will be credited as of the next Valuation Date following the Policy Anniversary.
- We will notify the Owner of any premium that is held or refunded in order to prevent the policy from becoming a MEC. You may also contact us to provide different instructions regarding how to apply your premium payment.

The procedures above may not apply if there has been a material change to your policy that impacts the 7-pay limit or 7-pay period because the start of the 7-pay period may no longer coincide with your Policy Anniversary. Please see "Modified Endowment Contracts" in the "Federal Income Tax Considerations" section for additional information.

Premium Limitations

The Internal Revenue Code of 1986, as amended (IRC), has limits on the amount of money you may put into a life insurance contract and still meet the definition of life insurance for tax purposes. There are two tests under the IRC rules that are used to determine if a policy meets their guidelines:

- the Cash Value Accumulation Test; and
- the Guideline Premium Test.

If you choose the Cash Value Accumulation Test, the maximum premium you can pay each Policy Year is the greatest of:

- an amount equal to \$100 plus double the annual Premium Expense Factor for the policy;
- the amount of premium paid in the preceding Policy Year; or
- the highest premium payment amount that would not increase the Insurance Risk.

If you choose the Guideline Premium Test, the maximum premium for each Policy Year is the lesser of:

- the maximum premium for the Cash Value Accumulation Test; or
- the Guideline Premium Test amount stated in the policy.

We may refund any amount of premium payment that exceeds the limit under the test you have chosen for your policy. If we did not refund the excess premium, the policy may no longer qualify as life insurance under federal tax law.

For more information on these tests, please see the “Minimum Death Benefit” sub-section in the “Death Benefit” section.

Certain policy changes (including but not limited to a change in Face Amount, a change in risk classification, or the addition or removal of a rider) may cause a recalculation of your maximum premium limit. If a policy change results in a decrease to your premium limit, we may be required to distribute funds from your policy to maintain its compliance with the adjusted premium limit. The distribution will be taken from the Separate Account Division(s) and the GPA in proportion to the non-loaned values in each.

How and When Your Premium is Allocated

Net Premium

Net Premium is a premium payment received in Good Order minus the premium expense charge. Please see “Premium Expense Charge” in the “Transaction Fees” sub-section of the “Charges and Deductions” section.

Premiums that would cause the policy to be a MEC may not be considered to be in Good Order, depending on when they are received.

The Net Premium is allocated among the Separate Account Divisions and the GPA according to your current instructions we have on record.

Net Premium Allocation

When applying for the policy, you indicate how you want Net Premiums allocated among the Separate Account Divisions and the GPA. Net Premium allocations must be whole-number percentages that add up to 100%.

You may change your Net Premium allocation at any time by sending a Net Premium Allocation Request form to us at our Administrative Office. You may also change your Net Premium allocation by telephone or fax transmission, subject to certain restrictions. To help protect against unauthorized or fraudulent telephone instructions, we will take reasonable steps to confirm that telephone instructions given to us are genuine. We may record all telephone conversations.

When accompanied by a premium payment, a request to change your Net Premium allocation will become effective on the Valuation Date we receive your request, in Good Order, at our Administrative Office. If we receive your request in Good Order on a non-Valuation Date or after the end of a Valuation Date, the change will become effective on the next Valuation Date.

When Net Premium is Allocated

The Policy Date, Issue Date, and Register Date of your policy may affect the allocation of your Net Premiums. This, in turn, can affect the investment earnings and interest credited on your policy Account Value.

The Issue Date is the date we actually issue the policy. The Policy Date normally is the same date as the Issue Date. However, you may request in your application that we set the Policy Date to be a specific date earlier than the Issue Date. In this case, monthly charges will be deducted as of the requested Policy Date. These deductions will cover a period of time during which the policy is not in effect. If you paid a premium with your application and requested a Policy Date earlier than the date we receive your payment, interest will not accrue on your policy prior to the policy's Issue Date. Additionally, the Policy Date will determine the amount of premium required for your premium to be considered in Good Order.

The Register Date is the first date premiums will be allocated. We set the Register Date depending on the type of refund offered under your policy's right to return provision. The Register Date must also be a Valuation Date.

Allocation of Initial and Subsequent Net Premiums

We will allocate any Net Premiums received on or before the Issue Date of the policy to our General Investment Account. We do not pay you interest on these amounts or credit any interest to your policy prior to the Issue Date.

It should be noted, however, that your Minimum Initial Premium may change from the amount that was originally quoted.

If, for any reason, your initial Net Premium payment is insufficient, your payment will not be considered in Good Order. We will hold the payment in our General Investment Account. We do not pay you interest on these amounts, and you will have to pay the balance before we will consider your initial premium payment in Good Order.

Initial premium payments that are in Good Order and held in our General Investment Account on the Issue Date will be credited with the current GPA interest rate on that date. Your initial Net Premium payment, including any amounts held in our General Investment Account, will be allocated among the Separate Account Divisions and the GPA according to your Net Premium allocation instructions on the Register Date.

If your policy states that upon Free Look we will refund the policy's Account Value, less any withdrawals and any Policy Debt, the Register Date is the Valuation Date that is on, or next follows, the later of:

- the day after the Issue Date of the policy; and
- the date we or the appropriate lockbox receives the balance of your initial premium.

If your policy states that upon Free Look we will refund the premium you paid less withdrawals and any Policy Debt:

- The Register Date is the Valuation Date that is on, or next follows, the later of:
 - the number of days in the policy's Free Look period starting from the Issue Date; and
 - the date we or the appropriate lockbox receives the balance of your initial premium.
- We will allocate existing values, held as of the policy's Issue Date, to the money market division on the first Valuation Date after the Issue Date. (The existing values at this time would be any money taken with the application for the policy less any applicable charges plus any interest earned on the Issue Date.); and
- We will allocate any Net Premiums received after the Issue Date but before the Register Date to the money market division.

We will apply your subsequent premium payments that are received on or after the Register Date, on the Valuation Date we receive them in Good Order. Subsequent premium payments will be applied in accordance with your premium allocation instructions.

Transfers

While your policy is In Force, you may generally transfer all or part of a Separate Account Division's Account Value to any other Separate Account Division or the GPA by indicating the dollar amount or the percentage (in whole numbers) you wish to transfer. Transfers are effective as of the Valuation Date we receive your request in Good Order at our Administrative Office. If we receive your request in Good Order on a non-Valuation Date or after the end of a Valuation Date, your transfer request will be effective as of the next Valuation Date.

We do not charge for transfers.

You can submit transfer requests by sending us a Written Request on our transfer request form. You may also submit transfer requests by telephone, or by other means we authorize, subject to certain restrictions. To help protect against unauthorized or fraudulent telephone instructions, we will take reasonable steps to confirm that telephone instructions given to us are genuine. We may record all telephone conversations.

Generally, there is no limit on the number of transfers you may make among the Separate Account Divisions. However, as discussed more fully in the section below, we may terminate, limit, or modify your ability to make such transfers due to frequent trading or market timing activity.

We limit transfers from the GPA to the Separate Account Divisions to one each Policy Year.

In addition, you may not transfer more than 25% of the GPA Value (less any Policy Debt) at the time of transfer. There is one exception to this rule. If:

- you have transferred 25% of the GPA Value (less any Policy Debt) each year for three consecutive Policy Years; and
- you have not added any Net Premiums or transferred amounts to the GPA during these three years,

then you may transfer the remainder of the GPA Value (less any Policy Debt) out of the GPA in the succeeding Policy Year.

You may not make any fund transfers during the Free Look period for policies under which we refund the premium paid for the policy less withdrawals and Policy Debt. In addition, fund transfers (including transfers through automated programs) cannot be processed during a Grace Period. You must pay the premium due before any subsequent fund transfers can be processed.

Limits on Frequent Trading and Market Timing Activity

This policy and its investment choices are not designed to serve as vehicles for what we have determined to be frequent trading or market timing trading activity. We consider these activities to be abusive trading practices that can disrupt the management of a Fund in the following ways:

- by requiring the Fund to keep more of its assets liquid rather than investing them for long-term growth, resulting in lost investment opportunity; and
- by causing unplanned portfolio turnover.

These disruptions, in turn, can result in increased expenses and can have an adverse effect on Fund performance that could impact all Owners and beneficiaries under the policy, including long-term Owners who do not engage in these activities. Therefore, we discourage frequent trading and market timing trading activity and will not accommodate frequent transfers among the Funds. Organizations and individuals that intend to trade frequently and/or use market timing investment strategies should not purchase this policy. We have adopted policies and procedures to help us identify those individuals or entities that we determine may be engaging in frequent trading and/or market timing trading activities. We monitor trading activity to uniformly enforce those procedures. However, those who engage in such activities may employ a variety of techniques to avoid detection. Our ability to detect frequent trading or market timing may be limited by operational or technological systems, as well as by our ability to predict strategies employed by Owners (or those acting on their behalf) to avoid detection. Therefore, despite our efforts to prevent frequent trading and the market timing of Funds among the Separate Account Divisions, there can be no assurance that we will be able to identify all those who trade frequently or those who employ a market timing strategy (or any intermediaries acting on behalf of such persons) and curtail their trading in every instance. Moreover, our ability to discourage and restrict frequent trading or market timing may be limited by decisions of state regulatory bodies and court orders that we cannot predict. In addition, some of the Funds are available with variable products issued by other insurance companies. We do not know the effectiveness of the policies and procedures used by these other insurance companies to detect frequent trading and/or market timing. The Funds may reflect lower performance and higher expenses across all policies as a result of undetected abusive trading practices. If we, or the investment adviser to any of the Funds available with this policy, determine that an Owner's transfer patterns reflect frequent trading or employment of a market timing strategy, we will allow the Owner to submit transfer requests by regular mail only. We will not accept the Owner's transfer request if submitted by overnight mail, fax, the telephone, our website, or any other type of electronic medium. Additionally, we may reject any single trade that we determine to be abusive or harmful to the Fund.

Orders for the purchase of Fund shares may be subject to acceptance by the Fund. Therefore, we reserve the right to reject, without prior notice, any Fund transfer request if the investment in the Fund is not accepted for any reason. In addition, Funds may assess a redemption fee (which we reserve the right to collect) on shares held for a relatively short period. The prospectuses for the Funds describe the Funds' frequent trading or market timing policies and procedures, which may be more or less restrictive than the policies and procedures we have adopted. We have entered into a written agreement, as required by SEC regulation, with each Fund or its principal underwriter that obligates us to provide to the Fund promptly upon request certain information about the trading activity of individual Owners, and to execute instructions from the Fund to restrict or prohibit further purchases or transfers by specific Owners who violate the frequent trading or market timing policies established by the Fund. Owners and other persons with interests in the policies should be aware that the purchase and redemption orders received by the Funds generally are "omnibus" orders from intermediaries, such as retirement plans or separate accounts funding variable insurance contracts. The omnibus orders reflect the aggregation and netting of multiple orders from individual Owners of variable contracts and/or individual retirement plan participants. The omnibus nature of these orders may limit the Funds in their ability to apply their frequent trading or market timing policies and procedures. It may also require us to restrict or prohibit further purchases or transfers as requested by a Fund on all policies owned by an Owner whose trading activity under one variable contract has violated a Fund's frequent trading or market timing policy. If a Fund believes that an omnibus order reflects one or more transfer requests from Owners engaged in frequent trading or market timing activity, the Fund may reject the entire omnibus order.

We will notify you in writing if we reject a transfer or if we implement a restriction due to frequent trading or the use of market timing investment strategies. If we do not accept a transfer request, no change will be made to your allocations per that request. We will then

allow you to resubmit the rejected transfer by regular mail only. Additionally, we may in the future take any of the following restrictive actions that are designed to prevent the employment of a frequent trading or market timing strategy:

- not accept transfer instructions from an Owner or other person authorized to conduct a transfer;
- limit the number of transfer requests that can be made during a Policy Year; and
- require the value transferred into a Fund to remain in that Fund for a particular period of time before it can be transferred out of the Fund.

We will apply any restrictive action we take uniformly to all Owners we believe are employing a frequent trading or market timing strategy. These restrictive actions may not work to deter frequent trading or market timing activity. We reserve the right to revise our procedures for detecting frequent trading and/or market timing at any time without prior notice if we determine it is necessary to do so in order to better detect frequent trading and/or market timing, to comply with state or federal regulatory requirements, or to impose different restrictions on frequent traders and/or market timers. If we modify our procedures, we will apply the new procedure uniformly to all Owners.

Dollar Cost Averaging Program

The Dollar Cost Averaging (DCA) Program is an automated transfer program that provides scheduled transfers of a set amount from a selected Separate Account Division to any other Separate Account Division(s) or the GPA.

DCA will not assure you of a profit and will not protect you against a loss in declining markets. Since our DCA Program anticipates continued investment during periods of fluctuating prices, you should consider your ability to assume the financial risks of continued DCA through periods of fluctuating price levels.

Initially, a minimum of \$1,000 of Account Value is placed in one Separate Account Division. Then, over a stipulated period of time and at a preset frequency, a specified amount of Account Value is transferred from that Separate Account Division and allocated to other Separate Account Divisions or to the GPA. The minimum transfer amount for the DCA Program is \$100. Account Value held in the GPA cannot be transferred out of the GPA through the DCA Program.

Since the same specified dollar amount is transferred to each Separate Account Division at a preset frequency, more Accumulation Units are purchased when prices are low than when prices are high. Therefore, a lower average cost per unit may be achievable than through a lump-sum purchase of units or through non-level purchases of units.

If on a specified DCA transfer date, however, the Separate Account Division from which amounts are being transferred does not have enough value to make the transfers you elected, DCA will not occur. DCA will occur on the next designated DCA transfer date as long as the amount you designated to be transferred is available.

To elect DCA, complete our Dollar Cost Averaging Request form and send it to us for processing. You may not elect DCA for the policy while the Portfolio Rebalancing Program is in effect. We do not charge you to participate in the DCA Program.

We may at any time modify, suspend, or terminate the DCA Program without prior notification.

Portfolio Rebalancing Program

The Portfolio Rebalancing Program is an automated transfer program that allows you to rebalance your portfolio on a predetermined schedule that you set (annual, semiannual, quarterly, and monthly). The GPA is not included in the Portfolio Rebalancing Program.

Over time, varying investment performance among the Separate Account Divisions may cause the ratios of your Account Value in those selected Separate Account Divisions to change. The Portfolio Rebalancing Program allows you to choose Separate Account Divisions among which you wish to maintain certain relative proportions of Account Value. At a pre-determined frequency, we will make transfers among all the Separate Account Divisions you select so that the Account Values in the selected Separate Account Divisions match the ratios you set.

In order for portfolio rebalancing to occur, the Account Value in at least one of the selected Funds must vary from your chosen ratio by at least \$25.

To elect the Portfolio Rebalancing Program, complete our Portfolio Rebalancing Request form and send it to us for processing. You can also elect the Portfolio Rebalancing Program by telephone, subject to certain restrictions.

You may not elect the automated Portfolio Rebalancing Program while Dollar Cost Averaging is in effect for the policy. We do not charge you to participate in the Portfolio Rebalancing Program. We may at any time modify, suspend, or terminate the Portfolio

Rebalancing Program without prior notification. Portfolio rebalancing will not assure you of a profit and will not protect you against loss in declining markets.

If you prefer a one-time portfolio rebalance instead of the automated Portfolio Rebalancing Program, you may complete our administrative form and send it to us for processing. You can also elect unscheduled portfolio rebalancing by telephone, subject to certain restrictions. Unscheduled portfolio rebalancing transactions are effective as of the Valuation Date we receive your request in Good Order at our Administrative Office. If we receive your request in Good Order on a non-Valuation Date or after the end of a Valuation Date, your unscheduled portfolio rebalancing request will be effective as of the next Valuation Date.

Example:

Assume that your initial Net Premium payment is split among four Separate Account Divisions: MML Managed Bond, MML Foreign, MML Equity and Fidelity® VIP Contrafund® Portfolio.

Further assume that you have also completed a Portfolio Rebalancing Request form indicating that you want the values in the Separate Account Divisions rebalanced quarterly as follows:

- 60% in MML Managed Bond and
- 40% in Fidelity® VIP Contrafund® Portfolio.

Over the next 2½ months the bond market does very well while the stock market performs poorly. At the end of the first quarter, the MML Managed Bond division represents 80% of the value of the two selected Separate Account Divisions in your Portfolio Rebalancing Program.

On the first day of the next quarter, we will sell all units in the MML Foreign and MML Equity divisions using the proceeds to purchase units in the MML Managed Bond (60%) and Fidelity® VIP Contrafund® Portfolio (40%) divisions. In addition, some of your units in the MML Managed Bond division will be sold and the proceeds will be used to purchase additional units in the Fidelity® VIP Contrafund® Portfolio division to bring the ratio of the two investment choices to 60/40 respectively.

Policy Value

How the Value of Your Policy is Calculated

The value of your policy is called its Account Value. The Account Value has two components:

- the Variable Account Value; and
- the Fixed Account Value.

We will calculate your Account Value on each Valuation Date.

Variable Account Value

Transactions in your Separate Account Divisions are all reflected through the purchase and sale of Accumulation Units. An Accumulation Unit is a unit of measure that we use to determine the value in each Separate Account Division. For instance, before we invest your Net Premium payment in a Separate Account Division, we convert your Net Premium payment into Accumulation Units and then purchase an appropriate number of shares in the designated Fund.

The Variable Account Value is the sum of your values in each of the Separate Account Divisions. It reflects:

- Net Premiums allocated to the Separate Account; plus
- transfers to the Separate Account from the GPA; less
- transfers and withdrawals from the Separate Account; less
- surrender charges deducted from the Separate Account due to any decreases in the Selected Face Amount; less
- fees and charges deducted from the Separate Account; adjusted by
- the Net Investment Experience of the Separate Account.

Net Investment Experience

The Net Investment Experience of the Variable Account Value is reflected in the value of the Accumulation Units.

Every Valuation Date we determine the value of an Accumulation Unit for each of the Separate Account Divisions. Changes in the Accumulation Unit value reflect the investment performance of the Fund as well as deductions for the asset charge, and Fund expenses.

The value of an Accumulation Unit may go up or down from Valuation Date to Valuation Date.

When you make a premium payment, we credit your policy with Accumulation Units. We determine the number of Accumulation Units to credit by dividing the amount of the Net Premium payment allocated to a Separate Account Division by the unit value for that Separate Account Division. When you make a withdrawal, we deduct Accumulation Units representing the withdrawal amount from your policy. We deduct Accumulation Units for insurance and other policy charges.

We calculate the value of an Accumulation Unit for each Separate Account Division at the end of each Valuation Date. Any change in the Accumulation Unit value will be reflected in your policy's Account Value.

Fixed Account Value

The Fixed Account Value is the accumulation of:

- Net Premiums allocated to the GPA; plus
- amounts transferred into the GPA; less
- amounts transferred or withdrawn from the GPA; less
- surrender charges deducted from the GPA due to any decreases in the Selected Face Amount; plus
- fees and charges deducted from the GPA; plus
- interest credited to the GPA.

Interest on the Fixed Account Value

The Fixed Account Value earns interest at an effective annual rate, credited daily.

For the part of the Fixed Account Value equal to any policy loan, the daily rate we use is the daily equivalent of:

- the policy loan rate minus the current loan interest rate expense charge; or
- 3%, if greater.

On each Policy Anniversary, the interest earned on any outstanding loan is applied to the Separate Account Divisions and the GPA according to your current premium allocation instructions.

For the part of the Fixed Account Value in excess of any policy loan, the daily rate we use is the daily equivalent of:

- (1) the current interest rate we declare; or
- (2) the guaranteed interest rate of 3%, if greater.

The current interest rate may change as often as monthly and becomes effective on the first of each calendar month.

Death Benefit

If the Insured dies while the policy is In Force and we determine that the claim is valid, we will pay the death benefit to the named beneficiary in a lump sum or under one of the payment options below.

The death benefit will be the amount provided by the death benefit option in effect on the date of death, reduced by any outstanding Policy Debt, and any unpaid premium needed to avoid Policy Termination. The death benefit is calculated as of the date of the Insured's death.

The Minimum Death Benefit for your policy is based on your policy's Account Value as described below.

While the policy is In Force, you may make changes to the death benefit option and Face Amount. You must pay any premium due before such transaction requests can be processed.

Minimum Death Benefit

In order to qualify as life insurance under IRC Section 7702, the policy must have a Minimum Death Benefit that is determined by one of two compliance tests. You choose the test when you apply for the policy. You cannot change your choice of test after the policy is issued.

Cash Value Accumulation Test (CVAT)

Under this test, the Minimum Death Benefit on any date is equal to the Account Value on that date multiplied by the death benefit factor for the Insured's Attained Age on that date. The death benefit factor depends on the Insured's gender, Attained Age, tobacco use risk classification, and the CVAT interest rate under Section 7702 of the IRC.

Guideline Premium Test

Under this test, the Minimum Death Benefit on any date is equal to the Account Value on that date multiplied by the death benefit factor, but the death benefit factor varies only by the Attained Age of the Insured.

The death benefit factors for the Cash Value Accumulation Test and the Guideline Premium Test are shown in the policy.

Your choice of the Guideline Premium Test or the Cash Value Accumulation Test will depend on how you intend to pay premiums. In general, if you intend to pay premiums only in the early Policy Years, the Cash Value Accumulation Test may be appropriate. If you intend to pay level premiums over a long period of years, the Guideline Premium Test may be more appropriate. You should review policy illustrations of both approaches with your registered representative to determine how the policy works under each test, and which is best for you.

Death Benefit Options

When you apply for the policy, you must choose one of three death benefit options. These are:

- **Option 1** – The benefit amount is the greater of:
 - the Face Amount on the date of death; or
 - the Minimum Death Benefit on the date of death.
- **Option 2** – The benefit amount is the greater of:
 - the Face Amount plus the Account Value on the date of death; or
 - the Minimum Death Benefit on the date of death.
- **Option 3** – The benefit amount is the greater of:
 - the Face Amount, plus the premiums paid (less any premiums refunded and any premiums paid after the Insured's Attained Age 90) to the date of death, plus optional interest that is credited during the first five Policy Years on premiums paid; or
 - the Minimum Death Benefit on the date of death.

You should note that under death benefit option 1, the death benefit amount is not affected by your policy's investment experience unless the death benefit is based on the Minimum Death Benefit. Under death benefit option 2, the death benefit is a variable death benefit. This means that, because the death benefit amount includes the Account Value, it can change from day to day. Your policy's Account Value will vary due to the investment performance of the Separate Account Divisions in which you have allocated premium or transferred funds. It is also impacted by the deduction of charges and other policy expenses. It is possible that the policy's Account Value can be zero, which will reduce the overall value of the death benefit. The "Policy Value" section provides more detailed information on how your policy's Account Value is determined.

Death benefit option 3 is available with the choice of having interest applied to all premiums paid (and not refunded) for the first five Policy Years. We determine the interest rate monthly and do not guarantee that the rate will be greater than zero. If interest is paid, only the death benefit amount under this option will increase; interest is not credited to the Account Value of your policy. The interest is credited on each Monthly Charge Date during the first five Policy Years. Interest, if paid, is credited on the cumulative premiums paid, including any interest previously credited.

There is no explicit fee for electing death benefit option 3 with interest; however, election must be made at the time of

application. If this option is selected and the interest rate is greater than zero in any of the first five Policy Years, insurance charges will be higher for

all subsequent Policy Years as a result of the higher death benefit attributable to electing that option. The increased death benefit resulting from this interest during the first five Policy Years may be offset over time by the higher insurance charges.

Right to Change the Death Benefit Option

After the first Policy Year, you may change the death benefit option while the Insured is living. However, a death benefit option change cannot be processed during a Grace Period. In addition, the death benefit option may not be changed to death benefit option 3 and no change will be permitted beyond the Insured's Attained Age 120. Although we do not currently restrict the number of times you may change your death benefit option, we reserve the right to limit the number of death benefit option changes in any Policy Year.

You must send a Written Request in Good Order to our Administrative Office to change your death benefit option. We do not require evidence of insurability.

The death benefit option change will be effective on the Monthly Charge Date that is on or precedes the date we approve the request.

If you change your death benefit option, we will adjust your policy's Face Amount. The Face Amount adjustment (up or down) will be in the amount needed so that the death benefit immediately before the change will be the same as the death benefit after the change.

Please see Appendix C for examples of how a change in death benefit option may impact the policy's Face Amount.

The death benefit following a death benefit option change, however, will behave differently based on the new death benefit option in effect. For example, if an Owner changes the death benefit option from option 1 (death benefit = Face Amount) to option 2 (death benefit = Face Amount + Account Value), the death benefit after the change will be based on the Account Value rather than remaining level. The Owner may decide to make this change if the desire is to have a death benefit that will increase if the Account Value grows.

Alternatively, an Owner may change from death benefit option 2 to option 1 if they would like to have a level death benefit following the change. Having a level death benefit (rather than increasing as the Account Value grows) would reduce the policy's Insurance Risk as the policy's Account Value increases and, as a result, would reduce the monthly insurance charges. If you elect death benefit option 2, you may choose to change to death benefit option 1 automatically at an Attained Age you select. You may select the Attained Age for this change at the time of application for your policy, or after issue by Written Request. You may also cancel or adjust the timing of the scheduled death benefit option change.

When the Face Amount changes as a result of a change in the death benefit option:

- the monthly charges will also change;
- the charge for certain additional benefits may change;
- the premium limitations will change (for additional information please see "Premium Limitations" in the "Premiums" section); and
- the policy surrender charge will not change.

A change in your death benefit option may also have an impact on your ability to satisfy the Safety Test. Please see the "Safety Test" sub-section in the "Policy Termination and Reinstatement" section for additional information.

You cannot change the death benefit option if, as a result, the Face Amount would be reduced to an amount that is less than the minimum Face Amount.

When We Pay Death Benefit Proceeds

If the policy is In Force and it is determined that the claim is valid, we normally pay the death benefit within seven calendar days after the date we receive due proof of the Insured's death and all required documents, in Good Order, at our Administrative Office.

Certain situations may delay payment of a death claim. These situations include, but are not limited to, our right to contest the validity of a death claim. We investigate all death claims that occur within the policy's two-year contestable periods as described below.

We have the right to contest the validity of the policy for any material misrepresentation of a fact within two years:

- after the policy is issued;
- after a Face Amount increase where evidence of insurability is required; or

- after reinstatement of the policy where evidence of insurability is required.

If the Face Amount increase is the result of a policy change that does not require evidence of insurability such as a conversion from another policy or the exercise of an option on this or another policy, we have the right to contest the validity of the Face Amount increase within two years after that other policy was issued.

We may also investigate death claims beyond the contestable periods. After any two-year contestable period, we generally cannot contest the validity of a policy or a Face Amount increase, except for failure to pay premiums. However, if the application(s) contains a fraudulent misstatement of fact, we may contest at any time, to the extent permitted by law.

We generally determine whether the contested claim is valid within five days after we receive the information from a completed investigation. Since it may take some time to receive the information, payment could be delayed during this period.

We can also delay payment of the death benefit if a portion is based on the Variable Account Value of the policy and the Insured's date of death is before or during any period when:

- it is not reasonably practicable to determine the amount because the NYSE is closed (other than customary week-end and holiday closings);
- trading is restricted by the SEC;
- an emergency exists as a result of which disposal of shares of the Funds is not reasonably practicable or we cannot reasonably value the shares of the Funds; or
- the SEC, by order, permits us to delay payment in order to protect our Owners.

Interest on Death Benefit

We will add interest to the death benefit from the date of the Insured's death to the date of a lump sum payment or the effective date of a payment option payment. Interest will be computed at an effective annual rate not less than 3%, or as required by applicable state law.

Although the death benefit is generally excludable from the income of the beneficiary who receives it, interest on the death benefit is includable in the beneficiary's income.

Payment Options

We will pay the death benefit in a lump sum or under one of the payment options described more fully below.

If the payment option is a lump sum when the Insured dies, the beneficiary may elect any payment option, with our consent. If the beneficiary does not elect a payment option and you have not elected a payment option during the Insured's lifetime, the death benefit will be paid as a single lump sum.

The different death benefit payment options are described below. None of these benefits depends upon the performance of the Separate Account or the GPA.

Installments for a Specified Period. Equal monthly payments for any period selected, up to 30 years. The amount of each payment depends on the total amount applied, the period selected, and the monthly income rates we are using when the first payment is due.

Life Income. Equal monthly payments based on the life of a named person. Payments will continue for the lifetime of that person. You can elect income with or without a minimum payment period. This benefit may be increased by the alternate life income provision.

Interest. We will hold any amount applied under this option. We will pay interest on the amount at an effective annual rate determined by us. This rate will not be less than 1%.

Installments of a Specified Amount. Fixed amount payments. The total amount paid during the first year must be at least 6% of the total amount applied. We will credit interest each month on the unpaid balance and add this interest to the unpaid balance. This interest will be an effective annual rate determined by us, but not less than 1%. Payments continue until the balance we hold is reduced to less than the agreed fixed amount. The last payment will be for the balance only.

Life Income with Payments Guaranteed for Amount Applied. Equal monthly payments based on the life of a named person. We will make payments until the total amount paid equals the amount applied, whether or not the named person lives until all payments have been made. If the named person lives beyond the payments of the total amount applied, we will continue to make monthly payments as long as the named person lives. This benefit may be increased by the alternate life income provision.

Joint Lifetime Income with Reduced Payments to Survivor. Monthly payments based on the lives of two named persons. We will make payments at the initial level while both are living, or for ten years if longer. When one dies (but not before the ten years has

elapsed), we will reduce the payments by one-third. Payments will continue at that level for the lifetime of the other. After the ten years has elapsed, payments stop when both named persons have died. This benefit may be increased by the alternate life income provision.

If the Life Income, Life Income with Payments Guaranteed for Amount Applied or Joint Life Income with Reduced Payments to Survivor payment option is elected, the named person(s) can elect to receive an alternate life income instead of receiving income based on the rates shown in the payment option rates tables in your policy. The election must be made at the time the income is to begin. The monthly alternate life income will be at least equal to the monthly income provided by a new single premium immediate annuity (first payment immediate) based on our published rates then in use when the payment option is elected. The alternate life income will not be available if we are not offering new single premium immediate annuities at the time of election.

The minimum amount that can be applied under a payment option is \$10,000 per beneficiary. If the periodic payment under any option is less than \$100, we reserve the right to make payments at less frequent intervals. Once payments have begun, only the specified amount and interest options may be changed.

All payment option elections must be sent to our Administrative Office in writing. You may change the payment option during the Insured's lifetime.

Right to Change the Face Amount

You may request an increase or decrease in the Face Amount. If you change your Face Amount, your policy charges, including surrender charges, will change accordingly. If the policy's Account Value less surrender charges (or Net Surrender Value if there is Policy Debt) cannot keep the policy In Force with the requested change in Face Amount, a premium payment may be required.

We reserve the right to limit the size and number of changes to the Face Amount in any Policy Year.

If you increase or decrease the policy Face Amount, the premium limitations will change (please see "Premium Limitations" in the "Premiums" section for additional information), and your policy may become a MEC under federal tax law. You should consult your tax adviser for information on how a MEC may affect your tax situation. MECs are discussed in the "Federal Income Tax Considerations" section.

Increases in Face Amount

To increase the policy Face Amount, you must send to our Administrative Office a written application and evidence the Insured is still insurable. We treat each Face Amount increase as a separate segment of coverage. An increase in Face Amount cannot be processed during a Grace Period.

An increase in Face Amount may not be:

- less than \$25,000; or
- made after the anniversary of your policy's Issue Date nearest the Insured's 90th birthday.

If the Net Surrender Value is insufficient to continue the changed policy In Force for three months at the new monthly charges and interest, we may require a premium payment sufficient to increase the Net Surrender Value to such an amount.

Additional insurance charges and face amount charges will apply for each Face Amount increase you elect. Additionally, a separate surrender charge schedule will apply to the amount of the increase. Generally, these surrender charges will apply during the first nine years of each segment of coverage. In addition, the Safety Test Guarantee Premium will increase.

Any increase elected under any insurability protection type of rider will be effective as directed in the rider. Any other Face Amount increases will be effective on the Monthly Charge Date that is on, or precedes, the date we approve the application for the increase.

Decreases in Face Amount

You may decrease the Face Amount any time after the first Policy Year or one year after a Face Amount increase. You must send a Written Request in Good Order to our Administrative Office. When we receive a Written Request for a decrease in Face Amount from the Owner, we will provide the Owner with a written notice that specifies the surrender charges to be assessed at the time of the decrease. If the Owner does not withdraw the request for the decrease in Face Amount within ten days from the date of the written notice, we will process the decrease in Face Amount and assess any surrender charges that may apply. If we determine that the policy will become a MEC, then the decrease will not be processed until a MEC Notice and Acknowledgment form is received in Good Order at our Administrative Office.

If you decrease the policy Face Amount, we cancel all or part of your Face Amount segments, and a partial surrender charge may apply. Surrender charges that apply when you decrease the policy's Face Amount are discussed in "Surrender Charges for Decreases in Face Amount" in the "Transaction Fees" section.

A decrease will reduce the Face Amount in the following order:

- (1) the Face Amount of the most recent increase; then
- (2) the Face Amounts of the next most recent increases successively; and last
- (3) the Initial Face Amount.

You may not decrease the Face Amount:

- after the Insured's Attained Age 120; or
- if the decrease would result in a Face Amount of less than the minimum Face Amount (\$50,000).

Face Amount decreases will be effective on the Monthly Charge Date that is on, or precedes, the date we receive (in Good Order at our Administrative Office) any applicable request for the decrease. A Face Amount decrease will reduce your policy's Account Value by the amount of any applicable partial surrender charge. The remaining surrender charge will be reduced by the amount of the partial surrender charge assessed when the Face Amount is decreased. If the policy's Account Value less any remaining surrender charge (or Net Surrender Value if there is Policy Debt) cannot keep the policy In Force, a premium payment may be required.

Decreases in the policy's Face Amount may have adverse tax consequences.

Suicide

If the Insured commits suicide, while sane or insane, within two years from the Issue Date of this policy and while the policy is In Force, this policy will terminate. In this case, we will only pay an amount equal to the premiums accepted for this policy, less any amounts withdrawn and less any Policy Debt.

If the Insured commits suicide, while sane or insane, within two years from the Reinstatement Date and while the policy is In Force, the policy will terminate. In this case, we will only pay an amount equal to any amount paid to reinstate the policy and any premiums accepted thereafter, less any amounts withdrawn and less any Policy Debt.

If the Insured commits suicide, while sane or insane, within two years after the effective date of any increase in the Face Amount, we will pay an amount equal to the monthly charges for that increase segment. No additional payments will be made for that Face Amount increase. This payment is in addition to any death benefit amount payable for coverage segments that were In Force prior to the Face Amount increase. However, if a payment as described in either of the two preceding paragraphs is made, there will be no additional payment for the increase.

Example:

Assume a policy is issued with a \$500,000 Face Amount under death benefit option 1. In Policy Year 4, the owner applies for a \$250,000 Face Amount increase, which is approved. If the Insured commits suicide within two years of the increase, the benefit payable to the beneficiaries is equal to the original \$500,000 death benefit, plus an additional payment equal to the monthly charges that were deducted from the Account Value for the increase segment of \$250,000.

We will pay the full death benefit, less any amounts withdrawn and less any Policy Debt, if the Insured commits suicide two years or more after the Issue Date, and there has been no reinstatement or increase in the Face Amount within those two years.

For policies issued in Colorado, Missouri, Minnesota, and North Dakota, all references in the provision to "two years" should be replaced with "one year."

Error of Age or Gender

If the Insured's date of birth or gender was misstated in the policy application or the policy has been issued incorrectly, we may adjust the Face Amount. The adjustment will reflect the amount provided by the most recent monthly insurance charges using the correct age and gender. Whether or not the Face Amount is adjusted, monthly charges after the correction will be based on the correct age and gender.

Other Benefits Available Under the Policy

Additional Benefits

In addition to the standard death benefit(s) associated with your policy, other standard and/or optional benefits may be available to you. You can obtain additional benefits if you request them and/or qualify for them. We provide certain additional benefits by rider or endorsement. The cost of each rider is generally deducted as part of the monthly charges. Some riders do not result in monthly charges, but do require a fee to exercise the riders. Adding or removing a rider for which there is a monthly charge may impact the premium limitations on your policy. For additional information, please see "Premium Limitations" in the "Premiums" section. If you choose to add a rider, you may cancel it at any time upon Written Request. You may not, however, add or remove a rider during a Grace Period. You must pay any premium due before such transaction requests can be processed. Having one or more riders that have monthly charges will increase the overall cost of your policy. The availability of certain riders is subject to state availability and policy Issue Date. Some riders are included automatically with the policy, and others can be added at the time of policy issue or later if you meet the qualifications.

Please note that the Disability Benefit, Waiver of Monthly Charges, and Waiver of Specified Premium Riders may not be used in combination. After you have selected and been issued one of these three riders, you may not terminate the rider and choose one of the other two riders.

Note: If your policy was issued on or before December 31, 2019, the following riders can no longer be added to your policy:

- Accelerated Death Benefit Rider for Terminal Illness
- Disability Benefit Rider
- Guaranteed Insurability Rider
- Other Insured Rider
- Substitute of Insured Rider
- Waiver of Monthly Charges Rider
- Waiver of Specified Premium Rider

We also offer two automated transfer programs as additional benefits – Portfolio Rebalancing and Dollar Cost Averaging (DCA). Please note that you cannot select both the Portfolio Rebalancing Program and the DCA Program at the same time.

The following table summarizes the information about the additional benefits available under the policy. Information about the fees associated with each benefit included in the table may be found in the Fee Table.

Name of Benefit	Purpose	Is this Benefit Standard or Optional?	Brief Description of Restrictions/Limitations
Accelerated Death Benefit Rider for Terminal Illness	Advances portion of death benefit upon Insured being terminally ill and not expected to live more than 12 months	Standard	<ul style="list-style-type: none">• Eligible payment amount (Eligible Amount) does not include: any amount of death benefit equal to the account value; amounts under riders that do not provide level or increasing coverage for at least two years after acceleration date; and the amount payable upon the death of someone other than the Insured under the policy, if applicable.• Minimum payment is \$25,000.• Maximum payment is lesser of 75% of Eligible Amount and \$250,000.• Death benefit reduced by accelerated amount.

Name of Benefit	Purpose	Is this Benefit Standard or Optional?	Brief Description of Restrictions/Limitations
Disability Benefit Rider	Credits specified amount to Account Value and waives monthly charges on specific Monthly Charge Date while Insured is totally and continuously disabled (as defined in rider)	Optional	<ul style="list-style-type: none"> Evidence of insurability required to add rider. Monthly credit of specified amount ends day before Insured's Attained Age 65. Waiver of monthly charges ends day before Insured's Attained Age 65 if total disability began at Insured's Attained Age 60 or older. Rider not available if Waiver of Monthly Charges Rider or Waiver of Specified Premium Rider added to policy.
Guaranteed Insurability Rider	Provides right to increase Face Amount or purchase new policy without evidence of insurability on specified dates	Optional	<ul style="list-style-type: none"> Evidence of insurability required to add rider. Requires premium payment to increase Face Amount or purchase new policy. Option amount limited to lesser of \$125,000 or two times Face Amount of base policy.
Other Insured Rider	Provides level term insurance on the life of either the Insured's spouse or child.	Optional	<ul style="list-style-type: none"> Rider may be converted while the Insured is living or upon the death of the Insured prior to the earlier of the rider's 10th anniversary or the Insured's Attained Age 65. Conversion on death of Insured must occur with 90 days of date we receive proof of Insured's death. The cost of the new policy will be based on other Insured's Attained Age at time of conversion.
Substitute of Insured Rider	Allows for substitution of Insured	Standard	<ul style="list-style-type: none"> Owner must have insurable interest in life of substitute Insured. Both Insured and substitute Insured must be alive on date of substitution. Age of substitute Insured on birthday nearest Policy Date cannot be less than the minimum age or greater than maximum age allowed. Evidence of insurability of substitute Insured required. Payment of premium required if needed to avoid termination.
Waiver of Monthly Charges Rider	Waives monthly charges while Insured is totally and continuously disabled (as defined in rider)	Optional	<ul style="list-style-type: none"> Evidence of insurability required to add rider. Rider benefit ends day before Insured's Attained Age 65, if Total Disability began when Insured was Attained Age 60 or older. Rider not available if Disability Benefit Rider or Waiver of Specified Premium Rider added to policy.

Name of Benefit	Purpose	Is this Benefit Standard or Optional?	Brief Description of Restrictions/Limitations
Waiver of Specified Premium Rider	Credits Account Value with the greater of (1) specified monthly premium or (2) monthly charges due, while Insured is totally and continuously disabled (as defined in rider)	Optional	<ul style="list-style-type: none"> Evidence of insurability required to add rider. Rider benefit ends day before Insured's Attained Age 65, if Total Disability began when Insured was Attained Age 60 or older. If Total Disability began before Insured was Attained Age 60 and continues to Attained Age 65, rider benefit after Age 65 limited to crediting Account Value with monthly charges due. Rider not available if Disability Benefit Rider or Waiver of Monthly Charges Rider added to policy.
Adjustment to Surrender Charges Endorsement (for internal replacements)	Waives surrender charges in exchange of policy for non-variable life policy made available by us or one of our insurance affiliates	Standard	<ul style="list-style-type: none"> Evidence of insurability required. MassMutual reserves right to require repayment of loans and loan interest.
Adjustment to Surrender Charges Endorsement	Waives surrender charges if policy fully surrendered	Optional	<ul style="list-style-type: none"> Evidence of insurability required to add endorsement. Not available for policies issued for personal use or business cases if annual premium less than \$100,000. <p>Other conditions that must be met:</p> <ul style="list-style-type: none"> Policy is In Force; Surrender occurs after first five Policy Years; No loans or withdrawals taken under policy; and Policy not assigned after issue.
Portfolio Rebalancing Program	Automatically rebalances Separate Account Divisions to maintain original percent allocation of Account Value	Optional	<ul style="list-style-type: none"> Cannot use with Dollar Cost Averaging Program.

Accelerated Death Benefit Rider for Terminal Illness

This rider advances a portion of the policy's death benefit to the Owner when we receive proof, satisfactory to us, that the Insured is terminally ill and is not expected to live more than 12 months. If the death benefit is accelerated under this rider, the policy values, the death benefit, cash values, and loan values under this policy will be reduced.

Benefits under the rider may be taxable. The Owner should seek tax advice prior to requesting an accelerated death benefit payment.

For the purposes of this rider, terminal illness is a medical condition that:

- is first diagnosed by a Legally Qualified Physician (as defined in the rider); and
- with reasonable medical certainty, will result in the death of the Insured within 12 months from the date the Legally Qualified Physician certifies the diagnosis; and
- is not curable by any means available to the medical profession.

We must receive the following items before an accelerated benefit can be paid:

- Owner's Written Request for payment of an accelerated death benefit under the policy;
- Insured's written authorization to release medical records to us;
- Written consent to this request of any assignee and any irrevocable beneficiary under the policy; and
- Written certification from a Legally Qualified Physician that the Insured has a terminal illness, as defined above.

The amount of the death benefit under the policy that can be considered for acceleration is determined as of the acceleration date. The acceleration date is the first date on which all the requirements for acceleration, except any confirming examination that we may require, have been met.

The amount eligible for acceleration under the rider (Eligible Amount) includes:

- the amount equal to the excess of the base policy death benefit over the Account Value; and
- the amount payable upon death of the Insured under any life insurance rider included with the policy, if that rider provides level or increasing coverage on the life of the Insured for at least two years after the acceleration date.

The Eligible Amount does not include:

- the amount payable upon the death of the Insured under any life insurance rider that does not provide level or increasing coverage for at least two years after the acceleration date; and
- the amount payable upon the death of someone other than the Insured under the policy, if applicable.

All other riders are excluded from the Eligible Amount.

The Owner may accelerate any portion of the Eligible Amount subject to the following limitations:

- the minimum amount that may be accelerated is \$25,000; and
- the maximum amount that may be accelerated is equal to the lesser of 75% of the Eligible Amount or \$250,000 minus the total amount accelerated under all other policies issued by us or any of our affiliates.

There is no premium or cost of insurance charge for this rider. However, when you exercise benefits under this rider, your death benefit will be reduced by an amount greater than the terminal illness benefit payment. The terminal illness benefit payment will be reduced by:

- a fee of not more than \$250; and
- interest at the annual interest rate we have declared for policies in this class.

In return for the advance payment, a lien is placed on the policy equal to the amount of benefit accelerated. Interest is not charged on the lien. The Owner may not voluntarily repay all or any portion of the lien. However, the amount of the lien will be deducted from the amount of payment under the policy upon the death of the Insured.

Payment of the terminal illness benefit will be made to the Owner in a single sum, unless the payment has been assigned or designated by the Owner. However, we will not make the payment if we first receive due proof of the Insured's death; in this case, we will instead pay the death benefit as if no request has been received under the rider.

After the accelerated benefit payment is made, the policy will remain In Force, and premiums and charges will continue in accordance with the policy provisions.

The rider terminates on the earliest of:

- on the date the Owner makes a Written Request to terminate (Note: The Owner may choose to terminate the rider if he or she wishes to guarantee that the policy's death benefit is paid to the named beneficiaries rather than to the Owner. However, if the rider is terminated at the Owner's request, it cannot be reinstated.);

- on the date an accelerated benefit payment is made;
- on the date the policy terminates, for any reason;
- on the date the policy matures;

- on the date the base policy is changed to a different policy on which the rider is not available; or
- two years before coverage under the policy is scheduled to terminate.

Where this rider is available, it is included automatically with the policy at no charge at the time the policy is issued.

This rider can no longer be added to policies issued on or before December 31, 2019.

An example illustrating the operation of this rider is set forth in Appendix C.

Disability Benefit Rider

This rider provides a disability benefit while the Insured is totally and continuously disabled as defined in the rider. The rider provides the following monthly benefits if the Insured becomes totally and continuously disabled.

- On specific Monthly Charge Dates we will credit an amount to the Account Value equal to the specified benefit amount shown in the policy's specifications for this rider. This amount will be treated as a Net Premium.
- We also will waive the monthly charges due for this policy on specific Monthly Charge Dates.

The benefits will be provided after the Insured has been totally disabled for four continuous months and all conditions of the rider have been met.

Total Disability is defined as an incapacity of the Insured that:

- is caused by sickness or injury; and
- requires the Insured to be under a doctor's care; and
- begins while this rider is In Force; and
- for the first 60 months of any period of Total Disability, prevents the Insured from performing the substantial and material duties of the Insured's occupation; and
- after Total Disability has continued for 60 months, prevents the Insured from engaging in any occupation the Insured is or may become qualified to perform.

The benefits will end when any of the following occurs:

- the Insured is no longer totally disabled; or
- satisfactory proof of continued Total Disability is not given to us as required; or
- the Insured refuses or fails to have an examination we require; or
- for the specified monthly benefit, the day before the Insured's Attained Age becomes 65; and
- for the waiver of monthly charges, the day before the Insured's Attained Age becomes 65 if Total Disability began when the Insured's Attained Age was 60 or older.

If Total Disability began before the Insured's Attained Age 60 and continues to Attained Age 65, the rider benefit after Attained Age 65 will be the monthly charges for this policy.

Proof of claim must be received at our Administrative Office within one year after the notice of claim was given to us. However, if it was not reasonably possible to give us proof of claim on time, the delay will not reduce the benefit if proof is given as soon as reasonably possible.

The Owner may terminate this rider at any time upon Written Request. If the rider is terminated at the Owner's request, this rider cannot be reinstated. If not terminated at the Owner's request, this rider will terminate automatically at the Insured's Attained Age 65.

There is a monthly charge for this rider, which is the sum of the charge for the specified benefit amount and the charge for the

waiver of monthly charges. This charge is based on the Insured's Attained Age and gender, and on the benefits provided.

- The specified benefit amount charge each month is equal to the specified monthly benefit multiplied by the specified benefit charge rate for the Insured's Attained Age.
- The waiver charge each month is equal to the sum of the monthly charges for the month, excluding the charge for this rider, multiplied by the waiver charge rate for the Insured's Attained Age.

The monthly charge is deducted from the Account Value on each Monthly Charge Date prior to the rider's termination.

The specified benefit charge rates and waiver charge rates are shown in the policy's specifications pages.

The example below shows the operation of this rider.

- The specified monthly benefit is \$500.
- The Insured is Attained Age 55.
- The Insured has been totally and permanently disabled for at least four months.
- Account Value on the monthly charge date prior to the deduction of monthly charges is \$100,000.
- Total monthly charges are \$400.
- The rider waives the monthly charges and credits the specified monthly benefit to the Account Value. The impact to the Account Value is as follows:

Starting Account Value	\$100,000
Rider Benefit	+ \$500
Monthly Charges	– \$0
Ending Account Value	\$100,500

This rider can no longer be added to policies issued on or before December 31, 2019. For policies issued after December 31, 2019, this rider may be added at or after the time the policy is issued up to the Insured's Attained Age 59. Satisfactory evidence of insurability is required at the time the rider is added.

Guaranteed Insurability Rider

This rider provides the right to increase the Face Amount of the policy or purchase a new policy without evidence of insurability on certain option dates as defined in the rider.

A written application is required and an initial premium for a new policy or any premium payment needed for a Face Amount increase to the existing policy must be received at our Administrative Office by the end of the option period.

There are two types of option periods, regular and substitute. Regular option periods coincide with the Policy Anniversary dates nearest the Insured's 25th, 28th, 31st, 34th, 37th, 40th, 43rd, and 46th birthday. Substitute option dates occur 91 days after the Insured's marriage, the birth of an Insured's child or adoption of a child by the Insured. In the event of multiple births, the maximum increase will be the benefit amount listed in the policy's specifications pages multiplied by the number of children born (up to a maximum of three).

A substitute option date can be exercised only if there is a subsequent regular option date. If new insurance is purchased during a substitute option period, new insurance cannot be purchased again during the next regular option period. Failure to exercise an option date does not impact your ability to exercise a future option.

The rider option amount is subject to a maximum limit of \$125,000, or, if less, two times the Face Amount of the base policy on the effective date of an increase in the rider option amount.

The rider terminates:

- when the Owner makes a Written Request to terminate (Note: If the rider is terminated at the Owner's request, it cannot be reinstated.);
- after the last regular option date as defined in the rider;
- following election of the last Face Amount increase that may be elected under the rider;
- if the policy is changed to another policy under which this rider is not available; or
- if the policy terminates.

There is a monthly charge for this rider. It is a rate per \$1,000 of rider option amount, which is deducted from the Account Value on each Monthly Charge Date prior to the rider's termination. This rider also has a rider Premium Expense Factor associated with it. The monthly charge rate per \$1,000 of rider option amount and the rider Premium Expense Factors are shown in the policy's specifications pages.

The example below shows the operation of this rider.

Policy details:

Sex	Male
Risk Class	Non-Tobacco
Issue Age	30
Attained Age	37
Selected Face Amount	\$250,000
Rider Option Amount	\$50,000

On the Policy Anniversary:

- Evidence of insurability is not required for this Face Amount increase.
- The Face Amount can be increased by the rider option amount, from \$250,000 to \$300,000 because the Insured has reached Attained Age 37 (which is a regular option date) on this Policy Anniversary.
- The increase segment gets the same risk class as the base policy (Non-Tobacco).
- Monthly charges going forward will be based on the total Face Amount of \$300,000 and will be higher.

This rider can no longer be added to policies issued on or before December 31, 2019. For policies issued after December 31, 2019, this rider may be added at or after the time the policy is issued up to the Insured's Attained Age 40. Satisfactory evidence of insurability is required at the time the rider is added.

Other Insured Rider

This rider provides level term insurance on the life of either the base policy Insured's spouse or child. The coverage for the Insured under the rider is convertible for a limited amount of time.

While the base policy Insured is living and prior to the earliest of the rider's tenth anniversary date or the other Insured's Attained Age 65, the rider may be fully or partially converted to another life insurance policy offered at the time of conversion. The cost for the new policy will be based on the other Insured's Attained Age at the time of conversion. No evidence of insurability is required to convert the rider coverage.

The rider may be converted upon the death of the base policy Insured (but only before the earliest of the rider's tenth anniversary date or the Attained Age 65 of the other insured). Conversion upon the death of the base policy Insured may be made at any time up to 90 days of the date we receive due proof of the base policy Insured's death.

The rider will terminate on the rider expiration date listed in the rider specifications. This rider will also end if any of the following occurs:

- expiration of the 90-day conversion period upon death of the base policy Insured;
- the end of the Grace Period for any unpaid premium under the policy;

- termination of the policy for any other reason;
- change of the policy to a different policy on which this rider is not available; or
- conversion of the remaining rider face amount under this rider.

You may request an increase or decrease in the face amount of the rider. If you change the Face Amount, your policy charges will change accordingly. There is an additional charge for this rider that varies based on the individual characteristics of the Insured.

The example below shows the impact of making a claim under this rider.

Policy details for Primary Insured:

Sex	Female
Risk Class	Non-Tobacco
Issue Age	30
Attained Age	40
Face Amount	\$250,000

Policy details for Other Insured

Sex	Male
Risk Class	Non-Tobacco
Issue Age	32
Attained Age	42
Rider Face Amount	\$100,000

When the Other Insured dies:

- The rider face amount of \$100,000 is paid to the beneficiary.
- The monthly rider charge for the Other Insured Rider going forward will cease.

This rider can no longer be added to policies issued on or before December 31, 2019.

Substitute of Insured Rider

This rider allows you to substitute a new Insured in place of the current Insured under the policy.

A substitute of the Insured is allowed if the policy is In Force, and all of the following conditions are met as of the Date of Substitution:

- the Owner has an insurable interest in the life of the substitute Insured;
- the substitute insured must have been born on or before the Policy Date;
- the substitute insured must not be over 85 years of age on the birthday nearest the date of substitution; and
- the age of the substitute Insured on the birthday nearest the Policy Date must not be less than the minimum age, or greater than the maximum age, allowed by us for the policy on the Policy Date.

Before the submission can become effective, we require:

- a written application for substitution, received by us at our Administration Office;

- evidence of insurability of the substitute Insured that is satisfactory to us;
- payment to us of any premium required to avoid termination under the Grace Period and Termination provision of the policy; and
- payment of a fee of \$75.00.

All monthly charges after the substitution of the Insured will be based on the life and risk classification of the substitute Insured.

The rider will continue In Force to, but not including, the Policy Anniversary date on which the current Insured's Attained Age becomes 75. However, it will end automatically before that date at the time any one of the following occurs:

- change of the policy to a different policy under which the rider is not available;
- termination of the policy for any reason.

Substituting a new Insured under the policy may have adverse tax consequences. Please consult your tax adviser before you make your decision.

This rider is available for issue ages 0-74. It is included automatically at no charge at the time the policy is issued.

This rider can no longer be added to policies issued on or before December 31, 2019.

An example of the operation of the Substitute of Insured Rider is set forth in Appendix D.

Waiver of Monthly Charges Rider

Under this rider, we will waive the monthly charges due for the policy while the Insured is totally and continuously disabled, as defined in the rider, for four months or longer. We will not return any premiums paid; however, we will adjust the Account Value according to the terms of the rider.

Total Disability is defined as an incapacity of the Insured that:

- is caused by sickness or injury; and
- requires the Insured to be under a doctor's care; and
- begins while this rider is In Force; and
- for the first 60 months of any period of Total Disability, prevents the Insured from performing the substantial and material duties of the Insured's occupation; and
- after Total Disability has continued for 60 months, prevents the Insured from engaging in any occupation the Insured is or may become qualified to perform.

The benefits will end when any of the following occurs:

- the Insured is no longer totally disabled; or
- satisfactory proof of continued Total Disability is not given to us as required; or
- the Insured refuses or fails to have an examination we require; or
- the day before the Insured's Attained Age becomes 65, if Total Disability began when the Insured was Attained Age 60 or older.

Proof of claim must be received at our Administrative Office within one year after the notice of claim was given to us. However, if it was not reasonably possible to give us notice and/or proof of claim on time, the delay will not reduce the benefit if notice and/or proof are given as soon as reasonably possible. If notice is given more than one year from the Monthly Charge Date on which charges would have first been waived due to the Insured's Total Disability, we would only provide a benefit for the twelve Monthly Charge Dates that immediately precede the date notice is given to us.

The Owner may terminate this rider at any time upon Written Request. If the rider is terminated at the Owner's request, it cannot be reinstated. If not terminated at the Owner's request, the rider will continue In Force to, but not including, the Policy Anniversary date on which the Insured's Attained Age becomes 65.

There is a monthly charge for this rider. This charge is based on the Insured's Attained Age and gender. The charge each month is equal to the sum of the monthly charges for the month, excluding the charge for this rider, multiplied by the waiver charge rate for the Insured's Attained Age. The charge is deducted from the Account Value on each Monthly Charge Date prior to the rider's termination.

The waiver charge rates are shown in the policy's specifications pages.

The example below shows the operation of this rider.

- The Insured is Attained Age 55.
- The Insured has been totally and permanently disabled for at least four months.
- Account Value on Monthly Charge Date prior to the deduction of monthly charges is \$100,000.
- Total monthly charges are \$400.
- The rider waives the monthly charges, so the Account Value remains at \$100,000.

This rider can no longer be added to policies issued on or before December 31, 2019. For policies issued after December 31, 2019, this rider may be added at or after the time the policy is issued up to the Insured's Attained Age 59. Satisfactory evidence of insurability is required at the time the rider is added. It cannot be added to a policy that has the Disability Benefit Rider or the Waiver of Specified Premium Rider.

Waiver of Specified Premium Rider

Under this rider, we will credit the Account Value the greater of:

- the specified monthly premium or
- the monthly charges due for the policy

while the Insured is totally and continuously disabled, as defined in the rider, for four months or longer. We will not return any premiums paid; however, we will adjust the Account Value according to the terms of the rider.

Total Disability is defined as an incapacity of the Insured that:

- is caused by sickness or injury; and
- requires the Insured to be under a doctor's care; and
- begins while this rider is In Force; and
- for the first 60 months of any period of Total Disability, prevents the Insured from performing the substantial and material duties of the Insured's occupation; and
- after Total Disability has continued for 60 months, prevents the Insured from engaging in any occupation the Insured is or may become qualified to perform.

The benefits will end when any of the following occurs:

- the Insured is no longer totally disabled; or
- satisfactory proof of continued Total Disability is not given to us as required; or
- the Insured refuses or fails to have an examination we require; or
- the day before the Insured's Attained Age becomes 65, if Total Disability began when the Insured was Attained Age 60 or older.

Monthly charges will continue to be deducted on each Monthly Charge Date until a claim has been approved. For any of these Monthly Charge Dates that have already passed at the time a claim is approved, the Account Value will be credited to reflect provision of these monthly benefits.

If the disability began before the Insured was Attained Age 60 and continues to Attained Age 65, the rider benefit after Attained Age 65 will be the monthly charges for this policy.

Proof of claim must be received at our Administrative Office within one year after the notice of claim was given to us. However, if it was not reasonably possible to give us proof of claim on time, the delay will not reduce the benefit if proof is given as soon as reasonably possible.

The Owner may terminate this rider at any time upon Written Request. If the rider is terminated at the Owner's request, it cannot be reinstated. If not terminated at the Owner's request, the rider will continue In Force to, but not including, the Policy Anniversary date on which the Insured's Attained Age becomes 65.

There is a monthly charge for this rider, which is based on the Insured's Attained Age and gender, and on the benefits provided. The charge each month is the greater of:

- the specified benefit amount charge, which is equal to the specified monthly benefit multiplied by the specified benefit charge rate for the Insured's Attained Age; and
- the waiver charge, which is equal to the sum of the monthly charges for the month, excluding the charge for this rider, multiplied by the waiver charge rate for the Insured's Attained Age.

The charge is deducted from the Account Value on each Monthly Charge Date prior to the rider's termination.

The specified benefit charge rates and waiver charge rates are shown in the policy's specifications pages.

The example below shows the operation of this rider.

- The specified monthly benefit is \$500.
- The Insured is Attained Age 55.
- The Insured has been totally and permanently disabled for at least 4 months.
- Account Value on the Monthly Charge Date prior to the deduction of monthly charges is \$100,000.
- Total monthly charges are \$400.
- The rider credits to the Account Value the greater of the specified monthly benefit (\$500 for this example) and the monthly charges (\$400 for this example). The impact to the Account Value is as follows:

Starting Account Value	\$100,000
Rider Benefit	+ \$500
Monthly Charges	– \$400
Ending Account Value	\$100,100

This rider can no longer be added to policies issued on or before December 31, 2019. This rider may be added at or after the time the policy is issued up to the Insured's Attained Age 59. Satisfactory evidence of insurability is required at the time the rider is added. It cannot be added to a policy that has the Disability Benefit Rider or the Waiver of Monthly Charges Rider.

Adjustment to Surrender Charges Endorsement (for internal replacements)

This endorsement allows the Company to waive surrender charges if an Owner wishes to exchange this policy for a qualifying non-variable life insurance policy offered by MassMutual or one of its subsidiaries provided the following conditions are met:

- On the date of the exchange, the Net Surrender Value of the new policy must be less than or equal to the Net Surrender Value of the replaced policy;
- The Face Amount of the new policy must be equal to or greater than the Face Amount of the replaced policy; and
- The entire value of the replaced policy must be put into the new policy.

This endorsement is automatically added at the time the policy is issued. There is no charge for this endorsement.

We require a written application and evidence of insurability satisfactory to us for the new policy. There is no guarantee the new policy will be issued. We reserve the right to require repayment of any loans and loan interest.

We have the right to modify, suspend, or terminate any replacement program at any time without prior notification. This right does not apply to policies to which the endorsement has already been added.

Adjustment to Surrender Charges Endorsement

This endorsement allows the Company to waive surrender charges if an Owner wishes to surrender this policy in full provided the following conditions are met:

- The policy is In Force;
- The policy is surrendered during the first five Policy Years (including surrenders under settlement options);
- No loans have been taken against the policy;
- No withdrawals have been taken from the policy; and
- The policy has not been assigned after issue.

We require a written application and evidence of insurability satisfactory to us to attach this endorsement to the policy. We also charge a one-time fee of \$150 to add this endorsement. The endorsement is available for business cases where the annual policy premium for the case equals or exceeds \$100,000. The endorsement is not available on policies intended for personal use or where the annual policy premium for the case is less than \$100,000. A case is defined as one or more policies with a single business owner. This endorsement is only available for attachment at the time the policy is issued.

Right to Exchange

Generally, you can exchange a life insurance policy for another in a tax-free exchange under Section 1035 of the Internal Revenue Code. Before making such an exchange, you should compare the features, fees, and risks of both policies to determine whether the purchase of the new policy is in your best interest. Remember that if you replace a policy with another policy, you might have to pay a surrender charge on the surrendered policy, and there may be new surrender charges for the new policy. In addition, other charges may be higher (or lower), and the benefits may be different.

For a policy issued in New York, the Owner has the right to exchange the policy for a new flexible premium adjustable life insurance policy, offered by us, with values that do not depend on the investment results of the Separate Account. The exchange must be elected within 18 months after the Policy Date, and evidence of insurability will not be required. In addition, an Owner of a policy issued in New York has the option to surrender the policy for level paid-up life insurance at least once each Policy Year. The amount of level paid-up insurance will be determined by applying the Net Surrender Value as a net single premium at the gender and Attained Age of the Insured on that date.

Accessing the Money in Your Policy

Withdrawals

After the first Policy Year, the maximum amount you may withdraw is 75% of the current Net Surrender Value. This amount is referred to as the maximum partial withdrawal. The minimum amount you may withdraw is \$100. We do not currently charge a withdrawal fee or surrender charge for a withdrawal.

You can make a withdrawal by sending us a Written Request in Good Order on our partial withdrawal request form.

You must state in your request form the dollar amount and corresponding Separate Account Division(s) from which you want the withdrawal made. If you choose to withdraw an amount from the GPA, it may not exceed the non-loaned Account Value in the GPA. If you request a maximum partial withdrawal, the amount of the withdrawal will be deducted proportionately from the available Separate Account Divisions and the non-loaned Account Value in the GPA.

A withdrawal will reduce your policy's Account Value by the amount withdrawn. If the policy's Net Surrender Value is reduced to a point where it cannot meet a monthly deduction, your policy may terminate. A withdrawal may also: 1) reduce your policy's Face Amount; 2) have adverse tax consequences; and 3) change the premium limitations. For more information on tax implications, please see the "Federal Income Tax Considerations" section and for more information on premium limitations, please see "Premium Limitations" in the "Premiums" section.

Example:

Assume death benefit option 1 is in effect and prior to the withdrawal the policy has a Face Amount of \$600,000 and an Account Value of \$120,000. If you make a withdrawal of \$30,000, the Account Value will be reduced to \$90,000 and the Face Amount will be reduced to \$570,000. The withdrawal payment will be \$30,000.

If your policy's Face Amount is decreased because of a withdrawal, surrender charges will not apply. We may reduce the Face Amount of your policy unless you have chosen death benefit option 2 or we receive evidence of insurability satisfactory to us. The amount of the reduction will be the amount of the withdrawal.

There is one exception:

If the death benefit provided by the death benefit option immediately before the withdrawal is equal to the Minimum Death Benefit, either the Face Amount reduction will be limited or we will not reduce the Face Amount.

We will not reduce the Face Amount if the death benefit immediately after the withdrawal would be the new Minimum Death Benefit (based on the reduced Account Value). Otherwise, the Face Amount reduction will be based on a formula.

The formula considers the smallest withdrawal amount that would bring the Minimum Death Benefit below the death benefit provided by the death benefit option. The formula reduces the Face Amount by the excess of the requested withdrawal amount over this smallest withdrawal amount. (Minimum Death Benefit, death benefit, and death benefit options are explained in the "Death Benefit" section.)

We will not allow a withdrawal if it would result in a reduction of the Face Amount to less than the minimum Face Amount.

Withdrawal requests where evidence of insurability is not required will be effective on the Valuation Date we receive the Written Request in Good Order at our Administrative Office. Withdrawal requests where evidence of insurability is required will be effective on the Valuation Date we approve the evidence of insurability application provided that the remainder of the withdrawal request is in Good Order on that date. Withdrawal requests determined to be in Good Order on a non-Valuation Date or after the end of a Valuation Date, will be effective as of the next Valuation Date.

If a withdrawal would cause the policy to become a MEC, a MEC Notice and Acknowledgement Form will be required before the withdrawal will be processed. For more information on MECs, please see the "Federal Income Tax Considerations" section.

We will normally pay any withdrawal amounts within seven calendar days of the withdrawal effective date unless we are required to suspend or postpone withdrawal payments. Please see "Other Policy Rights and Limitations" in the "Other Information" section for additional information.

Surrenders

You may surrender your policy to us at any time while the policy is In Force. We will pay you its Net Surrender Value. To surrender your policy, you must submit a completed surrender form and any other forms we may require.

The surrender will be effective on the Valuation Date we receive all required, fully completed forms in Good Order at our Administrative Office. If the surrender involves an exchange or transfer of assets to a policy issued by another financial institution or insurance company (not MassMutual or any of its subsidiaries), we also will require a completed absolute assignment form and any state mandated replacement paperwork. If we receive your request in Good Order on a non-Valuation Date or after the end of a Valuation Date, your surrender request will be effective as of the next Valuation Date.

We will normally pay any surrender amounts within seven calendar days of the surrender effective date, unless we are required to suspend or postpone surrender payments. Please see "Other Policy Rights and Limitations" in the "Other Information" section for additional information.

The policy terminates as of the effective date of the surrender and cannot be reinstated unless required by law. Surrendering the policy may result in adverse tax consequences. These tax consequences are discussed in the "Federal Income Tax Considerations" section.

For a policy issued in NY, at least once each Policy Year, the Owner has the option to surrender the policy for level-paid up life insurance.

Loans

You may take a loan from the policy once the Account Value exceeds the total of any surrender charges. We charge interest on policy loans that is added to the Policy Debt. We refer to all outstanding loans plus accrued interest as Policy Debt. You may repay all or part of your Policy Debt, but you are not required to do so.

We currently allow loans in all Policy Years. The maximum loan amount allowed at any time is the amount that, with accrued loan interest calculated to the next Policy Anniversary date, will equal your Account Value less any surrender charge. The maximum amount available for a loan is the maximum loan amount allowed less any existing Policy Debt.

Taking a loan from your policy has several risks: (1) it may increase the risk that your policy will terminate; (2) it will have a permanent effect on your policy's Net Surrender Value; (3) it may increase the amount of premium needed to keep the policy In Force; (4) it will reduce the death benefit proceeds; and (5) it may have adverse tax consequences.

The risks that can result from taking a policy loan may be reduced if you repay Policy Debt. The tax consequences of loans are discussed in the "Federal Income Tax Considerations" section.

Requesting a Loan

You may take a loan by completing a loan request form and sending it to our Administrative Office, or by other means we authorize, subject to certain restrictions. You must assign the policy to us as collateral for the loan.

Once we have processed the loan request and deducted the proportionate amounts from the Separate Account Divisions and/or the GPA, we consider the loan effective and outstanding. If, after we process the loan request, you decide not to cash the check, you may submit a Written Request to our Administrative Office to repay the loan amount. The loan repayment will be effective on the Valuation Date the Written Request is received in Good Order at our Administrative Office. Loan interest begins to accrue as soon as the loan is effective. Therefore, loan interest will accrue even if the loan check is not cashed. Please see "Loan Interest Charged" below for additional information.

Payment of Proceeds

Loans will be effective on the Valuation Date we receive your loan request form and all other required documents in Good Order at our Administrative Office. If we receive your request in Good Order on a non-Valuation Date or after the end of a Valuation Date, your loan request will be effective as of the next Valuation Date.

On the effective date of the loan, we deduct proportionate amounts from the Separate Account Divisions and/or the GPA (excluding any outstanding loans) and transfer the resulting dollar amounts to the loaned portion of the GPA. We will normally pay any loan amounts within seven calendar days of the loan effective date, unless we are required to suspend or postpone loan amounts. Please see the "Other Policy Rights and Limitations" sub-section in the "Other Information" section for additional information.

Interest Credited on the Loaned Value

When you take a loan, we transfer an amount equal to the loan to the loaned portion of the GPA. This amount earns interest at a rate equal to the greater of:

- 3.00%; or
- the loan interest rate less the current loan interest rate expense charge.

On each Policy Anniversary, the interest earned on any outstanding loan is applied to the Separate Account Divisions and the GPA according to your current premium allocation instructions.

Loan Interest Charged

All Policy Debt is assessed loan interest at a fixed rate of 4%.

Interest on policy loans is not due in advance. The interest accrues daily and becomes part of the Policy Debt as it accrues. Interest is due on each Policy Anniversary date. If interest is not paid when due, it will be added to the loan and will bear interest at the loan rate. The interest is deducted proportionately from the Separate Account Divisions and the GPA according to the then current value in those Separate Account Divisions and the GPA and added to the loan. If the policy's Account Value cannot cover the loan interest due, the policy may lapse. Please see the "Policy Termination and Reinstatement" section.

Effect of a Loan on the Values of the Policy

A policy loan negatively affects policy values because we reduce the death benefit and Net Surrender Value by the amount of the Policy Debt.

Also, a policy loan, whether or not repaid, has a permanent effect on your policy's Net Surrender Value because, as long as a loan is outstanding, a portion of the Account Value equal to the loan is invested in the GPA. This amount does not participate in the investment performance of the Separate Account or receive the current interest rates credited to the non-loaned portion of the GPA. The longer a loan is outstanding, the greater the effect on your Net Surrender Value will be. In addition, if you do not repay a loan, your outstanding Policy Debt will reduce the death benefit and Net Surrender Value that might otherwise be payable.

Whenever you reach your Policy Debt Limit, your policy is at risk of terminating, even if the Safety Test is met. Your Policy Debt Limit is reached when total Policy Debt exceeds the Account Value less surrender charges. If this happens, we will notify you in writing. The "Policy Termination and Reinstatement" section explains more completely what will happen if your policy is at risk of terminating. Please note that Policy Termination with an outstanding loan also can result in adverse tax consequences. Please see the "Federal Income Tax Considerations" section for additional information.

As you repay a loan, the amount in the non-loaned section of the GPA will increase because we allocate loan repayments first to the GPA until you have repaid all loan amounts originally deducted from that account. Additionally, your ability to transfer funds out of the GPA following a loan repayment will be limited due to certain transfer restrictions. Please see the "Transfers" section for additional information.

Repayment of Loans

All or part of your Policy Debt may be repaid at any time while the Insured is living and while the policy is In Force. We will increase the death benefit and Net Surrender Value under the policy by the amount of the repayment.

A loan repayment must be identified as such or we will consider it a premium payment. We will apply the loan repayment on the Valuation Date it is received in Good Order. If we receive the loan repayment in Good Order on a non-Valuation Date or after the end of a Valuation Date, the loan repayment is effective as of the next Valuation Date. If a loan repayment is dishonored by your bank after we have applied the loan repayment to your policy, the transaction will be deemed void and your loan repayment will be reversed.

You may initiate single or recurring loan repayments through our secure website (www.MassMutual.com) or by calling our Administrative Office and authorizing an electronic draft from your bank account. Please see the "Electronic Premium Payments" sub-section in the "Premiums" section for additional information. In addition, loan repayments may be sent to MassMutual, PO Box 92483, Chicago, IL 60675-2483.

Any loan repayment made within 30 days prior to the Policy Anniversary date will be used to first pay policy loan interest due. For any other loan repayment, we will first transfer values equal to the repayment amount from the loaned portion of the GPA to the non-loaned portion of the GPA until all loan amounts originally deducted from that account have been repaid. We will allocate any additional loan repayments by transferring values equal to the repayment amount from the loaned portion of the GPA to the non-loaned portion of the GPA and/or the applicable Separate Account Divisions, based on your premium allocation instructions in effect at that time. When we receive a loan repayment and only a portion is needed to fully repay the loan, we will apply any excess as premium and allocate it according to the current premium allocation instructions after deduction of the premium expense charge. Any subsequent loan repayments received after the loan is fully repaid will be refunded to the premium payer.

We will deduct any outstanding Policy Debt from:

- the proceeds payable on the death of the Insured;
- the proceeds payable when you surrender the policy; or
- the Account Value if the policy lapses.

In these situations, we will then consider the Policy Debt paid.

Policy Termination and Reinstatement

Your policy could lapse, and terminate without value, if the Net Surrender Value of the policy becomes too low to support the policy's monthly charges. Factors that may cause your policy to terminate include: insufficient premium payments, poor investment performance, withdrawals, and unpaid loans or loan interest. Even if you have made Planned Premium payments, there is no guarantee that your policy will remain In Force. Conversely, your policy will not necessarily terminate if you do not make Planned Premium payments since the policy may have enough Net Surrender Value to cover the monthly charges.

Before your policy terminates, we allow a Grace Period during which you can pay the amount of premium needed to avoid termination. In addition, your policy offers a no-lapse guarantee, the Safety Test. If the requirements of the Safety Test are met, your policy will remain In Force during a Guarantee Period regardless of the value of the policy, unless the Policy Debt Limit is reached. We explain the Grace Period and the Safety Test in more detail in the sections below.

If there is no Policy Debt, the policy may terminate without value if:

- its Net Surrender Value on a Monthly Charge Date cannot cover the charges due; and
- the Safety Test is not met on that date.

If there is Policy Debt, the policy will terminate without value at the end of the Grace Period if:

- the Policy Debt Limit is reached, even if the Safety Test is met. The Policy Debt Limit is reached when the Policy Debt (outstanding loans plus accrued interest) exceeds the Account Value less any surrender charges that may apply: (1) on a Monthly Charge Date or (2) on the Valuation Date a premium payment is received, if the policy is in the Grace Period.

If your policy lapses, your insurance coverage terminates. In the event of a policy lapse, we would apply the applicable surrender charge, also known as a deferred sales load, which compensates us for expenses incurred related to your policy. The surrender charge is a charge against the Account Value of the policy. The deduction is taken from the Separate Account Divisions and the GPA, excluding Policy Debt, in proportion to the values in each, on the effective date of the lapse. Please see "Surrender Charges" under "Transaction Charges" for more information.

Policy Termination could have adverse tax consequences for you. To avoid Policy Termination and potential tax consequences in these situations, you may need to make substantial premium payments or loan repayments to keep your policy In Force.

Safety Test

The Safety Test allows you to keep the policy In Force, regardless of the value of the policy, by meeting monthly Guarantee Premium payment requirements. If the Safety Test is met and the Account Value is insufficient to cover the monthly charges due, the monthly charges due will be reduced to an amount equal to the Account Value. The Account Value will never be less than zero. Even if the Safety Test is met, this policy is at risk of terminating if Policy Debt exceeds the Account Value less any surrender charges that may apply: (1) on a Monthly Charge Date or (2) on the Valuation Date a premium payment is received, if the policy is in the Grace Period.

The Safety Test can be met only during the Guarantee Period(s) stated in the policy. Each Guarantee Period has an associated monthly Guarantee Premium. The amount of the Guarantee Premium depends on:

- the Insured's issue age;
- the Insured's gender;

- the Insured's risk classification;
- the riders on the policy, if any;

- the current Face Amount; and
- the death benefit option in effect at the time.

A Face Amount increase or the addition of any riders may increase the amount of Guarantee Premium. Likewise, a Face Amount decrease or the removal of any riders may decrease the amount of Guarantee Premium.

For each Guarantee Period, the Safety Test is met if:

- (1) premiums paid less any amounts refunded or withdrawn, accumulated at an effective annual interest rate of 3%, equal or exceed,
- (2) the total of all monthly Guarantee Premiums since the Policy Date, accumulated at an effective annual interest rate of 3%.

The policy has two Guarantee Periods.

- The first Guarantee Period is the first nine Policy Years.
- The second Guarantee Period is to Attained Age 121 of the Insured.

Both Guarantee Periods begin on your Policy Date. The Net Surrender Value at the end of the first Guarantee Period may be insufficient to keep the policy In Force unless an additional premium payment is made at that time.

Example:

Assume your policy is in the first Guarantee Period and the monthly Guarantee Premium for that period is \$25. Also assume that you have no Policy Debt and, beginning on the Policy Date, you have made premium payments of \$35 on each Monthly Charge Date. In this case, if the Account Value less surrender charges cannot cover the monthly charges, the policy will stay In Force because the Safety Test has been met.

Grace Period

Before your policy terminates, we allow a Grace Period during which you can pay the amount of premium needed to avoid termination. We will mail you a notice stating this amount. The Grace Period begins on the date the monthly charges are due. It ends 61 days after the date we mail you the notice.

If there is no Policy Debt, the amount of premium needed to avoid Policy Termination will be the lesser of:

- the amount needed to satisfy the Safety Test; or
- the amount needed to cover the monthly charges due.

If there is Policy Debt, the amount of premium needed to avoid Policy Termination will be the amount needed to bring the Policy Debt back within the limit (Policy Debt cannot exceed the Account Value less surrender charges that may apply: (1) on a Monthly Charge Date or (2) on the Valuation Date a premium payment is received, if the policy is in a Grace Period). During the Grace Period, the policy will stay In Force. If the Insured dies during this period and the amount of premium needed to avoid Policy Termination has not been paid, we will pay the death benefit proceeds, reduced by the amount of premium needed to avoid Policy Termination and any Policy Debt.

If we do not receive the required payment by the end of the Grace Period, the policy will terminate without value at the end of the Grace Period. We will return a premium payment if it is less than the minimum amount needed to avoid termination.

During the Grace Period, certain financial transactions cannot be processed (transfers, withdrawals, loans). You must pay the premium due before subsequent financial transactions can be processed.

The Company's mailing of a Policy Termination or a lapse notice to you constitutes sufficient notice of cancellation of coverage.

Reinstating Your Policy

If your policy terminates, you may be able to reinstate it. You may not, however, reinstate your policy if:

- you surrendered it (unless required by law); or
- five years have passed since it terminated.

To reinstate your policy, we will need:

- a written application to reinstate;
- evidence, satisfactory to us, that the Insured is still insurable;
- a premium payment sufficient to keep the policy In Force for three months after reinstatement. The minimum amount of this premium payment will be quoted upon request; and
- a MEC Notice and Acknowledgement form, if the reinstated policy would be a MEC (please see “Policy After You Reinstate” below, and the “Federal Income Tax Considerations” section).

We will not apply the required premium for reinstatement to any investment option until we have approved your reinstatement application.

The policy will be reinstated on the Valuation Date on or next following the later of:

- the date we approve your application and
- the date we receive the premium required to reinstate the policy.

Policy After You Reinstate

If you reinstate your policy, the Face Amount will be the same as it was when the policy terminated. Your Account Value will be:

- (1) the premium paid to reinstate your policy, less
- (2) the premium expense charge, less
- (3) applicable monthly charges due.

Additionally, if the policy lapsed during a period when a surrender charge applied and the surrender charge was taken at that time, then the applicable surrender charge will not be reinstated.

We do not reinstate Policy Debt.

Upon reinstatement, the Safety Test will apply.

If you reinstate your policy, it may become a MEC under current federal tax law. Please consult your tax adviser. More information on MECs is included in the “Federal Income Tax Considerations” section.

Reinstatement will not reverse any adverse tax consequences caused by Policy Termination unless it occurs within 90 days of the end of the Grace Period. In no situation, however, can adverse tax consequences that are a result of Policy Debt be reversed.

Federal Income Tax Considerations

The information in this prospectus is general and is not an exhaustive discussion of all tax questions that might arise under the policy. The information is not written or intended as tax or legal advice. You are encouraged to seek legal and tax advice from a qualified tax adviser. In addition, we do not profess to know the likelihood that current federal income tax laws and Treasury Regulations or the current interpretations of the Internal Revenue Code of 1986, as amended (IRC), Regulations, and other guidance will continue. We cannot make any guarantee regarding the future tax treatment of any policy. We reserve the right to make changes in the policy to ensure that it continues to qualify as life insurance for tax purposes.

No attempt is made in this prospectus to consider any applicable state or other tax laws.

Policy Proceeds and Loans

We believe the policy meets the IRC definition of life insurance. Therefore, the death benefit under the policy generally is excludible from the beneficiary's gross income under federal tax law. If you sell the policy or there is a transfer for value under IRC Section 101(a)(2), all or a portion of the death benefit under the policy may become taxable unless an exception applies.

As a life insurance policy under the IRC, the gain accumulated in the policy is not taxed until it is withdrawn or otherwise accessed. Any gain withdrawn from the policy is taxed as ordinary income.

From time to time, the Company may be entitled to certain tax benefits related to the investment of Company assets, including those comprising the policy value. These tax benefits, which may include foreign tax credits and the corporate dividends received deduction, are not passed back to you since the Company is the owner of the assets from which the tax benefits are derived.

The following information applies only to a policy that is not a MEC under federal tax law. Please see "Modified Endowment Contracts" later in this section for information about MECs.

As a general rule, withdrawals are taxable only to the extent that the amounts received exceed your cost basis (also referred to as investment in the contract) in the policy. Cost basis equals the sum of the premiums and other consideration paid for the policy less any prior withdrawals under the policy that were not subject to income taxation. For example, if your cost basis in the policy is \$10,000, amounts received under the policy will not be taxable as income until they exceed \$10,000 in the aggregate; then, only the excess over \$10,000 is taxable.

However, special rules apply to certain withdrawals associated with a decrease in the policy death benefit. The IRC provides that if:

- there is a reduction of benefits during the first 15 years after a policy is issued; and
- there is a cash distribution associated with the reduction,

you may be taxed on all or a part of the amount distributed. After 15 years, cash distributions are not subject to federal income tax, except to the extent they exceed your cost basis.

If you surrender the policy for its Net Surrender Value, all or a portion of the distribution may be taxable as ordinary income. The distribution represents income to the extent the value received exceeds your cost basis in the policy. For this calculation, the value received is equal to the Account Value, reduced by any surrender charges, but not reduced by any outstanding Policy Debt. Therefore, if there is a loan on the policy when the policy is surrendered, the loan will reduce the cash actually paid to you but will not reduce the amount you must include in your taxable income as a result of the surrender.

To illustrate how Policy Termination with an outstanding loan can result in adverse tax consequences as described above, suppose that your premiums paid (that is, your cost basis) in the policy is \$10,000, your Account Value is \$15,000, you have no surrender charges, and you have received no other distributions and taken no withdrawals under the policy. If, in this example, you have an outstanding Policy Debt of \$14,000, you would receive a payment equal to the Net Surrender Value of only \$1,000; but you still would have taxable income at the time of surrender equal to \$5,000 (\$15,000 Account Value minus \$10,000 cost basis).

The potential that Policy Debt will cause taxable income from Policy Termination to exceed the payment received at termination also may occur if the policy terminates without value. Factors that may contribute to these potential situations include:

- amount of outstanding Policy Debt at or near the maximum loan value;
- unfavorable investment results affecting your policy Account Value;
- increasing monthly policy charge rates due to increasing Attained Age of the Insured;
- high or increasing amount of Insurance Risk, depending on death benefit option and changing Account Value; and
- increasing policy loan rates if the adjustable policy loan rate is in effect.

One example occurs when the Policy Debt Limit is reached. If, using the previous example, the Account Value were to decrease to \$14,000 due to unfavorable investment results, and the policy were to terminate because the Policy Debt Limit is

reached, the policy would terminate without any cash paid to you; but your taxable income from the policy at that time would be \$4,000 (\$14,000 Account Value minus \$10,000 cost basis). The policy also may terminate without value if unpaid policy loan interest increases the outstanding Policy Debt to reach the Policy Debt Limit.

To avoid Policy Terminations that may give rise to significant income tax liability, you may need to make substantial premium payments or loan repayments to keep your policy In Force.

You can reduce the likelihood that these situations will occur by considering these risks before taking a policy loan. If you take a policy loan, you should monitor the status of your policy with your registered representative and your tax adviser at least annually, and take appropriate preventative action.

We believe that, under current tax law, any loan taken under the policy will be treated as Policy Debt of the Owner. If your policy is not a MEC, the loan will not be considered income to you when received.

Interest on policy loans used for personal purposes generally is not tax-deductible. However, you may be able to deduct this interest if the loan proceeds are used for “trade or business” or “investment” purposes, provided that you meet certain narrow criteria.

If the Owner is a corporation or other business, additional restrictions may apply. For example, there are limits on interest deductions available for loans against a business-owned policy. In addition, the IRC restricts the ability of a business to deduct interest on debt totally unrelated to any life insurance, if the business holds a cash value policy on the life of certain insureds.

Investor Control and Diversification

There are a number of tax benefits associated with variable life insurance policies. Gains on the Net Investment Experience of the Separate Account are deferred until withdrawn or otherwise accessed, and gains on transfers among Separate Account Divisions also are deferred. For these benefits to continue, the policy must continue to qualify as life insurance. In addition to other requirements, federal tax law dictates that the insurer, and not the Owner, has control of the investments underlying the various Separate Account Divisions for the policy to qualify as life insurance.

You may make transfers among Separate Account Divisions, but you may not direct the investments each Separate Account Division makes. If the IRS were to conclude that you, as the investor, have control over these investments, then the policy would no longer qualify as life insurance and you would be taxed on the gain in the policy as it is earned rather than when it is withdrawn or otherwise accessed.

The IRS has provided some guidance on investor control, but many issues remain unclear. One such issue is whether an Owner can have too much investor control if the variable life policy offers a large number of investment divisions in which to invest Account Values. We do not know if the IRS will provide any further guidance on the issue. We do not know if any such guidance would apply retroactively to policies already In Force.

Consequently, we reserve the right to further limit Net Premium allocations and transfers under the policy, so that it will not lose its qualification as life insurance due to investor control.

In addition, the IRC requires that the investments of the Separate Account Divisions be “adequately diversified” in order for a policy to be treated as a life insurance contract for federal income tax purposes. It is intended that the Separate Account Divisions, through their underlying investment Funds, will satisfy these diversification requirements.

Modified Endowment Contracts

If a policy is a Modified Endowment Contract (MEC) under federal tax law, loans, withdrawals, and other amounts distributed under the policy are taxable to the extent of any income accumulated in the policy. The policy income is the excess of the Account Value (both loaned and non-loaned) over your cost basis. For example, if your cost basis in the policy is \$10,000 and the Account Value is \$15,000, then all distributions up to \$5,000 (the accumulated policy income) are immediately taxable as income when withdrawn or otherwise accessed. The collateral assignment of a MEC is also treated as a taxable distribution. Death benefits paid under a MEC, however, are not taxed any differently than death benefits payable under other life insurance contracts.

If any amount is taxable as a distribution of income under a MEC, it may also be subject to a 10% penalty tax. There are a few exceptions to the additional penalty tax for distributions to individual Owners. The penalty tax will not apply to distributions:

- made on or after the date the taxpayer attains age 59½; or
- made because the taxpayer became disabled; or
- made as part of a series of substantially equal periodic payments paid for the life or life expectancy of the taxpayer, or the joint lives or joint life expectancies of the taxpayer and the taxpayer's beneficiary. These payments must be made at least annually.

A policy is a MEC if it satisfies the IRC definition of life insurance but fails the "7-pay test." A policy fails this test if:

- (1) the accumulated amount paid under the policy at any time during the first seven contract years exceeds
- (2) the total premiums that would have been payable at that time for a policy providing the same benefits guaranteed after the payment of seven level annual premiums.

A life insurance policy will always be treated as a MEC if it is issued as part of an IRC Section 1035 tax-free exchange from a life insurance policy that was already a MEC.

If certain changes are made to a policy, we will retest it to determine if it has become a MEC. For example, if you reduce the death benefit during a 7-pay testing period, we will retest the policy using the lower death benefit amount, from the start of that testing period. If the reduction in death benefit causes the policy to fail the 7-pay test for any prior Policy Year, the policy will be treated as a MEC beginning in the Policy Year in which the reduction takes place.

Any reduction in benefits attributable to the non-payment of premiums will not be taken into account if the benefits are reinstated within 90 days after the reduction in such benefit.

We will retest whenever there is a "material change" to the policy while it is In Force. If there is a material change, a new 7-pay test period begins at that time. The term "material change" includes certain increases in death benefits.

Since the policy provides for flexible premium payments, we have procedures for determining whether increases in death benefits or additional premium payments cause the start of a new seven-year test period or cause the policy to become a MEC.

Once a policy fails the 7-pay test, loans and distributions taken in the year of failure and in future years are taxable as distributions from a MEC to the extent of gain in the policy. In addition, the IRS has authority to apply the MEC taxation rules to loans and other distributions received in anticipation of the policy failing the 7-pay test. The IRC authorizes the issuance of regulations providing that a loan or distribution, if taken within two years prior to the policy's becoming a MEC, shall be treated as received in anticipation of failing the 7-pay test. However, such written authority has not yet been issued.

Under current circumstances, a loan, collateral assignment, or other distribution under a MEC may be taxable even though it exceeds the amount of gain accumulated in that particular policy. For purposes of determining the amount of taxable income received from a MEC, the law considers the total of all gain in all the MECs issued within the same calendar year to the same Owner by an insurer and its affiliates. Loans, collateral assignments, and distributions from any one MEC are taxable to the extent of this total gain.

Other Tax Considerations

A change of the Owner or an Insured, or an exchange or assignment of the policy, may cause the Owner to recognize taxable income.

The impact of federal income taxes on values under the policy and on the benefit to you or your beneficiary depends on MassMutual's tax status and on the tax status of the individual concerned. We currently do not make any charge against the Separate Account for federal income taxes. We may make such a charge eventually in order to recover the future federal income tax liability to the Separate Account.

Under current laws in several states, we may incur state and local taxes (in addition to premium taxes). These taxes are not currently significant, and we are not currently charging for them. If they increase, we may deduct charges for such taxes.

Federal estate and gift taxes, state and local estate taxes, and other taxes depend on the circumstances of each Owner or beneficiary.

Qualified Plans

The policy may be used as part of certain tax-qualified and/or ERISA employee benefit plans. Since the rules concerning the use of a policy with such plans are complex, you should not use the policy in this way until you have consulted a competent tax adviser. You may not use the policy as part of an Individual Retirement Account (IRA) or as part of a Tax-Sheltered Annuity (TSA) or an IRC Section 403(b) custodial account.

While the policy is owned by the qualified plan, we will only pay amounts under the policy while the Insured is still living (e.g., withdrawals, surrenders, and loans) to the qualified plan trustee or plan administrator. We will not make such payments directly to any other party, including the Insured participant. The only exception is for a Keogh plan, where the Insured participant is also the policy owner.

Employer-Owned Policies

The IRC contains certain notice and consent requirements for “employer-owned life insurance” policies. The IRC defines “employer-owned life insurance” as a life insurance contract:

- that is owned by a person or entity engaged in a trade or business (including policies owned by related or commonly controlled parties);
- insuring the life of a U.S. citizen or resident who is an employee on the date the contract is issued; and
- under which the policyholder is directly or indirectly a beneficiary.

The tax-free death benefit for employer-owned life insurance is limited to the amount of premiums paid unless certain notice and consent requirements are met. The notice requirements are met if, before the contract is issued, the employee is notified in writing of the following:

- the employer intends to insure the employee’s life;
- the maximum Face Amount for which the employee could be insured at the time the contract was issued; and
- the employer will be the beneficiary of any proceeds payable on the death of the employee.

Prior to issuance of the contract, the employee must provide written consent to being insured under the contract and to continuation of the coverage after employment terminates.

The law also imposes annual reporting and record keeping requirements for businesses owning employer-owned life insurance policies. The employer must maintain records of the employer’s notice and the employee’s consent, and must file certain annual reports with the IRS.

Provided that the notice and consent requirements are satisfied, the death proceeds of an employer-owned life insurance policy will generally be income tax-free in the following situations:

- (1) At the time the contract is issued, the insured employee is a director, highly compensated employee, or highly compensated individual within the meaning of IRC Section 101(j)(2)(A)(ii);
- (2) The Insured was an employee at any time during the 12-month period before his or her death;
- (3) The proceeds are paid to a member of the Insured’s family, an individual who is the designated beneficiary of the Insured under the contract, a trust established for the benefit of any such member of the family or designated beneficiary, or the Insured’s estate; or
- (4) The proceeds are used to purchase an equity interest in the employer from any of the persons described in (3).

Death proceeds that do not fall within one of the enumerated exceptions will be subject to ordinary income tax (even if the notice and consent requirements were met), and MassMutual will report payment of taxable proceeds to the IRS, where applicable.

Business Uses of Policy

Businesses can use the policies in various arrangements, including nonqualified deferred compensation or salary continuance

plans, split dollar insurance plans, executive bonus plans, tax exempt and nonexempt welfare benefit plans, retiree medical benefit plans and

others. The tax consequences of such plans may vary depending on the particular facts and circumstances. The Internal Revenue Service and Treasury have issued guidance that may substantially affect these arrangements. If you are purchasing the policy for any arrangement the value of which depends in part on its tax consequences, you should consult a qualified tax adviser.

Tax Shelter Regulations

Prospective Owners that are corporations should consult a tax adviser about the treatment of the policy under the Treasury Regulations applicable to corporate tax shelters.

Generation Skipping Transfer Tax Withholding

Under certain circumstances, the IRC may impose a “generation skipping transfer tax” when all or part of a life insurance policy is transferred to, or a death benefit is paid to, an individual two or more generations younger than the Owner. Regulations issued under the IRC may require us to deduct the tax from your policy, or from any applicable payment, and pay it directly to the IRS.

Withholding

To the extent that policy distributions are taxable, they are generally subject to withholding for the recipient's federal income tax liability. Recipients can generally elect, however, not to have tax withheld from distributions.

Life Insurance Purchases by Residents of Puerto Rico

Income received by residents of Puerto Rico under life insurance policies issued by a United States life insurance company is U.S.-source income that is generally subject to United States federal income tax.

Non-Resident Aliens and Foreign Entities

Generally, a distribution from a contract to a non-resident alien or foreign entity is subject to federal income tax withholding at a rate of 30% of the amount of the income that is distributed. A non-resident alien is a person who is neither a citizen, nor a resident, of the United States of America (U.S.). We are required to withhold the tax and send it to the IRS. Some distributions to non-resident aliens or foreign entities may be subject to a lower (or no) tax if a treaty applies. In order to obtain the benefits of such a treaty, the non-resident alien must claim the treaty benefit on Form W-8BEN (or the equivalent entity form), providing us with:

- proof of residency (in accordance with IRS requirements); and
- the applicable taxpayer identification number.

If the above conditions are not met, we will withhold 30% of the income from the distribution. Additionally, under the Foreign Account Tax Compliance Act, effective July 1, 2014, U.S. withholding may be required for certain entity owners (including foreign financial institutions and non-financial foreign entities (such as corporations, partnerships and trusts)) at a rate of 30% without regard to lower treaty rates.

Sales to Third Parties

If you sell your policy to a viatical settlement provider, and the Insured is considered terminally or chronically ill within the meaning of IRC Section 101(g), the proceeds of the sale will be treated as death benefit proceeds, and will generally be received by you income tax-free.

However, the sale of your policy to an unrelated investor in a sale that does not qualify as a viatical settlement may have adverse tax consequences. IRS guidance issued in 2009 provides that the gain from such a sale is taxed as ordinary income to the extent that you would have realized ordinary income if you had instead surrendered your policy. Any amount you receive in excess of that amount is taxed as capital gain income. Under the Tax Cuts and Jobs Act of 2017, these sales may qualify as reportable sales and require the purchaser and the contract issuer to report the sale to the seller and the IRS. Previously the IRS had taken the position that your cost basis in the policy for computing the gain on the sale must be decreased by the cumulative cost of insurance charge incurred prior to

the sale. The Tax Cuts and Jobs Act of 2017 provides that for reportable sales that take place after August 25, 2009, no reduction in the cost basis for the cost of insurance incurred is required.

Medicare Hospital Insurance Tax

A Medicare Hospital Insurance Tax (known as the “Unearned Income Medicare Contribution”) applies to all or part of a taxpayer’s “net investment income,” at a rate of 3.8%, when certain income thresholds are met. “Net investment income” is defined to include, among other things, non-qualified annuities and net gain attributable to the disposition of property. Under final regulations, this definition includes the taxable portion of any annuitized payment from a life insurance contract and it may also include the gain from the sale of a life insurance contract. Under current guidance we are required to report to the IRS whether a distribution is potentially subject to the tax. You should consult a tax adviser as to the potential impact of the Medicare Hospital Insurance Tax on your policy.

Other Information

Other Policy Rights and Limitations

Right to Assign the Policy

Generally, you may assign the policy as collateral for a loan or other obligation. In certain states, you cannot assign the policy without our approval. We will refuse or accept any request to assign the policy on a non-discriminatory basis. Please refer to your policy. For any assignment we allow to be binding on us, we must receive, in Good Order, written notice of the assignment and a signed copy of it at our Administrative Office. We are not responsible for the validity of any assignment. If you assign your policy, certain of your rights may only be exercised with the consent of the assignee of record.

Possible Restrictions on Financial Transactions

Federal laws designed to counter terrorism and prevent money laundering might, in certain circumstances, require us to reject a premium payment or block an Owner’s ability to make certain transactions and thereby refuse to accept any request for transfers, withdrawals, surrenders, loans, or death benefits, until the instructions are received from the appropriate regulator. We may also be required to provide additional information about you and your policy to government regulators.

Delay of Payment of Proceeds from the GPA

We may delay payment of any Net Surrender Values, withdrawals, and loan proceeds that are based on the GPA for up to six months from the date the request is received at our Administrative Office.

Delay of Payment of Proceeds from the Separate Account

We may suspend or postpone transfers from the Separate Account Divisions, or delay payment of the Net Surrender Values, withdrawals, loan proceeds and death benefits from the Separate Account during any period when:

- it is not reasonably practicable to determine the amount because the NYSE is closed (other than customary weekend and holiday closings);
- trading is restricted by the SEC;
- an emergency exists as a result of which disposal of shares of the Funds is not reasonably practicable or we cannot reasonably value the shares of the Funds; or
- the SEC, by order, permits us to delay payment in order to protect our Owners.

If, pursuant to SEC rules, a money market Fund suspends payment of redemption proceeds in connection with a liquidation of the Fund, we will delay payment of any transfer, partial withdrawal, surrender, loan, or death benefit from a money market division until the Fund is liquidated.

Distribution

The policies are sold by both registered representatives of MML Investors Services, LLC (MMLIS), a subsidiary of MassMutual, and by registered representatives of other broker-dealers who have entered into distribution agreements with MML Strategic Distributors, LLC (MSD), a subsidiary of MassMutual. Pursuant to separate underwriting agreements with the Company, on its own behalf and on behalf of the Separate Account, MMLIS serves as principal underwriter of the policies sold by its registered representatives, and MSD serves as principal underwriter of the policies sold by registered representatives of other broker-dealers who have entered into distribution agreements with MSD.

Both MMLIS and MSD are registered with the SEC as broker-dealers under the Securities Exchange Act of 1934 and are members of the Financial Industry Regulatory Authority (FINRA). MMLIS and MSD receive compensation for their actions as principal underwriters of the policies.

Commissions and Allowances Paid to MMLIS and Broker-Dealers

Commissions are paid to MMLIS and all broker-dealers involved in the sale of the policy. Commissions for sales of the policies by MMLIS registered representatives are paid by MassMutual on behalf of MMLIS to its registered representatives. Commissions for sales of the policies by registered representatives of other broker-dealers are paid by MassMutual on behalf of MSD to those broker-dealers.

Commissions are a percentage of the premium paid in each year of coverage and differ for premiums paid up to the Target Premium and for premiums paid in excess of the Target Premium. The Target Premium is based on the issue age, gender and risk classification of the Insured.

The maximum commission percentages we pay to MMLIS registered representatives and broker-dealers are:

First Year Commission	Commission in Years 2 - 10	Commission in Years 11+
50% of premium paid up to the Target Premium and 3% of premium paid in excess of the Target Premium	3% of premium paid up to the Target Premium and 3% of premium paid in excess of the Target Premium	1% of premium paid up to the Target Premium and 1% of premium paid in excess of the Target Premium

We also pay an annual commission of 0.15% of the average monthly Account Value after the first Policy Year.

Additional Compensation Paid to MMLIS

Most MMLIS registered representatives are also MassMutual insurance agents, and as such, are eligible for certain cash and non-cash benefits from MassMutual. Cash compensation includes bonuses and allowances based on factors such as sales, productivity and persistency (policy retention). Non-cash compensation includes various recognition items such as prizes and awards as well as attendance at, and payment of the costs associated with attendance at, conferences, seminars and recognition trips, and also includes contributions to certain individual plans such as pension and medical plans. Sales of this policy may help these registered representatives and their supervisors qualify for such benefits. MMLIS registered representatives who are also General Agents or sales managers of MassMutual also may receive overrides, allowances and other compensation that is based on sales of the policy by their registered representatives.

Additional Payments to Certain Broker-Dealers

In addition to the commissions described above, we may make cash payments to certain broker-dealers to attend sales conferences and educational seminars, thereby promoting awareness of our products. The broker-dealers may use these payments for any reason, including helping offset the costs of the conference or educational seminar.

We may also make cash payments to broker-dealers pursuant to marketing service agreements. These marketing service arrangements vary depending on a number of factors, including the specific level of support being provided. These payments are not made in connection with the sale of specific policies.

These additional payments are not offered to all broker-dealers and the terms of these arrangements may differ. Any such payments will be paid by MassMutual out of our assets and will not result in any additional direct charge to you. Such payments may give us greater access to the registered representatives of the broker-dealers that receive such payments and may influence the way that a broker-dealer markets the policy.

Compensation in General

The compensation arrangements described in the paragraphs above may provide a registered representative with an incentive to sell this policy over other available policies whose issuers do not provide such compensation or which provide lower levels of compensation. You may want to take these compensation arrangements into account when evaluating any recommendations regarding this policy.

We intend to recoup a portion of the cash and non-cash compensation payments that we make through the assessment of certain charges described in this prospectus, including the contingent deferred sales charge. We may also use some of the 12b-1 distribution fee payments (if applicable) and other payments that we receive from certain Funds to help us make these cash and non-cash payments.

Your registered representative typically receives a portion of the compensation that is payable to his or her broker-dealer, depending on the agreement between the representative and their firm. MassMutual is not involved in determining compensation paid to a registered representative of an unaffiliated broker-dealer. You may contact, as applicable, MMLIS, your broker-dealer or registered representative to find out more information about the compensation they may receive in connection with your purchase of a policy.

Commissions or overrides may also be paid to broker-dealers providing wholesaling services (such as providing sales support and training for sales representatives who sell the policies).

Computer System, Cybersecurity and Service Disruption Risks

The Company and its business partners rely on computer systems to conduct business, including customer service, marketing and sales activities, customer relationship management and producing financial statements. While the Company and its business partners have policies, procedures, automation and backup plans designed to prevent or limit the effect of failures, our respective computer systems may be vulnerable to disruptions or breaches as the result of natural disasters, man-made disasters, criminal activity, pandemics, or other events beyond our control. The failure of our or our business partners' computer systems for any reason could disrupt operations, result in the loss of customer business and adversely impact profitability.

The Company and its business partners retain confidential information on our respective computer systems, including customer information and proprietary business information. Any compromise of the security of our or our business partners' computer systems that results in the disclosure of personally identifiable customer information could damage our reputation, expose us to litigation, increase regulatory scrutiny and require us to incur significant technical, legal, and other expenses. The risk of cyber-attacks may be higher during periods of geopolitical turmoil (such as the Russian invasion of Ukraine and the responses by the United States and other governments).

Geopolitical and other events, including natural disasters, war, terrorism, economic uncertainty, trade disputes, public health crises and related geopolitical events, and widespread disease, including pandemics (such as COVID-19) and epidemics, have led, and in the future may lead, to increased market volatility, which may disrupt U.S. and world economies and markets and may have significant adverse direct or indirect effects on the Company. These events may adversely affect computer and other systems on which the Company relies, interfere with the processing of contract-related transactions (including the processing of orders from Owners and orders with the Funds) and the Company's ability to administer this contract in a timely manner, or have other possible negative effects. These events may also impact the issuers of securities in which the Funds invest, which may cause the Funds underlying the contract to lose value. There can be no assurance that we, the Funds or our service providers will avoid losses affecting the contract due to these geopolitical and other events. If we are unable to receive U.S. mail or fax transmissions due to a closure of U.S. mail delivery by the government or due to the need to protect the health of our employees, you may still be able to submit transaction requests to the Company electronically or over the telephone. Our inability to receive U.S. mail or fax transmissions may cause delays in the pricing and processing of transaction requests submitted to us by U.S. mail or by fax during that time period.

Legal Proceedings

The Company is subject to legal and regulatory actions, including class action lawsuits, in the ordinary course of its business. Our pending legal and regulatory actions include proceedings specific to us, as well as proceedings generally applicable to business practices in the industry in which we operate. From time to time, we also are subject to governmental and administrative proceedings and regulatory inquiries, examinations, and investigations in the ordinary course of our business. In addition, we, along with other industry participants, may occasionally be subject to investigations, examinations, and inquiries (in some cases industry-wide) concerning issues upon which regulators have decided to focus. Some of these proceedings involve requests for substantial and/or unspecified amounts, including compensatory or punitive damages.

While it is not possible to predict with certainty the ultimate outcome of any pending litigation proceedings or regulatory action, management believes, based on information currently known to it, that the ultimate outcome of all pending litigation and regulatory matters, after consideration of applicable reserves and rights to indemnification, is not likely to have a material adverse effect upon the Separate Account, the ability of the principal underwriter(s) to perform in accordance with its contracts with the Company on behalf of the Separate Account, or the ability of the Company to meet its obligations under the policy.

For more information regarding the Company's litigation and other legal proceedings, please see the notes to the Company's financial statements contained within the SAI.

Unclaimed Property

Every state has some form of unclaimed property law that imposes varying legal and practical obligations on insurers and, indirectly, on policy owners, Insureds, beneficiaries, and any other payees of proceeds from a policy. Unclaimed property laws generally provide for the transfer of benefits or payments under various circumstances to the abandoned property division or unclaimed property office in the state of last residence. This process is known as escheatment. To help avoid escheatment, keep your own information, as well as beneficiary and any other payee information up-to-date, including: full names, postal and electronic media addresses, telephone numbers, dates of birth, and social security numbers. To update this information, contact our Administrative Office.

Financial Statements

We encourage both existing and prospective Owners to read and understand our financial statements and those of the Separate Account. Our audited statutory financial statements and the Separate Account's audited U.S. GAAP financial statements are included in the SAI. You can request the SAI by contacting our Administrative Office.

Appendix A

Funds Available Under the Policy

The following is a list of Funds currently available under the policy. This list of Funds is subject to change, as discussed in this prospectus for the policy. Before you invest, you should review the prospectuses for the Funds. These prospectuses contain more information about the Funds and their risks and may be amended from time to time. You can find the prospectuses and other information about the Funds online at www.MassMutual.com/VULIII. You can also request this information at no cost by calling (800) 272-2216 or sending an email request to MassMutualServiceCenter@MassMutual.com.

The current expenses and performance information below reflects fees and expenses of the Funds, but does not reflect the other fees and expenses that your policy may charge. Expenses would be higher and performance would be lower if these charges were included. Each Fund's past performance is not necessarily an indication of future performance.

Fund Type	Fund and Adviser/Sub-Adviser	Current Expenses (expenses/average assets)	Average Annual Total Returns (as of 12/31/2023)

(*) These Funds and their investment advisers have entered into contractual fee waivers or expense reimbursements. These temporary fee reductions are reflected in their current expenses. Those contractual arrangements are designed to reduce the Fund's total current expenses for Owners and will continue past the current year.

- (1) These are fund-of-funds investment choices. They are known as fund-of-funds because they invest in other underlying funds. A fund offered in a fund-of-funds structure may have higher expenses than a direct investment in its underlying funds because a fund-of-funds bears its own expenses and indirectly bears its proportionate share of expenses of the underlying funds in which it invests.
- (2) You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time. The yield of this Fund may become very low during periods of low interest rates. After deduction of Separate Account charges, the yield in the division that invests in this Fund could be negative.
- (3) Specialty funds are an all-encompassing category that consists of funds that forgo broad diversification to concentrate on a certain segment of the economy or a specific targeted strategy. For example, sector funds are targeted strategy funds aimed at specific sectors of the economy, such as financial, technology, healthcare, and so on. Sector funds can, therefore, be more volatile than a more diversified equity fund since the stocks in a given sector tend to be highly correlated with each other.

Appendix B

Hypothetical Examples of the Impact of the Minimum Death Benefit

Example I

Assume the following:

- Death Benefit Option 1.
- Face Amount is \$500,000.
- Account Value is \$50,000.
- Policy Debt is \$0.
- Insured's Attained Age is 45.
- Death Benefit Factor is 2.15.

The death benefit for death benefit option 1 is the greater of the Face Amount or the Minimum Death Benefit. The Minimum Death Benefit is calculated by multiplying the Account Value times the death benefit factor.

The death benefit will be \$500,000 based on the greater of:

- \$500,000 or
- $\$50,000 \times 2.15 = \$107,500$

Example II

Assume the following:

- Death Benefit Option 1.
- Face Amount is \$500,000.
- Account Value is \$250,000.
- Policy Debt is \$0.
- Insured's Attained Age is 45.
- Death Benefit Factor is 2.15.

The death benefit for death benefit option 1 is the greater of the Face Amount or the Minimum Death Benefit. The Minimum Death Benefit is calculated by multiplying the Account Value times the death benefit factor.

The death benefit will be \$537,500 based on the greater of:

- \$500,000 or

- $\$250,000 \times 2.15 = \$537,500$

Hypothetical Examples of the Impact of the Account Value and Premiums

Example I ~ Death Benefit Option 1

Assume the following:

- Face Amount is \$1,000,000.
- Account Value is \$50,000.
- Minimum Death Benefit is \$219,000.
- Policy Debt is \$0.

Based on these assumptions,

- the death benefit is \$1,000,000.

If the Account Value increases to \$80,000 and the Minimum Death Benefit increases to \$350,400,

- the death benefit remains at \$1,000,000.

If the Account Value decreases to \$30,000 and the Minimum Death Benefit decreases to \$131,400,

- the death benefit still remains at \$1,000,000.

Example II ~ Death Benefit Option 2

Assume the following:

- Face Amount is \$1,000,000.
- Account Value is \$50,000.
- Minimum Death Benefit is \$219,000.
- Policy Debt is \$0.

Based on these assumptions,

- the death benefit is \$1,050,000 (Face Amount plus Account Value).

If the Account Value increases to \$80,000 and the Minimum Death Benefit increases to \$350,400,

- the death benefit will increase to \$1,080,000.

If the Account Value decreases to \$30,000 and the Minimum Death Benefit decreases to \$131,400,

- the death benefit will decrease to \$1,030,000.

Example III ~ Death Benefit Option 3

Assume the following:

- Face Amount is \$1,000,000.
- Account Value is \$50,000.
- Minimum Death Benefit is \$219,000.
- Policy Debt is \$0.
- Premiums paid (and not refunded) under the policy to date total \$40,000.
- Premiums paid (and not refunded) prior to the Insured's Attained Age 90.

Based on these assumptions,

- the death benefit is \$1,040,000 (Face Amount plus Premiums paid (and not refunded)).

If you pay an additional \$30,000 of premium and the Account Value increases to \$80,000 and the Minimum Death Benefit increases to \$350,400,

- the death benefit will increase to \$1,070,000.

Hypothetical Examples of Death Benefit Option Changes

Example I ~ Change from Option 2 to Option 1

For a change from Option 2 to Option 1, the Face Amount is increased by the amount of the Account Value on the effective date of the change.

For example, if the policy has a Face Amount of \$500,000 and an Account Value of \$25,000, the death benefit under Option 2 is equal to the Face Amount plus the Account Value, or \$525,000. If you change from Option 2 to Option 1, the death benefit under Option 1 is equal to the policy Face Amount. Since the death benefit under the policy does not change as the result of a death benefit option change, the Face Amount will be increased from \$500,000 under Option 2 to \$525,000 under Option 1 and the death benefit after the change will remain at \$525,000.

Example II ~ Change from Option 3 (without interest option) to Option 1(*)

For a change from Option 3 to Option 1, the Face Amount is increased by the amount of the premiums paid (and not refunded) to the effective date of the change.

For example, if a policy has a Face Amount of \$500,000, and premium payments of \$12,000 have been made to date, the death benefit under Option 3 is equal to the Face Amount plus the premiums paid (and not refunded), or \$512,000. If you change from Option 3 to Option 1, the death benefit under Option 1 is equal to the Face Amount. Since the death benefit under the policy does not change as the result of a death benefit option change, the Face Amount will be increased from \$500,000 under Option 3 to \$512,000 under Option 1 and the death benefit after the change will remain at \$512,000.

Example III ~ Change from Option 1 to Option 2

For a change from Option 1 to Option 2, the Face Amount will be decreased by the amount of the Account Value on the effective date of the change.

For example, if the policy has a Face Amount of \$700,000 and an Account Value of \$25,000, under Option 1 the death benefit is equal to the Face Amount, or \$700,000. If you change from Option 1 to Option 2, the death benefit under Option 2 is equal to

the Face Amount plus the Account Value. Since the death benefit does not change as the result of a death benefit option change, the Face Amount will be decreased by \$25,000 to \$675,000, and the death benefit under Option 2 after the change will remain at \$700,000.

Example IV ~ Change from Option 3 to Option 2^(*)

For a change from Option 3 (without interest option) to Option 2, the Face Amount is changed (increased or decreased) by the difference between the Account Value and the premiums paid (and not refunded) to date.

For example, if the policy has a Face Amount of \$1,000,000 and an Account Value of \$70,000 and premiums paid (and not refunded) of \$25,000, the death benefit under Option 3 is equal to the Face Amount plus the premiums paid (and not refunded) to date, or \$1,025,000. If you change from Option 3 to Option 2, the death benefit under Option 2 is equal to the Face Amount plus the Account Value. Since the death benefit under the policy does not change as the result of a death benefit option change, the Face Amount will be increased by the sum of the premiums paid (and not refunded) to date and then decreased by the Account Value to \$955,000 under Option 2, maintaining a death benefit of \$1,025,000.

A similar type of change would be made for a change from Option 3 (with interest option) to Option 2.

For example, if the policy has a Face Amount of \$1,000,000 and an Account Value of \$70,000 and premiums paid (and not refunded) of \$25,000, and interest applied to premiums paid (and not refunded) of \$5,000, the death benefit under Option 3 (with interest) is equal to the Face Amount plus the premiums paid (and not refunded) to date plus interest applied to premiums paid (and not refunded) to date, or \$1,030,000. If you change from Option 3 to Option 2, the death benefit under Option 2 is equal to the Face Amount plus the Account Value. Since the death benefit under the policy does not change as the result of a death benefit option change, the Face Amount will be increased by the sum of the premiums paid (and not refunded) to date plus interest applied to premiums paid (and not refunded) to date and then decreased by the Account Value, to \$960,000 under Option 2, maintaining a death benefit of \$1,030,000.

(*) All hypothetical examples involving death benefit Option 3 are assumed to occur prior to the Insured's Attained Age 90.

Appendix C

Hypothetical Example – Accelerated Death Benefit Rider for Terminal Illness

The calculations below show the impact of accelerating the death benefit under this rider for a sample policy.

Policy details prior to the acceleration of the death benefit:

Death Benefit	\$250,000
Account Value	\$50,000

The Eligible Amount is the amount of death benefit under the policy that can be considered for acceleration.

Eligible Amount = Death Benefit - Account Value

Eligible Amount = \$250,000 - \$50,000 = \$200,000

The Amount To Be Accelerated cannot exceed 75% of the Eligible Amount, or \$150,000.

The Insured is terminally ill as defined in the rider, and the Owner requests to accelerate \$100,000 of death benefit. Alternatively, the Owner could request the Terminal Illness Benefit Payment amount rather than the amount to be accelerated. Assuming an Annual Interest Rate of 5%, the interest charge is calculated as follows:

Interest Charge = $5\% \times 100,000 / (1 + 5\%) = \$4,761.90$

The terminal illness benefit payment is then calculated as follows:

Amount to Be Accelerated	\$100,000.00
Less Interest Charge	-\$4,761.90
Less administrative fee	-\$250.00
Terminal Illness Benefit Payment	\$94,988.10

A lien of \$100,000 is placed on the policy. The death benefit after acceleration is reduced by the amount of the lien, from \$250,000 to \$150,000. No other policy values are impacted.

Appendix D

Hypothetical Example – Substitute of Insured Rider

Below is an example of exercising this rider.

Policy details prior to the substitution:

Issue Date	1/1/2020
Insured Date of Birth	1/1/1965
Issue Age	55
Sex	Male
Risk Class	Tobacco
Face Amount	\$250,000
Account Value on 1/1/2030	\$50,000

On 1/1/2030, the Substitute of Insured Rider is exercised with the following Insured:

Substitute Insured Date of Birth	1/1/1980
Issue Age	40
Sex	Female
Risk Class	Non-Tobacco

The Face Amount (\$250,000) is unchanged. A \$75 fee for exercising the rider is deducted from the Account Value. There is no other cost or credit associated with exercising the rider. Going forward, all monthly charges, surrender charges, and other values after the substitution will be based on the life and risk class of the substitute Insured as if the substitute Insured were the original Insured. Below is the impact on the guaranteed monthly charges on the date of substitution:

Breakdown of Guaranteed Monthly Charges on Date of Substitution		
	Original Insured Male Tobacco Issue Age 55 Duration 11	Substitute Insured Female Non-Tobacco Issue Age 40 Duration 11
Charge for Exercising Rider	\$ 0.00	\$ 75.00
Insurance Charge	328.98	23.00
Face Amount Charge	182.50	125.00
Administrative Charge	15.00	15.00
Surrender Charge	0.00	0.00
Account Value After Charges	49,473.52	49,762.00

GENERAL INFORMATION AND HISTORY

Company

In this Statement of Additional Information, the “Company,” “we,” “us,” and “our” refer to Massachusetts Mutual Life Insurance Company (MassMutual®). MassMutual and its domestic life insurance subsidiaries provide individual and group life insurance, disability insurance, individual and group annuities and guaranteed interest contracts to individual and institutional customers in all 50 states of the U.S., the District of Columbia and Puerto Rico. Products and services are offered primarily through MassMutual’s distribution channels: MassMutual Financial Advisors, MassMutual Strategic Distributors, Institutional Solutions and Worksite.

MassMutual was established on May 15, 1851 and is organized as a mutual life insurance company in the Commonwealth of Massachusetts. MassMutual’s home office is located at 1295 State Street, Springfield, Massachusetts 01111-0001.

The Separate Account

The Company’s Board of Directors established the Separate Account (Massachusetts Mutual Variable Life Separate Account I) on July 13, 1988, as a separate investment account of MassMutual. It was established based on the laws of the Commonwealth of Massachusetts. It is registered with the Securities and Exchange Commission (SEC) as a unit investment trust under the provisions of the Investment Company Act of 1940.

The Separate Account exists to keep your life insurance assets separate from our other Company assets. As such, any income, gains, or losses credited to, or charged against, the Separate Account reflect only the Separate Account’s own investment experience. At no time will the Separate Account reflect the investment experience of the Company’s other assets.

We may not use the assets in the Separate Account to pay any liabilities of the Company other than those arising from the policies. We may, however, transfer to our General Investment Account any assets that exceed anticipated obligations of the Separate Account. We are required to pay, from our general assets, if necessary, all amounts promised under the VUL III policies. In the event that the assets in the Separate Account exceed the liabilities, the Company may only withdraw seed capital and earned fees and charges.

SERVICES

The Company holds title to the assets of the Separate Account. The Company maintains the records and accounts relating to the Guaranteed Principal Account, the Separate Account, the segment within the Separate Account established to receive and invest premium payments for the policies, and divisions of that segment. The Company’s principal business address is 1295 State Street, Springfield, Massachusetts 01111-0001.

ADDITIONAL INFORMATION ABOUT THE OPERATION OF THE POLICY AND THE REGISTRANT

Purchase of Shares in Underlying Investment Funds

Shares are purchased and redeemed at net asset value. Fund dividends and capital gain distributions are automatically reinvested, unless the Company, on behalf of the Separate Account, elects otherwise.

Because the underlying funds are also offered in variable annuity contracts, it is possible that conflicts could arise between the owners of variable life insurance policies and the owners of variable annuity contracts. If a conflict exists, the fund’s board will notify the insurers and take appropriate action to eliminate the conflict. Additionally, if the insurer becomes aware of such conflicts, the insurer will work with the underlying fund’s board to resolve the conflict.

Annual Reports

Each year within the 30 days following the Policy Anniversary date, we will provide the policy owner a report showing the following policy information:

- the Account Value at the beginning of the previous Policy Year;
- all premiums paid since that time;
- all additions to and deductions from the Account Value during the year; and
- the Account Value, death benefit, Net Surrender Value and Policy Debt as of the current Policy Anniversary. This report may contain additional information if required by any applicable law or regulation.

UNDERWRITERS

The policies are sold by both registered representatives of MML Investors Services, LLC (MMLIS), a subsidiary of MassMutual, and by registered representatives of other broker-dealers who have entered into distribution agreements with MML Strategic Distributors, LLC (MSD), a subsidiary of MassMutual. Pursuant to separate underwriting agreements with MassMutual, on its own behalf and on behalf of the Separate Account, MMLIS serves as principal underwriter of the policies sold by its registered representatives, and MSD serves as principal underwriter for the policies sold by registered representatives of other broker-dealers who have entered into distribution agreements with MSD.

MMLIS and MSD are located at 1295 State Street, Springfield, MA 01111-0001. MMLIS and MSD are registered with the SEC as broker-dealers under the Securities Exchange Act of 1934 and are members of the Financial Industry Regulatory Authority (FINRA).

During the last three years, MMLIS and MSD were paid the compensation amounts shown below for their actions as principal underwriters for the policies described in the statutory prospectus.

Year	MMLIS	MSD
2023	\$85,992	\$5,784
2022	\$106,004	\$3,835
2021	\$70,523	\$5,580

This offering is on a continuous basis.

Commissions

Commissions are a percentage of the premium paid in each year of coverage and differ for premiums paid up to the Target Premium and for premiums paid in excess of the Target Premium. The Target Premium is based on the issue age, gender, and risk classification of the Insured.

Commissions for sales of the policies by MMLIS registered representatives are paid by MassMutual on behalf of MMLIS to its registered representatives. Commissions for sales of the policies by registered representatives of other broker-dealers are paid by MassMutual on behalf of MSD to those broker-dealers.

During the last three years, commissions, as described in the statutory prospectus, were paid by MassMutual through MMLIS and MSD as shown below.

Year	MMLIS	MSD
2023	\$430,577	\$43,483
2022	\$570,520	\$64,389
2021	\$894,776	\$72,212

ADDITIONAL INFORMATION

Underwriting Procedures

Before issuing a policy, we will require evidence of insurability that is satisfactory to us. You must complete an application and submit it to our Administrative Office. We will usually require that the Insured have a medical examination. Acceptance is subject to completion of all underwriting requirements and our underwriting rules.

The Insured is assigned an underwriting risk classification which we use to calculate insurance and other charges. The insurance charge rate will not exceed those shown on the policy's specifications pages.

- *For policies issued after December 31, 2019:* These rates are based on the 2017 Commissioners' Standard Ordinary Ultimate, Sex-Distinct, Smoker-Distinct, Age Nearest Birthday Mortality Table (2017 CSO). In some states unisex rates may be required; in those situations, the 2017 CSO (80) Ultimate, Smoker-Distinct, Age Nearest Birthday Mortality Table is used.
- *For policies issued on or before December 31, 2019:* These rates are based on the 2001 Commissioners' Standard Ordinary Ultimate, Sex-Distinct, Smoker-Distinct, Age Nearest Birthday Mortality Table (2001 CSO). In some states unisex rates may be required; in those situations, the 2001 CSO (80) Ultimate, Smoker-Distinct, Age Nearest Birthday Mortality Table is used.

We may, however, charge less than the maximum monthly insurance charges shown in the policy's specifications pages. In this case, the monthly insurance charges will be based on a number of factors including, but not limited to, our expectations for future mortality, investment earnings, persistency and expense results, capital and reserve requirements, taxes and future profits, and other factors unrelated to mortality experience. The expense component of these rates is used to offset sales and issue expenses, which decrease over time. Any change in these charges will apply to all individuals in the same class.

Special risk classifications are used when mortality experience in excess of the standard risk classifications is expected. These substandard risks will be charged a higher cost of insurance rate that will not exceed rates based on the following:

- *For policies issued after December 31, 2019:* A multiple of 2017 CSO, male or female (unisex rates may be required in some situations), the Nonsmoker or Smoker Table, and age of the Insured on their nearest birthday plus any flat extra amount assessed. The multiple will be based on the Insured's substandard rating.
- *For policies issued on or before December 31, 2019:* A multiple of 2001 CSO, male or female (unisex rates may be required in some situations), the Nonsmoker or Smoker Table, and age of the Insured on their nearest birthday plus any flat extra amount assessed. The multiple will be based on the Insured's substandard rating.

There are five non-rated classifications: ultra preferred non-tobacco, select preferred non-tobacco, non-tobacco, select preferred tobacco, and tobacco.

Increases in Face Amount

A Face Amount increase is accomplished by issuing an additional insurance coverage segment. Each such segment has a distinct issue age and risk classification.

It is possible for risk classifications of prior segments to change in order to match the risk classification of a new segment. In cases where the risk classifications are different, the Company may change the risk classification of prior segments if doing so will reduce the insurance charges associated with the prior segments. However, the Company will not change the risk classifications of prior segments when the Face Amount increase coincides with a conversion of an existing term life insurance policy, unless evidence of insurability acceptable to us is provided. In addition, the Company will not change the risk classifications of prior segments if doing so will increase the insurance charges associated with the prior segments. Changing the risk classifications of prior segments may impact the maximum premium limits, MEC premiums and Minimum Death Benefit under the Cash Value Accumulation Test.

If you increase the Face Amount, the insurance charge and face amount charge will increase. In addition, a separate surrender charge schedule will apply during the first nine years of the segment's coverage.

Premium payments received once an increase in Face Amount becomes effective will be allocated to each segment of the Face Amount. The premium allocation will be made on a pro rata basis using the premium expense factor for each segment. If the Net Surrender Value is insufficient to continue the changed policy In Force for three months at the new monthly charges and interest, we will require a premium payment sufficient to increase the Net Surrender Value to such an amount.

PERFORMANCE DATA

From time to time, we may report historical performance for the Separate Account Divisions available under the policy. The investment performance figures are calculated using the actual historical performance of the investment options for the periods shown in the report. When applicable, the performance will include periods before the policy was available for sale.

The performance returns in these reports will reflect deductions for management fees and all other operating expenses of the underlying investment funds and an annual deduction for the asset charge. The returns will not reflect any deductions from premiums, monthly charges assessed against the Account Value of the policies, policy surrender charges, or other policy charges, which, if deducted, would significantly reduce the returns.

From time to time, we may also report actual historical performance of the investment funds underlying each division of the Separate Account. These returns will reflect the fund operating expenses but they will not reflect the asset charge, any deductions from premiums, monthly charges assessed against the Account Value of the policies, policy surrender charges, or other policy charges. If these expenses and charges were deducted, the rates of return would be significantly lower.

The rates of return we report will not be illustrative of how actual investment performance will affect the benefits under the policy. Neither are they necessarily indicative of future performance. Actual rates may be higher or lower than those reported.

We currently post investment performance reports for VUL III on our website at www.MassMutual.com/VulIII. You can also request a copy of the most recent report from your registered representative or by calling our Administrative Office at (800) 272-2216, Monday – Friday, 8 AM to 8 PM Eastern Time. Questions about the information in these reports should be directed to your registered representative.

We may also distribute sales literature that includes historical performance of broad market indices, such as the Standard & Poor's 500 Stock Index® and the Dow Jones Industrial Average. These indices are provided for informational purposes only.

EXPERTS

The financial statements of Massachusetts Mutual Variable Life Separate Account I as of December 31, 2023 and for each of the years in the two-year period then ended and the financial highlights for each of the years in the five-year period then ended and the statutory financial statements of Massachusetts Mutual Life Insurance Company (the Company) as of December 31, 2023 and 2022, and for each of the years in the three-year period ended December 31, 2023, each have been included in this Statement of Additional Information herein in reliance upon the reports of KPMG LLP, an independent registered public accounting firm, each of which are also included herein, and upon the authority of said firm as experts in accounting and auditing. KPMG LLP's report, dated February 27, 2024, states that the Company prepared its financial statements using statutory accounting practices prescribed or permitted by the Commonwealth of Massachusetts Division of Insurance (statutory accounting practices), which is a basis of accounting other than U.S. generally accepted accounting principles. Accordingly, KPMG LLP's report states that the financial statements of the Company are not intended to be and, therefore, are not presented fairly in accordance with U.S. generally accepted accounting principles and further states that those statements are presented fairly, in all material respects, in accordance with the statutory accounting practices. The principal business address of KPMG LLP is One Financial Plaza, 755 Main Street, Hartford, Connecticut 06103.

Independent Auditors' Report

Audit Committee of the Board of Directors
Massachusetts Mutual Life Insurance Company:

Opinions

We have audited the financial statements of Massachusetts Mutual Life Insurance Company (the Company), which comprise the statutory statements of financial position as of December 31, 2023 and 2022, and the related statutory statements of operations and changes in surplus, and cash flows for the three-year period ended December 31, 2023, and the related notes to the financial statements.

Unmodified Opinion on Statutory Basis of Accounting

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2023 and 2022, and the results of its operations and its cash flows for the three-year period ended December 31, 2023 in accordance with accounting practices prescribed or permitted by the Commonwealth of Massachusetts Division of Insurance described in Note 2.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements do not present fairly, in accordance with U.S. generally accepted accounting principles, the financial position of the Company as of December 31, 2023 and 2022, or the results of its operations or its cash flows for the three-year period ended December 31, 2023.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 2 to the financial statements, the financial statements are prepared by the Company using accounting practices prescribed or permitted by the Commonwealth of Massachusetts Division of Insurance, which is a basis of accounting other than U.S. generally accepted accounting principles. Accordingly, the financial statements are not intended to be presented in accordance with U.S. generally accepted accounting principles. The effects on the financial statements of the variances between the statutory accounting practices described in Note 2 and U.S. generally accepted accounting principles, although not reasonably determinable, are presumed to be material and pervasive.

Emphasis of Matter

As discussed in Note 3 to the financial statements, in 2023, the Company adopted INT 23-01T - Disallowed IMR. Our opinions are not modified with respect to this matter.

KPMG LLP, a Delaware limited liability partnership and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting practices prescribed or permitted by the Commonwealth of Massachusetts Division of Insurance. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS

1. Nature of operations

Massachusetts Mutual Life Insurance Company (MassMutual or the Company), a mutual life insurance company domiciled in the Commonwealth of Massachusetts, and its domestic life insurance subsidiaries provide individual and group life insurance, disability insurance (DI), individual and group annuities and guaranteed interest contracts (GIC) to individual and institutional customers in all 50 states of the United States of America (U.S.), the District of Columbia and Puerto Rico. Products and services are offered primarily through the Company's MassMutual Financial Advisors (MMFA), MassMutual Strategic Distributors (MMSD), Institutional Solutions (IS) and Worksite distribution channels.

MMFA is a sales force of financial professionals that operate in the U.S. MMFA sells individual life, individual annuities, hybrid life and long-term care (LTC) and DI. The Company's MMSD channel sells life insurance, disability, annuity, and hybrid life and LTC solutions through a network of third-party distribution partners. The Company's IS distribution channel places group annuities, life insurance and GIC primarily through retirement advisory firms, actuarial consulting firms, investment banks, insurance benefit advisors and investment management companies. The Company's Worksite channel works with advisors and employers across the country to provide American workers with voluntary and executive benefits such as group whole life, critical illness, accident insurance and DI, through the workplace.

2. Summary of significant accounting policies

a. Basis of presentation

The statutory financial statements have been prepared in conformity with the statutory accounting practices of the National Association of Insurance Commissioners (NAIC) and the accounting practices prescribed or permitted by the Commonwealth of Massachusetts Division of Insurance (the Division).

Statutory accounting practices are different in some respects from financial statements prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP). The more significant differences between statutory accounting practices and U.S. GAAP are as follows:

Invested assets

- Bonds are generally carried at amortized cost, whereas U.S. GAAP reports bonds at fair value for bonds available for sale and trading or at amortized cost for bonds held to maturity (HTM)
- Changes in the fair value of derivative financial instruments are recorded as changes in surplus, whereas U.S. GAAP generally reports these changes in revenue unless deemed an effective hedge
- Interest rate and credit default swaps associated with replicated synthetic investment transactions are carried at amortized cost, whereas U.S. GAAP would carry them at fair value
- Embedded derivatives are recorded as part of the underlying contract, whereas U.S. GAAP would identify and bifurcate certain embedded derivatives from the underlying contract or security and account for them separately at fair value
- Income recognition on partnerships and limited liability companies, which are accounted for under the equity method, is limited to the amount of cash distribution, whereas U.S. GAAP is without limitation
- Certain majority-owned subsidiaries and variable interest entities are accounted for using the equity method, whereas U.S. GAAP would consolidate these entities
- Starting on January 1, 2022, the Company adopted the current expected credit loss (CECL) impairment model for U.S. GAAP, which only applies to financial assets carried at amortized cost, including mortgage and other commercial loans, equipment loans, HTM debt securities, and trade, lease, reinsurance and other receivables. CECL is based on expected credit losses rather than incurred losses. All financial assets within scope of CECL will have a credit loss allowance. The adopted guidance also changes the incurred loss model on AFS debt securities to be an allowance for credit losses with potential recoverability. Statutory accounting continues to utilize the other-than-temporary impairment(s) (OTTI) model described in *Note 2dd*.

Policyholders' liabilities

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

- Statutory policy reserves are generally based upon prescribed methods, such as the Commissioners' Reserve Valuation Method, Commissioners' Annuity Reserve Valuation Method or net level premium method, and prescribed statutory mortality, morbidity and interest assumptions at the time of issuance, whereas U.S. GAAP policy reserves would generally be based upon the net level premium method or the estimated gross margin method with estimates, at time of issuance, of future mortality, morbidity, persistency and interest
- Liabilities for policyholders' reserves, unearned premium, and unpaid claims are presented net of reinsurance ceded, whereas U.S. GAAP would present the liabilities on a direct basis and report an asset for the amounts recoverable or due from reinsurers
- Payments received for universal and variable life insurance products, certain variable and fixed deferred annuities and group annuity contracts are reported as premium income and corresponding change in reserves, whereas U.S. GAAP would treat these payments as deposits to policyholders' account balances

General insurance expenses and commissions

Certain acquisition costs, such as commissions and other variable costs, directly related to successfully acquiring new business are charged to current operations as incurred, whereas U.S. GAAP generally would capitalize these expenses and amortize them based on profit emergence over the expected life of the policies or over the premium payment period.

Net realized capital (losses) gains

- After-tax realized capital gains (losses) that result from changes in the overall level of interest rates for all types of fixed-income investments and interest-related hedging activities are deferred into the interest maintenance reserve (IMR) and amortized into revenue, whereas U.S. GAAP reports these gains and losses as revenue

Surplus

- Changes in the balances of deferred income taxes, which provide for book versus tax temporary differences, are subject to limitation and are recorded in surplus, whereas U.S. GAAP would generally include the change in deferred taxes in net income without limitation
- Assets are reported at admitted asset value and assets designated as nonadmitted are excluded through a charge against surplus, whereas U.S. GAAP recognizes all assets, net of any valuation allowances
- An asset valuation reserve (AVR) is reported as a contingency reserve to stabilize surplus against fluctuations in the statement value of real estate, partnerships and limited liability companies and certain common stocks as well as credit-related changes in the value of bonds, mortgage loans and certain derivatives, whereas U.S. GAAP does not record this reserve
- Changes to the mortgage loan valuation allowance are recognized in net unrealized capital gains (losses), net of tax, in the Consolidated Statutory Statements of Changes in Surplus, whereas U.S. GAAP follows the CECL impairment model effective 1/1/2022
- The overfunded status of pension and other postretirement plans, which is the excess of the fair value of the plan assets over the projected benefit obligation, is a nonadmitted asset for statutory accounting whereas U.S. GAAP recognizes the overfunded status as an asset
- Surplus notes are reported in surplus, whereas U.S. GAAP reports these notes as liabilities
- Statutory Statements of Changes in Surplus includes net income, change in net unrealized capital gains (losses), change in net unrealized foreign exchange capital gains (losses), change in other net deferred income taxes, change in nonadmitted assets, change in AVR, prior period adjustments and change in minimum pension liability, whereas U.S. GAAP presents net income as retained earnings and net unrealized capital gains (losses), change in net unrealized foreign exchange capital gains (losses), change in minimum pension liability as other comprehensive income
- The change in the fair value for unaffiliated common stock is recorded in surplus, whereas the change in the fair value for ownership interests in an entity not accounted for under the equity method or consolidated are recorded in revenue for U.S. GAAP

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

Other

- Assets and liabilities associated with certain group annuity and variable universal life contracts, which do not pass-through all investment experience to contract holders, are maintained in separate accounts and are presented on a single line in the statutory financial statements, whereas U.S. GAAP reports these contracts as general investments and liabilities of the Company

The preparation of financial statements requires management to make estimates and assumptions that impact the reported amounts of assets and liabilities, the disclosure of assets and liabilities as of the date of the statutory financial statements and the reported amounts of revenues and expenses during the reporting periods. The most significant estimates and assumptions include those used in determining the carrying values of investments including the amount of mortgage loan investment valuation reserves, OTTI, the value of the investment in MassMutual Holding LLC (MMHLLC), the liabilities for policyholders' reserves, the determination of admissible deferred tax assets (DTA), the liability for taxes and the liability for litigation or other contingencies. Future events including, but not limited to, changes in the level of mortality, morbidity, interest rates, persistency, asset valuations and defaults could cause results to differ from the estimates used in the statutory financial statements. Although some variability is inherent in these estimates, management believes the amounts presented are appropriate.

Certain prior year amounts within these financial statements have been reclassified to conform to the current year presentation.

b. Corrections of errors and reclassifications

For the years ended December 31, 2023 and 2022, corrections of prior years' errors were recorded in surplus, net of tax:

	Years Ended December 31, 2023 and 2022					
	Increase (Decrease) to:

Total	\$ 173	\$ (44)	\$ 55	\$ (44)	\$	

c. Bonds

Bonds are generally valued at amortized cost using the constant yield interest method with the exception of NAIC

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

Category 6 bonds, which are in or near default, and certain residential mortgage-backed securities (RMBS) and commercial mortgage-backed securities (CMBS), which are rated by outside modelers, which are carried at the lower of amortized cost or fair value. NAIC ratings are applied to bonds and other investments. Categories 1 and 2 are considered investment grade, while Categories 3 through 6 are considered below investment grade. Bonds are recorded on a trade date basis, except for private placement bonds, which are recorded on the funding date.

For loan-backed and structured securities, such as asset-backed securities (ABS), mortgage-backed securities (MBS), including RMBS and CMBS, and structured securities, including collateralized debt obligations (CDOs), amortization or accretion is revalued quarterly based on the current estimated cash flows, using either the prospective or retrospective adjustment methodologies.

Fixed income securities, with the highest ratings from a rating agency follow the retrospective method of accounting.

All other fixed income securities, such as floating rate bonds and interest only securities, including those that have been impaired, follow the prospective method of accounting.

The fair value of bonds is based on quoted market prices when available. If quoted market prices are not available, values provided by other third-party organizations are used. If values provided by other third-party organizations are unavailable, fair value is estimated using internal models by discounting expected future cash flows using observable current market rates applicable to yield, credit quality and maturity of the investment or using quoted market values for comparable investments. Internal inputs used in the determination of fair value include estimated prepayment speeds, default rates, discount rates and collateral values, among others. Structure characteristics and cash flow priority are also considered. Fair values resulting from internal models are those expected to be received in an orderly transaction between willing market participants.

Refer to *Note 2dd. "Net realized capital (losses) gains including other-than-temporary impairments and unrealized capital gains (losses)"* for information on the Company's policy for determining OTTI.

d. Preferred stocks

Preferred stocks in good standing, those that are rated Categories 1 through 3 by the Securities Valuation Office (SVO) of the NAIC, are generally valued at amortized cost. Preferred stocks not in good standing, those that are rated Categories 4 through 6 by the SVO, are valued at the lower of amortized cost or fair value. Fair values are based on quoted market prices, when available. If quoted market prices are not available, values provided by third-party organizations are used. If values provided by third-party organizations are unavailable, fair value is estimated using internal models. These models use inputs not directly observable or correlated with observable market data. Typical inputs integrated into the Company's internal discounted expected earnings models include, but are not limited to, earnings before interest, taxes, depreciation and amortization estimates. Fair values resulting from internal models are those expected to be received in an orderly transaction between willing market participants.

Refer to *Note 2dd. "Net realized capital (losses) gains including other-than-temporary impairments and unrealized capital gains (losses)"* for information on the Company's policy for determining OTTI.

e. Common stocks – subsidiaries and affiliates

On May 28, 2021, the Company, through a wholly owned subsidiary, Glidepath Holdings Inc. (Glidepath), acquired MassMutual Ascend Life Insurance Company (formerly known as Great American Life Insurance Company) and other subsidiaries and affiliated entities (MM Ascend) for \$3,570 million in cash. MM Ascend primarily offers traditional fixed and fixed indexed annuity products.

Common stocks of unconsolidated subsidiaries, primarily MMHLLC, Glidepath and MM Investment Holding (MMIH), are accounted for using the statutory equity method. The Company accounts for the value of MMHLLC at its underlying U.S. GAAP equity value less adjustments for the limited statutory basis of accounting related to foreign insurance subsidiaries and controlled affiliated entities as well as an adjustment of \$620 million as of December 31, 2023 for a portion of its noncontrolling interests (NCI). Glidepath is valued on it is underlying GAAP equity with adjustment to recognize its investment in MM Ascend based on MM Ascend's underlying statutory surplus, adjusted

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

for any unamortized goodwill that would have been recognized under the statutory purchase method. Operating results, less dividends declared, for MMHLLC, Glidepath and MMIH are reflected as net unrealized capital gains in the Statutory Statements of Changes in Surplus. Dividends declared from MMHLLC, Glidepath and MMIH are recorded in net investment income when declared and are limited to MMHLLC, Glidepath and MMIH's U.S. GAAP retained earnings. The cost basis of common stocks – subsidiaries and affiliates is adjusted for impairments deemed to be other than temporary.

Refer to *Note 5c. "Common stocks - subsidiaries and affiliates"* for further information on the valuation of MMHLLC.

f. Common stocks – unaffiliated

Unaffiliated common stocks are carried at fair value, which is based on quoted market prices when available. If quoted market prices are not available, values provided by third-party organizations are used. If values from third parties are unavailable, fair values are determined by management using estimates based upon internal models. The Company's internal models include estimates based upon comparable company analysis, review of financial statements, broker quotes and last traded price. Fair values resulting from internal models are those expected to be received in an orderly transaction between willing market participants.

Refer to *Note 2dd. "Net realized capital (losses) gains including other-than-temporary impairments and unrealized capital gains (losses)"* for information on the Company's policy for determining OTTI.

g. Mortgage loans

Mortgage loans are valued at the unpaid principal balance of the loan, net of unamortized premium, discount, mortgage origination fees and valuation allowances. Interest income earned on impaired loans is accrued on the outstanding principal balance of the loan based on the loan's contractual coupon rate. Interest is not accrued for (a) impaired loans more than 60 days past due, (b) delinquent loans more than 90 days past due, or (c) loans that have interest that is not expected to be collected. The Company continually monitors mortgage loans where the accrual of interest has been discontinued, and will resume the accrual of interest on a mortgage loan when the facts and circumstances of the borrower and property indicate that the payments will continue to be received according to the terms of the original or modified mortgage loan agreement.

h. Policy loans

Policy loans are carried at the outstanding loan balance less amounts unsecured by the cash surrender value of the policy and amounts ceded to reinsurers.

i. Real estate

Investment real estate, which the Company has the intent to hold for the production of income, and real estate occupied by the Company are carried at depreciated cost, less encumbrances. Depreciation is calculated using the straight-line method over the estimated useful life of the real estate holding, not to exceed 40 years. Depreciation expense is included in net investment income.

Real estate held for sale is initially carried at the lower of depreciated cost or fair value less estimated selling costs and is no longer depreciated. Adjustments to carrying value, including for further declines in fair value, are recorded in a valuation reserve, which is included in net realized capital (losses) gains.

Fair value is generally estimated using the present value of expected future cash flows discounted at a rate commensurate with the underlying risks, net of encumbrances. The Company also obtains external appraisals for a rotating selection of properties annually. If an external appraisal is not obtained, an internal appraisal is performed.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

j. Partnerships and limited liability companies

Partnerships and limited liability companies, except for partnerships that generate and realize low income housing tax credits (LIHTCs), are accounted for using the equity method with the change in the equity value of the underlying investment recorded in surplus. Distributions received are recognized as net investment income to the extent the distribution does not exceed previously recorded accumulated undistributed earnings.

Investments in partnerships that generate LIHTCs are carried at amortized cost unless considered impaired. Under the amortized cost method, the excess of the carrying value of the investment over its estimated residual value is amortized into net investment income during the period in which tax benefits are recognized.

The equity method is suspended if the carrying value of the investment is reduced to zero due to losses from the investment. Once the equity method is suspended, losses are not recorded until the investment returns to profitability and the equity method is resumed. However, if the Company has guaranteed obligations of the investment or is otherwise committed to provide further financial support for the investment, losses will continue to be reported up to the amount of those guaranteed obligations or commitments.

k. Derivatives

Interest rate swaps and credit default swaps associated with replicated assets are valued at amortized cost and all other derivative types are carried at fair value, which is based primarily upon quotations obtained from counterparties and independent sources. These quotations are compared to internally derived prices and a price challenge is lodged with the counterparties and independent sources when a significant difference cannot be explained by appropriate adjustments to the internal model. When quoted market values are not reliable or available, the value is based on an internal valuation process using market observable inputs that other market participants would use. Changes in the fair value of these instruments other than interest rate swaps and credit default swaps associated with replicated synthetic investments are recorded as unrealized capital gains (losses) in surplus. Gains and losses realized on settlement, termination, closing or assignment of contracts are recorded in net realized capital (losses) gains. Amounts receivable and payable are accrued as net investment income.

l. Cash, cash equivalents and short-term investments

Cash and cash equivalents, which are carried at amortized cost, consist of all highly liquid investments purchased with original maturities of three months or less.

Short-term investments, which are carried at amortized cost, consist of short-term bonds, money market mutual funds and all highly liquid investments purchased with maturities of greater than three months and less than or equal to 12 months.

The carrying value reported in the Statutory Statements of Financial Position for cash, cash equivalents and short-term investment instruments approximates the fair value.

m. Investment income due and accrued

Accrued investment income consists primarily of interest and dividends. Interest is recognized on an accrual basis and dividends are recorded as earned on the ex-dividend date.

n. Federal income taxes

Total federal income taxes are based upon the Company's best estimate of its current and DTAs or deferred tax assets or liabilities. Current tax expense (benefit) is reported in the Statutory Statements of Operations as federal income tax expense (benefit) if resulting from operations and within net realized capital (losses) gains if resulting from invested asset transactions. Changes in the balances of net deferred taxes, which provide for book-to-tax temporary differences, are subject to limitations and are reported within various lines within surplus. Accordingly, the reporting of book-to-tax temporary differences, such as reserves and policy acquisition costs, and of book-to-tax permanent differences, such as tax-exempt interest and tax credits, may result in effective tax rates in the Statutory Statements of Operations that differ from the federal statutory tax rate.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

o. Other than invested assets

Other than invested assets primarily includes the Company's investment in corporate-owned life insurance, deferred and uncollected life insurance premium, receivable from subsidiaries and affiliates, reinsurance recoverable, fixed assets and other receivables.

p. Separate accounts

Separate accounts and sub-accounts are segregated funds administered and invested by the Company, the performance of which primarily benefits the policyholders/contract holders with an interest in the separate accounts. Group and individual variable annuity, variable life and other insurance policyholders/contract holders select from among the separate accounts and sub-accounts made available by the Company. The separate accounts and sub-accounts are offered as investment options under certain insurance contracts or policies. The returns produced by separate account assets increase or decrease separate account reserves. Separate account assets consist principally of marketable securities reported at fair value. Except for the Company's seed money, supplemental accounts and certain guaranteed separate accounts issued in Minnesota, separate account assets can only be used to satisfy separate account liabilities and are not available to satisfy the general obligations of the Company. Separate account administrative and investment advisory fees are included in fees and other income.

Assets may be transferred from the general investments of the Company to seed the separate accounts. When assets are transferred, they are transferred at fair market value. Gains related to the transfer are deferred to the extent that the Company maintains a proportionate interest in the separate account. The deferred gain is recognized as the Company's ownership decreases or when the underlying assets are sold. Losses associated with these transfers are recognized immediately.

Separate accounts reflect two categories of risk assumption: nonguaranteed separate accounts for which the policyholder/contract holder assumes the investment risk and guaranteed separate accounts for which the Company contractually guarantees a minimum return, a minimum account value, or both to the policyholder/contract holder. For certain guaranteed separate account products such as interest rate guaranteed products and indexed separate account products, reserve adequacy is performed on a contract-by-contract basis using, as applicable, prescribed interest rates, mortality rates and asset risk deductions. If the outcome from this adequacy analysis produces a deficiency relative to the current account value, a liability is recorded in policyholders' reserves or liabilities for deposit-type contracts in the Statutory Statements of Financial Position with the corresponding change in the liability recorded as change in policyholders' reserves or policyholders' benefits in the Statutory Statements of Operations.

Premium income, benefits and expenses of the separate accounts are included in the Statutory Statements of Operations with the offset recorded in the change in policyholders' reserves. Investment income, realized capital gains (losses) and unrealized capital gains (losses) on the assets of separate accounts, other than seed money, accrue to policyholders/contract holders and are not recorded in the Statutory Statements of Operations.

q. Nonadmitted assets

Assets designated as nonadmitted by the NAIC primarily include pension plan assets, intangibles, certain electronic data processing equipment, advances and prepayments, certain investments in partnerships and limited liability companies for which qualifying audits are not performed, the amount of DTAs (subject to certain limitations) that will not be realized by the end of the third calendar year following the current year end, furniture and equipment, certain other receivables and uncollected premium greater than 90 days past due. Due and accrued income is nonadmitted on: (a) bonds delinquent more than 90 days or where collection of interest is improbable; (b) impaired bonds more than 60 days past due; (c) bonds in default; (d) mortgage loans in default where interest is 180 days past due; (e) rent in arrears for more than 90 days; and (f) policy loan interest due and accrued more than 90 days past due and included in the unpaid balance of the policy loan in excess of the cash surrender value of the underlying contract. Assets that are designated as nonadmitted are excluded from the Statutory Statements of Financial Position through a change in nonadmitted assets on the Statutory Statements of Changes in Surplus.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

r. Reinsurance

The Company enters into reinsurance agreements with affiliated and unaffiliated insurers in the normal course of business to limit its insurance risk or to assume business.

Premium income, policyholders' benefits (including unpaid claims) and policyholders' reserves are reported net of reinsurance. Premium, benefits and reserves related to reinsured business are accounted for on bases consistent with those used in accounting for the original policies issued and the terms of the reinsurance contracts. The Company records a receivable for reinsured benefits paid, but not yet reimbursed by the reinsurer and reduces policyholders' reserves for the portion of insurance liabilities that are reinsured. Commissions and expense allowances on reinsurance ceded and modified coinsurance (Modco) reserve adjustments on reinsurance ceded are recorded as revenue. Commissions and expense allowances on Retirement Plan Group reinsurance assumed and Modco reserve adjustments on reinsurance assumed are recorded as an expense.

s. Policyholders' reserves

Policyholders' reserves are developed by actuarial methods that will provide for the present value of estimated future obligations in excess of estimated future premium on policies in force and are determined based on either statutory prescribed mortality/morbidity tables using specified interest rates and valuation methods, or principles-based reserving under Valuation Manual -20 which considers a wide range of future economic conditions, computed using justified company experience factors, such as mortality, policyholder behavior and expenses.

The Company waives deduction of deferred fractional premium at death and returns any portion of the final premium beyond the date of death. Reserves are computed using continuous functions to reflect these practices.

The Company charges a higher premium on certain contracts that cover substandard mortality risk. For these policies, the reserve calculations are based on a substandard mortality rate, which is a multiple of the standard mortality tables.

Certain variable universal life and universal life contracts include features such as guaranteed minimum death benefits (GMDB) or other guarantees that ensure continued death benefit coverage when the policy would otherwise lapse. The value of the guarantee is only available to the beneficiary in the form of a death benefit. The liability for variable and universal life GMDBs and other guarantees is included in policyholders' reserves and the related change in this liability is included in change in policyholders' reserves in the Statutory Statements of Operations.

Certain individual variable annuity and fixed annuity products have a variety of additional guarantees such as GMDBs and variable annuity guaranteed living benefits (VAGLB). The primary types of VAGLBs include guaranteed minimum accumulation benefits (GMAB), guaranteed minimum income benefits (GMIB) including GMIB Basic and GMIB Plus and guaranteed lifetime withdrawal benefits (GLWB). In general, these benefit guarantees require the contract owner or policyholder to adhere to a company-approved asset allocation strategy. The liabilities for individual variable annuity GMDBs and VAGLBs are included in policyholders' reserves in the Statements of Financial Position and the related changes in these liabilities are included in change in policyholders' reserves in the Statutory Statements of Operations.

Separate accounts include certain group annuity contracts used to fund retirement plans that offer a guarantee of a contract holder's principal, which can be withdrawn over a stated period of time. These contracts offer a stated rate of return backed by the Company. Contract payments are not contingent upon the life of the retirement plan participants.

Unpaid claims and claim expense reserves are related to disability and LTC claims. Unpaid disability claim liabilities are projected based on the average of the last three disability payments. LTC unpaid claim liabilities are projected using policy specific daily benefit amounts and aggregate utilization factors. Claim expense reserves are based on an analysis of the unit expenses related to the processing and examination of new and ongoing claims. Interest accrued on reserves is calculated by applying NAIC prescribed interest rates to the average reserves by year incurred.

Tabular interest, tabular reserves, reserves released, and tabular cost for all life and annuity contracts and supplementary contracts involving life contingencies are determined in accordance with NAIC Annual Statement instructions. For tabular interest, whole life and term products use a formula that applies a weighted average interest

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

rate determined from a seriatim valuation file to the mean average reserves. Universal life, variable life, group life, annuity and supplemental contracts use a formula that applies a weighted average credited rate to the mean account value. For contracts without an account value (e.g., a Single Premium Immediate Annuity) a weighted average statutory valuation rate is applied to the mean statutory reserve or accepted actuarial methods using applicable interest rates are applied.

All policyholders' reserves and accruals are presented net of reinsurance. Management believes that these liabilities and accruals represent management's best estimate and will be sufficient, in conjunction with future revenues, to meet future anticipated obligations of policies and contracts in force.

t. Liabilities for deposit-type contracts

Liabilities for funding agreements, dividend accumulations, premium deposit funds, investment-type contracts such as supplementary contracts not involving life contingencies and certain structured settlement annuities are based on account value or accepted actuarial methods using applicable interest rates.

u. Participating contracts

Participating contracts are those that may be eligible to share in any dividends declared by the Company. Participating contracts issued by the Company represented 53% of the Company's policyholders' reserves and liabilities for deposit-type contracts as of December 31, 2023 and 56% as of December 31, 2022.

v. Policyholders' dividends

Dividends expected to be paid to policyholders in the following year are approved annually by MassMutual's Board of Directors and are recorded as an expense in the current year. The allocation of these dividends to policyholders reflects the relative contribution of each group of participating policies to surplus and considers, among other factors, investment returns, mortality and morbidity experience, expenses and taxes. The liability for policyholders' dividends includes the estimated amount of annual dividends and settlement dividends. A settlement dividend is an extra dividend payable at termination of a policy upon maturity, death or surrender.

w. Asset valuation reserve

The Company maintains an AVR that is a contingency reserve to stabilize surplus against fluctuations in the carrying value of common stocks, real estate, partnerships and limited liability companies as well as credit-related changes in the value of bonds, preferred stocks, mortgage loans, and certain derivatives. The AVR is reported as a liability within the Statutory Statements of Financial Position and the change in AVR, net of tax, is reported within the Statutory Statements of Changes in Surplus.

x. Repurchase agreements

Repurchase agreements are contracts under which the Company sells securities and simultaneously agrees to repurchase the same or substantially the same securities. These repurchase agreements are carried at cost and accounted for as collateralized borrowings with the proceeds from the sale of the securities recorded as a liability while the underlying securities continue to be recorded as an investment by the Company. Earnings on these investments are recorded as investment income and the difference between the proceeds and the amount at which the securities will be subsequently reacquired is amortized as interest expense. Repurchase agreements are used as a tool for overall portfolio management to help ensure the Company maintains adequate assets in order to provide yield, spread and duration to support liabilities and other corporate needs.

The Company provides collateral, as dictated by the repurchase agreements, to the counterparty in exchange for a loan. If the fair value of the securities sold becomes less than the loan, the counterparty may require additional collateral.

The carrying value reported in the Statutory Statements of Financial Position for repurchase agreements approximates the fair value.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

y. Commercial paper

The Company issues commercial paper (CP) in the form of unsecured notes. Interest on CP is calculated using a 360-day year based on the actual number of days elapsed. Due to the short-term nature of CP, the carrying value approximates fair value.

z. Interest maintenance reserve

The Company maintains an IMR that is used to stabilize net income against fluctuations in interest rates. After-tax realized capital gains (losses), which result from changes in interest rates for all types of fixed-income investments and interest-related derivatives, are deferred into the IMR and amortized into net investment income using the grouped amortization method. In the grouped amortization method, assets are grouped based on years of maturity. IMR is reduced by the amount ceded to reinsurers when entering into in force coinsurance ceding agreements. The IMR is included as net negative (Disallowed) IMR for any admitted portion in other than invested assets. Refer to *Note 3. "New accounting standards - Adoption of new accounting standards"* for further information on the adoption of INT 23-O1T - Disallowed IMR. Refer to *Note 7. "Other than invested assets"* for further information on the amount admitted as disallowed IMR.

aa. Employee compensation plans

The Company has a long-term incentive compensation plan, under which certain employees of the Company and its subsidiaries may be issued phantom share-based compensation awards. These awards include Phantom Stock Appreciation Rights (PSARs) and Phantom Restricted Stock (PRS). These awards do not grant an equity or ownership interest in the Company.

PSARs provide the participant with the opportunity to share in the value created in the total enterprise. The PSAR value is the appreciation in the phantom stock price between the grant price and the share price at the time of exercise. Awards can only be settled in cash. PSARs typically cliff vest at the end of three years and expire five years after the date of grant. Vested PSARs may be exercised during quarterly two-week exercise periods prior to expiration. The compensation expense for an individual award is recognized over the service period.

PRS provide the participant with the opportunity to share in the value created in the total enterprise. Participants receive the full phantom share value (grant price plus/minus any change in share price) over the award period. Awards can only be settled in cash. PRS typically vests on a graded basis over five years, one third per year after years three, four and five. On each vesting date, a lump sum cash settlement is paid to the participant based on the number of shares vested multiplied by the most recent phantom stock price. Compensation expense is recognized on the accelerated attribution method. The accelerated attribution method recognizes compensation expense over the vesting period by which each separate payout year is treated as if it were, in substance, a separate award.

All awards granted under the Company's plans are compensatory classified awards. Compensation costs are based on the most recent quarterly calculated intrinsic value of the PSARs (current share price less grant price per share not less than zero) and PRS (current share price per share), considering vesting provisions, net of forfeiture assumptions and are included in the Statutory Statements of Financial Position as a liability in general expenses due or accrued. The compensation expense for an individual award is recognized over the service period. The cumulative compensation expense for all outstanding awards in any period is equal to the change in calculated liability period over period. The requisite service period for the awards is the vesting period.

At the time of death or disability, awards contain vesting conditions, whereby employees' unvested awards immediately vest on an accelerated basis with a one-year exercise period for PSARs, full accelerated vesting and settlement for PRS awards.

At the time of retirement, both PRS and PSAR vest according to the original grant terms.

The phantom share price is determined using the enterprise value of each entity within the organization provided it is within a pre-established range calculated using management basis equity method. If outside the range, the maximum or minimum share price established by the management basis equity method would apply, as appropriate.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

bb. Other liabilities

Other liabilities primarily consist of the derivative interest expense liability, remittances and items not allocated, other miscellaneous liabilities, liabilities for employee benefits and accrued separate account transfers.

cc. Premium and related expense recognition

Life insurance premium revenue is generally recognized annually on the anniversary date of the policy. However, premium for flexible products, primarily universal life and variable universal life contracts, is recognized as revenue when received. Annuity premium is recognized as revenue when received. DI and LTC premium is recognized as revenue when due.

Premium revenue is adjusted by the related deferred premium adjustment. Deferred premium adjusts for the overstatement created in the calculation of reserves as the reserve computation assumes the entire year's net premium is collected annually at the beginning of the policy year and does not take into account installment or modal payments.

Commissions and other costs related to issuance of new policies and policy maintenance and settlement costs are charged to current operations when incurred. Surrender fee charges on certain life and annuity products are recorded as a reduction of benefits and expenses.

dd. Net realized capital (losses) gains including other-than-temporary impairments and unrealized capital gains (losses)

Net realized capital (losses) gains, net of taxes, exclude gains (losses) deferred into the IMR and gains (losses) of the separate accounts. Net realized capital (losses) gains, including OTTI, are recognized in net income and are determined using the specific identification method.

Bonds - general

The Company employs a systematic methodology to evaluate OTTI by conducting a quarterly analysis of bonds. OTTI is evaluated in a manner consistent with market participant assumptions. The Company considers the following factors, where applicable depending on the type of securities, in the evaluation of whether a decline in value is other than temporary: (a) the likelihood that the Company will be able to collect all amounts due according to the contractual terms of the debt security; (b) the present value of the expected future cash flows of the security; (c) the characteristics, quality and value of the underlying collateral or issuer securing the position; (d) collateral structure; (e) the length of time and extent to which the fair value has been below amortized cost; (f) the financial condition and near-term prospects of the issuer; (g) adverse conditions related to the security or industry; (h) the rating of the security; (i) the Company's ability and intent to hold the investment for a period of time sufficient to allow for an anticipated recovery to amortized cost; and (j) other qualitative and quantitative factors in determining the existence of OTTI including, but not limited to, unrealized loss trend analysis and significant short-term changes in value.

In addition, if the Company has the intent to sell, or the inability, or lack of intent to retain the investment for a period sufficient to recover the amortized cost basis, an OTTI is recognized as a realized loss equal to the entire difference between the investment's amortized cost basis and its fair value at the balance sheet date.

When a bond is other-than-temporarily impaired, a new cost basis is established.

Bonds - corporate

For corporate securities, if it is determined that a decline in the fair value of a bond is other than temporary, OTTI is recognized as a realized loss equal to the difference between the investment's amortized cost basis and, generally, its fair value at the balance sheet date.

The Company analyzes investments whose fair value is below the cost for impairment. Generally, if the investment experiences significant credit or interest rate related deterioration, the cost of the investment is not recoverable, or the Company intends to sell the investment before anticipated recovery, an OTTI is recognized as realized investment loss.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

Bonds - loan-backed and structured securities

For loan-backed and structured securities, if the present value of cash flows expected to be collected is less than the amortized cost basis of the security, an OTTI is recognized as a realized loss equal to the difference between the investment's amortized cost basis and the present value of cash flows expected to be collected. The expected cash flows are discounted at the security's effective interest rate. Internal inputs used in determining the amount of the OTTI on structured securities include collateral performance, prepayment speeds, default rates, and loss severity based on borrower and loan characteristics, as well as deal structure including subordination, over-collateralization and cash flow priority.

ABS and MBS are evaluated for OTTI using scenarios and assumptions based on the specifics of each security including collateral type, loan type, vintage and subordination level in the structure. Cash flow estimates are based on these assumptions and inputs obtained from external industry sources along with internal analysis and actual experience. Where applicable, assumptions include prepayment speeds, default rates and loss severity, weighted average maturity and changes in the underlying collateral values.

The Company has a review process for determining if CDOs are at risk for OTTI. For the senior, mezzanine and junior debt tranches, cash flows are modeled using multiple scenarios based on the current ratings and values of the underlying corporate credit risks and incorporating prepayment and default assumptions that vary according to collateral attributes of each CDO. The prepayment and default assumptions are varied within each model based upon rating (base case), historical expectations (default), rating change improvement (optimistic), rating change downgrade (pessimistic) and fair value (market). The default rates produced by these multiple scenarios are assigned an expectation weight according to current market and economic conditions and fed into a final scenario. OTTI is recorded if this final scenario results in the loss of any principal or interest payments due.

For the most subordinated junior CDO tranches, the present value of the projected cash flows in the final scenario is measured using an effective yield. If the current book value of the security is greater than the present value measured using an effective yield, an OTTI is taken in an amount sufficient to produce its effective yield. Certain CDOs cannot be modeled using all of the scenarios because of limitations on the data needed for all scenarios. The cash flows for these CDOs, including foreign currency denominated CDOs, are projected using a customized scenario management believes is reasonable for the applicable collateral pool.

For loan-backed and structured securities, any difference between the new amortized cost basis and any increased present value of future cash flows expected to be collected is accreted into net investment income over the expected remaining life of the bond.

Common and preferred stock

The cost basis of common and preferred stocks is adjusted for impairments deemed to be other than temporary. The Company considers the following factors in the evaluation of whether a decline in value is other than temporary: (a) the financial condition and near-term prospects of the issuer; (b) the Company's ability and intent to retain the investment for a period sufficient to allow for a near-term recovery in value; and (c) the period and degree to which the value has been below cost. The Company conducts a quarterly analysis of issuers whose common or preferred stock is not-in-good standing or valued below 80% of cost. The Company also considers other qualitative and quantitative factors in determining the existence of OTTI including, but not limited to, unrealized loss trend analysis and significant short-term changes in value.

Mortgage loans

The Company performs internal reviews at least annually to determine if individual mortgage loans are performing or nonperforming. The fair values of performing mortgage loans are estimated by discounting expected future cash flows using current interest rates for similar loans with similar credit risk. For nonperforming loans, the fair value is the estimated collateral value of the underlying real estate. If foreclosure is probable, the Company will obtain an external appraisal.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

Mortgage loans are considered to be impaired when, based upon current available information and events, it is probable that the Company will be unable to collect all amounts of principal and interest due according to the contractual terms of the mortgage loan agreement. A valuation allowance is recorded on a loan-by-loan basis in net unrealized capital losses for the excess of the carrying value of the mortgage loan over the fair value of its underlying collateral. Such information or events could include property performance, capital budgets, future lease roll, a property inspection as well as payment trends. Collectability and estimated decreases in collateral values are also assessed on a loan-by-loan basis considering all events and conditions relevant to the loan. This evaluation is inherently subjective as it requires estimates that are susceptible to significant revisions as more information becomes available, as changes occur in the market or as negotiations with the borrowing entity evolve. If there is a change in the fair value of the underlying collateral or the estimated loss on the loan, the valuation allowance is adjusted accordingly. An OTTI occurs upon the realization of a credit loss, typically through foreclosure or after a decision is made to accept a discounted payoff, and is recognized in realized capital losses. The previously recorded valuation allowance is reversed from unrealized capital losses. When an OTTI is recorded, a new cost basis is established reflecting estimated value of the collateral.

Real estate

For real estate held for the production of income, depreciated cost is adjusted for impairments whenever events or changes in circumstances indicate the carrying amount of the asset may not be recoverable, with the impairment being included in realized capital losses. An impairment is recorded when the property's estimated future net operating cash flows over ten years, undiscounted and without interest charges, is less than book value.

Adjustments to the carrying value of real estate held for sale are recorded in a valuation reserve as realized capital losses when the fair value less estimated selling costs is less than the carrying value.

Partnerships and limited liability companies

When it is probable that the Company will be unable to recover the outstanding carrying value of an investment based on undiscounted cash flows, or there is evidence indicating an inability of the investee to sustain earnings to justify the carrying value of the investment, OTTI is recognized in realized capital losses reflecting the excess of the carrying value over the estimated fair value of the investment. The estimated fair values of limited partnership interests are generally based on the Company's share of the net asset value (NAV) as provided in the financial statements of the investees. In certain circumstances, management may adjust the NAV by a premium or discount when it has sufficient evidence to support applying such adjustments.

For determining impairments in partnerships that generate LIHTCs, the Company uses the present value of all future benefits, the majority of which are tax credits, discounted at a risk-free rate for future benefits of ten or more years and compares the results to its current book value. Impairments are recognized in realized capital losses reflecting the excess of the carrying value over the estimated fair value of the investment.

Unrealized capital gains (losses)

Unrealized capital gains (losses) include changes in the fair value of derivatives, excluding interest rate swaps and credit default index swaps associated with replicated assets; currency translation adjustments on foreign-denominated bonds; changes in the fair value of unaffiliated common stocks; changes in the fair value of bonds and preferred stocks that are carried at fair value; and changes in the inflation adjustments on U.S Treasury inflation-indexed securities. Changes in the Company's equity investments in partnerships and limited liability companies, including the earnings as reported on the financial statements, earnings recorded as accumulated undistributed earnings, foreign exchange asset valuation and mark-to-market on operating assets, and certain subsidiaries and affiliates are also reported as changes in unrealized capital gains (losses). Unrealized capital gains (losses) are recorded as a change in net unrealized capital gains (losses), net of tax, within the Statutory Statements of Changes in Surplus.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

3. New accounting standards

Adoption of new accounting standards

In June 2022, the NAIC adopted modifications to SSAP No. 25, Affiliates and Other Related Parties and SSAP No. 43R, Loan-Backed and Structured Securities, effective December 31, 2022. The modifications clarify application of the existing affiliate definition and incorporate disclosure requirements for all investments that involve related parties, regardless of whether they meet the affiliate definition. The revisions to SSAP No. 43R also included additional clarifications that the investments from any arrangements that results in direct or indirect control, which include but are not limited to control through a servicer, shall be reported as affiliated investments. The modifications did not have a material effect on the Company's financial statements.

In August 2023, the NAIC adopted INT 23-01T — Disallowed IMR ("INT 23-01T"). INT 23-01T provides optional, limited-term guidance for the assessment of disallowed IMR for up to 10% of adjusted general account capital and surplus. An insurer's capital and surplus must first be adjusted to exclude certain "soft assets" including net positive goodwill, electronic data processing equipment and operating system software, net deferred tax assets and admitted disallowed IMR. An insurer will only be able to admit the negative IMR if the insurer's risk-based capital is over 300% authorized control level after adjusting to remove the assets described above.

As adopted, negative IMR may be admitted first in the insurer's general account and then, if all disallowed IMR in the general account is admitted and the percentage limit is not reached, to the separate account proportionately between insulated and noninsulated accounts. If the insurer can demonstrate historical practice in which acquired gains from derivatives were also reversed to IMR (as liabilities) and amortized, there is no exclusion for derivatives losses. INT 23-01T was adopted by the Company as of September 30, 2023 and will be effective through December 31, 2025. To the extent the Company's IMR balance is a net negative, the effects of INT 23-01T will be reflected in the Company's financial position, results of operations, and financial statement disclosures. The Company has adopted this guidance and the adoption resulted in an admitted disallowed IMR of \$1,112 million.

In August 2023, the NAIC adopted revisions to clarify and incorporate a new bond definition within disclosures SSAP No. 26 – *Bonds*, SSAP No. 43 – *Asset-Backed Securities*, and other related SSAPs, effective January 1, 2025. The revisions were issued in connection with its principle-based bond definition project, the Bond Project.

The Bond Project began in October 2020 through the development of a principle-based bond definition to be used for all securities in determining whether they qualify for reporting on the statutory annual statement Schedule D. Within the new bond definition, bonds are classified as an "issuer credit obligation" or an "asset-backed security." An "issuer credit obligation" is defined as a bond where repayment is supported by the general creditworthiness of an operating entity, and an "asset-backed security" is defined as a bond issued by an entity created for the primary purpose of raising capital through debt backed by financial assets. The revisions to SSAP No. 26 reflect the principle-based bond definition, and SSAP No. 43 provides accounting and reporting guidance for investments that qualify as asset-backed securities under the new bond definition. Upon adoption, investments that do not qualify as bonds will not be permitted to be reported as bonds on Schedule D, Part 1 thereafter as there will be no grandfathering for existing investments that do not qualify under the revised SSAPs. The Company is currently assessing the impacts of the adopted SSAP No. 26, SSAP No. 43 and other related SSAPs in relation to the financial statements.

In March 2023, the NAIC adopted modifications to SSAP No. 34 – *Investment Income Due and Accrued*, effective December 31, 2023. The modifications require additional disclosures and data capture related to gross, non-admitted and admitted amounts for interest income due and accrued, deferred interest, and paid-in-kind (PIK) interest.

In August 2023, the NAIC adopted revisions to further clarify the PIK interest disclosure in SSAP No. 34, effective December 31, 2023. The revisions clarify that decreasing amounts to principal balances are first applied to any PIK interest included in the principal balance. The original principal would not be reduced until the PIK interest had been fully eliminated from the balance. The revisions also provide a practical expedient for determining the PIK interest in the cumulative balance by subtracting the original principal/ par value from the current principal/ par value, with the resulting PIK interest not to go less than zero. The modifications did not have a material effect on the Company's impact of PIK in relation to the financial statements.

Common stocks - subsidiaries and affiliates do not include unconsolidated subsidiaries, which had statutory carrying values of \$24,223 million.

Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The authoritative guidance for fair value establishes a measurement framework that includes a hierarchy used to classify the inputs used in measuring fair value. The hierarchy prioritizes the inputs to valuation techniques into three levels. Each level reflects a unique description of the inputs that are significant to the fair value measurements. The levels of the fair value hierarchy are as follows:

Level 1 – Observable inputs in the form of quoted prices for identical instruments in active markets.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be derived from observable market data for substantially the full term of the assets or liabilities.

Level 3 – One or more unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using internal models, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

When available, the Company generally uses unadjusted quoted market prices from independent sources to determine the fair value of investments, and classifies such items within Level 1 of the fair value hierarchy. If quoted prices are not available, prices are derived from observable market data for similar assets in an active market or obtained directly from brokers for identical assets traded in inactive markets. Investments that are priced using these inputs are classified within Level 2 of the fair value hierarchy. When some of the necessary observable inputs are unavailable, fair value is based upon internally developed models. These models use inputs not directly observable or correlated with observable market data. Typical inputs, which are integrated in the Company's internal discounted cash flow models and discounted earnings models include, but are not limited to, issuer spreads derived from internal credit ratings and benchmark yields such as SOFR, cash flow estimates and earnings before interest, taxes, depreciation and amortization estimates. Investments that are priced with such unobservable inputs are classified within Level 3 of the fair value hierarchy.

The Company reviews the fair value hierarchy classifications at each reporting period. Overall, reclassifications between levels occur when there are changes in the observability of inputs and market activity used in the valuation of a financial asset or liability. Such reclassifications are reported as transfers between levels at the beginning fair value for the reporting period in which the changes occur. Given the types of assets classified as Level 1 (primarily equity securities including mutual fund investments), transfers between Level 1 and Level 2 measurement categories are expected to be infrequent. Transfers into and out of Level 3 are summarized in the schedule of changes in Level 3 assets and liabilities.

The fair value of group annuity contracts and other deposits is determined by multiplying the book value of the contract by an average market value adjustment factor. The market value adjustment factor is directly related to the difference between the book value of client liabilities and the present value of installment payments discounted at current market value yields. The market value yield is measured by the Barclay's Aggregate Bond Index, subject to certain adjustments, and the installment period is equivalent to the duration of the Company's invested asset portfolio.

The fair value of individual annuity and supplementary contracts is determined using one of several methods based on the specific contract type. For short-term contracts, generally less than 30 days, the fair value is assumed to be the book value. For contracts with longer durations, GICs and investment-type contracts, the fair value is determined by calculating the present value of future cash flows discounted at current market interest rates, the risk-free rate or a current pricing yield curve based on pricing assumptions using assets of a comparable corporate bond quality. Annuities receiving dividends are accumulated at the average minimum guaranteed rate and discounted at the risk-free rate. All others are valued using cash flow projections from the Company's asset/liability management analysis.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

The following presents the Company's fair value hierarchy for assets and liabilities that are carried at fair value:

	December 31, 2023

The Company reviews the fair value hierarchy classifications each reporting period. Changes in the observability of the valuation attributes and the level of market activity may result in a reclassification of certain financial assets or liabilities between fair value hierarchy classifications. Such reclassifications are reported as transfers between levels in the beginning fair value for the reporting period in which the changes occur.

Valuation Techniques and Inputs

The Company determines the fair value of its investments using primarily the market approach or the income approach. The use of quoted prices for identical assets and matrix pricing or other similar techniques are examples of market approaches, while the use of discounted cash flow methodologies is an example of the income approach. The Company attempts to maximize the use of observable inputs and minimize the use of unobservable inputs in selecting whether the market or the income approach is used.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

A description of the significant valuation techniques and inputs to the determination of estimated fair value for the more significant asset and liability classes measured at fair value on a recurring basis and categorized within Level 2 and Level 3 of the fair value hierarchy is as follows:

Separate account assets – These assets primarily include bonds (industrial and miscellaneous; U.S. government and agencies), and derivatives. Their fair values are determined as follows:

Bonds (Industrial and miscellaneous) – These securities are principally valued using the market or the income approaches. Level 2 valuations are based primarily on quoted prices in markets that are not active, broker quotes, matrix pricing or other similar techniques that use standard market observable inputs such as benchmark yields, spreads versus benchmark yields, new issuances, issuer ratings, duration, and trades of identical or comparable securities. Privately placed securities are valued using discounted cash flow models using standard market observable inputs, and inputs derived from, or corroborated by, market observable data including market yield curve, duration, call provisions, observable prices and spreads for similar publicly traded or privately traded issuances that incorporate the credit quality and industry sector of the issuer. This level also includes securities priced by independent pricing services that use observable inputs. Valuations based on matrix pricing or other similar techniques that utilize significant unobservable inputs or inputs that cannot be derived principally from, or corroborated by, observable market data, including adjustments for illiquidity, delta spread adjustments or spreads to reflect industry trends or specific credit-related issues are classified as Level 3. In addition, inputs including quoted prices for identical or similar securities that are less liquid and based on lower levels of trading activity than securities classified in Level 2 are classified as Level 3.

Bonds (U.S. government and agencies) – These securities are principally valued using the market approach. Level 2 valuations are based primarily on quoted prices in markets that are not active, or using matrix pricing or other similar techniques using standard market observable inputs such as the benchmark U.S. Treasury yield curve, the spreads versus the U.S. Treasury yield curve for the identical security and comparable securities that are actively traded.

Derivative assets and liabilities – These financial instruments are primarily valued using the market approach. The estimated fair value of derivatives is based primarily on quotations obtained from counterparties and independent sources, such as quoted market values received from brokers. These quotations are compared to internally derived prices and a price challenge is lodged with the counterparties and an independent source when a significant difference cannot be explained by appropriate adjustments to the internal model. When quoted market values are not reliable or available, the value is based upon an internal valuation process using market observable inputs that other market participants would use. Significant inputs to the valuation of derivative financial instruments include overnight index swaps (OIS) and SOFR basis curves, interest rate volatility, swap yield curve, currency spot rates, cross currency basis curves and dividend yields. Due to the observability of the significant inputs to these fair value measurements, they are classified as Level 2.

The use of different assumptions or valuation methodologies may have a material impact on the estimated fair value amounts. For the periods presented, there were no significant changes to the Company's valuation techniques.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

The following presents changes in the Company's Level 3 assets carried at fair value:

	Balance as of 1/1/23	Gains (Losses) in Net Income	Losses (Gains) in Surplus	Purchases	Issuances	Sales	Settlements	Transfers			Balance as of 12/31/23

Total	\$ 57,388	\$ 5,776	3,015	\$ 31,177	\$ 7,062	1,926

The December 31, 2022 gross unrealized losses include \$102 million of losses included in the carrying value. These losses include \$104 million from NAIC Class 6 bonds and \$(2) million from RMBS and CMBS whose ratings were obtained from outside modelers. These losses were primarily included in industrial and miscellaneous or parent, subsidiaries and affiliates.

As of December 31, 2023 and 2022, management has not deemed these unrealized losses to be other than temporary because the investment's carrying value is expected to be realized and the Company has the ability and intent not to sell these investments until recovery, which may be at maturity.

As of December 31, 2023, investments in structured and loan-backed securities that had unrealized losses, which were not recognized in earnings, had a fair value of \$17,178 million. Securities in an unrealized loss position for less than 12 months had a fair value of \$2,151 million and unrealized losses of \$48 million. Securities in an unrealized loss position for greater than 12 months had a fair value of \$15,027 million and unrealized losses of \$1,261 million. These securities were primarily categorized as industrial and miscellaneous or parent, subsidiaries and affiliates.

As of December 31, 2022, investments in structured and loan-backed securities that had unrealized losses, which were not recognized in earnings, had a fair value of \$20,311 million. Securities in an unrealized loss position for less than 12 months had a fair value of \$14,684 million and unrealized losses of \$892 million. Securities in an unrealized loss position for greater than 12 months had a fair value of \$5,624 million and unrealized losses of \$894 million. These securities were primarily categorized as industrial and miscellaneous or parent, subsidiaries and affiliates.

In the course of the Company's investment management activities, securities may be sold and reacquired within 30 days to enhance the Company's yield on its investment portfolio. The Company did not sell any securities with the NAIC Designation 3 or below for the years ended December 31, 2023 or 2022, that were reacquired within 30 days of the sale date.

The Company had assets on deposit with government authorities or trustees, as required by law, in the amount of \$10 million as of December 31, 2023 and December 31, 2022.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

Residential mortgage-backed exposure

RMBS are included in the U.S. government and agencies, special revenue, and industrial and miscellaneous bond categories. The Alt-A category includes option adjustable-rate mortgages and the subprime category includes 'scratch and dent' or reperforming pools, high loan-to-value pools, and pools where the borrowers have very impaired credit but the average loan-to-value is low, typically 70% or below. In identifying Alt-A and subprime exposure, management used a combination of qualitative and quantitative factors, including FICO scores and loan-to-value ratios.

As of December 31, 2023, RMBS had a total carrying value of \$3,775 million and a fair value of \$3,756 million, of which approximately 4%, based on carrying value, was classified as Alt-A. Alt-A and subprime RMBS had a total carrying value of \$1,326 million and a fair value of \$1,312 million. As of December 31, 2022, RMBS had a total carrying value of \$2,308 million and a fair value of \$2,266 million, of which approximately 8%, based on carrying value, was classified as Alt-A. Alt-A and subprime RMBS had a total carrying value of \$999 million and a fair value of \$993 million.

During the year ended December 31, 2023, there were no significant credit downgrades for the securities held by the Company that were backed by residential mortgage pools.

Leveraged loan exposure

Leveraged loans are loans extended to companies that already have considerable amounts of debt. The Company reports leveraged loans as bonds. These leveraged loans have interest rates higher than typical loans, reflecting the additional risk of default from issuers with high debt-to-equity ratios.

As of December 31, 2023, total leveraged loans and leveraged loan CDOs had a carrying value of \$27,844 million and a fair value of \$27,509 million, of which approximately 80%, based on carrying value, were domestic leveraged loans and CDOs. As of December 31, 2022, total leveraged loans and leveraged loan CDOs had a carrying value of \$26,332 million and a fair value of \$25,664 million, of which approximately 81%, based on carrying value, were domestic leveraged loans and CDOs.

Commercial mortgage-backed exposure

The Company holds bonds backed by pools of commercial mortgages. The mortgages in these pools have varying risk characteristics related to underlying collateral type, borrower's risk profile and ability to refinance and the return provided to the borrower from the underlying collateral. These investments had a carrying value of \$2,693 million and fair value of \$2,285 million as of December 31, 2023 and a carrying value of \$2,669 million and fair value of \$2,285 million as of December 31, 2022.

b. Preferred stocks

The carrying value and fair value of preferred stocks were as follows:

	December 31,	
	2023	2022
	(In Millions)	
Carrying value	\$ 446	\$ 451
Gross unrealized gains	29	9
Gross unrealized losses	(5)	(14)
Fair value	<u>\$ 470</u>	<u>\$ 446</u>

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

As of December 31, 2023, investments in preferred stocks in an unrealized loss position included holdings with a fair value of \$267 million in 19 issuers, \$265 million of which was in an unrealized loss position for more than 12 months. As of December 31, 2022, investments in preferred stocks in an unrealized loss position included holdings with a fair value of \$245 million in 17 issuers, \$55 million of which was in an unrealized loss position for more than 12 months. Based upon the Company's impairment review process discussed in *Note 2dd*, "*Net realized capital (losses) gains including other-than-temporary impairments and unrealized capital gains (losses)*" the decline in value of these securities was not considered to be other than temporary as of December 31, 2023 or 2022.

The Company held preferred stocks for which the transfer of ownership was restricted by contractual requirements with carrying values of \$201 million as of December 31, 2023 and \$323 million as of December 31, 2022.

c. Common stocks – subsidiaries and affiliates

The Company has two primary domestic life insurance subsidiaries, C.M. Life, which primarily provides fixed and variable annuities and universal life insurance business, and MML Bay State, a subsidiary of C.M. Life, which primarily issues variable life and bank-owned life insurance policies.

Summarized below is certain combined statutory financial information for the unconsolidated domestic life insurance subsidiaries:

	As of and for the Years Ended December 31,		
	2023	2022	2021
	(In Millions)		
Total revenue	\$ 433	\$ 577	\$ 682
Net income	48	155	106
Assets	12,653	12,870	14,270
Liabilities	10,515	11,090	12,636
Shareholder's equity	2,138	1,780	1,634

In 2023, C.M. Life did not pay any dividends to MassMutual and paid \$163 million in dividends to MassMutual in 2022.

In 2023, MassMutual did not make any contributions to C.M. Life and contributed capital of \$50 million to C.M. Life in 2022.

MMHLLC, a wholly-owned subsidiary of MassMutual, is the parent of subsidiaries that include Barings LLC (Barings) and deals in markets that include retail and institutional asset management entities and registered broker dealers.

The MMHLLC statutory carrying value was \$17.6 billion, which included \$106 million of nonadmitted asset adjustments as of December 31, 2023 and \$17.2 billion as of December 31, 2022, which included \$151 million nonadmitted asset adjustments.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

Subsidiaries of MMHLLC are involved in litigation and investigations arising in the ordinary course of their business, which seek compensatory damages, punitive damages and equitable remedies. Although the Company is not aware of any actions or allegations that reasonably could give rise to a material adverse impact to the Company's financial position or liquidity, the outcome of litigation cannot be foreseen with certainty. It is the opinion of management that the ultimate resolution of these matters will not materially impact the Company's financial position or liquidity. However, the outcome of a particular proceeding may be material to the Company's Statutory Statements of Changes in Surplus for a particular period depending upon, among other factors, the size of the loss and the level of the Company's changes in surplus for the period.

The Company does not rely on dividends from its subsidiaries to meet its operating cash flow requirements. For the domestic life insurance subsidiaries, substantially all of their statutory shareholder's equity of \$1,905 million as of December 31, 2023 was subject to dividend restrictions imposed by the State of Connecticut.

For further information on related party transactions with subsidiaries and affiliates, see *Note 17. "Related party transactions"*.

d. Common stocks - unaffiliated

The adjusted cost basis and carrying value of unaffiliated common stocks were as follows:

	December 31,	
	2023	2022
	(In Millions)	
Adjusted cost basis	\$ 1,268	\$ 1,198
Gross unrealized gains	407	317
Gross unrealized losses	(52)	(38)
Carrying value	\$ 1,623	\$ 1,477

As of December 31, 2023, investments in unaffiliated common stocks in an unrealized loss position included holdings with a fair value of \$308 million in 30 issuers, \$289 million of which were in an unrealized loss position for more than 12 months. As of December 31, 2022, investments in unaffiliated common stocks in an unrealized loss position included holdings with a fair value of \$268 million in 68 issuers, \$78 million of which were in an unrealized loss position for more than 12 months. Based upon the Company's impairment review process discussed in *Note 2dd. "Net realized capital (losses) gains including other-than-temporary impairments and unrealized capital gains (losses)"* the decline in value of these securities was not considered to be other than temporary as of December 31, 2023 or 2022.

The Company held common stocks, for which the transfer of ownership was restricted by contractual requirements, with carrying values of \$106 million as of December 31, 2023 and \$135 million as of December 31, 2022.

e. Mortgage loans

Mortgage loans are comprised of commercial mortgage loans and residential mortgage loans. The Company's commercial mortgage loans primarily finance various types of real estate properties throughout the U.S., the United Kingdom and Canada. The Company holds commercial mortgage loans for which it is the primary lender or a participant or co-lender in a mortgage loan agreement and mezzanine loans that are subordinate to senior secured first liens. The Company's loan agreements with the senior lender contain negotiated provisions that are designed to maximize the Company's influence with the objective of mitigating the Company's risks as the secondary lender for mezzanine loans. Commercial mortgage loans have varying risk characteristics including, among others, the borrower's liquidity, the underlying percentage of completion of a project, the returns generated by the collateral, the refinance risk associated with maturity of the loan and deteriorating collateral value.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

Residential mortgage loans are primarily seasoned pools of homogeneous residential mortgage loans substantially backed by Federal Housing Administration (FHA) and Veterans Administration (VA) guarantees. As of December 31, 2023 and 2022, the Company did not have any direct subprime exposure through the purchases of unsecuritized whole-loan pools.

Geographical concentration is considered prior to the purchase of mortgage loans and residential mortgage loan pools. The mortgage loan portfolio is diverse with no significant collateral concentrations in any particular geographic region as of December 31, 2023 or 2022.

The carrying value and fair value of the Company's mortgage loans were as follows:

	December 31, 2023		December 31, 2022	
	Carrying Value	Fair Value	Carrying Value	Fair Value
	(In Millions)			
Commercial mortgage loans:

Mortgage loans	2,096	1,930
Surplus notes	385	389
LIHTCs	128	120
Total	\$ 12,907	\$ 12,296

The Company held 13 affiliated partnerships and limited liability companies in a loss position with accumulated losses of \$63 million as of December 31, 2023, and eight affiliated partnerships and limited liability companies in a loss position with accumulated losses of \$75 million as of December 31, 2022.

The Company's unexpired tax credits expire within a range of less than 1 year to 12 years.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

The Company recorded tax credits on these investments of \$55 million for the year ended December 31, 2023 and \$52 million for the year ended December 31, 2022. The minimum holding period required for the Company's LIHTC investments extends from 1 year to 15 years.

For determining impairments for LIHTC investments, the Company uses the present value of all future benefits, the majority of which are tax credits, discounted at a risk-free rate ranging from 4.4% for future benefits of two years to 3.9% for future benefits of ten or more years, and compares the result to its current carry value. The Company recorded \$14 million of impairments for the year ended December 31, 2023.

h. Derivatives

The Company uses derivative financial instruments in the normal course of business to manage risks, primarily to reduce currency, interest rate and duration imbalances determined in asset/liability analyses. The Company also uses a combination of derivatives and fixed income investments to create replicated synthetic investments. These replicated synthetic investments are created when they are economically more attractive than the actual instrument or when similar instruments are unavailable. Replicated synthetic investments are created either to hedge and reduce the Company's credit exposure or to create an investment in a particular asset. The Company held replicated synthetic investments with a notional amount of \$31,687 million as of December 31, 2023 and \$31,264 million as of December 31, 2022, as defined under statutory accounting practices as the result of pairing of a long derivative contract with cash instruments.

The Company's derivative strategy employs a variety of derivative financial instruments: including interest rate, currency, equity, bond, and credit default swaps; options; forward contracts and financial futures. Investment risk is assessed on a portfolio basis and individual derivative financial instruments are not generally designated in hedging relationships; therefore, as allowed by statutory accounting practices, the Company intentionally has not applied hedge accounting.

Interest rate swaps are primarily used to more closely match the cash flows of assets and liabilities. Interest rate swaps are also used to mitigate changes in the value of assets anticipated to be purchased and other anticipated transactions and commitments. The Company uses currency swaps for the purpose of managing currency exchange risks in its assets and liabilities.

The Company does not sell credit default swaps as a participant in the credit insurance market. The Company does, however, use credit default swaps as part of its investment management process. The Company buys credit default swaps as an efficient means to reduce credit exposure to particular issuers or sectors in the Company's investment portfolio. The Company sells credit default swaps in order to create synthetic investment positions that enhance the return on its investment portfolio by providing comparable exposure to fixed income securities that might not be available in the primary market.

Options grant the purchaser the right to buy or sell a security or enter a derivative transaction at a stated price within a stated period. The Company's option contracts have terms of up to 45 years. A swaption is an option to enter an interest rate swap to either receive or pay a fixed rate at a future date. The Company purchases these options for the purpose of managing interest rate risks in its assets and liabilities.

The Company adopted a clearly defined hedging strategy (CDHS) to enable the Company to incorporate currently held hedges in risk-based capital (RBC) calculations. The CDHS is used to significantly mitigate the impact that movements in capital markets have on the liabilities associated with annuity guarantees. The hedge portfolio consists mainly of interest rate swaps, equity swaps, interest rate swaptions and equity futures, and provides protection in the stress scenarios under which RBC is calculated. The hedge portfolio has offsetting impacts relative to the total asset requirement for RBC and surplus for GMDB and VAGLB.

The Company utilizes certain other agreements including forward contracts and financial futures. In addition, the Company also uses "to be announced" forward contracts (TBAs) to hedge interest rate risk and participate in the mortgage-backed securities market in an efficient and cost-effective way. Typically, the price is agreed upon at contract inception and payment is made at a specified future date. The Company usually does not purchase TBAs with settlement by the first possible delivery date and thus, accounts for these TBAs as derivatives. TBAs that settle on the

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

first possible delivery date are accounted for as bonds. The Company's futures contracts are exchange traded and have credit risk. Margin requirements are met with the deposit of securities. Futures contracts are generally settled with offsetting transactions. Forward contracts and financial futures are used by the Company to reduce exposures to various risks including interest rates and currency rates.

The Company's principal derivative exposures to market risk are interest rate risk, which includes inflation and credit risk. Interest rate risk pertains to the change in fair value of the derivative instruments as a result of changes in market interest rates. The Company is exposed to credit-related losses in the event of nonperformance by counterparties to derivative financial instruments. The Company regularly monitors counterparty credit ratings, derivative positions, valuations and the value of collateral posted to ensure counterparties are credit-worthy and the concentration of exposure is minimized and monitors its derivative credit exposure as part of its overall risk management program.

The Company enters derivative transactions through bilateral derivative agreements with counterparties, or through over the counter cleared derivatives with a counterparty and the use of a clearinghouse. To minimize credit risk for bilateral transactions, the Company and its counterparties generally enter into master netting agreements based on agreed upon requirements that outline the framework for how collateral is to be posted in the amount owed under each transaction, subject to certain minimums. For over the counter cleared derivative transactions between the Company and a counterparty, the parties enter into a series of master netting and other agreements that govern, among other things, clearing and collateral requirements. These transactions are cleared through a clearinghouse and each derivative counterparty is only exposed to the default risk of the clearinghouse. Certain interest rate swaps and credit default swaps are considered cleared transactions. These cleared transactions require initial and daily variation margin collateral postings. These agreements allow for contracts in a positive position, in which amounts are due to the Company, to be offset by contracts in a negative position. This right of offset, combined with collateral obtained from counterparties, reduces the Company's credit exposure.

Net collateral pledged by the counterparties was \$421 million as of December 31, 2023 and \$2,427 million as of December 31, 2022. In the event of default, the full market value exposure at risk in a net gain position, net of offsets and collateral, was \$309 million as of December 31, 2023 and \$634 million as of December 31, 2022. The statutory net amount at risk, defined as net collateral pledged and statement values excluding accrued interest, was \$5,003 million as of December 31, 2023 and \$5,518 million as of December 31, 2022.

The Company had the right to rehypothecate or repledge securities totaling \$1,444 million of the \$421 million as of December 31, 2023 and \$770 million of the \$2,417 million as of December 31, 2022 of net collateral pledged by counterparties. There were no securities rehypothecated to other counterparties as of December 31, 2023 or December 31, 2022.

The following summarizes the carrying values and notional amounts of the Company's derivative financial instruments:

i. Repurchase agreements

The Company had repurchase agreements with carrying values of \$3,221 million as of December 31, 2023 and \$3,042 million as of December 31, 2022. As of December 31, 2023, the maturities of these agreements ranged from January 8, 2024 through March 14, 2024 and the interest rates ranged from 5.52% to 5.6%. The outstanding amounts were collateralized by cash and bonds with a carrying value of \$3,230 million as of December 31, 2023 and \$3,049 million as of December 31, 2022.

k. Net realized capital (losses) gains

Net realized capital (losses) gains, which include OTTI and are net of deferral to the IMR, comprised the following:

	Years Ended December 31,		
	2023	2022	2021
	(In Millions)		
Bonds	\$ (720)	\$ (889)	\$ 199
Preferred stocks	-	(6)	9
Common stocks - subsidiaries and affiliates	24	(13)	10
Common stocks - unaffiliated	15	64	147
Mortgage loans	(73)	(41)	(7)
Real estate	3	127	24
Partnerships and limited liability companies	(314)	(355)	(413)
Derivatives	(344)	(701)	(806)
Other	(7)	(74)	7
Net realized capital losses (gains) before federal and state taxes and deferral to the IMR	(1,416)	(1,888)	(830)
Net federal and state tax benefit (expense)	281	94	(86)
Net realized capital losses before deferral to the IMR	(1,135)	(1,794)	(916)
Net after tax deferred to the IMR	645	2,120	382
Net realized capital (losses) gains	\$ (490)	\$ 326	\$ (534)

OTTI, included in the realized capital losses, consisted of the following:

	Years Ended December 31,		
	2023	2022	2021
	(In Millions)		
Bonds	\$ (178)	\$ (416)	\$ (80)
Preferred stock	-	(6)	-
Common stocks- subsidiaries and affiliates	(1)	-	-
Common stocks - unaffiliated	-	(2)	(11)
Mortgage loans	(13)	(4)	(17)
Partnerships and LLCs	(353)	(183)	(483)
Total OTTI	\$ (545)	(611)	(591)

The Company recognized OTTI of \$15 million for the year ended December 31, 2023 and \$14 million for the year ended December 31, 2022 on structured and loan-backed securities, which are included in bonds, primarily due to the present value of expected cash flows being less than the amortized cost.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

The Company utilized internally-developed models to determine less than 1% of the \$178 million of bond OTTI for the year ended December 31, 2023, less than 1% of the \$416 million of bond OTTI for the year ended December 31, 2022 and less than 1% of the \$80 million of bond OTTI for the year ended December 31, 2021. The remaining OTTI amounts were determined using external inputs such as publicly observable fair values and credit ratings. Refer to *Note 2dd. "Net realized capital (losses) gains including other-than-temporary impairments and unrealized capital gains (losses)"* for more information on assumptions and inputs used in the Company's OTTI models.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

6. Federal income taxes

On August 16th, 2022, the Inflation Reduction Act (“IRA”) was signed into law and includes certain corporate income tax provisions. Impacts to the Company could include the imposition of a corporate alternative minimum tax (“CAMT”) applicable to tax years beginning after December 31, 2022. The CAMT imposes a 15% minimum tax on adjusted financial statement income on applicable corporations that have an average group wide adjusted financial statement income over \$1 billion in the prior three-year period (2020-2022). As of the reporting date, the Company has determined that it is not an applicable corporation and therefore not liable for CAMT in 2023. The United States Treasury Secretary and the IRS have been authorized to issue further guidance and intend to publish proposed regulations in 2024.

The Company provides for DTAs in accordance with statutory accounting practices, and has met the required threshold to utilize the three-year reversal period and 15% of surplus limitation.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY

Change in net deferred income taxes	<u>(462)</u>	<u>(662)</u>	<u>(544)</u>
Total statutory income tax benefit	<u>\$ (614)</u>	<u>\$ (832)</u>	<u>\$ (429)</u>

The Company received refunds of federal income taxes in the amounts of \$58 million in 2023 and \$5 million in 2022 and paid \$849 million in 2021.

The total income taxes incurred in the current and prior years that will be available for recoupment in the event of future net capital losses totaled \$0 million related to 2023, \$29 million related to 2022, and \$124 million related to 2021.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

MassMutual and its eligible U.S. subsidiaries are included in a consolidated U.S. federal income tax return. MassMutual and its eligible U.S. subsidiaries also file income tax returns in various states and foreign jurisdictions. MassMutual and its eligible U.S. subsidiaries and certain affiliates (the Parties) have executed and are subject to a written tax allocation agreement (the Tax Agreement). The Tax Agreement sets forth the manner in which the total combined federal income tax is allocated among the Parties. The Tax Agreement provides MassMutual with the enforceable right to recoup federal income taxes paid in prior years in the event of future net capital losses, which it may incur. Further, the Tax Agreement provides MassMutual with the enforceable right to utilize its net losses carried forward as an offset to future net income subject to federal income taxes. In accordance with the Tax Agreement, future corporate alternative minimum tax (CAMT) is outside of the scope to the general tax allocation method and, consequently any future CAMT liability shall be allocated solely to MassMutual.

Companies are generally required to disclose unrecognized tax benefits, which are the tax effect of positions taken on their tax returns that may be challenged by various taxing authorities, in order to provide users of financial statements more information regarding potential liabilities. The Company recognizes tax benefits and related reserves in accordance with existing statutory accounting practices for liabilities, contingencies and impairments of assets.

The following is a reconciliation of the beginning and ending liability for unrecognized tax benefits (in millions):

Balance, January 1, 2023	\$	214
Gross change related to positions taken in prior years		-
Gross change related to settlements		-
Gross change related to positions taken in current year		14
Gross change related to lapse of statutes of limitations		-
Balance, December 31, 2023	\$	229

Included in the liability for unrecognized tax benefits as of December 31, 2023, are \$215 million of tax positions for which the ultimate deductibility is highly certain but for which there is uncertainty about the timing of such deductibility. The liability for the unrecognized tax benefits as of December 31, 2023 includes \$9 million of unrecognized tax benefits that, if recognized, would impact the Company's effective tax rate.

The Company recognized an increase of \$8 million in accrued interest related to the liability for unrecognized tax benefits as a component of the provision for income taxes. The amount of net interest recognized was \$32 million as of December 31, 2023 and \$24 million as of December 31, 2022. The Company has no accrued penalties related to the liability for unrecognized tax benefits. In the next year, the Company does not anticipate the total amount of uncertain tax positions to significantly increase or decrease.

The Internal Revenue Service (IRS) has completed its examination of MassMutual and its subsidiaries for the year 2013 and prior. The 2014-2016 tax years are in the process of going to Appeals for 3 carryforward issues. The IRS completed its examination of 2017-2018 tax years and is being transferred to Appeals. The adjustments resulting from these examinations are not expected to materially affect the position or liquidity of the Company.

As of December 31, 2023 and 2022, the Company did not recognize any protective deposits as admitted assets.

7. Other than invested assets

a. Admitted negative (disallowed) IMR

As of December 31, 2023, the Company had \$1,112 million of negative (disallowed) IMR in aggregate and in the general account.

As of December 31, 2023, the Company had \$1,112 million of negative (disallowed) IMR admitted in the general account.

As of December 31, 2023, the calculated adjusted general capital and surplus was \$26,015 million.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

As of December 31, 2023, the percentage of adjusted general capital and surplus for which the admitted disallowed IMR represents was 4%.

The following represents allocated gains (losses) previously deferred to the IMR from derivatives:

	December 31, 2023 (In Millions)
Realized capital gains	2,940
Realized capital losses	(3,935)
Total allocated gains (losses) to IMR from derivatives	\$ (995)

When the Company sells bonds and recognizes losses due to interest-rate related factors, and the realized losses are transferred to the IMR, the sales proceeds are generally used for reinvestment as governed by prudent asset liability management (ALM) policies and procedures. Such sales of bonds are intermittently used to meet liquidity needs and managed within the ALM framework.

IMR losses for fixed income related derivatives were in accordance with documented risk management procedures, as well as the Company's derivative use plans, and reflect the same historical treatment of derivative gains reversed to IMR and amortized rather than immediately recognized as realized gain upon termination.

b. Corporate-owned life insurance

The Company holds corporate-owned life insurance issued by unaffiliated third-party insurers to cover the lives of certain qualified senior employees. The primary purpose of the program is to offset future employee benefit expenses. The Company pays all premiums and is the owner and beneficiary of these policies. The Company had recorded cash surrender values of these policies of \$2,825 million as of December 31, 2023 and \$2,619 million as of December 31, 2022.

The cash surrender value is allocated by the following investment categories:

	December 31,	
	2023	2022
Other invested assets	45%	39%
Bonds	28	32
Stocks	17	16
Cash and short-term investments	7	10
Real estate	3	3
	100%	100%

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

c. Deferred and uncollected life insurance premium

Deferred and uncollected life insurance premium, net of loading and reinsurance, are included in other than invested assets in the Company's Statutory Statements of Financial Position. The following summarizes the deferred and uncollected life insurance premium on a gross basis, as well as, net of loading and reinsurance:

	December 31,			
	2023		2022	
	Gross	Net	Gross	Net
	(In Millions)			
Ordinary new business	\$ 154	\$ 88	\$ 163	\$ 103
Ordinary renewal	1,258	1,220	1,159	1,145
Group life	10	10	10	10
Total	\$ 1,422	\$ 1,318	\$ 1,332	\$ 1,258

Deferred premium is the portion of the annual premium not earned at the reporting date. Loading on deferred premium is an amount obtained by subtracting the valuation net deferred premium from the gross deferred premium and generally includes allowances for acquisition costs and other expenses.

Uncollected premium is gross premium net of reinsurance that is due and unpaid as of the reporting date, net of loading. Net premium is the amount used in the calculation of reserves. The change in deferred and uncollected life insurance premium is included in premium income. The change in loading is included as an expense and is not shown as a reduction to premium income.

Ordinary new business and ordinary renewal business consist of the basic amount of premium required on the underlying life insurance policies.

In certain instances, gross premium is less than net premium according to the standard valuation set by the Division and the Department. The gross premium is less than the net premium needed to establish the reserves because the statutory reserves must use standard conservative valuation mortality tables, while the gross premium calculated in pricing uses mortality tables that reflect both the Company's experience and the transfer of mortality risk to reinsurers. The Company had life insurance in force of \$57,978 million as of December 31, 2023 and \$59,911 million as of December 31, 2022 for which gross premium was less than net premium.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

8. Policyholders' liabilities

a. Policyholders' reserves

The Company had life insurance in force of \$953,410 million as of December 31, 2023 and \$907,462 million as of December 31, 2022.

The following summarizes policyholders' reserves, net of reinsurance, and the range of interest rates by type of product:

	December 31,									
	2023					2022				
	Amount		Interest Rates			Amount		Interest Rates		
	(\$ In Millions)

Total	\$	167,250				\$	153,216			

Individual life includes whole life and term insurance. Group life includes corporate-owned life insurance, bank-owned life insurance, group universal life and group variable universal life products. Individual annuities include individual annuity contracts, supplementary contracts involving life contingencies and structured settlements. Group annuities include deferred annuities and single premium annuity contracts. Disabled life claim reserves include disability income and LTC contracts and cover the future payments of known claims. Disability active life reserves include disability income and LTC contracts issued. Other is comprised of disability life and accidental death insurance.

Total	\$	19,645				\$	18,089			

Note program

Funding agreements are investment contracts sold to domestic and international institutional investors. Funding agreement liabilities are equal to the account value and are established by contract deposits, increased by interest credited and decreased by contract coupon payments and maturities. Contract holders do not have the right to terminate the contract prior to the contractually stated maturity date. The Company may retire funding agreements prior to the contractually-stated maturity date by repurchasing the agreement in the market or, in some cases, by calling the agreement. If this occurs, the difference in value is an adjustment to interest credited to liabilities for deposit-type contracts in the Statutory Statements of Operations. Credited interest rates vary by contract and can be fixed or floating. Agreements do not have put provisions or ratings-based triggers. The liability of non-U.S. dollar denominated funding agreements may increase or decrease due to changes in foreign exchange rates. Currency swaps are employed to eliminate foreign exchange risk from all funding agreements issued to back non-U.S. dollar denominated notes.

Under the note program, the Company creates special purpose entities (SPEs), which are investment vehicles or trusts, for the purpose of issuing medium-term notes to investors. Proceeds from the sale of the medium-term notes issued by these SPEs are used to purchase funding agreements from the Company. The payment terms of any particular series of notes are matched by the payment terms of the funding agreement securing the series. Notes are currently issued from the Company's \$16.0 billion Global Medium-Term Note Program.

Federal Home Loan Bank of Boston

MassMutual has funding agreements with Federal Home Loan Bank of Boston (FHLB Boston) in an investment spread strategy, consistent with its other funding agreements. These funding agreements are collateralized by securities with estimated fair values of \$1,955 million as of December 31, 2023. MassMutual's borrowing capacity with FHLB Boston is subject to the lower of the limitation on the pledge of collateral for a loan set forth by law or by MassMutual's internal limit. MassMutual's unused capacity was \$3,889 million as of December 31, 2023. As a member of FHLB Boston, MassMutual held common stock of FHLB Boston with a statement value of \$92 million as of December 31, 2023 and \$92 million as of December 31, 2022.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

Municipal contracts

Municipal guaranteed investment contracts (municipal contracts) include contracts that contain terms with above market crediting rates. Liabilities for these contracts includes the municipal contracts' account values, which are established by contract deposits, increased by interest credited (fixed or floating) and decreased by contract coupon payments, additional withdrawals, maturities and amortization of premium. Certain municipal contracts allow additional deposits, subject to restrictions, which are credited based on the rates in the contracts. Contracts have scheduled payment dates and amounts and interest is paid periodically. In addition, certain contracts allow additional withdrawals above and beyond the scheduled payments. These additional withdrawals have certain restrictions on the number per year, minimum dollar amount and are limited to the maximum contract balance. The majority of the municipal contracts allow early contract termination under certain conditions.

Certain municipal contracts contain make-whole provisions, which document the formula for full contract payout. Certain municipal contracts have ratings-based triggers that allow the trustee to declare the entire balance due and payable. Municipal contracts may also have terms that require the Company to post collateral to a third party based on the contract balance in the event of a downgrade in ratings below certain levels under certain circumstances. When the collateral is other than cash, the collateral value is required to be greater than the account balance. The collateral was \$216 million as of December 31, 2023 and \$339 million as of December 31, 2022. The Company employs a rigorous asset/liability management process to help mitigate the economic impacts of various liability risks. By performing asset liability management and performing other risk management activities, the Company believes that these contract provisions do not create an undue level of operating risk to the Company.

Other deposits

Other deposits primarily consist of investment contracts assumed as part of the indemnity reinsurance agreement discussed in *Note 9. "Reinsurance"*. These contracts are used to fund retirement plans. Contract payments are not contingent upon the life of the retirement plan participant.

As of December 31, 2023, the Company's GICs by expected maturity year were as follows (in millions):

2024	\$	2,584
2025		2,790
2026		3,386
2027		1,887
2028		1,689
Thereafter		3,871
Total	\$	16,207

Most GICs only mature on their contractual maturity date. Actual maturities for municipal contracts may differ from their contractual maturity dates, as these contracts permit early contract termination under certain conditions.

c. Unpaid claims and claim expense reserves

The Company establishes unpaid claims and claim expense reserves to provide for the estimated costs of claims for individual disability and LTC policies. These reserves include estimates for both claims that have been reported and those that have been incurred but not reported, and include estimates of all future expenses associated with the processing and settling of these claims. This estimation process is primarily based on the assumption that experience is an appropriate indicator of future events and involves a variety of actuarial techniques that analyze experience, trends and other relevant factors. The amounts recorded for unpaid claims and claim expense reserves represent the Company's best estimate based upon facts and actuarial guidelines. Accordingly, actual claim payouts may vary from these estimates.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

The following summarizes the changes in disabled life and LTC unpaid claims and claim expense reserves:

	December 31,	
	2023	2022
	(In Millions)	
Claim reserves, beginning of year	\$ 2,232	\$ 2,175
Less: Reinsurance recoverables	367	308
Net claim reserves, beginning of year	1,865	1,867
Claims paid related to:		
Current year	(14)	(14)
Prior years	(333)	(335)
Total claims paid	(347)	(349)
Incurred related to:		
Current year's incurred	375	324
Current year's interest	9	8
Prior year's incurred	(79)	(54)
Prior year's interest	68	69
Total incurred	373	347
Net claim reserves, end of year	1,891	1,865
Reinsurance recoverables	651	367
Claim reserves, end of year	\$ 2,542	\$ 2,232

The changes in reserves for incurred claims related to prior years are generally the result of recent loss development trends. The \$79 million decrease in the prior years' incurred claims for 2023 and the \$54 million decrease in the prior years' incurred claims for 2022 were generally the result of differences between actual termination experience and statutorily prescribed termination tables. In 2023, claim experience included normal claim volume with higher terminations, resulting in a reduction to the incurred reserve from favorable experience, while 2022 claims incurred was due to maturing LTC business partially offset by a corresponding increase in reinsurance recoverable.

The following reconciles disabled life claim reserves to the net claim reserves at the end of the years presented in the previous table. Disabled life claim reserves are recorded in policyholders' reserves. Accrued claim liabilities are recorded in other liabilities.

	December 31,	
	2023	2022
	(In Millions)	
Disabled life claim reserves	\$ 1,856	\$ 1,831
Accrued claim liabilities	33	33
Net claim reserves, end of year	\$ 1,889	\$ 1,864

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

d. Additional liability for annuity contracts

Certain individual variable annuity and fixed index annuity products have additional death or other insurance benefit features, such as GMDBs, GMIBs, GMABs and GLWBs. In general, living benefit guarantees require the contract holder or policyholder to adhere to a company approved asset-allocation strategy. Election of these benefit guarantees is generally only available at contract issue.

The following shows the changes in the liabilities for GMDB, GMIB, GMAB and GLWB (in millions):

Liability as of January 1, 2022	\$	42
Incurred guarantee benefits		18
Paid guarantee benefits		(5)
Liability as of December 31, 2022		55
Incurred guarantee benefits		2
Paid guarantee benefits		(8)
Liability as of December 31, 2023	\$	49

The following summarizes the account values, net amount at risk and weighted average attained age for variable annuity contracts with GMDB, GMIB, GMAB and GLWB classified as policyholders' reserves and separate account liabilities. The net amount at risk is defined as the minimum guarantee less the account value calculated on a policy-by-policy basis, but not less than zero.

	December 31, 2023			December 31, 2022		
	Account Value	Net Amount at Risk	Weighted Average Attained	Account Value	Net Amount at Risk	Weighted Average Attained
	(\$ In Millions)					
GMDB	\$ 8,572	\$ 25	66	\$ 8,685	\$ 199	66
GMIB Basic	449	7	73	466	21	72
GMIB Plus	1,240	448	69	1,198	505	68
GMAB	1,400	20	63	1,552	84	62
GLWB	94	15	75	97	22	74

As of December 31, 2023, the GMDB account value above consists of \$3,712 million of Modco assumed within the separate accounts. As of December 31, 2022, the GMDB account value above consists of \$3,600 million of Modco assumed within the separate accounts.

Account values of variable annuity contracts with GMDB, GMIB, GMAB and GLWB are summarized below:

	December 31, 2023			December 31, 2022		
	Separate Account	General Account	Total	Separate Account	General Account	Total
	(In Millions)					
GMDB	\$ 7,437	\$ 1,135	\$ 8,572	\$ 7,426	\$ 1,259	\$ 8,685
GMIB Basic	434	15	449	445	21	466
GMIB Plus	1,240	-	1,240	1,198	-	1,198
GMAB	1,368	32	1,400	1,516	37	1,553
GLWB	94	-	94	97	-	97

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

e. Additional liability for individual life contracts

Certain universal life and variable universal life contracts include features such as GMDBs or other guarantees that ensure continued death benefit coverage when the policy would otherwise lapse. The value of the guarantee is only available to the beneficiary in the form of a death benefit.

The following presents the changes in the liability, net of reinsurance, for guarantees on universal life and variable universal life type contracts:

	December 31,	
	2023	2022
	(In Millions)	
Beginning balance	\$ 5,154	\$ 4,601
Net liability increase	332	553
Ending balance	\$ 5,486	\$ 5,154

9. Reinsurance

The Company enters into reinsurance agreements with affiliated and unaffiliated insurers in the normal course of business in order to mitigate the impact of underwriting mortality and morbidity risks or to assume business. Such transfers do not relieve the Company of its primary liability to its customers and, as such, failure of reinsurers to honor their obligations could result in credit losses that could arise if a reinsurer defaults. The Company reduces reinsurance default risk by evaluating the financial condition of reinsurers and monitoring for possible concentrations within the Company's reinsurers and using trust structures, when appropriate. The Company reinsures a portion of its mortality risk in its life business under either a first dollar quota-share arrangement or an in excess of the retention limit arrangement with reinsurers. The Company also reinsures a portion of its morbidity risk in its disability and LTC business. The amounts reinsured are on a yearly renewable term, coinsurance funds withheld, coinsurance or Modco basis. The Company's highest retention limit for new issues of life policies ranges from \$15 million to \$35 million.

Refer to *Note 17. "Related party transactions"* for information about the Company's affiliated assumed reinsurance transactions.

There are no reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment of premium or other similar credits. The Company has no reinsurance agreements in effect such that the amount of losses paid or accrued through the statement date may result in a payment to the reinsurer of amounts which, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same reinsurer, exceed the total direct premium collected under the reinsured policies.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

Reinsurance amounts included in the Statutory Statements of Operations were as follows:

	Years Ended December 31,		
	2023	2022	2021
	(In Millions)		
Direct premium	\$ 34,223	\$ 35,530	\$ 30,907
Premium assumed	977	1,013	1,112
Premium ceded	(9,711)	(13,019)	(12,128)
Total net premium	\$ 25,490	\$ 23,524	\$ 19,891
Ceded reinsurance recoveries	\$ 1,842	\$ 1,540	\$ 1,699
Assumed losses	\$ 425	\$ 330	\$ 356

Reinsurance amounts included in the Statutory Statements of Financial Position were as follows:

	December 31,	
	2023	2022
	(In Millions)	
Reinsurance reserves:		
Assumed	\$ 6,476	\$ 551
Ceded	(47,326)	(47,416)
Ceded amounts recoverable	\$ 324	\$ 329
Benefits payable on assumed business	\$ 65	\$ 40
Funds held under coinsurance		
Ceded	\$ 22,520	\$ 21,916

Reinsurance reserves ceded to unaffiliated reinsurers as of December 31, 2023 include \$9,219 million associated with life insurance policies, \$6,497 million for LTC, \$22,659 million for annuity, \$14 million for disability and \$6 million for group life and health. Reinsurance reserves ceded to unaffiliated reinsurers as of December 31, 2022 include \$9,016 million associated with life insurance policies \$5,998 million for LTC, \$32,381 million for annuity, \$15 million for disability and \$6 million for group life and health.

For the year ended December 31, 2023, the Company decreased its gross LTC policyholders' premium deficiency reserve by \$590 million primarily through a combination of various assumption changes to reflect the risk inherent in the cash flows of this business. The majority of the risk is ceded to unaffiliated reinsurers resulting in the ceded policyholders' premium deficiency reserves decreasing by \$295 million. The total net impact of the change is \$295 million, which was recorded as a decrease to policyholders' liabilities on the Statutory Statements of Financial Position and a decrease to change in policyholders' reserves on the Statutory Statements of Operations.

For the year ended December 31, 2022, the Company decreased its gross LTC policyholders' premium deficiency reserve by \$165 million primarily through a combination of various assumption changes to reflect the risk inherent in the cash flows of this business. The majority of the risk is ceded to unaffiliated reinsurers resulting in the ceded policyholders' premium deficiency reserves decreasing by \$345 million. The total net impact of the change is \$180 million, which was recorded as an increase to policyholders' liabilities on the Statutory Statements of Financial Position and an increase to change in policyholders' reserves on the Statutory Statements of Operations.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

	December 31, 2023		
	(In Millions)		
	Direct	Ceded	Net
LTC premium deficiency reserves, beginning of year	\$ 4,390	\$ (3,910)	\$ 480
Assumption changes	(590)	295	(295)
LTC premium deficiency reserves, end of year	<u>\$ 3,800</u>	<u>\$ (3,615)</u>	<u>\$ 185</u>

As of December 31, 2023, one reinsurer accounted for 29% of the outstanding balance of the reinsurance recoverable and the next largest reinsurer had 21%. The Company continues to monitor its morbidity risk ceded to one reinsurer for its LTC business, in which 72% of the reserves are held in trust.

On July 5, 2023, the Company recaptured approximately \$16 million of statutory reserves reinsured on a yearly renewable term (YRT) basis for certain closed blocks of LTC business and reinsured on a coinsurance basis a portion of this product resulting in ceding \$692 million statutory reserves to a different reinsurer. The recapture settlement of \$17 million relieved the reinsurer of all obligations under the YRT agreement and resulted in an offset to premiums and disability benefits. As part of the coinsurance transaction, the Company transferred \$657 million of premium to the reinsurer.

The Company holds invested assets associated with funds withheld that are managed externally, as of December 31, 2023 and 2022, these assets, at carry value, included:

	December 31,

c. Separate accounts

The Company has guaranteed separate accounts classified as the following: nonindexed, which have multiple concurrent guarantees, including a guarantee that applies for as long as the contract is in effect and does not exceed a 4% rate of return. The Company has nonguaranteed separate accounts which are variable accounts where the benefit is determined by the performance and/or market value of the investments held in the separate account with incidental risk, notional expense and minimum death benefit guarantees.

Information regarding the separate accounts of the Company as of and for the year ended December 31, 2023 is as follows:

	Guaranteed			
	Nonindexed Less Than/ Equal to		Non Guarantee	Total
	Indexed			
	(In Millions)			
Net premium, considerations or deposits for the year ended December 31, 2023	\$ -	\$ -	\$ 4,769	\$ 4,769

NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

The following is a reconciliation of amounts reported as transfers (from) to separate accounts in the Summary of Operations of the Company's NAIC Separate Account Annual Statement to the amounts reported as net transfers (from) to separate accounts in change in policyholders' reserves in the accompanying Statutory Statements of Operations:

	Years Ended December 31,		
	2023	2022	2021
	(In Millions)		
From the Separate Account Annual Statement:			
Transfers to separate accounts	\$ 1,935	\$ 4,205	\$ 3,971
Transfers from separate accounts	(9,387)	(14,220)	(11,152)
Subtotal	(7,452)	(10,015)	(7,181)
Reconciling adjustments:			
Miscellaneous	4,278	3,481	4,537
Net deposits on deposit-type liabilities	1,573	1,939	1,202
Net transfers from separate accounts	<u>\$ (1,601)</u>	<u>\$ (4,595)</u>	<u>\$ (1,442)</u>

Net deposits on deposit-type liabilities are not considered premium and therefore are excluded from the Statutory Statements of Operations.

11. Debt

MassMutual issues commercial paper in the form of Notes in minimum denominations of \$250 thousand up to a total aggregation of \$1,000 million with maturity dates up to a maximum of 270 days from the date of issuance. Noninterest bearing Notes are sold at par less a discount representing an interest factor. Interest bearing Notes are sold at par. The Notes are not redeemable or subject to voluntary prepayments by MassMutual. The Notes have a carrying value and face amount of \$50 million as of December 31, 2023 and \$250 million as of December 31, 2022. Notes issued in 2023 had interest rates ranging from 4.36% to 5.40% with maturity dates ranging from 1-36 days. Interest expense for commercial paper was \$7 million for the year ended December 31, 2023 and \$5 million for the year ended December 31, 2022.

MassMutual has a \$1,500 million, five-year credit facility, with a syndicate of lenders that can be used for general corporate purposes and to support commercial paper borrowings. During December 2022, the facility was renewed and the scheduled maturity is December 16, 2027. The facility includes two one-year extension options that may be exercised with proper notification as set forth in the agreement. The facility has an upside option for an additional \$500 million. The terms of the credit facility additionally provide for, among other provisions, covenants pertaining to liens, fundamental changes, transactions with affiliates and adjusted statutory surplus. As of and for the years ended December 31, 2023 and 2022, MassMutual was in compliance with all covenants under the credit facility. For the years ended December 31, 2023 and 2022, there were no draws on the credit facilities. Credit facility fees were less than \$1 million for the years ended December 31, 2023 and December 31, 2022.

12. Employee benefit plans

The Company sponsors multiple employee benefit plans, providing retirement, life, health and other benefits to employees, certain employees of unconsolidated subsidiaries, agents, general agents and retirees who meet plan eligibility requirements.

a. Pension plans

The Company sponsors funded and unfunded noncontributory defined benefit pension plans for its eligible employees, agents and retirees.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

The funded qualified defined benefit plan generally provides benefits under a cash balance formula based on age, service and salary during the participants' careers. Certain eligible participants may be entitled to benefits under a legacy defined benefit formula. The Company's policy is to fund the qualified pension plan in accordance with the Employee Retirement Income Security Act of 1974. There were no contributions in 2023 and 2022.

b. Defined contribution plans

The Company sponsors funded qualified defined contribution plans and unfunded nonqualified deferred compensation thrift savings plans for its employees, agents and retirees. Defined contribution plan expense for 2023 and 2022 was \$56 million and \$52 million, respectively.

c. Other postretirement benefits

The Company provides certain life insurance and health care benefits (other postretirement benefits) for its retired employees and agents, their beneficiaries and covered dependents. MMHLLC has the obligation to pay the Company's other postretirement benefits. The transfer of this obligation to MMHLLC does not relieve the Company of its primary liability. MMHLLC is allocated other postretirement expenses related to interest cost, amortization of actuarial gains (losses) and expected return on plan assets, whereas service cost and prior service cost are recorded by the Company.

Substantially all of the Company's U.S. employees and agents may become eligible to receive other postretirement benefits. These benefits are funded as the benefits are provided to the participants. For eligible employees who retire after 2009, except certain employees who were close to retirement in 2010, the Company's cost is limited to a retiree health reimbursement account (RHRA), which accumulates during an employee's career and can be drawn down by the retiree to purchase coverage outside of the Company or for other health care costs. Retired employees with a RHRA also may choose to purchase coverage through the private retiree exchange.

For other eligible current and future retired employees, and current and future retired agents, the Company provides access to postretirement health care plans through a private retiree exchange. The Company's cost is limited to the fixed annual subsidy provided to retirees through a Health Reimbursement Account each year that the retiree can use to purchase coverage on the exchange or for other health care costs.

Company-paid basic life insurance is provided to retirees who retired before 2010 and certain employees who retire after 2009 but were close to retirement in 2010. Supplemental life insurance is available to certain retirees on a retiree-pay-all basis.

The Company provides retiree life insurance coverage for home office employees who, as of January 1, 2010, were age 50 with at least 10 years of service or had attained 75 points, generally age plus service, with a minimum 10 years of service.

d. Benefit obligations

Accumulated and projected benefit obligations are the present value of pension benefits earned as of a December 31 measurement date (the Measurement Date) based on service and compensation as of that date.

Refer to *Note 12f. "Amounts recognized in the Statutory Statements of Financial Position,"* for details on the funded status of the plans. Accumulated and projected postretirement benefit obligations for other postretirement benefits are the present value of postretirement medical and life insurance benefits earned as of the Measurement Date projected for estimated salary increases to an assumed date with respect to retirement, disability or death.

Actuarial (gains) losses represent the difference between the expected results and the actual results used to determine the projected benefit obligation, accumulated benefit obligation and current year expense. Select assumptions used in this calculation include expected future compensation levels, mortality and expected retirement age.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

The following presents the total pension and other postretirement accumulated benefit obligation:

	December 31,			
	2023	2022	2023	2022
	Pension Benefits		Other Postretirement Benefits	
	(In Millions)			
Accumulated benefit obligation	\$ 2,634	\$ 2,590	\$ 313	\$ 315

The following sets forth the change in projected benefit obligation of the defined benefit pension and other postretirement plans:

	December 31,			
	2023	2022	2023	2022
	Pension Benefits		Other Postretirement Benefits	
	(In Millions)			
Projected benefit obligation, beginning of year	\$ 2,590	\$ 3,099	\$ 315	\$ 374
Service cost	86	97	7	10
Interest cost	125	86	15	11
Actuarial (gains) losses	21	44	(14)	(10)
Benefits paid	(222)	(180)	(14)	(14)
Change in discount rate	34	(565)	4	(56)
Change in actuarial assumptions	-	9	-	-
Projected benefit obligation, end of year	\$ 2,634	\$ 2,590	\$ 313	\$ 315

The determination of the discount rate is based upon rates commensurate with current yields on high quality corporate bonds as of the Measurement Date. A spot yield curve is developed from this data that is used to determine the present value for the obligation. The projected plan cash flows are discounted to the Measurement Date based on the spot yield curve. A single discount rate is utilized to ensure the present value of the benefits cash flow equals the present value computed using the spot yield curve. A 25-basis point change in the discount rate results in approximately a \$59 million change in the projected pension benefit obligation. The methodology includes producing a cash flow of annual accrued benefits. Refer to Note 12h. "Assumptions" for details on the discount rate.

e. Plan assets

The assets of the qualified pension plan are invested in a MassMutual group annuity contract and in the MassMutual Pension Plan Trust (Pension Trust). The group annuity contract includes a general investment account (GIA). As of December 31, 2023 and 2022, GIA assets managed by the Company were \$229 million and \$168 million, respectively. The Company was rated AA+ by Standards and Poor's as of December 31, 2023..

The Company's overall objective is to manage the assets in a liability framework where investments are selected that are expected to have similar changes in fair value as the related liabilities will have upon changes in interest rates. The company invests in a portfolio of both return-seeking and liability-hedging assets, to achieve long-term growth and to insulate the funded position from interest rate volatility.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

The target range allocations are based on two broad categories, return-seeking (generally equities and alternative investments) and liability-hedging (generally fixed income). The return-seeking allocation range is 46% to 54% and liability-hedging range is 46% to 54%. Of the return-seeking assets, the range is 35% to 55% global public equity and 45% to 65% alternatives. The pension plan assets invested in the GIA through the unallocated group annuity contract earn a fixed interest. These assets comprised approximately 9% of the plan assets as of December 31, 2023 and 7% as of December 31, 2022.

The following presents the change in plan assets:

	2023	December 31, 2022	2023	2022
	Pension Benefits		Other Postretirement Benefits	
	(In Millions)			
Plan assets, beginning of year	\$ 2,483	\$ 3,053	\$ 2	\$ 2
Actual return on plan assets	230	(415)	-	-
Employer contributions	30	25	14	14
Benefits paid	(222)	(180)	(14)	(14)
Other	-	-	2	-
Plan assets, end of year	<u>\$ 2,521</u>	<u>\$ 2,483</u>	<u>\$ 4</u>	<u>\$ 2</u>

The GIA is designed to provide stable, long-term investment growth. Investments in the GIA are stated at contract value. Contract value is the amount participants would receive if they were to initiate certain transactions under the terms of the plan. It provides for a stated return on principal invested over a specified period and permits withdrawals at contract value for benefit payments, loans, or transfers.

Investments in the Pension Trust are stated at fair value. Noninterest bearing cash is stated at cost value.

Fair Value Measurements

The Company's fair value hierarchy is defined in *Note 4. "Fair Value of financial instruments"*.

The following is a description of the valuation methodologies used to measure fair value for the investments in the qualified pension plan.

Cash, cash equivalents and short-term investments: Short-term investments are stated at cost, which is equal to fair value. Foreign currencies are stated at cost and adjusted for foreign currency gains and losses.

Government securities: Marked to market daily based on values provided by third-party vendors or market makers to the extent available or based on model prices. Valuations furnished by a pricing service take into account factors such as institutional-size trading in similar securities, yield, quality, coupon rate, maturity, type of issue, trading characteristics, and other market data and are therefore classified as Level 2.

Bonds: If Level 1 valuations are not available, the fair value is determined using models such as matrix pricing and therefore, is classified as Level 2, which uses quoted market prices of debt securities with similar characteristics. Valued using the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Certain mutual funds held by the plan are registered with the SEC and are required to publish their daily NAV. These mutual funds held by the Plan are deemed to be actively traded and are therefore classified as Level 1. The remaining mutual funds do not publish their daily NAV and are therefore classified as Level 2.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

Collective investment trusts: Valued using the NAV per unit. The net asset value per unit of the funds is calculated on each business day by dividing the total value of assets, less liabilities, by the number of units outstanding. Unit issuances and redemptions are based on the net asset value determined at the end of the current day and therefore is classified as NAV practical expedient.

Real estate investment trusts: Real estate investment trusts are valued using the plan's pro-rata interest in the fund and does not have a lock-up period, a funding commitment, or a specific redemption period but are dependent upon the liquidation of underlying assets. Therefore, these investments are classified as NAV practical expedient.

Hedge funds: Hedge funds are based on the plan's pro rata interest in the fund and have a 45-day redemption period and therefore classified as NAV practical expedient.

Limited partnerships – Private equity/venture capital: The plan utilizes the NAV practical expedient to calculate fair value of its investments based on the Plan's pro rata interest in net assets of each underlying partnership. All valuations utilize financial information supplied by the partnership, including income, expenses, gains and losses. The underlying investments are accounted for at fair value as described in the partnership's audited financial statements. These funds can be redeemed periodically with notice that generally ranges from 45 to 90 days. There are no lockups or funding commitments.

Limited partnerships – Real estate: The plan utilizes the NAV practical expedient to calculate fair value of its investments based on the Plan's pro rata interest in net assets of each underlying partnership. All valuations utilize financial information supplied by the partnership, including income, expenses, gains and losses. The underlying investments of the partnership are accounted for at fair value as described in the partnership's audited financial statements. These funds can be redeemed periodically with notice that generally ranges from 45 to 90 days. There are no lockups or funding commitments.

Limited partnerships – Hedge: The Plan utilizes the NAV practical expedient to calculate fair value of its investments based on the Plan's pro rata interest in net assets of each underlying partnership. All valuations utilize financial information supplied by the partnership, including income, expenses, gains and losses. The underlying investments of the partnership are accounted for at fair value as described in the partnership's audited financial statements. The hedge funds can be redeemed semi-annually with 95 days' notice. There are no lockups or funding commitments.

Other investments: Investments included in this category include asset backed securities, mortgage backed securities, swaps, derivatives, futures and options. Closing prices are not available on the active market. Fair value is determined using models such as matrix pricing and therefore, these securities are classified as Level 2.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

The following tables set forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2023 and 2022.

	Fair Value as of December 31, 2023

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

f. Amounts recognized in the Statutory Statements of Financial Position

Unrecognized prior service cost is the adjustment to the projected benefit obligation as a result of plan amendments. It represents the increase or decrease in benefits for service performed in prior periods. For pension benefits, this cost is amortized into net periodic benefit cost over the average remaining service years of active employees at the time of the amendment. For other postretirement benefits, this cost is amortized into net periodic benefit cost over the average remaining lifetime of eligible employees and retirees at the time of the amendment.

Unrecognized net actuarial (gains) losses are variances between assumptions used and actual experience. These assumptions include return on assets, discount rate, demographics and mortality. The unrecognized net actuarial (gains) losses are amortized if they exceed 10% of the projected benefit obligation and are amortized starting in the period after recognition. These are amortized for pension and other postretirement benefits into net periodic benefit cost over the remaining service-years of active employees.

The prepaid pension asset is a cumulative balance of employer contributions made to the plan netted against the plan's accumulated net periodic benefit costs. The prepaid pension asset is a nonadmitted asset.

The accrued benefit cost recognized is the funded status of the plan adjusted for the remaining balance of unrecognized prior service cost, unrecognized net actuarial loss and the nonadmitted prepaid pension asset.

The following sets forth the projected benefit obligation funded status of the plans:

	December 31,			
	2023	2022	2023	2022
	Pension Benefits		Other Postretirement Benefits	
	(In Millions)			
Projected benefit obligation	\$ (2,634)	\$ (2,590)	\$ (313)	\$ (315)
Plan assets	2,521	2,483	4	2
Projected benefit obligation funded status	\$ (113)	\$ (107)	\$ (309)	\$ (313)

The qualified pension plan was overfunded by \$312 million as of December 31, 2023 and \$296 million as of December 31, 2022. The nonqualified pension plans are not funded and have total projected benefit obligations of \$425 million as of December 31, 2023 and \$403 million as of December 31, 2022.

The qualified pension plan nonadmitted pension plan asset was \$653 million as of December 31, 2023 and \$678 million as of December 31, 2022.

The Company intends to fund \$56 million in 2024 to meet its expected current obligations under its qualified and nonqualified pension plans and other postretirement benefit plans.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

g. Net periodic cost

The net periodic cost represents the annual accounting income or expense recognized by the Company and is included in general insurance expenses in the Statutory Statements of Operations. The net periodic cost recognized is as follows:

	Years Ended December 31,						
	2023	2022	2021	2023	2022	2021	
	Pension Benefits			Other Postretirement Benefits			
	(In Millions)						
Service cost	\$ 86	\$ 97	\$ 110	\$ 7	\$ 9	\$ 10	
Interest cost	125	86	77	15	10	9	
Expected return on plan assets	(169)	(194)	(183)	-	-	-	
Amortization of unrecognized (gains) and losses	27	9	39	(9)	(1)	-	
Amortization of unrecognized prior service benefit	-	-	-	(5)	(6)	(6)	
Total net periodic cost/(benefit)	\$ 69	\$ (2)	\$ 43	\$ 8	\$ 12	\$ 13	

The expected future pension and other postretirement benefit payments which reflect expected future service are as follows:

	Pension Benefits	Other Postretirement Benefits
	(In Millions)	
2024	\$ 199	\$ 19
2025	201	20
2026	206	20
2027	204	21
2028	209	21
2029-2033	1,055	109

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

h. Assumptions

The assumptions the Company used to calculate the benefit obligations and to determine the benefit costs are as follows:

	Years Ended December 31,					
	2023	2022	2021	2023	2022	2021
	Pension Benefits			Other Postretirement Benefits		
Weighted-average assumptions used to determine:						
Benefit obligations:						
Discount rate	4.85%	5.00%	2.85%	4.85%	5.05%	2.80%
Expected rate of compensation increase	3.50%	3.50%	3.50%	3.50%	3.50%	3.50%
Interest Crediting rate	5.00%	5.00%	5.00%	4.85%	5.05%	2.80%
Net periodic benefit cost:						
Discount rate	5.00%	2.85%	2.50%	5.05%	2.80%	2.45%
Expected long-term rate of return on plan assets	7.00%	6.50%	6.50%	3.00%	3.00%	3.00%
Expected rate of compensation increase	3.50%	3.50%	3.50%	3.50%	3.50%	3.50%
Interest Crediting rate	5.00%	5.00%	5.00%	5.05%	2.80%	2.45%

The discount rate used to determine the benefit obligations as of year end is used to determine the expense in the next fiscal year.

The Company determines its assumptions for the expected rate of return on plan assets for its plans using a “building block” approach, which focuses on ranges of anticipated rates of return for each asset class. A weighted range of nominal rates is determined based on target allocations for each class of asset.

13. Employee compensation plans

The Company has a long-term incentive compensation plan under which certain employees of the Company and its subsidiaries may be issued phantom stock-based compensation awards. These awards include PSARs and PRS. These awards do not grant an equity or ownership interest in the Company.

A summary of the weighted average grant price of PSARs and PRS shares granted, the intrinsic value of PSARs shares exercised, the PRS liabilities paid and the fair value of shares vested during the year is as follows:

	December 31,		
	2023	2022	2021
Weighted average grant date fair value:			
PSARs granted during the year	\$ 145.77	\$ 243.40	\$ 141.86
PRS granted during the year	145.67	238.54	153.38
Intrinsic value (in thousands):			
PSARs options exercised	65,810	135,219	124,551
PRS liabilities paid	45,600	70,029	48,298
Fair value of shares vested during the year	64,779	136,945	246,047

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

A summary of PSARs and PRS shares is as follows:

	PSARs			PRS		
	Number of Share Units (In Thousands)	Weighted Average		Number of Share Units (In Thousands)	Weighted Average	
		Price	Remaining Contract Terms (In Years)		Price	Remaining Contract Terms (In Years)
Outstanding as of						
December 31, 2021	4,510	\$ 130.23	4.1	1,070	\$ 122.41	2.5
Granted	808	243.40		168	238.54	
Exercised	(1,616)	119.34		(288)	98.47	
Forfeited	(308)	155.09		(78)	137.13	
Outstanding as of						
December 31, 2022	3,394	160.09	4.0	872	151.41	2.4
Granted	2,762	145.77		1,002	145.67	
Exercised	(1,329)	130.59		(252)	116.36	
Forfeited	(788)	239.79		(37)	180.80	
Outstanding as of						
December 31, 2023	4,039	144.46	4.4	1,585	152.73	2.1
Exercisable as of						
December 31, 2023	28	\$ 139.51	3.9	9	\$ 149.59	2.1

The PSARs compensation was an expense of \$17 million for the year ended December 31, 2023 and an expense of \$(34) million for the year ended December 31, 2022 and an expense of \$253 million for the year ended December 31, 2021. The PSARs accrued compensation liability was \$13 million as of December 31, 2023 and \$99 million as of December 31, 2022. The unrecognized compensation expense related to nonvested PSARs awards was \$20 million for the year ended December 31, 2023, \$19 million for the year ended December 31, 2022 and \$108 million for the year ended December 31, 2021. The weighted average period over which the expense is expected to be recognized is 4.4 years. The PSARs unrecognized compensation expense represents the total intrinsic value of all shares issued if 100% vested at current stock price, minus current compensation liability.

The PRS compensation expense was \$96 million for the year ended December 31, 2023 and \$31 million for the year ended December 31, 2022 and \$77 million for the year ended December 31, 2021. The PRS accrued compensation liability was \$148 million for the year ended December 31, 2023 and \$99 million for the year ended December 31, 2022. The unrecognized compensation expense related to nonvested PRS awards was \$87 million as of December 31, 2023, \$56 million as of December 31, 2022 and \$77 million as of December 31, 2021 respectively. The weighted average period over which the expense is expected to be recognized is 2.1 years. The PRS unrecognized compensation expense represents the total value of all shares issued if 100% vested at the current stock price, minus current compensation liability.

03/01/2021	200	232	5.077%	02/15/2069	Feb 15 & Aug 15
11/18/2021	675	670	3.200%	12/01/2061	Jun 1 & Dec 1
12/01/2022	500	500	5.672%	12/01/2052	Jun 1 & Dec 1
Total	\$ 4,882	\$ 4,876			

All payments of interest and principal are subject to the prior approval of the Division. Interest expense is not recorded until approval for payment is received from the Division. As of December 31, 2023, the unapproved interest was \$44 million. Through December 31, 2023, the Company paid cumulative interest of \$2,609 million on surplus notes. Interest of \$231 million was approved and paid during the year ended December 31, 2023.

The anticipated sinking fund payments that are due for the notes issued in 1994 are \$50 million in 2024. There are no sinking fund requirements for the notes issued in 2003, 2009, 2012, 2015, 2017, 2019, 2020, 2021 or 2022.

These notes are unsecured and subordinate to all present and future indebtedness of the Company, all policy claims and all prior claims against the Company as provided by the Massachusetts General Laws. The surplus notes are all held by bank custodians for unaffiliated investors. All issuances were approved by the Division. Surplus notes are included in surplus on the Statutory Statements of Financial Position.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

16. Business risks, commitments and contingencies

a. Risks and uncertainties

The Company operates in a business environment subject to various risks and uncertainties. The principal risks include insurance and underwriting risks, investment and interest rate risks, currency exchange risk and credit risk. The combined impact of these risks could have a material, adverse effect on the Company's financial statements or result in operating losses in future periods. The Company employs the use of reinsurance, portfolio diversification, asset/liability management processes and other risk management techniques to mitigate the impact of these risks.

Insurance and underwriting risks

The Company prices its products based on estimated benefit payments reflecting assumptions with respect to mortality, morbidity, longevity, persistency, interest rates and other factors. If actual policy experience emerges that is significantly and adversely different from assumptions used in product pricing, the effect could be material to the profitability of the Company. For participating whole life products, the Company's dividends to policyholders primarily reflect the difference between actual investment, mortality, expense and persistency experience and the experience embedded in the whole life premiums and guaranteed elements. The Company also reinsures certain life insurance and other long-term care insurance policies to mitigate the impact of its underwriting risk.

Investment and interest rate risks

The fair value, cash flows and earnings of investments can be influenced by a variety of factors including changes in interest rates, credit spreads, equity markets, portfolio asset allocation and general economic conditions. The Company employs a rigorous asset/liability management process to help mitigate the economic impacts of various investment risks, in particular interest rate risk. By effectively matching the market sensitivity of assets with the liabilities they support, the impact of interest rate changes is addressed, on an economic basis, as the change in the value of the asset is offset by a corresponding change in the value of the supported liability. The Company uses derivatives, such as interest rate swaps and swaptions, as well as synthetic assets to reduce interest rate and duration imbalances determined in asset/liability analyses.

The levels of U.S. interest rates are influenced by U.S. monetary policies and by the relative attractiveness of U.S. markets to investors versus other global markets. As interest rates increase, certain debt securities may experience amortization or prepayment speeds that are slower than those assumed at purchase, impacting the expected maturity of these securities and the ability to reinvest the proceeds at the higher yields. Rising interest rates may also result in a decrease in the fair value of the investment portfolio. As interest rates decline, certain debt securities may experience accelerated amortization and prepayment speeds than what was assumed at purchase. During such periods, the Company is at risk of lower net investment income as it may not be able to reinvest the proceeds at comparable yields. Declining interest rates may also increase the fair value of the investment portfolio.

Interest rates also have an impact on the Company's products with guaranteed minimum payouts and on interest credited to account holders. As interest rates decrease, investment spreads may contract as crediting rates approach minimum guarantees, resulting in an increased liability.

In periods of increasing interest rates, policy loans, surrenders and withdrawals may increase as policyholders seek investments with higher perceived returns. This could result in cash outflows requiring the Company to sell invested assets at a time when the prices of those assets are adversely affected by the increase in market interest rates, which could cause the Company to realize investment losses.

Currency exchange risk

The Company has currency risk due to its non-U.S. dollar denominated investments and medium-term notes along with its indirect international operations. The Company mitigates a portion of its currency risk through the use of cross-currency swaps and forward contracts. Cross-currency swaps are used to minimize currency risk for certain non-U.S. dollar assets and liabilities through a pre-specified exchange of interest and principal. Forward contracts are used to hedge movements in exchange rates.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

Credit and other market risks

The Company manages its investments to limit credit and other market risks by diversifying its portfolio among various security types and industry sectors as well as purchasing credit default swaps to transfer some of the risk.

Stressed conditions, volatility and disruptions in global capital markets or in particular markets or financial asset classes can have an adverse effect on the Company, in part because the Company has a large investment portfolio and assets supporting the Company's insurance liabilities are sensitive to changing market factors. Global market factors, including interest rates, credit spread, equity prices, real estate markets, foreign currency exchange rates, consumer spending, business investment, government spending, the volatility and strength of the capital markets, deflation and inflation, all affect the business and economic environment and, ultimately, the profitability of the Company's business. Disruptions in one market or asset class can also spread to other markets or asset classes. Upheavals in the financial markets can also affect the Company's business through their effects on general levels of economic activity, employment and customer behavior.

Real estate markets are monitored continuously with attention on regional differences in price performance, absorption trends and supply and demand fundamentals that can impact the rate of foreclosures and delinquencies. Public sector strengths and weaknesses, job growth and macro-economic issues are factors that are closely monitored to identify any impact on the Company's real estate related investments.

The CMBS, RMBS and leveraged loan sectors are sensitive to evolving conditions that can impair the cash flows realized by investors and is subject to uncertainty. Management's judgment regarding OTTI and estimated fair value depends upon the evolving investment sector and economic conditions. It can also be affected by the market liquidity, a lack of which can make it difficult to obtain accurate market prices for RMBS and other investments, including CMBS and leveraged loans. Any deterioration in economic fundamentals, especially related to the housing sector could affect management's judgment regarding OTTI.

The Company has investments in structured products exposed primarily to the credit risk of corporate bank loans, corporate bonds or credit default swap contracts referencing corporate credit risk. Most of these structured investments are backed by corporate loans and are commonly known as collateralized loan obligations that are classified as CDO. The portfolios backing these investments are actively managed and diversified by industry and individual issuer concentrations. Due to the complex nature of CDO and the reduced level of transparency to the underlying collateral pools for many market participants, the recovery in CDO valuations generally lags the overall recovery in the underlying assets. Management believes its scenario analysis approach, based primarily on actual collateral data and forward looking assumptions, does capture the credit and most other risks in each pool. However, in a rapidly changing economic environment, the credit and other risks in each collateral pool will be more volatile and actual credit performance of CDO may differ from the Company's assumptions.

The Company continuously monitors its investments and assesses their liquidity and financial viability; however, the existence of the factors described above, as well as other market factors, could negatively impact the market value of the Company's investments. If the Company sells its investments prior to maturity or market recovery, these investments may yield a return that is less than the Company otherwise would have been able to realize.

Asset-based fees calculated as a percentage of the separate account assets are a source of revenue to the Company. Gains and losses in the investment markets may result in corresponding increases and decreases in the Company's separate account assets and related revenue.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

Market risk arises within the Company's employee benefit plans to the extent that the obligations of the plans are not fully matched by assets with determinable cash flows. Pension and postretirement obligations are subject to change due to fluctuations in the discount rates used to measure the liabilities as well as factors such as changes in inflation, salary increases and participants living longer. The risks are that such fluctuations could result in assets that are insufficient over time to cover the level of projected benefit obligations. In addition, increases in inflation and members living longer could increase the pension and postretirement obligations. Management determines the level of this risk using reports prepared by independent actuaries and takes action, where appropriate, in terms of setting investment strategy and determining contribution levels. In the event that the pension obligations arising under the Company's employee benefit plans exceed the assets set aside to meet the obligations, the Company may be required to make additional contributions or increase its level of contributions to these plans.

The long-term impact of the COVID-19 pandemic is dependent on numerous factors including, but not limited to, the length and severity of the pandemic, the efficacy and rate of vaccine adoption and therapeutics, the responses to the pandemic taken by governments and private sector businesses, and the impacts on MassMutual's policyholders, employees and counterparties. At its height, the pandemic led to significant economic disruption, including significant volatility in the U.S. and international markets, which had an adverse effect on MassMutual's business. The extent to which the COVID-19 pandemic continues to impact MassMutual's business will depend on future developments which are highly uncertain, including the emergence of future variants of COVID-19 and the efficacy of vaccines in the broader population (including with respect to future variants).

Political Uncertainties

Political events, domestically or internationally, may directly or indirectly trigger or exacerbate risks related to product offerings, profitability, or any of the risk factors described above. Whether those underlying risk factors are driven by geopolitics or not, the Company's dynamic approach to managing risks enables management to identify risks, internally and externally, develop mitigation plans, and respond to risks in an attempt to proactively reduce the potential impact of each underlying risk factor on the Company.

b. Leases

The Company leases office space and equipment in the normal course of business under various noncancelable operating lease agreements. Additionally, the Company, as lessee, has entered various sublease agreements with affiliates for office space, such as Barings. Total rental expense on net operating leases, recorded in general insurance expenses, was \$93 million for the year ended December 31, 2023 and \$91 million for the year ended December 31, 2022. Net operating leases are net of sublease receipts of \$5 million for the year ended December 31, 2023 and \$3 million for the year ended December 31, 2022.

For the years ended December 31, 2023 and December 31, 2022, the company has not entered into any sale-leaseback transactions with any unrelated parties.

Future minimum commitments for all lease obligations as of December 31, 2023 were as follows:

	Gross	Affiliated Subleases	Nonaffiliated Subleases	Net
	(In Millions)			
2024	\$ 85	\$ 2	\$ 4	\$ 79
2025	73	2	4	67
2026	58	2	4	52
2027	52	2	2	48
2028	48	1	2	45
Thereafter	304	-	7	297
Total	\$ 620	\$ 9	\$ 23	\$ 588

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

c. *Guaranty funds*

The Company is subject to state insurance guaranty fund laws. These laws assess insurance companies' amounts to be used to pay benefits to policyholders and policy claimants of insolvent insurance companies. Many states allow these assessments to be credited against future premium taxes. The Company believes such assessments in excess of amounts accrued will not materially impact its financial position, results of operations or liquidity.

b. *Litigation and regulatory matters*

In the normal course of business, the Company is involved in disputes, litigation and governmental or regulatory inquiries, administrative proceedings, examinations and investigations, both pending and threatened. These matters, if resolved adversely against the Company or settled, may result in monetary damages, fines and penalties or require changes in the Company's business practices. The resolution or settlement of these matters is inherently difficult to predict. Based upon the Company's assessment of these pending matters, the Company does not believe that the amount of any judgment, settlement or other action arising from any pending matter is likely to have a material adverse effect on the statement of financial position. However, an adverse outcome in certain matters could have a material adverse effect on the results of operations for the period in which such matter is resolved, or an accrual is determined to be required, on the financial statement financial position, or on our reputation.

The Company evaluates the need for accruals of loss contingencies for each matter. When a liability for a matter is probable and can be estimated, the Company accrues an estimate of the loss offset by related insurance recoveries or other contributions, if any. An accrual may be subject to subsequent adjustment as a result of additional information and other developments. The resolution of matters is inherently difficult to predict, especially in the early stages of matter. Even if a loss is probable, due to many complex factors, such as speed of discovery and the timing of court decisions or rulings, a loss or range of loss may not be reasonably estimated until the later stages of the matter. For matters where a loss is material and it is either probable or reasonably possible then it is disclosed. For matters where a loss may be reasonably possible, but not probable, or is probable but not reasonably estimated, no accrual is established, but the matter, if material, is disclosed.

e. *Commitments*

In the normal course of business, the Company provides specified guarantees and funding to MMHLLC and certain of its subsidiaries. As of December 31, 2023, the Company had approximately \$800 million of these unsecured funding commitments to its subsidiaries and \$261 million as of December 31, 2022. The unsecured commitments are included in private placements in the table below. As of December 31, 2023 and 2022, the Company had not funded, nor had an outstanding balance due on, these commitments.

In the normal course of business, the Company enters into letter of credit arrangements. The Company had outstanding letter of credit arrangements of approximately \$77 million as of December 31, 2023 and approximately \$77 million as of December 31, 2022. As of December 31, 2023 and 2022, the Company did not have any funding requests attributable to these letter of credit arrangements.

In the normal course of business, the Company enters into commitments to purchase certain investments. The majority of these commitments have funding periods that extend between one and five years. The Company is not required to fund commitments once the commitment period expires.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

As of December 31, 2023, the Company had the following outstanding commitments:

	2024	2025	2026	2027	2028	Thereafter	Total
	(In Millions)						
Private placements	\$ 3,803	\$ 1,770	\$ 2,620	\$ 1,236	\$ 373	\$ 727	\$ 10,529
Mortgage loans	402	361	588	63	80	77	1,571
Partnerships and LLC	1,703	1,055	951	961	336	1,226	6,232
LIHTCs (including equity contributions)	-	-	-	-	1	42	43
Total	\$ 5,908	\$ 3,186	\$ 4,159	\$ 2,260	\$ 790	\$ 2,072	\$ 18,375

In the normal course of business the Company enters into commitments related to property lease arrangements, certain indemnities, investments and other business obligations. As of December 31, 2023 and 2022, the Company had no outstanding obligations attributable to these commitments.

f. Guarantees

In the normal course of business the Company enters into guarantees related to employee and retirement benefits, the maintenance of subsidiary regulatory capital, surplus levels and liquidity sufficient to meet certain obligations, and other property lease arrangements. If the Company were to recognize a liability, the financial statement impact would be to recognize either an expense or an investment in a subsidiary, controlled, or affiliated entity. The Company has no expectations for recoveries from third parties should these guarantees be triggered. As of December 31, 2023 and 2022, the Company had no outstanding obligations to any obligor attributable to these guarantees.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

The following details contingent guarantees that are made on behalf of the Company's subsidiaries and affiliates as of December 31, 2023.

Type of guarantee	Nature of guarantee (including term) and events and circumstances that would require the guarantor to perform under guarantee	Carrying amount of liability	Maximum potential amount of future payments (undiscounted) required under the guarantee
Employee and Retirement Benefits	The Company guarantees the payment of certain employee and retirement benefits for its wholly-owned subsidiary Barings, if the subsidiary is unable to pay.	-	The liabilities for these plans of \$564 million have been recorded on the subsidiaries' books and represent the Company's maximum obligation.
Capital and Surplus Support of Subsidiaries	Certain guarantees of the Company provide for the maintenance of a subsidiary's regulatory capital, surplus levels and liquidity sufficient to meet certain obligations. These unlimited guarantees are made on behalf of certain wholly-owned subsidiaries. (C.M. Life and MML Bay State Life).	-	These guarantees are not limited and cannot be estimated.
Other Property Lease Arrangements	The Company guarantees the payment of various lease obligations on behalf of its subsidiaries and affiliates.	-	The future maximum potential obligations are immaterial to the Company.
Real Estate Development Guarantee	The construction lender for an office building in London, UK required a cost overrun guarantee equivalent to 8% of the total budgeted cost (£6 million). The Company will only be responsible for its pro rata share of any cost overruns with a maximum additional commitment of approximately £3 million.	-	£9 million
Secure Capital for Variable Annuity Separate Accounts	The Company guarantees the capital contributions required to be made by a variable annuity separate account contract holder in the event the contract holder fails to payoff a subscription line utilized to deploy capital for the separate account.	-	\$135 million with the right to increase the line to \$175 million.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

17. Related party transactions

MassMutual has management and service contracts and cost-sharing arrangements with various subsidiaries and affiliates where MassMutual, for a fee, will furnish a subsidiary or affiliate, as required, operating facilities, human resources, computer software development and managerial services.

MassMutual has agreements with its subsidiaries and affiliates, including Insurance Road LLC, Copper Hill LLC, MML Investment Advisers LLC, The MassMutual Trust Company, FSB, MassMutual International LLC and Baring International Investment Limited, where MassMutual receives revenue for certain recordkeeping and other services that MassMutual provides to customers who select, as investment options, mutual funds managed by these affiliates.

MassMutual has agreements with its subsidiaries, Barings, MML Investment Advisers LLC and MassMutual Intellectual Property LLC, which provide investment advisory services and licensing agreements to MassMutual.

The following table summarizes the transactions between the Company and the related parties:

	Years Ended December 31,		
	2023	2022	2021
	(In Millions)		
Fee income:			
Management and service contracts and cost-sharing arrangements	\$ 425	\$ 366	\$ 364
Investment advisory income	16	18	23
Recordkeeping and other services	11	16	20
Fee expense:			
Investment advisory services	221	236	240
Royalty and licensing fees	84	71	58

The Company reported amounts due from subsidiaries and affiliates of \$132 million as of December 31, 2023 and \$103 million as of December 31, 2022. The Company reported amounts due to subsidiaries and affiliates of \$39 million as of December 31, 2023 and \$33 million as of December 31, 2022. Terms generally require settlement of these amounts within 30 to 90 days.

The Company held debt issued by MMHLLC that amounted to \$2,144 million as of December 31, 2023 and \$2,315 million as of December 31, 2022. The Company recorded interest income on MMHLLC debt of \$125 million in 2023 and \$94 million in 2022. The notes maturing as of June 2022 were refinanced at 5.00% for \$257 million. The notes maturing as of December 15, 2023 were refinanced at 5.75% for \$380 million. A new note was issued on December 22, 2023 with a maturity date of December 22, 2030 at 5.90% for \$375 million.

As of December 31, 2023, MMIH and C.M. Life, together, provided financing of \$5,500 million, \$5,253 million and \$247 million respectively, for MMAF that can be used to finance ongoing asset purchases. MMIH provided financing of \$5,253 million as of December 31, 2023 and \$5,253 million as of December 31, 2022. During 2022, MMAF borrowed \$2,244 million and repaid \$1,123 million under the credit facility. During 2023, MMAF borrowed \$2,271 million and repaid \$2,203 million under the credit facility. Outstanding borrowings under the facility were \$4,824 million as of December 31, 2023 and \$3,703 million as of December 31, 2022. Interest for these borrowings was \$131 million for the year ended December 31, 2023 and \$86 million for the year ended December 31, 2022. The floating rate borrowings bear interest at a spread over the 30 day LIBOR. The fixed rate borrowings bear an interest at a spread over average life Treasuries.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

Together, MassMutual and C.M. Life, provide a credit facility to Jefferies Finance, LLC whereby Jefferies Finance, LLC (Jefferies) borrows cash through short-term approved financings to fund the purchase of loans for securitization. During 2023, Jefferies borrowed \$79 million and repaid \$79 million under the credit facility. During 2022, Jefferies borrowed \$225 million and repaid \$225 million under the credit facility. As of December 31, 2023, there were no outstanding borrowings under this facility. All outstanding interest due under the facility, as of December 31, 2023, had been paid. The interest of this facility is calculated based on a full pass through of interest accrued on the underlying loans purchased.

In 2023, MassMutual made capital contributions of \$13 million to HavenTech Asia.

In 2023, MassMutual made capital contributions of \$116 million to ITPS Holdings LLC.

In 2023, MassMutual made capital contributions of \$88 million to MassMutual Mortgage Lending LLC, \$50 million to MMIH Bond Holdings LLC, and \$13 million to MML CM LLC.

In 2023, MassMutual purchased \$531 million of private placement corporate assets from C.M. Life.

In 2022, Insurance Road LLC paid \$90 million in dividends and a \$123 million return of capital to MassMutual.

In 2022, MassMutual made capital contributions of \$17 million to MassMutual International LLC.

In 2022, MassMutual made capital contributions of \$35 million to ITPS Holding LLC.

In 2022, MassMutual transferred its ownership in Martello Re to MMHLLC of (\$58) million.

In 2022, MassMutual transferred its ownership of partnerships and LLCs to MMHLLC of \$194 million.

In 2022, MassMutual made contributions to DPI Acres Capital for \$154 million.

In 2022, MassMutual made contributions of \$27 million to downstream subsidiaries.

The Company has reinsurance agreements with its subsidiary, C.M. Life, and its indirect subsidiary, MML Bay State, including stop-loss, Modco and yearly renewable term agreements on life insurance and annuity products. The Company also has coinsurance agreements with C.M. Life where the Company assumes substantially all of the premium on certain universal life policies.

Effective December 31, 2020, MassMutual provides C.M. Life a stop-loss coverage to transfer a specific interest rate risk. All Odyssey fixed-deferred annuity contracts issued by C.M. Life are covered under this agreement. C.M. Life pays an annual premium to MassMutual. If the coverage is triggered, there will be a settlement at year end from MassMutual to C.M. Life. The maximum total liability of MassMutual under the agreement is \$200 million over seven years.

As of December 31, 2023, the net reinsurance amounts due to C.M. Life and MML Bay State were \$29 million and as of December 31, 2022, the net reinsurance amounts due to C.M. Life and MML Bay State were \$53 million. These outstanding balances are due and payable with terms ranging from monthly to annually, depending on the agreement in effect.

MASSACHUSETTS MUTUAL LIFE INSURANCE COMPANY
NOTES TO STATUTORY FINANCIAL STATEMENTS, continued

The following table summarizes the reinsurance transactions for these reinsurance agreements:

	Years Ended December 31,		
	2023	2022	2021
	(In Millions)		
Premium assumed	\$ 43	\$ 44	\$ 49
Modco adjustments, included in fees and other income	24	12	11
Expense allowance on reinsurance assumed, included in commissions	(13)	(13)	(13)
Policyholders' benefits	(108)	(88)	(144)
Experience refunds (paid) received	1	(1)	-
Accrual for stop-loss agreement	-	(18)	-

The Company currently has one longevity swap reinsurance agreement with Rothesay Life Plc on certain inforce annuity products. Under this agreement, the Company is the reinsurer and Rothesay Life Plc is the cedent.

The following table summarizes the related party transactions between the Company and Rothesay Life Plc:

	Years Ended December 31,

Report of Independent Registered Public Accounting Firm

The Board of Directors of Massachusetts Mutual Life Insurance Company and Policy Owners of Massachusetts Mutual Variable Life Separate Account I:

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of the divisions listed in Appendix A that comprise Massachusetts Mutual Variable Life Separate Account I (Separate Account), as of December 31, 2023, the related statements of operations and changes in net assets for each of the years in the two-year period then ended (or for the periods indicated in Appendix A), and the related notes, including the financial highlights in Note 8, for each of the years or periods in the five-year period then ended, (collectively, the financial statements). In our opinion, the financial statements present fairly, in all material respects, the financial position of each division as of December 31, 2023, and the results of their operations and the changes in their net assets for each of the years in the two-year period then ended (or for the periods indicated in Appendix A), and the financial highlights for each of the years or periods in the five-year period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Separate Account's management. Our responsibility is to express an opinion on these financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Separate Account in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Such procedures also included confirmation of securities owned as of December 31, 2023, by correspondence with the underlying mutual funds or their transfer agent. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ KPMG LLP

We have served as the Separate Account's auditor since 2004.

Boston, Massachusetts
March 7, 2024

F-1

KPMG LLP, a Delaware limited liability partnership and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

Appendix A

Massachusetts Mutual Variable Life Separate Account I was comprised of the following divisions of as December 31, 2023. Statements of assets and liabilities as of December 31, 2023, statements of operations and changes in net assets for each of the years in the two-year period ended December 31, 2023 unless otherwise noted.

Notes To Financial Statements

1. ORGANIZATION

Massachusetts Mutual Variable Life Separate Account I (“the Separate Account”) is a separate investment account of Massachusetts Mutual Life Insurance Company (“MassMutual”) established on July 13, 1988. The Separate Account is registered as a unit investment trust under the Investment Company Act of 1940 (“the 1940 Act”).

MassMutual maintains the following sixteen segments within the Separate Account: Variable Life Plus, Large Case Variable Life Plus, Strategic Variable Life®, Variable Life Select, Strategic Group Variable Universal Life®, Strategic Group Variable Universal Life® II, Survivorship Variable Universal Life, Variable Universal Life, Strategic Variable Life® Plus, Survivorship Variable Universal Life II, Variable Universal Life II, VUL GuardSM, Survivorship VUL GuardSM, Variable Universal Life III, MassMutual ElectrumSM and Apex VULSM. Four of the sixteen segments within the Separate Account: Variable Universal Life II, VUL GuardSM, Survivorship VUL GuardSM and Variable Universal Life III, have multiple tiers. The unit values of these tiers differ based on the associated expense ratios.

The assets and liabilities of the Separate Account are clearly identified and distinguished from MassMutual’s other assets and liabilities. The portion of the Separate Account assets applicable to the variable life policies is not chargeable with liabilities arising from any other MassMutual business.

2. INVESTMENT OF THE SEPARATE ACCOUNT’S ASSETS

For the year or period ended December 31, 2023, the Separate Account consists of one hundred sixty-two divisions that invest in the following mutual funds. All of the divisions may not be available to all of the sixteen segments of the Separate Account:

In addition to the one hundred sixty-two divisions, policy owners may also allocate funds to the Guaranteed Principal Account (“GPA”), which is part of MassMutual’s general investment account (“General Account”). Because of exemptive and exclusionary provisions in the securities law, interests in the GPA are not registered under the Securities Act of 1933. The General Account and the GPA are not registered as an investment company under the 1940 Act.

²⁴This division did not have any investment or unit activity in 2021 to 2023.

²⁵This Sub-Account/Fund became available to the Separate Account as an investment option on May 1, 2023.

²⁶Prior to April 29, 2022, known as Goldman Sachs Growth Opportunities Division/Portfolio.

²⁷Prior to April 29, 2022, known as MML Growth & Income Division/Fund.

²⁸Prior to May 1, 2022, known as VY® Clarion Global Real Estate Division/Portfolio.

²⁹Effective May 1, 2023, the JPMorgan Insurance Trust U.S. Equity Portfolio merged into the LVIP JPMorgan U.S. Equity Fund. The LVIP JPMorgan U.S. Equity Fund assumed the accounting and performance history of the JPMorgan Insurance Trust U.S. Equity Portfolio.

³⁰Prior to April 29, 2022, known as Invesco V.I. International Growth Division/Fund.

³¹After the close of business on April 29, 2022, Invesco V.I. Core Plus Bond Fund acquired all the net assets of Invesco V.I. Core Bond Fund pursuant to a plan of reorganization approved by the Board of Trustees of the Invesco V.I. Core Plus Bond Fund on December 1, 2021 and by the shareholders of the Invesco V.I. Core Bond Fund on March 31, 2022. The acquisition was accomplished by a tax -free exchange as of the close of business on April 29, 2022. Shares of Invesco V.I. Core Bond Fund were exchanged for the like class of shares of Invesco V.I. Core Plus Bond Fund, based on the relative net asset value of the two funds which resulted in Invesco V.I. Core Bond Fund receiving 1.15816327 shares of Invesco V.I. Core Plus Bond Fund in exchange of 1 share of Invesco V.I. Core Bond Fund. As a result of the underlying fund merger, the division name changed from Invesco V.I. Core Bond to Invesco V.I. Core Plus Bond.

3. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Separate Account in preparation of the financial statements in conformity with generally accepted accounting principles. Massachusetts Mutual Variable Life Separate Account I follows the accounting and reporting guidance in FASB Accounting Standards Codification 946.

A. Investment Valuation

Investments in the underlying funds held by each division are carried at fair value which is based on the closing net asset value of each of the respective underlying funds, which value their investment securities at fair value.

B. Accounting for Investments

Investment transactions are accounted for on a trade-date basis and identified cost is the basis followed in determining the cost of investments sold for financial statement purposes. Dividend income and gains from realized gain distributions are recorded on the ex-distribution date and they are generally reinvested in the underlying investment funds.

C. Federal Income Taxes

MassMutual is taxed under federal law as a life insurance company under the provisions of the 1986 Internal Revenue Code, as amended. Under existing federal law, no taxes are payable on net investment income and net realized capital gains attributable to policies, which depend on the Separate Account's investment performance. Accordingly, no provision for federal income tax has been made. MassMutual may, however, make such a charge in the future if an unanticipated change of current law results in a tax liability attributable to the Separate Account.

D. Policy Charges

See Note 8B for charges associated with the policies.

E. Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

F. Policy Loans

When a policy loan is made, the Separate Account transfers the amount of the loan to MassMutual, thereby decreasing both the investments and the net assets of the Separate Account by an equal amount. The policy owner is charged interest on the outstanding policy loan amount generally equal to either a fixed interest rate of 4% to 6% per year or (in all qualifying jurisdictions) an adjustable loan rate, where applicable. The adjustable loan rate is determined each year for the following policy year.

As long as a loan is outstanding, a portion of the policy account value equal to the loan is invested in the GPA. The amount of the loan earns interest at a rate equal to the greater of either a fixed interest rate generally equal to 2% to 5% of the loan or the policy loan rate less the loan interest rate expense charge.

G. Life Reserves

Life reserves are developed by using accepted actuarial methods and are computed using the 1980 CSO, 2001 CSO, or 2017 CSO mortality tables.

4. FAIR VALUE OF FINANCIAL INSTRUMENTS

The Separate Account defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Separate Account generally uses the market approach as the valuation technique due to the nature of the mutual fund investments offered in the Separate Account. This technique maximizes the use of observable inputs and minimizes the use of unobservable inputs. Investments in mutual funds are valued at the mutual fund's closing net asset value per share on the day of valuation.

Valuation Inputs: Various inputs are used to determine the value of the Separate Account's investments. These inputs are summarized in the three broad levels listed below:

- **Level 1** – quoted prices in active markets for identical securities
- **Level 2** – observable inputs other than Level 1 quoted prices (including, but not limited to, quoted prices for similar securities, interest rates, prepayment speeds and credit risk)
- **Level 3** – unobservable inputs

The investments of the Separate Account are measured at fair value. All the investments are categorized as Level 1 as of December 31, 2023. There have been no transfers between levels for the year ended December 31, 2023.

5. RELATED PARTY TRANSACTIONS

A. Sales Agreements

The policies currently being offered are sold by registered representatives of MML Investors Services, LLC ("MMLIS"), a subsidiary of MassMutual, and by registered representatives of other broker-dealers who have entered into distribution agreements with MML Distributors, LLC ("MML Distributors") and/or MML Strategic Distributors, LLC ("MSD"), subsidiaries of MassMutual. Pursuant to separate underwriting agreements with MassMutual, on its own behalf and on behalf of the Separate Account, MMLIS serves as principal underwriter of the policies sold by its registered representatives, and MML Distributors and MSD serve as principal underwriters of the policies sold by registered representatives of other broker-dealers who have entered into distribution agreements with MML Distributors and/or MSD.

MMLIS, MML Distributors and MSD are registered with the Securities and Exchange Commission (the "SEC") as broker-dealers under the Securities Exchange Act of 1934 and are members of the Financial Industry Regulatory Authority ("FINRA"). Commissions for sales of policies by MMLIS registered representatives are paid on behalf of MMLIS to its registered representatives. Commissions for sales of policies by registered representatives of other broker-dealers are paid on behalf of MML Distributors and/or MSD to those broker-dealers. MMLIS, MML Distributors, and MSD also receive compensation for their actions as principal underwriters of the policies.

B. Receivable from/Payable to MassMutual

Certain fees such as mortality and expense fees are charges paid between the General Account and the Separate Account. The General Account is not registered as an investment company under the 1940 Act.

Notes To Financial Statements (Continued)

6. PURCHASES AND SALES OF INVESTMENTS

The cost of purchases and proceeds from sales of investments for each of the years in the two-year period ended December 31, 2023 were as follows:

¹The investment income ratios represent the dividends, excluding distributions of capital gains, received by the division from the underlying mutual fund, divided by the average net assets. These ratios exclude expenses, such as mortality and expense charges, that are assessed against policy owner accounts either through reductions in the unit values or the redemption of units. The recognition of investment income by the division is affected by the timing of the declaration of dividends by the underlying fund in which the division invests.

²The expense ratios represent the annualized policy expense of the divisions of the Separate Account, consisting primarily of mortality and expense charges, for each period indicated. The ratios include only those expenses that result in a direct reduction of unit values. Charges made directly to policy owner accounts through the redemption of units and expenses of the underlying fund have been excluded.

³The total returns are for the periods indicated, including changes in the value of the underlying fund, and the expenses assessed through the reduction of unit values. These ratios do not include any expenses assessed through the redemption of units. As the total return is presented as a range of minimum to maximum values, based on the product grouping representing the related minimum and maximum expense ratio amounts, some individual policy total returns and unit values are not within the ranges presented.

⁴See Note 2 to the financial statements for the previous name of this division.

⁵After the close of business on April 29, 2022, Invesco V.I. Core Plus Bond Fund acquired all the net assets of Invesco V.I. Core Bond Fund pursuant to a plan of reorganization approved by the Board of Trustees of the Invesco V.I. Core Plus Bond Fund on December 1, 2021 and by the shareholders of the Invesco V.I. Core Bond Fund on March 31, 2022. The acquisition was accomplished by a tax-free exchange as of the close of business on April 29, 2022. Shares of Invesco V.I. Core Bond Fund were exchanged for the like class of shares of Invesco V.I. Core Plus Bond Fund, based on the relative net asset value of the two funds which resulted in Invesco V.I. Core Bond Fund receiving 1.15816327 shares of Invesco V.I. Core Plus Bond Fund in exchange of 1 share of Invesco V.I. Core Bond Fund. As a result of the underlying fund merger, the division name changed from Invesco V.I. Core Bond to Invesco V.I. Core Plus Bond. Financial highlights for the years 2018-2021 correspond to the Invesco V.I. Core Bond Division.

⁶For the period January 1, 2022 to November 4, 2022. Effective November 4, 2022 this Division liquidated and any contract value in the Division after the close of the New York Stock Exchange on November 4, 2022 was automatically transferred to the MML U.S. Government Money Market Division.

⁷This fund/division became available to the Separate Account as an investment option on June 26, 2017, but it is presented from the year when the investment or unit activity has been started.

⁸This fund/division became available to the Separate Account as an investment option on October 16, 2020, but it is presented from the year when the investment or unit activity has been started.

⁹Effective May 1, 2023, the JPMorgan Insurance Trust U.S. Equity Portfolio merged into the LVIP JPMorgan U.S. Equity Fund. The LVIP JPMorgan U.S. Equity Fund assumed the accounting and performance history of the JPMorgan Insurance Trust U.S. Equity Portfolio.

¹⁰This fund/division became available to the Separate Account as an investment option on May 1, 2021, but it is presented from the year when the investment or unit activity has been started.

¹¹This fund/division became available to the Separate Account as an investment option on May 1, 2023, but it is presented from the year when the investment or unit activity has been started.

¹²For the period January 1, 2019 through April 29, 2019. Effective April 29, 2019 this Sub-Account liquidated and any contract value in the Sub-Account after the close of the New York Stock Exchange on April 29, 2019 was automatically transferred to the MML U.S. Government Money Market Sub-Account.

8. FINANCIAL HIGHLIGHTS (Continued)

- B. The Separate Account assesses “current” charges associated with each policy. These charges are either assessed as a direct reduction in unit values or through a redemption of units for all policies contained within the Separate Account. Charges shown below state charges assessed at a monthly rate unless otherwise specified.

Administrative Charge This charge is assessed through the redemption of units.	\$0 - \$12 per month per policy
Asset Charge/Mortality and Expense Risk Charge This charge is assessed through a reduction in unit values or through the redemption of units.	Effective annual rate of 0.10% - 1.00% of the policy’s assets held in the Separate Account.
Additional Mortality Fees This charge is assessed through a redemption of units.	\$0.00 to \$83.33 per \$1,000 of insurance risk \$0.08 to \$83.33 per \$1,000 of face amount
Face Amount Charge This charge is assessed through a redemption of units.	\$0.00 - \$1.79 per month per \$1,000 face amount of policy; or charge is based on the initial selected face amount of the Policy, the issue age of the insured, and the Policy year in which the deduction is made.
Insurance Charge/Cost of Insurance Protection Charge/Mortality Charge These charges are assessed through a redemption of units.	\$0.00 - \$83.33 per month per \$1,000 of insurance risk; or MassMutual may charge up to the maximum rate in the Table of Maximum Monthly Mortality Charges in a Policy. MassMutual may charge less than the maximum. If policies are issued in a Group Case, any changes in these charges will apply to all policies in the same case.
Loan Interest Rate Expense Charge This charge is assessed through a redemption of units.	Effective annual rate of 0.00% - 1.00% of the loan amount

Rider Charges: The rider charges do not apply to all segments within the Separate Account. These charges are assessed through a redemption of units.	
A. Accidental Death Benefit	\$0.025 - \$0.12929 per \$1,000 of coverage
B. Additional Insurance	\$0.01 to \$82.50 per \$1,000 of insurance risk \$0.00 to \$0.41 per \$1,000 of face amount
C. Death Benefit Guarantee	\$0.01 per \$1,000 of face amount
D. Disability Benefit	\$0.00 to \$0.32 per \$1 of monthly deductions \$0.00 to \$0.04 per \$1 of specified benefit amount \$0.009 to \$0.149 per \$1 of specified premium \$0.00 to \$0.09783 per \$1,000 of insurance risk
E. Estate Protection	\$0.00 to \$21.96 per \$1,000 of insurance risk
F. Guaranteed Insurability	\$0.03 to \$0.11 per \$1,000 of option amount
G. Insurability Protection	\$0.043 to \$0.179 per \$1,000 of rider face amount

Item 32. Persons Controlled by or Under Common Control with the Depositor or the Registrant

– Incorporated by reference to Item 32 on Form N-6 in Post-Effective Amendment No. 3 to Registration Statement File No. 333-259818 filed on or about April 25, 2024

Item 33. Indemnification

MassMutual directors and officers are indemnified under Article V. of the by-laws of Massachusetts Mutual Life Insurance Company, as set forth below.

ARTICLE V. of the By-laws of MassMutual provides for indemnification of directors and officers as follows:

“ARTICLE V.

INDEMNIFICATION

Subject to limitations of law, the Company shall indemnify:

- (a) each director, officer or employee;
- (b) any individual who serves at the request of the Company as a director, board member, committee member, partner, trustee, officer or employee of any foreign or domestic organization or any separate investment account; or
- (c) any individual who serves in any capacity with respect to any employee benefit plan,

from and against all loss, liability and expense imposed upon or incurred by such person in connection with any threatened, pending or completed action, claim, suit, investigation or proceeding of any nature whatsoever, in which such person may be involved or with which he or she may be threatened to be involved, by reason of any alleged act, omission or otherwise while serving in any such capacity, whether such action, claim, suit, investigation or proceeding is civil, criminal, administrative, arbitrative, or investigative and/or formal or informal in nature. Indemnification shall be provided although the person no longer serves in such capacity and shall include protection for the person's heirs and legal representatives.

Indemnities hereunder shall include, but not be limited to, all costs and reasonable counsel fees, fines, penalties, judgments or awards of any kind, and the amount of reasonable settlements, whether or not payable to the Company or to any of the other entities described in the preceding paragraph, or to the policyholders or security holders thereof.

Notwithstanding the foregoing, no indemnification shall be provided with respect to:

- (1) any matter as to which the person shall have been adjudicated in any proceeding not to have acted in good faith in the reasonable belief that his or her action was in the best interests of the Company or, to the extent that such matter relates to service with respect to any employee benefit plan, in the best interests of the participants or beneficiaries of such employee benefit plan;
- (2) any liability to any entity which is registered as an investment company under the Federal Investment Company Act of 1940 or to the security holders thereof, where the basis for such liability is willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of office; and
- (3) any action, claim or proceeding voluntarily initiated by any person seeking indemnification, unless such action, claim or proceeding had been authorized by the Board of Directors or unless such person's indemnification is awarded by vote of the Board of Directors.

In any matter disposed of by settlement or in the event of an adjudication which in the opinion of the General Counsel or his or her delegate does not make a sufficient determination of conduct which could preclude or permit indemnification in accordance with the preceding paragraphs (1), (2) and (3), the person shall be entitled to indemnification unless, as determined by the majority of the disinterested directors or in the opinion of counsel (who may be an officer of the Company or outside counsel employed by the Company), such person's conduct was such as precludes indemnification under any such paragraph. The termination of any action, claim, suit, investigation or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent shall not, of itself, create a presumption that the person did not act in good faith and in a manner which he or she reasonably believed to be in the best interests of the Company.

The Company may at its option indemnify for expenses incurred in connection with any action or proceeding in advance of its final disposition, upon receipt of a satisfactory undertaking for repayment if it be subsequently determined that the person thus indemnified is not entitled to indemnification under this Article V.”

To provide certainty and more clarification regarding the indemnification provisions of the Bylaws set forth above, MassMutual has entered into indemnification agreements with each of its directors, and with each of its officers who serve as a director of a subsidiary of MassMutual, (a "Director"). Pursuant to the Agreements, MassMutual agrees to indemnify a Director, to the extent legally permissible, against (a) all expenses, judgments, fines and settlements ("Costs"), liabilities, and penalties paid in connection with a proceeding involving the Director because he or she is a director if the Director (i) acted in good faith, (ii) reasonably believed the conduct was in the Company's best interests; (iii) had no reasonable cause to believe the conduct was unlawful (in a criminal proceeding); and, (iv) engaged in conduct for which the Director shall not be liable under MassMutual's Charter or By-Laws. MassMutual further agrees to indemnify a Director, to the extent permitted by law, against all Costs paid in connection with any proceeding (i) unless the Director breached a duty of loyalty, (ii) except for liability for acts or omissions not in good faith, involving intentional misconduct or a knowing violation of law, (iii) except for liability under Section 6.40 of Chapter 156D of Massachusetts Business Corporation Act ("MBCA"), or (iv) except for liability related to any transaction from which the Director derived an improper benefit. MassMutual will also indemnify a Director, to the fullest extent authorized by the MBCA, against all expenses to the extent the Director has been successful on the merits or in defense of any proceeding. If any court determines that despite an adjudication of liability to MassMutual or its subsidiary that the Director is entitled to indemnification, MassMutual will indemnify the Director to the extent permitted by law. Subject to the Director's obligation to pay MassMutual in the event that the Director is not entitled to indemnification, MassMutual will pay the expenses of the Director prior to a final determination as to whether the Director is entitled to indemnification.

Item 34. Principal Underwriters

- (a) MML Investors Services, LLC ("MMLIS") acts as principal underwriter of the contracts/policies/certificates sold by its registered representatives and MML Strategic Distributors, LLC ("MSD") serves as principal underwriter of the contracts/policies/certificates sold by registered representatives of other broker-dealers who have entered into distribution agreements with MSD.

MMLIS and MSD either jointly or individually act as principal underwriters for:
