## **1. Organization and Basis of Presentation**

### **Organization**

Charter Communications, Inc. (together with its controlled subsidiaries, “Charter,” or the “Company”) is a leading broadband connectivity company with services available to homes and small to large businesses through its Spectrum® brand. Founded in 1993, the Company has evolved from providing cable TV to streaming, and from high-speed Internet to a converged broadband, WiFi and mobile experience. Over the Spectrum Fiber Broadband Network and supported by the Company’s 100% U.S.-based employees, the Company offers Seamless Connectivity and Entertainment with Spectrum Internet®, Mobile, TV and Voice products.

Charter is a holding company whose principal asset is a controlling equity interest in Charter Communications Holdings, LLC (“Charter Holdings”), an indirect owner of Charter Communications Operating, LLC (“Charter Operating”) under which substantially all of the operations reside. All significant intercompany accounts and transactions among consolidated entities have been eliminated.

### **Basis of Presentation**

The accompanying consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) and the rules and regulations of the Securities and Exchange Commission (the “SEC”). Accordingly, certain information and footnote disclosures typically included in the Company's Annual Report on Form 10-K have been condensed or omitted for this quarterly report. The accompanying consolidated financial statements are unaudited and are subject to review by regulatory authorities. However, in the opinion of management, such financial statements include all adjustments, which consist of only normal recurring adjustments, necessary for a fair presentation of the results for the periods presented. Interim results are not necessarily indicative of results for a full year.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Areas involving significant judgments and estimates include capitalization of labor and overhead costs, valuation and impairment of franchise assets and goodwill, and income taxes. Actual results could differ from those estimates.

Comprehensive income equaled net income attributable to Charter shareholders for the three months ended March 31, 2026 and 2025.

## **2. Mergers and Acquisitions**

On May 16, 2025, Charter, Charter Holdings, and Cox Enterprises, Inc. (“Cox Enterprises”) entered into a Transaction Agreement (the “Transaction Agreement”) pursuant to which (i) Cox Enterprises will sell and transfer to Charter 100% of the equity interests of certain subsidiaries of Cox Communications, Inc. (“Cox Communications”) that conduct Cox Communications’ commercial fiber and managed IT and cloud services businesses (the “Equity Sale”), (ii) Cox Enterprises will contribute the equity interests of Cox Communications and certain other assets (other than certain excluded assets) primarily related to Cox Communications’ residential cable business to Charter Holdings (the “Contribution”), and (iii) Cox Enterprises will pay \$1.00 to Charter (collectively, the “Cox Transactions”). Under the Transaction Agreement, Charter and Cox Enterprises may designate one or more wholly owned subsidiaries to take actions with respect to Charter and Cox Enterprises, respectively.

Pursuant to the Transaction Agreement, at the closing of the Cox Transactions:

- in consideration of the Equity Sale, Charter will pay \$3.5 billion in cash to Cox Enterprises;
- in consideration of the Contribution, Charter Holdings will (i) pay to Cox Enterprises \$650 million in cash and (ii) issue to Cox Enterprises convertible preferred units of Charter Holdings with an aggregate liquidation preference of \$6.0 billion, which will pay a 6.875% dividend per annum, and approximately 33.6 million Charter Holdings common units. The

Charter Holdings convertible preferred units will be convertible into Charter Holdings common units, with an initial conversion price of \$477.41, subject to certain adjustments. The Charter Holdings common units will be exchangeable by the holder, in certain circumstances, for cash or, at the election of Charter, Charter Class A common stock on a one-for-one basis, subject to certain adjustments; and

- in consideration of the \$1.00 payment from Cox Enterprises to Charter, Charter will issue to Cox Enterprises one share of the newly created Charter Class C common stock. The Charter Class C common stock will be equivalent, economically, to the outstanding Charter Class A common stock and the Charter Class B common stock but will have a number of votes per share that reflect the voting power of the Charter Holdings common units and the Charter Holdings convertible preferred units held by Cox Enterprises on an as-converted, as-exchanged basis.

The combined entity will assume Cox Communications' approximately \$12.4 billion in outstanding net debt and finance leases.

**3. Accounts Payable, Accrued and Other Current Liabilities**

As a result, the Company has generally extended its payment terms with vendors. A participating vendor may request a participating financial institution to finance one or more of the Company's payment obligations to such vendor prior to the scheduled due date thereof at a discounted price. The Company is not required to provide collateral to the financial institutions. The Company's obligations to participating vendors, including amounts due and scheduled payment dates, are not impacted by the vendors' decisions to finance amounts due under these financing arrangements. The Company's outstanding payment obligations to participating vendors were \$672 million and \$735 million as of March 31, 2026 and December 31, 2025, respectively, and are included in accounts payable - trade and accrued capital expenditures above. The SPV Borrower is a separate legal entity with its own separate creditors who will be entitled, upon its liquidation, to be satisfied out of the SPV Borrower's assets prior to any assets or value in the SPV Borrower becoming available to the SPV Borrower's equity holders, and the assets of the SPV Borrower are not available to pay creditors of any other affiliate of the Company.

The EIP Financing Facility is accounted for on a consolidated basis as a secured borrowing. As of March 31, 2026 and December 31, 2025, pledged EIP Receivables with an unpaid principal balance of \$2.2 billion included in accounts receivable,

All significant intercompany accounts and transactions among consolidated entities have been eliminated.

### **The Cox Transactions**

On May 16, 2025, Charter, Charter Holdings, and Cox Enterprises, Inc. ("Cox Enterprises") entered into a Transaction Agreement (the "Transaction Agreement") pursuant to which (i) Cox Enterprises will sell and transfer to Charter 100% of the equity interests of certain subsidiaries of Cox Communications, Inc. ("Cox Communications") that conduct Cox Communications' commercial fiber and managed IT and cloud services businesses (the "Equity Sale"), (ii) Cox Enterprises will contribute the equity interests of Cox Communications and certain other assets (other than certain excluded assets) primarily related to Cox Communications' residential cable business to Charter Holdings (the "Contribution"), and (iii) Cox Enterprises will pay \$1.00 to Charter (collectively, the "Cox Transactions"). Under the Transaction Agreement, Charter and Cox Enterprises may designate one or more wholly owned subsidiaries to take actions with respect to Charter and Cox Enterprises, respectively.

Pursuant to the Transaction Agreement, at the closing of the Cox Transactions (the "Closing"):

- in consideration of the Equity Sale, Charter will pay \$3.5 billion in cash to Cox Enterprises;
- in consideration of the Contribution, Charter Holdings will (i) pay to Cox Enterprises \$650 million in cash and (ii) issue to Cox Enterprises convertible preferred units of Charter Holdings with an aggregate liquidation preference of \$6.0 billion, which will pay a 6.875% dividend per annum, and approximately 33.6 million Charter Holdings common units. The Charter Holdings convertible preferred units will be convertible into Charter Holdings common units, with an initial conversion price of \$477.41, subject to certain adjustments. The Charter Holdings common units will be exchangeable by the holder, in certain circumstances, for cash or, at the election of Charter, Charter Class A common stock on a one-for-one basis, subject to certain adjustments; and
- in consideration of the \$1.00 payment from Cox Enterprises to Charter, Charter will issue to Cox Enterprises one share of the newly created Charter Class C common stock. The Charter Class C common stock will be equivalent, economically, to the outstanding Charter Class A common stock and the Charter Class B common stock but will have a number of votes per share that reflect the voting power of the Charter Holdings common units and the Charter Holdings convertible preferred units held by Cox Enterprises on an as-converted, as-exchanged basis.

The combined entity will assume Cox Communications' approximately \$12.4 billion in outstanding net debt and finance leases.

We realized revenue, Adjusted EBITDA and income from operations during the periods presented as follows (in millions; all percentages are calculated using whole numbers; minor differences may exist due to rounding):

	<b>Three Months Ended March 31,</b>		
	<b>2026</b>	<b>2025</b>	<b>% Change</b>
Revenues	\$ 13,597	\$ 13,735	(1.0)%
Adjusted EBITDA	\$ 5,637	\$ 5,763	(2.2)%
Income from operations	\$ 3,208	\$ 3,237	(0.9)%

Adjusted EBITDA is defined as net income attributable to Charter shareholders plus net income attributable to noncontrolling interest, interest expense, net, income taxes, depreciation and amortization, stock compensation expense, other income (expenses), net and other operating (income) expenses, net, such as special charges, merger and acquisition costs and (gain) loss on sale or retirement of assets. See “Use of Adjusted EBITDA and Free Cash Flow” for further information on Adjusted EBITDA and free cash flow.

Total revenues decreased \$138 million during the three months ended March 31, 2026 compared to the corresponding period in 2025 primarily due to higher seamless entertainment allocation, partly offset by growth in connectivity revenue. Adjusted EBITDA and income from operations were also negatively impacted by one-time favorable adjustments of \$75 million in the first quarter of 2025.

**Revenues.** Total revenues decreased \$138 million during the three months ended March 31, 2026 compared to the corresponding period in 2025. The decrease was primarily due to higher seamless entertainment allocation, partly offset by growth in connectivity revenue.

Revenues by service offering were as follows (dollars in millions; all percentages are calculated using whole numbers; minor differences may exist due to rounding):

	<b>Three Months Ended March 31,</b>		
	<b>2026</b>	<b>2025</b>	<b>% Change</b>

Residential revenue	10,494	10,780	(2.7)%
Small business	1,090	1,088	0.2 %

The decrease in Internet revenues from our residential customers is attributable to the following (dollars in millions):

	<b>Three months ended March 31, 2026 compared to three months ended March 31, 2025</b>
Decrease in average residential Internet customers	\$ (87)
Increase related to rate and product mix changes	9
	<u>\$ (78)</u>

Residential Internet customers decreased by 455,000 customers from March 31, 2025 to March 31, 2026. The increase related to rate and product mix was primarily due to promotional rate step-ups, rate adjustments, and a favorable change in bundled revenue allocation.

The increase in mobile service revenues from our residential customers is attributable to the following (dollars in millions):

	<b>Three months ended March 31, 2026 compared to three months ended March 31, 2025</b>
Increase in average residential mobile lines	\$ 164
Decrease related to rate	(26)
	<u>\$ 138</u>

Residential mobile lines increased by approximately 1.7 million mobile lines from March 31, 2025 to March 31, 2026. The decrease related to rate was primarily due to less favorable bundled revenue allocation, partly offset by rate adjustments.

Video revenues consist primarily of revenues from video services provided to our residential customers, as well as franchise fees, equipment service fees and video installation revenue. The decrease in video revenues is attributable to the following (dollars in millions):

	<b>Three months ended March 31, 2026 compared to three months ended March 31, 2025</b>
Increase in seamless entertainment allocation	\$ (171)
Decrease related to rate and product mix changes	(103)
Decrease in average residential video customers	(54)
	<u>\$ (328)</u>

Seamless entertainment allocation represents costs allocated to programmer streaming applications and netted within video revenue. The increase in seamless entertainment allocation is due to growth in seamless entertainment applications and higher activations. The decrease related to rate and product mix was primarily due to a higher mix of lower priced video packages within our video customer base and more unfavorable bundled revenue allocation, partly offset by promotional rate step-ups and video rate adjustments that pass-through programming rate increases. Residential video customers decreased by 139,000 from March 31, 2025 to March 31, 2026.

The decrease in voice revenues from our residential customers is attributable to the following (dollars in millions):

	<b>Three months ended March 31, 2026 compared to three months ended March 31, 2025</b>
Decrease in average residential voice customers	\$ (49)
Increase related to rate adjustments	31
	<u>\$ (18)</u>

Residential wireline voice customers decreased by 707,000 customers from March 31, 2025 to March 31, 2026.

The increase in small business revenues is attributable to the following (dollars in millions):

	<b>Three months ended March 31, 2026 compared to three months ended March 31, 2025</b>
Increase related to rate and product mix changes	\$ 9
Decrease in average small business customers	(7)
	<u>\$ 2</u>

Small business customers decreased by 15,000 from March 31, 2025 to March 31, 2026.

Mid-market & large business revenues increased \$15 million during the three months ended March 31, 2026 compared to the corresponding period in 2025 primarily due to an increase in Internet PSUs. Mid-market & large business PSUs increased 16,000 from March 31, 2025 to March 31, 2026.

Advertising sales revenues consist primarily of revenues from commercial advertising customers, programmers and other vendors, as well as local cable and advertising on regional sports and news channels. Advertising sales revenues increased \$18 million during the three months ended March 31, 2026 as compared to the corresponding period in 2025 primarily due to an increase in political and streaming advertising revenue, partly offset by a decrease in linear advertising revenue.

Other revenues consist of revenue from mobile and video device sales, processing fees, regional sports and news channels (excluding intercompany charges or advertising sales on those channels), subsidy revenue, home shopping, wire maintenance fees and other miscellaneous revenues. Other revenues increased \$113 million during the three months ended March 31, 2026 compared to the corresponding period in 2025 primarily due to higher mobile device sales.

**Operating costs and expenses.** The decrease in our operating costs and expenses, exclusive of items shown separately in the consolidated statements of operations, are attributable to the following (dollars in millions):

	<b>Three months ended March 31, 2026 compared to three months ended March 31, 2025</b>
Programming	\$ (214)
Other costs of revenue	181
Field and technology operations	(24)
Customer operations	(6)
Marketing and residential sales	(30)
Transition expenses	24
Other	38
	<u>\$ (31)</u>

Programming costs were approximately \$2.1 billion and \$2.3 billion for the three months ended March 31, 2026 and 2025, representing 26% and 28% of total operating costs and expenses, respectively. Programming costs consist primarily of costs paid to programmers for basic, premium, video on demand, and pay-per-view programming. Programming costs decreased as a result of a \$171 million increase in costs allocated to seamless entertainment applications and netted within video revenue as well as a higher mix of lower cost video packages within our video customer base and fewer video customers, partly offset by contractual rate adjustments, including renewals and increases in amounts paid for retransmission consent.

Other costs of revenue increased \$181 million during the three months ended March 31, 2026 compared to the corresponding period in 2025 primarily due to higher mobile service direct costs and mobile device sales due to an increase in mobile lines as well as higher advertising sales costs given higher political revenue.

**Depreciation and amortization.** Depreciation and amortization expense increased \$30 million during the three months ended March 31, 2026 compared to the corresponding period in 2025 primarily due to an increase in depreciation as a result of more recent capital expenditures, partly offset by certain assets becoming fully depreciated.

**Other operating expenses, net.** The decrease in other operating expenses, net is attributable to the following (dollars in millions):

	<b>Three months ended March 31, 2026 compared to three months ended March 31, 2025</b>
Special charges, net	\$ (34)
Merger and acquisition costs	15
Loss on disposal of assets, net	(89)
	<u>\$ (108)</u>

See Note 10 to the accompanying consolidated financial statements contained in “Item 1. Financial Statements” for more information.

**Interest expense, net.** Net interest expense increased by \$15 million for the three months ended March 31, 2026 compared to the corresponding period in 2025 primarily due to an increase in weighted average debt.

**Other expenses, net.** The change in other expenses, net is attributable to the following (dollars in millions):

	<b>Three months ended March 31, 2026 compared to three months ended March 31, 2025</b>	
Loss on equity investments, net	\$	2
Loss on financial instruments, net (see Note 8)		20
Loss on extinguishment of debt (see Note 4)		(4)
	<u>\$</u>	<u>18</u>

See Note 10 and the Notes referenced above to the accompanying consolidated financial statements contained in “Item 1. Financial Statements” for more information.

**Income tax expense.** We recognized income tax expense of \$465 million and \$445 million for the three months ended March 31, 2026 and 2025, respectively.

**Net income attributable to noncontrolling interest.** Net income attributable to noncontrolling interest for financial reporting purposes represents Advance/Newhouse Partnership's (“A/N”) portion of Charter Holdings’ net income based on its effective common unit ownership interest. For more information, see Note 7 to the accompanying consolidated financial statements contained in “Item 1. Financial Statements.”

**Net income attributable to Charter shareholders.** Net income attributable to Charter shareholders decreased \$54 million during the three months ended March 31, 2026 compared to the corresponding period in 2025 primarily as a result of the factors described above.

#### **Use of Adjusted EBITDA and Free Cash Flow**

We use certain measures that are not defined by U.S. generally accepted accounting principles (“GAAP”) to evaluate various aspects of our business. Adjusted EBITDA and free cash flow are non-GAAP financial measures and should be considered in addition to, not as a substitute for, net income attributable to Charter shareholders and net cash flows from operating activities reported in accordance with GAAP. These terms, as defined by us, may not be comparable to similarly titled measures used by other companies. Adjusted EBITDA and free cash flow are reconciled to net income attributable to Charter shareholders and net cash flows from operating activities, respectively, below.

Adjusted EBITDA eliminates the significant non-cash depreciation and amortization expense that results from the capital-intensive nature of our businesses as well as other non-cash or special items, and is unaffected by our capital structure or investment activities. However, this measure is limited in that it does not reflect the periodic costs of certain capitalized tangible and intangible assets used in generating revenues and our cash cost of financing. These costs are evaluated through other financial measures.

Free cash flow is defined as net cash flows from operating activities, less capital expenditures and changes in accrued expenses related to capital expenditures.

Management and Charter’s board of directors use Adjusted EBITDA and free cash flow to assess our performance and our ability to service our debt, fund operations and make additional investments with internally generated funds. In addition, Adjusted EBITDA generally correlates to the leverage ratio calculation under our credit facilities or outstanding notes to determine compliance with the covenants contained in the facilities and notes (all such documents have been previously filed with the Securities and Exchange Commission (the “SEC”). For the purpose of calculating compliance with leverage covenants, we use Adjusted EBITDA, as presented, excluding certain expenses paid by our operating subsidiaries to other Charter entities. Our debt covenants refer to these expenses as management fees which were \$366 million for both the three months ended March 31, 2026 and 2025.

A reconciliation of Adjusted EBITDA and free cash flow to net income attributable to Charter shareholders and net cash flows from operating activities, respectively, is as follows (dollars in millions):

	<b>Three Months Ended March 31,</b>	
	<b>2026</b>	<b>2025</b>

## Liquidity and Capital Resources

### Overview

We have significant amounts of debt and require significant cash to fund principal and interest payments on our debt. The principal amount of our debt as of March 31, 2026 was \$94.3 billion, consisting of \$11.7 billion of credit facility debt, \$55.4 billion of investment grade senior secured notes and \$27.3 billion of high-yield senior unsecured notes. Our split credit rating allows us to access both the investment grade debt and the high yield debt markets. Additionally, our bankruptcy remote special purpose vehicle is the borrower of a senior secured revolving credit facility to finance the purchase of equipment installment plan receivables with a number of financial institutions (the “EIP Financing Facility”). As of March 31, 2026, the carrying value of the EIP Financing Facility was \$1.6 billion. For more information on the EIP Financing Facility, see Note 5 to the accompanying consolidated financial statements contained in “Item 1. Financial Statements.”

Our projected cash needs and projected sources of liquidity depend upon, among other things, our actual results, and the timing and amount of our expenditures. Free cash flow was \$1.4 billion and \$1.6 billion for the three months ended March 31, 2026 and 2025, respectively. See the table below for factors impacting free cash flow during the three months ended March 31, 2026 compared to the corresponding prior period. As of March 31, 2026, the amount available under our credit facilities was approximately \$4.6 billion and cash on hand was approximately \$517 million. We expect to utilize free cash flow, cash on hand and availability under our credit facilities as well as future refinancing transactions to further extend the maturities of our obligations. The timing and terms of any refinancing transactions will be subject to market conditions among other considerations. Additionally, we may, from time to time, and depending on market conditions and other factors, use cash on hand and the proceeds from securities offerings or other borrowings to retire our debt through open market purchases, privately negotiated purchases, tender offers or redemption provisions. We are also required to fund approximately \$4.2 billion of cash purchase price at the closing of the Cox Transactions. We believe we have sufficient liquidity from cash on hand, free cash flow and Charter Operating’s revolving credit facility as well as access to the capital markets to fund our projected cash needs.

We continue to evaluate the deployment of our cash on hand and anticipated future free cash flow, including investing in our business growth and other strategic opportunities, including expanding the capacity of our network, the expansion of our network through our rural broadband construction initiative, the build-out and deployment of our CBRS spectrum, and mergers and acquisitions as well as stock repurchases and dividends. Charter's leverage ratio of net debt to the last twelve months Adjusted EBITDA was 4.15 times as of March 31, 2026. Charter plans to maintain a leverage ratio, pro forma for the closing of the Liberty Broadband Corporation (“Liberty Broadband”) Combination near the midpoint of its stated range of 4.0 to 4.5 times Adjusted EBITDA in the period leading up to the Closing, and up to 3.5 times Adjusted EBITDA at the Charter Operating first lien level. Charter plans to adjust its long-term target leverage range after the Closing to 3.5 to 3.75 times Adjusted EBITDA. As Adjusted EBITDA grows, we expect to increase the total amount of our indebtedness to maintain leverage within Charter's target leverage range.

Excluding purchases from Liberty Broadband discussed below, during the three months ended March 31, 2026 and 2025, Charter purchased in the public market approximately 3.4 million and 1.2 million shares of Charter Class A common stock, respectively, for approximately \$773 million and \$431 million, respectively. Since the beginning of its buyback program in September 2016 through March 31, 2026, Charter has purchased approximately 184.0 million shares of Class A common stock and Charter Holdings common units for approximately \$79.7 billion, including purchases from Liberty Broadband and A/N discussed below.

On November 12, 2024, Charter, Liberty Broadband, Fusion Merger Sub 1, LLC, a wholly owned subsidiary of Charter, and Fusion Merger Sub 2, Inc., a wholly owned subsidiary of Fusion Merger Sub 1, LLC, entered into an Agreement and Plan of Merger (as it may be amended or supplemented from time to time, the “Merger Agreement”), pursuant to which, subject to the terms and conditions set forth therein, Charter will acquire Liberty Broadband through the merger of Fusion Merger Sub 2, Inc. with and into Liberty Broadband (the “Merger”), with Liberty Broadband surviving the Merger and becoming an indirect wholly owned subsidiary of Charter. Immediately following the Merger, Liberty Broadband, as the surviving corporation of the Merger, will merge with and into Fusion Merger Sub 1, LLC (the “Upstream Merger” and together with the Merger, the “Liberty Broadband Combination”), with Fusion Merger Sub 1, LLC surviving the Upstream Merger as a wholly owned subsidiary of Charter.

On November 12, 2024, Charter and Liberty Broadband also entered into Amendment No. 1 to the Second Amended and Restated Stockholders Agreement and the Letter Agreement (the “Stockholders and Letter Agreement Amendment”). The Stockholders and Letter Agreement Amendment sets forth, among other things, the terms of Liberty Broadband’s participation in Charter’s share repurchases during the period between the execution of the Merger Agreement and the effective time of the Merger. Pursuant to the Stockholders and Letter Agreement Amendment, each month during the pendency of the proposed transaction, Charter will repurchase shares of Charter Class A common stock from Liberty Broadband in an amount equal to the greater of (i) \$100 million and (ii) the Liberty Broadband minimum liquidity threshold as set forth in the Stockholders and Letter Agreement Amendment, provided that if any repurchase would reduce Liberty Broadband’s equity interest in Charter below 25.25% after giving effect to such repurchase or if all or a portion of such repurchase is not permitted under applicable law, then Charter shall instead loan to Liberty Broadband an amount equal to the lesser of (x) the repurchase amount that cannot be repurchased and (y) the Liberty Broadband minimum liquidity threshold as set forth in the Stockholders and Letter Agreement Amendment less the repurchase amount that is repurchased, with such loan on the terms set forth in the Stockholders and Letter Agreement Amendment. From and after the date Liberty Broadband’s exchangeable debentures are no longer outstanding, the amount of monthly repurchases will be the lesser of (i) \$100 million and (ii) an amount equal to the sum of (x) the amount needed, in the reasonable judgment of Charter, to maintain an unrestricted cash balance of Liberty Broadband and its subsidiaries (other than GCI Holdings, LLC, GCI Spinco (as defined in the Merger Agreement) and their respective subsidiaries) of \$50 million plus (y) the aggregate outstanding principal amount of the Liberty Broadband margin loan. The purchase price payable by Charter to Liberty Broadband in connection with such monthly repurchases will equal (i) the average price paid by Charter for shares of Charter Class A common stock repurchased during the immediately preceding calendar month (excluding shares repurchased from A/N and certain other excluded repurchases) or (ii) if Charter has not engaged in any repurchases of shares of Charter Class A common stock during the immediately preceding calendar month (other than any repurchases from A/N and certain other excluded repurchases), a purchase price based on a Bloomberg volume-weighted average price methodology proposed by Charter and reasonably acceptable to Liberty Broadband. Liberty Broadband will apply the proceeds from any such repurchases or borrowings from Charter to repay certain of its outstanding indebtedness in accordance with the Stockholders and Letter Agreement Amendment. The Stockholders and Letter Agreement Amendment provides that Liberty Broadband will be exempt from the standstill restrictions and the ownership cap under the Second Amended and Restated Stockholders Agreement among Charter, Liberty Broadband and A/N, dated as of May 23, 2015 to the extent its ownership in Charter exceeds such ownership cap solely as a result of the repurchase provisions in the Stockholders and Letter Agreement Amendment. During the three months ended March 31, 2026 and 2025, Charter purchased from Liberty Broadband 0.9 million and 0.8 million shares of Charter Class A common stock, respectively, for approximately \$190 million and \$300 million, respectively.

In December 2016, Charter and A/N entered into a letter agreement, as amended in December 2017 (the “Existing A/N Letter Agreement”), that requires A/N to sell to Charter or to Charter Holdings, on a monthly basis, a number of shares of Charter Class A common stock or Charter Holdings common units that represents a pro rata participation by A/N and its affiliates in any repurchases of shares of Charter Class A common stock from persons other than A/N effected by Charter during the immediately preceding calendar month, at a purchase price equal to the average price paid by Charter for the shares repurchased from persons other than A/N during such immediately preceding calendar month. In connection with the Cox Transactions, Charter, Charter Holdings and A/N entered into an amendment to the Existing A/N Repurchase Letter, dated as of May 16, 2025 (the “A/N Repurchase Letter Amendment”) which sets forth, among other things, the updated terms of A/N’s participation in Charter’s share repurchases going forward. The right to participate pro rata in repurchases on the terms and conditions set

forth in the A/N Repurchase Letter Amendment is effective only from the earlier of the Closing and, in the event the Transaction Agreement is terminated in accordance with its terms, the date of such termination (such earlier date, the “Trigger Date”). Prior to the Trigger Date, the Existing A/N Letter Agreement will remain in full force and continue to govern A/N’s participation in Charter’s share repurchases, except for certain specific amendments set forth in the A/N Repurchase Letter Amendment which became effective upon execution of the A/N Repurchase Letter Amendment, including, in certain circumstances, where A/N elects not to participate in redemptions by Charter Holdings because such participation would cause A/N’s equity interest in Charter to be less than 11% prior to the Trigger Date, A/N may, subject to certain conditions, elect to receive a tax loan from Charter Holdings on the terms set forth in the A/N Repurchase Letter Amendment and in definitive documents in form and substance reasonably satisfactory to Charter and A/N. During the three months ended March 31, 2025, Charter Holdings purchased from A/N 0.1 million Charter Holdings common units for approximately \$20 million. Charter Holdings' did not purchase any Charter Holdings common units from A/N during the three months ended March 31, 2026.

On August 4, 2025, Charter received a notice from A/N pursuant to the Existing Letter Agreement, whereby A/N notified Charter that A/N was suspending the standing share repurchase agreement between A/N and Charter (the “Suspension”). The Suspension took effect immediately after the first repurchase closing date under the Existing Letter Agreement to occur following the date of the notice. In the notice, A/N informed Charter that it intends for the Suspension to continue through the consummation of the closing of the Cox Transactions or the termination thereof, but reserved the right to end such Suspension before or after such time.

As of March 31, 2026, Charter had remaining board authority to purchase an additional \$179 million of Charter’s Class A common stock and/or Charter Holdings common units, excluding purchases from Liberty Broadband. Although Charter expects to continue to buy back its common stock consistent with its leverage target range, Charter is not obligated to acquire any particular amount of common stock, and the timing of any purchases that may occur cannot be predicted and will largely depend on market conditions and other potential uses of capital. Purchases may include open market purchases, tender offers or negotiated transactions.

As possible acquisitions, swaps or dispositions arise, we actively review them against our objectives including, among other considerations, improving the operational efficiency, geographic clustering of assets, product development or technology capabilities of our business and achieving appropriate return targets, and we may participate to the extent we believe these possibilities present attractive opportunities. However, there can be no assurance that we will actually complete any acquisitions, including the Cox Transactions or Liberty Broadband Combination, dispositions or system swaps, or that any such transactions will be material to our operations or results.

#### ***Free Cash Flow***

Free cash flow decreased \$192 million during the three months ended March 31, 2026 compared to the corresponding prior period in 2025 due to the following (dollars in millions):

	<b>Three months ended March 31, 2026 compared to three months ended March 31, 2025</b>
Increase in capital expenditures	\$ (456)
Decrease in Adjusted EBITDA	(126)
Increase in cash paid for interest, net	(71)
Changes in working capital, excluding mobile devices	409
Changes in working capital, mobile devices	51
Other, net	1
	<u>\$ (192)</u>

#### ***Limitations on Distributions***

Distributions by our subsidiaries to a parent company for payment of principal on parent company notes are restricted under CCO Holdings indentures governing CCO Holdings' indebtedness, unless there is no default under the applicable indenture, and unless CCO Holdings' leverage ratio test is met at the time of such distribution. As of March 31, 2026, there was no default

under any of these indentures, and CCO Holdings met its leverage ratio test based on March 31, 2026 financial results. There can be no assurance that CCO Holdings will satisfy its leverage ratio test at the time of the contemplated distribution.

In addition to the limitation on distributions under the various indentures, distributions by our subsidiaries may be limited by applicable law, including the Delaware Limited Liability Company Act, under which our subsidiaries may only make distributions if they have “surplus” as defined in the act.

### ***Historical Operating, Investing, and Financing Activities***

***Cash and Cash Equivalents.*** We held \$517 million and \$477 million in cash and cash equivalents as of March 31, 2026 and December 31, 2025, respectively. In addition, we held \$105 million and \$121 million in restricted cash included in prepaid and other current assets in our consolidated balance sheets as of March 31, 2026 and December 31, 2025, respectively.

***Operating Activities.*** Net cash provided by operating activities increased \$68 million during the three months ended March 31, 2026 compared to the three months ended March 31, 2025 primarily due to favorable changes in working capital.

***Investing Activities.*** Net cash used in investing activities was \$3.0 billion and \$2.8 billion for the three months ended March 31, 2026 and 2025, respectively. The increase in cash used was primarily due to an increase in capital expenditures, partly offset by a favorable change in accrued expenses related to capital expenditures.

***Financing Activities.*** Net cash used in financing activities increased \$234 million during the three months ended March 31, 2026 compared to the three months ended March 31, 2025 primarily due to an increase in the purchase of treasury stock.

### ***Capital Expenditures***

We have significant ongoing capital expenditure requirements. Capital expenditures were \$2.9 billion and \$2.4 billion for the three months ended March 31, 2026 and 2025, respectively. The increase was primarily driven by higher spend on network evolution and an increase in customer premise equipment. See the table below for more details.

We currently expect full year 2026 capital expenditures, excluding impacts from the Cox Transactions, to total approximately \$11.4 billion. The actual amount of capital expenditures in 2026 will depend on a number of factors including, but not limited to, the pace of our network evolution and expansion initiatives, supply chain timing and residential and business growth rates.

Our capital expenditures are funded primarily from cash flows from operating activities and borrowings on our credit facility. In addition, our accrued expenses related to capital expenditures decreased by \$77 million and \$273 million for the three months ended March 31, 2026 and 2025, respectively.

The following tables present our major capital expenditures categories in accordance with National Cable and Telecommunications Association (“NCTA”) disclosure guidelines for the three months ended March 31, 2026 and 2025. These disclosure guidelines are not required disclosures under GAAP, nor do they impact our accounting for capital expenditures under GAAP (dollars in millions):

(d) Support capital includes costs associated with the replacement or enhancement of non-network assets (e.g., back-office systems, non-network equipment, land and buildings, vehicles, tools and test equipment).

(e) Line extensions include network costs associated with entering new service areas (e.g., fiber/coaxial cable, amplifiers, electronic equipment, make-ready and design engineering).

(f) The subsidized rural construction initiative subcategory includes projects for which we are receiving subsidies from federal, state and local governments, excluding customer premise equipment and installation.

### Recently Issued Accounting Standards

See Note 22 to the Annual Report on Form 10-K for the year ended December 31, 2025 for a discussion of recently issued accounting standards. There have been no material changes from the recently issued accounting standards described in our Form 10-K.

### Item 3. *Quantitative and Qualitative Disclosures About Market Risk.*

There have been no material changes to the interest rate risk as previously disclosed in Part II, Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2025.

### Item 4. *Controls and Procedures.*

As of the end of the period covered by this report, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our design and operation of disclosure controls and procedures with respect to the information generated for use in this quarterly report. The evaluation was based upon reports and certifications provided by a number of executives. Based on, and as of the date of that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures were effective to provide reasonable assurances that information required to be disclosed in the reports we file or submit under the

Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

In designing and evaluating the disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable, not absolute, assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based upon the evaluation, we believe that our controls provide such reasonable assurances.

During the quarter ended March 31, 2026, there was no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
