NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2025

NOTE 1 – Organization and Nature of Business

Speyside Advisors, LLC (“Speyside”) was formed on May 11, 2017, operates as a Texas Limited Liability Company (“LLC”), and was wholly-owned by a member. On January 2, 2025, the sole member sold their ownership to 3P Energy Capital, LLC. Speyside filed a Continued Membership Application with Financial Industry Regulatory Authority, Inc. (“FINRA”) on February 13, 2025, for the change in ownership to 3P Energy Capital, LLC, and was approved on March 21, 2025. On March 28, 2025, the Company changed its legal name from Speyside Advisors, LLC to 3P Energy Advisors, LLC. The name change did not affect the Company’s legal structure or operations. The 3P Energy Advisors, LLC also filed an assumed name (doing-business-as), 3PE Advisors, with the Secretary of State of Texas on April 5, 2025.

The 3P Energy Advisors, LLC dba 3PE Advisors (the “Company”) is a broker-dealer registered with the Securities and Exchange Commission (“SEC”) and is a member of the FINRA and Securities Investor Protection Corporation (“SIPC”).

The Company is primarily engaged in providing private placement of securities, including direct participation programs and merger and acquisition advisory services. It is intended that all offerings will be exempt from registration under the provisions of either Regulation D or Rule 144A. The Company is considered a Non-Covered Firm exempt from 17 C.F.R. § 240.15c3-3 relying on Footnote 74 of the SEC Release No. 34-70073 adopting amendments to 17 C.F.R. § 240.17-5.

Cash

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. At December 31, 2025, the Company had no such investments. The Company maintains is operating cash at a financial institution. At times, the amount on deposit at this institution may exceed amounts covered by insurance provided by the U.S. Federal Deposit Insurance Corporation (“FDIC”). The Company has not experienced any losses related to amounts in excess of FDIC limits.

Accounts Receivable

As of December 31, 2025, the Company had no accounts receivables. As of December 31, 2025, there was no allowance for doubtful accounts.

Current Expected Credit Losses

The Company accounts for estimated credit losses on financial assets measured at an amortized cost basis and certain off-balance sheet credit exposures in accordance with FASB ASC 326-20, Financial Instruments -Credit Losses. FASB ASC 326-20 requires the Company to estimate expected credit losses over the life of its financial assets and certain off-balance sheet exposures as of the reporting date based on relevant information about past events, current conditions, and reasonable and supportable forecasts. The Company records the estimate of expected credit losses as an allowance for credit losses. For financial assets measured at an amortized cost basis the allowance for credit losses is reported as a valuation account on the balance sheet that adjusts the asset's amortized cost basis. Changes in the allowance for credit losses are reported in Credit Loss expense. In management’s opinion, any potential allowance for credit losses would not be material to the financial statements as of December 31, 2025.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2025

NOTE 1 – Organization and Nature of Business (Cont.)

Revenue Recognition

The Company provides private placement of securities, including direct participation programs and merger and acquisition advisory services. Advisory fees represent 100% of revenue earned by the Company for the year ended December 31, 2025. Revenue for advisory arrangements is generally recognized at the point in time that performance under the arrangement is completed (the closing date of the transaction) or the contract is cancelled.

However, for certain contracts, revenue is recognized over time for advisory arrangements in which the performance obligations are simultaneously provided by the Company and consumed by the customer. Significant judgment is required to determine whether performance obligations are satisfied at a point in time or over time; how to allocate transaction prices where multiple performance obligations are identified; when to recognize revenue based on the appropriate measure of the Company's progress under the contract; whether revenue should be presented gross or net of certain costs; and whether constraints on variable consideration should be applied due to uncertain future events. Retainers and other fees received from customers prior to recognizing revenue are reported in the accompanying statement of financial condition in deferred revenue. The Company receives reimbursements of operating expenses incurred by the Company on behalf of the customers who are receiving advisory services. Reimbursement of expenses are recorded on a net basis as the Company is acting as an agent, and recognize reimbursement of such expenses are incurred, as these costs are related to performance obligations that are satisfied over time.

Use of Estimates

The Company's financial statements are presented in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Financial Accounting Standards Board ("FASB") Accounting Standards Codification (the Codification) is the single source of U.S. GAAP. The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Segment Reporting

The Company is engaged in a single line of business as a securities broker-dealer, which is comprised of private placement of securities, including direct participation programs and merger and acquisition advisory services. The Company has identified its President as the chief operating decisions maker ("CODM"), who uses net income to evaluate the results of the business, predominantly in the forecasting process, to manage the Company. Additionally, the CODM uses excess net capital, which is not a measure of profit and loss, to make operational decisions while maintaining capital adequacy, such as whether to reinvest profits or to pay distributions. The Company's operations constitute a single operating segment and therefore, a single reportable segment, because the CODM manages the business activities using information of the Company as a whole. The accounting policies used to measure the profit and loss of the segment are the same as those described in the summary of significant accounting policies. Segment financial information is identical to that presented in the accompanying financial statements.

The Company is a single member limited liability company and is therefore treated as a disregarded entity for federal income tax purposes. Accordingly, income will be taxed at the member level rather than at the corporate level for federal income tax purposes. The Company is subject to state income taxes.

Any potential interest and penalty associated with a tax contingency, should one arise, would be included as a component of income tax expense in the period in which the assessment arises.

NOTE 2 – Concentration Risk and Revenue

The Company may at various times during the year have cash balances in excess of federally insured limits. The Company believes that it is not exposed to any significant risk related to cash. Approximately 91% of the Company's revenue was derived from three customers.

NOTE 3 – Related Party Transactions

The Company is a wholly owned subsidiary of 3P Energy Capital, LLC ("Parent"). The Company operates independently and bears its own operating expenses. From time to time, the Company may make distributions of profits to the Parent, subject to applicable regulatory capital requirements and approval of the Company's managing members. Distributions made during the year ending December 31, 2025 totaled \$204,500.

NOTE 4 – Recent Accounting Pronouncements

Recently issued accounting standards that have been issued or proposed by the FASB or other standards-setting bodies are not expected to have a material impact on the Company's financial position or results of operations. The Company plans to adopt any new standards in accordance with the standards.

NOTE 5 – Commitments and Contingencies

There are currently no asserted claims or legal proceedings against the Company, however, the nature of the Company's business subjects it to various claims, regulatory examinations, and other proceedings in the ordinary course of business. The ultimate outcome of any such future action against the Company could have an adverse impact on the financial condition, results of operations, or cash flows of the Company.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about 3P Energy Advisors, LLC dba 3PE Advisors' compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based upon the Company's business activities contemplated by Footnote 74 of the SEC Release No. 34-70073 adopting amendments to 17 C.F.R. § 240.17a-5, and related SEC Staff Frequently Asked Questions.
